EIGHTY SECOND ANNUAL EDITION

TRADE MARK

Dreer's Garden Book
1920

HENRY A. DREER
714 - 716 CHESTNUT ST.
PHILADELPHIA, PA.
General Directions to Customers

PHILADELPHIA, JANUARY, 1920

The attention of our customers is respectfully called to the following directions, which will if followed, be an aid to purchasers as well as ourselves

ORDER EARLY.—We aim to execute all orders as soon as received, but during the rush season in April and May delays are unavoidable, which, however, can be partly overcome by our patrons anticipating their wants and ordering and taking delivery of their requirements early.

FORWARDING.—We deliver, postpaid to any Post Office in the United States, Vegetable and Flower Seeds in packets, ounces, and pounds, except where otherwise noted in the Catalogue. Agricultural Seeds, Implements, and other heavy and bulky goods are sent by Express or Freight at purchaser's expense.

Plant orders should be separated from Seed orders; the departments are separate, but shipments of seeds, plants, etc., are made in one parcel where it is practical to do so, or where such combination will save our customers additional charges. Further instructions regarding the forwarding of plants will be found on page 117.

All Plants, Roots and Bulbs are forwarded by Express, purchaser paying charges. For those of our customers who live at a distance from an Express Office, making it more convenient for them to receive their goods by Parcel Post, we will be pleased to forward in this manner such plants as can be sent in this way at the following additional cost, which must be added to the value of each order for Plants, Roots or Bulbs:

To all points east of the Mississippi River, 10 per cent extra.

To all points west of the Mississippi River, 20 per cent extra.

CANADIAN SHIPMENTS.—Vegetable and Flower Seeds in packets and ounces are sent postpaid. All other goods are sent by Express or Freight, purchaser paying all charges. We can also send to Canada by Parcel Post packages weighing under 4 pounds 6 ounces. Customers wishing their orders sent in this way must remit 12 cents per pound for seeds, and 20 per cent of the value of orders for Plants, Bulbs and Roots to cover postage and special packing. Roses, Shrubs, Hardy Vines and Small Fruits cannot be sent by mail to Canada. These can only be sent by Express to permit of their being fumigated by the Canadian authorities.

LOCAL DELIVERY.—We deliver goods free in Philadelphia. We also deliver free of charge by Package System (Baggage Master) to all points where this system is in operation such goods as will be received by them, and weighing not in excess of 50 pounds when packed.

PACKING.—No charge is made for boxes or packing on Express or Freight shipments, nor for delivery to Freight Depots or Express Offices in Philadelphia; the extra cost of packing Parcel Post shipments is included in the 10 and 20 per cent charge noted above.

SAFE ARRIVAL OF PACKAGES.—We guarantee the safe arrival of all goods sent by Express or Mail to points within the United States. If a package sent by Express or Mail is injured or lost we will replace it as soon as informed of the fact. Goods sent in any other way are solely at purchaser's risk. Frequently it happens that orders never reach us or are without signature. When customers fail to receive their packages in a reasonable time they should inform us and at the same time send a copy of their order and any other information necessary to trace the goods. Claims for damage must be made on receipt of goods. We do not hold ourselves responsible for failures after delivery of the goods in good condition.

ERRORS.—We exercise the utmost care in filling orders, striving to do a little more than we offer; yet in the press of business errors sometimes occur, in which event we wish to be promptly notified of the fact and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

REMITTANCES should be made by Post Office Money Order, Drafts on Philadelphia or New York Banks or Express Money Orders. We disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered. Postage stamps will be found a convenient method of remitting for small amounts and can be used by us to advantage. Coin should not be sent by mail.

CASH WITH ORDER.—Please send money with the order sufficient to cover the whole bill. We decline sending goods "Collect on Delivery," unless remittance be made on account to guarantee acceptance.

NAME AND ADDRESS.—Please remember to write on each order your Name, Post Office, County and State; also give number of Street or P. O. Box as distinctly as possible; also the nearest Express Office; or, if on a Stage Route, send us special directions, giving us the name of the Express Company delivering goods.

CATALOGUES.—We send our customers three catalogues annually, viz.: Garden Book in January, Midsummer Catalogue in July and Autumn Catalogue in September. Customers having more than one address will oblige by stating to which address they wish the Catalogues mailed.

NON-WARRANTY.—Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we still give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop, and every order for articles named in this catalogue will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought, that it is to our best interests to send out only such stock as will not only grow but prove true to name and description.

CORRESPONDENCE.—We try to give prompt attention to all proper letters of inquiry, etc. We ask, as a favor, that all questions be stated clearly and briefly, and not on order sheets; also that as few inquiries as possible be sent in during April and May, at which time we are overtaxed with the business which is necessarily crowded into these two months.
VEGETABLE SEEDS
All Vegetable Seeds are sent post-paid except where noted in catalogue and are forwarded on receipt unless instructed to the contrary.

### Tools, Garden Requisites and Sundries

Those can only be sent by Express or Freight at customer’s expense, except where noted in catalogue.
THE AMERICAN ROSE SOCIETY was organized in 1899 "to increase general interest in the cultivation and to improve the standard of excellence of THE ROSE FOR ALL THE PEOPLE." It holds several annual national exhibitions, at which prizes are awarded for the best Roses.

It encourages local exhibitions, and has affiliated with it many Rose societies. It supervises five Rose test-gardens—in Hartford, Ithaca, Minneapolis, Washington, and Portland. All new Roses of value are registered with it, and its Medals are highly prized as an evidence of especial merit. Its membership includes interested rose growers and amateurs all over America.

Most of all, it issues only for its members THE AMERICAN ROSE ANNUAL, the authoritative record of American Rose progress, which is needed by every Rose-lover in America. Membership at $2 per annum brings this fine book and other publications of the Society, with tickets to its exhibitions. Previous Annuals for 1916, 1917, 1918, and 1919 form an invaluable rose library.
THE AMERICAN ROSE SOCIETY
ROBERT PYLE, President  E. A. WHITE, Secretary, Ithaca, N.Y.
THE AMERICAN ROSE ANNUAL, edited by J. Horace McFarland, and published about March 1, each year, at Harrisburg, Pa., is a handsome full-bound book of 184 pages, with many illustrations in color and sepia. It includes only original and interesting information as to the world's rose progress.

E. A. WHITE, Secretary, Ithaca, N.Y.  Date
I enclose $2 to pay for Annual Membership in The American Rose Society for 1920, I expect to receive from you a membership card for 1920, available to secure free admission to all Exhibitions in which the Society participates. After March 1, 1920, I am to receive the 1920 American Rose Annual above described, as well as any other publications of the Society during the year.
If I enclose $3, the additional dollar is to pay for a copy of the 1919 Annual, to be mailed to me at once.

PLEASE BE SURE THAT ORDER IS SIGNED AND FULL ADDRESS GIVEN
FROM a small beginning eighty-two years ago, this business has developed into one of the largest and most complete Seed, Plant and Bulb Establishments in the World. This has been accomplished by supplying the best grade of goods obtainable and by a strict adherence to the broad principle of giving all purchasers the full worth of their money.

As is well known, many varieties of seeds and bulbs are imported from Europe; and while the war is over, labor and transportation conditions have not as yet become normal, and there is almost sure to be delays in the arrival of a few items.

We have also been seriously hampered for lack of help here. Under these conditions, it will greatly aid, if our customers will send in and take delivery of their orders as early in the season as possible.

We call the special attention of our customers to the notes regarding the ordering and forwarding of Plants on page 117.

We take this opportunity of thanking our many customers for their generous patronage in the past, and to assure them that we will continue to do all in our power to merit a continuance of their confidence, and that we aim to give every order, no matter how small or how large, prompt and careful attention.

The offerings of the various Departments will be found in this book in the following order:

Vegetable Seeds. Specialties . . . 3 to 10
" " General List . . . 11 to 43
Herb Seeds. Sweet. Pot and Medicinal 29
Lawn Grass Mixtures . . . . 44, 45
Grass and Clover Seeds . . . . 46
Agricultural Seeds . . . . 47 to 50
Flower Seeds. Specialties . . . 52 to 62
" " General List . . . 63 to 116
Roses . . . . 118 to 134
Garden and Greenhouse Plants . . . . 135 to 160
Hardy Perennial Plants . . . . 161 to 202
Hardy Climbers . . . . 203 to 207
Small Fruits . . . . 208, 209
Vegetable Plants and Roots . . . . 210, 211
Hardy Shrubs . . . . 212
Garden Requisites. Tools, Implements, etc., etc. . . . . 213 to 224

For Complete Index, see pages 2 and 3.
INDEX

The common, popular, or vulgar names included in this index have been compiled from the best American and English sources, but as two different plants often bear the same common name, it is well in order to use the names as given in the catalogue.
INDEX OF VEGETABLE SEEDS AND PLANTS, LAWN AND AGRICULTURAL SEEDS

EARLY MODEL BEET
A fine selection of blood-red Beet, extremely smooth, fine rich color and desirable shape, and makes a rapid growth, maturing very early. It is globe shape, the color of flesh a rich blood-red and of most excellent quality, being sweet, tender and free from coarseness. The tops are quite small, making it a fine variety for forcing in hotbed, and it retains all the good qualities either when grown under glass or out.

Pkt., 10 cts.; oz., 20 cts.; 1/2 lb., 60 cts.; lb., $2.00.

DREER'S "WONDER" BUSH LIMA BEAN
This variety of Bush Lima Bean is very desirable on account of earliness, productiveness and its fixed habit of growing in the dwarf or bush form. The plants are of strong, upright growth, and are completely covered with large pods, many of which contain four beans, which are fully as large as the pole limas. The beans are flat in shape and of excellent quality. A customer states that we can well call it "Wonder," as he planted late as May 20, and not only had all the Lima Beans he wanted, but also supplied his neighbors with what they required. Pkt., 10 cts.; by mail.

By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 75 cts. (if wanted by Parcel Post add as stated on page 15); 10 lbs., $3.50.

KENTUCKY WONDER WAX POLE BEAN
A yellow-podded "Kentucky Wonder," which bears a large quantity of rich, golden-yellow pods from the time the plant is about half grown until it is killed by frost in the fall. The plant makes a quick, healthy growth, and, like the "Kentucky Wonder," it is exceedingly productive, bearing large pods, which are thick, meaty, stringless, very tender, and have a fine flavor when cooked. This variety is bound to gain in flavor, both for the home garden and for market, as it is decidedly extra early and the pods grow uniform in size, shape and color.

Pkt., 10 cts., by mail. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 75 cts. (if wanted by Parcel Post add as stated on page 15); 10 lbs., $3.50.
CARPINTERIA POLE LIMA BEAN

The Beans of this splendid pole lima have a greenish tint when ready for use, which is an indication of good quality. Vines are vigorous and make strong growth, producing large quantities of pods, containing four large Beans, which are thicker than the ordinary limas. The Beans cook nicely, and being thin-skinned are exceedingly tender and of fine flavor. The originator, who is a skillful grower, claims that the “Carpinteria” is the most perfect lima Bean ever introduced. Pkt., 10 cts.; by mail. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 75 cts. (if wanted by Parcel Post, add as stated on page 15); 10 lbs., $3.50.

KEENEY’S STRINGLESS REFUGEES BEAN

The originator of this strain of Green-pod Refugee worked for over twenty years to get the string out of the old Thousand-to-one Refugee Bean. The plant grows to a large size and is enormously productive, one plant having borne 36 well-developed pods and 16 small ones, and had the earlier pods been picked as soon as suitable for use this plant would doubtless have produced over 100 good pods. The shape of pod is round, size medium to long, slightly curved, medium green in color, and very brittle, remaining so until nearly old enough to shell. Pkt., 10 cts.; by mail. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if wanted by Parcel Post, add as stated on page 12); 10 lbs., $3.00.

COPENHAGEN MARKET CABBAGE

This excellent variety from Denmark will command the attention of those who grow for early market, as well as the private growers who desire an extra early, round-headed Cabbage which can be depended upon for making large solid heads at an early season. The heads are grown upon a remarkably short stem, are solid and large in size, weighing 10 to 12 pounds, with light green leaves and of good quality. It is the largest of the early round-headed varieties, and its habit of growth allows of its being planted close together in the field or garden, thereby producing a larger number of heads to a given area, a feature which is very important in growing this vegetable. Pkt., 10 cts.; oz., 75 cts.; ¼ lb., $2.50.

DANISH BALL HEAD CABBAGE

This extra hard-heading Cabbage is also known as “Hollander.” It is a medium or late variety, but is mostly used as a winter Cabbage. Medium size, round head and a fine keeper. The strong growth of this variety enables it to withstand dry weather well, and its remarkably good keeping quality make it an extremely valuable Cabbage for storing away for winter use. Danish grown seed of this variety is most desirable, but during the past two seasons the supply was greatly reduced. We can now furnish seed which was grown for us by a reliable seed grower in Denmark and which is superior to seed produced anywhere else. Pkt., 10 cts.; oz., 60 cts.; ¼ lb., $2.00.

DANISH ROUNDHEAD CABBAGE

Matures earlier than the Danish Ball Head. The heads are round, have a short stalk, and are very hard. The interior leaves are pure white and of sweet flavor. It is a healthy variety and able to stand hot weather and resist disease. The heads, although making quicker growth, are fully as large as “Ball Head” and equally as good in every way, keeping well during the winter, and of excellent quality. It is well adapted for growing in the garden and produces Cabbage for both fall and winter use. The seed we furnish was grown in Denmark. Pkt., 10 cts.; oz., 60 cts.; ½ lb., $2.00.
SUTTON'S RED INTERMEDIATE CARROT

This variety of Carrot is of English origin, and its handsome shape, rich red color and fine quality appeal to all who plant it. The Carrots grow to a desirable size, being between the half-long and long varieties, and are very uniform. The shape is most desirable, tapering to a decided point, and the quality is excellent, being sweet and tender. This Carrot will surely prove satisfactory to all who plant it in their garden this year. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

WITLOOF CHICORY, or FRENCH ENDIVE

During the winter this is sold by dealers in fancy fruits and vegetables as "French Endive," and the large demand for it has caused considerable inquiry regarding its culture. In order to grow good "Witloof" the seed should be sown during June in the open ground, in drills 10 or 12 inches apart, in deep, rich soil. Allow the plants to grow until November, keeping free from weeds and watering if necessary. Then take up the roots and trim off the leaves to about 1½ inches from the neck, break off any shoots which may appear on sides of root, and shorten lower end so that all will be of a uniform length of 8 to 10 inches. Then plant in a trench 18 to 18 inches deep, placing the roots upright, about 1½ inches apart. This will leave the necks of the roots about 8 inches below the level of the ground. Fill up the trench with good, light, well-drained soil, and, if speedy growth of any portion of the crop is desired, it may be accomplished by covering with a layer of manure at least 16 inches deep. In about 4 or 5 weeks the leaves will attain their proper size, and the manure may be taken off and the roots dug up. The blanched head is the edible portion, and should be cut off, leaving a portion of the neck attached to it. Witloof is eaten raw or as a salad, and is also sometimes cooked like ordinary Endive. Pkt., 10 cts.; oz., 40 cts.; ½ lb., $1.00; lb., $3.50.

COLUMBIA CELERY

An exceptionally fine early variety, which for size and shape is unsurpassed. The plant is of medium height, but very stocky, foliage is a light shade of green with yellow tinge, and the stalks are thick, almost round, and resemble Giant Pascal in shape, but are of a rich, yellow color, similar to the well-known Golden Self-blanching, which it resembles when trimmed and bunched. It matures early, and its exceedingly fine flavor and crispness will please even the most critical. Pkt., 10 cts.; oz., 45 cts.; ½ lb., $1.50. For Plants see page 210.

WINTER KING CELERY

An attractive feature of this variety is that while the outer stalks are green, it naturally produces many golden hearts, which are crisp, very tender and of excellent flavor. It is one of the best of the winter-keeping Celeries, and may be allowed to remain in the trench for a long time, and will come out in first-class condition, solid and free from rot. The plants make a strong growth and are very easy to blanche, which is a decided advantage to the amateur. Pkt., 10 cts.; oz., 45 cts.; ½ lb., $1.50. For Plants, see page 210.
EASY-BLANCHING CELERY

A Celery with remarkable easy-blanching characteristics, so much so that those who have never been successful in growing good Celery may plant it with the assurance that the crop will equal in quality and appearance Celery grown by the professional growers, and it will be found useful both for early use and for keeping during the winter, characteristics extremely valuable in a Celery to be grown in the home garden. The plants make a quick, healthy growth and the stalks are thick, very tender and brittle, with a rich flavor which will quickly appeal to all who eat it, and the ease with which it may be blanched, together with its long season for use, will strongly recommend it both to the amateur gardener as well as the commercial Celery grower. Pkt., 20 cts.; ½ oz., 85 cts.; oz., $1.50; ½ lb., $4.50. For plants see page 210.

GOLDEN CREAM SUGAR CORN

This very desirable variety of Sweet Corn is a cross of Country Gentleman and Golden Bantam, taking on the character of the former variety, except in color. The ears are ready for use at an early season; grains are long and pointed, rich cream color when ready, but turn to light golden-yellow when cooked, making an attractive appearance on the table. The quality is very fine, being remarkably sweet and tender. Stalks are brownish-red, and make a healthy, rapid growth, producing from 2 to 4 ears each. This variety is quite distinct from all others and its delicious flavor appeals to all who have eaten it. Pkt., 10 cts., by mail. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (If wanted by Parcel Post add as stated on page 24); 10 lbs., $3.00.

DE LUE'S GOLDEN GIANT SWEET CORN

Grows faster, matures earlier and is three times as large as the well-known Golden Bantam Sweet Corn, but has all the good qualities of that variety. “Golden Giant” is the result of fourteen years patient and intelligent selection from the product of Howling Mob crossed with Golden Bantam, and is the sweetest, most tender and juicy of all varieties. It is very hardy and may be planted as soon as there is heat enough in the ground to sprout any corn and, on account of its rapid development, may be planted as late as June 25th, in Southern New Hampshire, and during the first part of July, in Massachusetts. The stalks, which grow from four to six feet tall, are very stout near the ground, thus enabling it to stand considerable stormy weather. The foliage grows abundantly for so short a stalk and ranges in color from a brilliant dark green to deep purple in stalk, leaf and husk. Two or three ears are produced to the stalk and the cob is of small diameter, carrying twelve to eighteen rows of long thick grains, which are of a deep orange color and fill the entire surface of the cob. The husk which may be entirely green, or entirely purple, or an admixture of the two, is very heavy and completely covers the long ears, affording protection from worms and birds. Because of the excellent qualities of Golden Giant Sweet Corn, the Massachusetts Horticultural Society awarded its originator, Dr. Frederick S. De Lue, the only Medal given by that Society in 67 years for Sweet Corn, also three first prizes at subsequent exhibitions of that Society. With successive plantings, this new variety may be grown throughout the whole season and not only excels the Golden Bantam in quality, size and productiveness, but is also far superior in every way to the later sorts, making it exceedingly desirable for the home garden. We offer seed which was grown and packed by the originator, at the following prices: 2 ozs., 35 cts.; 4 ozs., 50 cts.; 8 ozs., 85 cts.; 16 ozs., $1.50, postpaid.
DAYS' PERFECT CUCUMBER

The originator of this splendid variety states that he experimented several years in trying to get an improved strain of Cucumber for forcing under glass and outside culture, and has finally fixed a "Perfect" type, combining quality, shape, color and productiveness. The Cucumbers grow long and slim, sometimes measure as much as 12 inches in length; the color is a rich, dark, glossy green, which they hold until nearly ripe, when they turn white without a sign of yellow. It is very tender, brittle and of fine flavor. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

FINOCCHIO, or FLORENCE FENNEL

A delicious vegetable which should be more largely grown in this country. It is extensively used in Italy as a salad, and also may be served boiled. When the enlargement of leaf stalk, at base of stem, is about the size of a hen's egg it should be earthed up so as to cover half of it, and in about ten days cutting may be commenced and continued as the plants increase in growth. The flavor is somewhat like celery, but it has a sweet taste and delicate odor. Pkt., 10 cts.; oz., 30 cts.; ½ lb., $1.00.

DREER'S ALL-HEART LETTUCE

Introduced by us several years ago, this variety of head lettuce has continually grown in the favor of both private and market gardeners, and is the most reliable hard-heading lettuce ever introduced, far superior to all other varieties of cabbage-lettuce. It is adapted to both spring and summer use, as it withstands intense heat and forms magnificent heads with leaves closely set, extremely solid heart, even before it is half grown. The color is a beautiful yellowish-green, and the flavor is excellent, being rich and buttery. Pkt., 10 cts.; ¼ oz., 25 cts.; oz., 40 cts.; ½ lb., $1.25. For plants see page 211.

BURRELL'S GEM MUSKMELON

Attractive in appearance, of the most delicious flavor and just the right size. This sums up the chief characteristics of this, one of the most desirable of salmon-fleshed melons. "Burrell's Gem" is not a new variety, but deserves to be grown more largely. It originated in the melon-growing district of Colorado, made famous by the Rocky Ford Muskemelon, of which it is a counterpart, except in color of flesh, which is beautiful dark salmon or orange. Skin is rather dark green, and rind thin, leaving a thick lining of flesh, which is of most delicious, juicy flavor. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

BUSH MUSKMELON

A very striking feature of this variety of Muskemelon is that it grows in bush form. The plant makes a vigorous growth and is very productive, bearing a large number of melons, which are of about the same size and shape as the well-known Jenny Lind, with green flesh and of a delicious flavor. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 85 cts.; lb., $3.00.

YELLOW ICE CREAM WATERMELON

Mr. E. Stanley Brown, horticulturist, East Moriches, N. Y., writes: "After repeated trials I have no hesitancy in stating that Yellow Ice Cream is the 'par excellence' of Watermelons. The vines are strong, inclined to overbear, and whether fully grown or undeveloped, there seems to be no difference in quality, being sweet and crisp. The flesh is bright golden-yellow, skin beautiful green and shape elongated. By laying them on the barn floor, away from chilly blasts, they kept well into the winter. The patch was found by night powlers and this variety was nearly all taken, while others were left. If I could have only one variety of Watermelon it would be Yellow Ice Cream." Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.
DREER'S SPECIAL CROSBY'S EGYPTIAN BEET
(See Colored Plate opposite)

This special selection of extra early Beet is as great an improvement over the ordinary Crosby Egyptian as the latter variety is over the old-time Egyptian Blood Turnip Beet and is valuable both for the private gardener and those who grow Beets for market. In the production of this seed, selection is not only made for shape, but also for extreme earliness and high quality. The skin is very smooth, bright red and flesh vermillion, very sweet and tender. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

EARLY FORTUNE CUCUMBER
(See Colored Plate opposite)

Cucumbers of the "White Spine" type are most desirable on account of their attractive appearance and good quality. This variety was originally discovered in a field of "Davis Perfect," and is now so thoroughly established that large fields do not show any variation either in plant or fruit. The Cucumbers are slightly longer than "Arlington White Spine," more cylindrical in shape, with very dark green skin and thick flesh, which is tender and crisp, making it especially good for slicing. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

DELICIOUS GOLD LINED MUSKMELON
(See Colored Plate opposite)

Growers of muskmelons, both for home use and for market, will be delighted with "Delicious Gold Lined." The melon is nearly round, and the skin is covered with a thick grayish netting, adding much to its appearance. The flesh is green, with slight golden tint next to the seed cavity, and the flavor is delicious, being remarkably sweet and juicy. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

JOHN BAER TOMATO
(See Colored Plate opposite)

This variety has been offered as the earliest Tomato for home and commercial use, and in our trials we found it to mature about the same time as Spark's Earliana, which variety it resembles in size, shape and color. The Vines do not grow very large, but are productive, bearing the fruits in clusters and abundantly. The Tomatoes are of a medium size, nearly round in shape, scarlet color and are of excellent flavor. On account of the large yield, desirable size and shape, this variety is suited both for early market and home use. Pkt., 10 cts.; ½ oz., 30 cts.; oz., 50 cts.; ½ lb., $1.50. For Plants, see page 211.

IDEAL YELLOW GLOBE ONION

An exceedingly handsome large yellow Onion. Its general characteristics stamp it as the best-main crop variety of its type, and we are pleased to offer it, feeling sure that it will fully satisfy all who desire to grow large Onions from seed. The bulbs are true globe-shape, with skin of a pleasing yellow color, flesh white and of a mild flavor. It is not the ordinary Southport Yellow Globe, but is far superior, much more productive, and we especially recommend it for planting in the home garden. Pkt., 10 cts.; oz., 40 cts.; ½ lb., $1.10; lb., $1.00.

MARKET SURPRISE PEA

This variety was sent to us by a leading seed grower in England, and in a careful test, made at our trial grounds, we found it to be a valuable addition to the early varieties and well adapted for the use of both amateurs and market gardeners. The plant grows to a height of 30 inches, and is very thrifty, producing pods in large quantities. Pods are large and well filled with Peas, which are remarkably sweet and fine flavored. It matures the crop in about sixty-five days, and is excellent for early planting. Pkt., 10 cts., by mail. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (if wanted by Parcel Post add as stated on page 33); 10 lbs., $3.50.
DELIBER'S SPECIAL CROSBY'S EGYPTIAN BEET
DELICIOUS GOLD LINED MUSKMELON
EARLY FORTUNE CUCUMBER
JOHN BAER TOMATO
IMPROVED RUBICON CARROT
(See Colored Plate opposite)
This beautiful half-long stump-root Carrot originated in Rhode Island. It is the result of careful breeding, and in shape and color most desirable. The Carrots grow about the same length as the well-known Danvers, but thicker, and are rich dark orange in color, very sweet and of a mild flavor. It is remarkably clean-skinned, grows evenly and is easily pulled; besides it is also a good keeper. Grows best in a soft, deep and mellow soil, which has been well manured. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

TRIANON SELF-FOLDING COS LETTUCE, OR ROMAINE SALAD
(See Colored Plate opposite)
This is the Lettuce that is served at the best hotels and restaurants under the name of "Romaine salad." It differs from ordinary Lettuce by the shape of the leaves, which are elongated, spoon-shaped and very crisp. It is grown in the same manner as Cabbage Lettuce, but does not make a solid head. Sow seed early in the spring in good soil, and when plants have three leaves thin out to stand about four inches apart in the row, and when plants are of a sufficient size the leaves should be drawn together and tied, in order to blanch the inner ones. Pkt., 10 cts.; oz., 30 cts.; ½ lb., $1.00.

DREER'S CRIMSON BALL RADISH
(See Colored Plate opposite)
Much care has been given the selections of the many varieties of this type of Radish, as it is the shape and size most desired. This variety embraces everything that goes to make up a perfect Radish, both in size, shape and quality. The shape is that of the true red turnip Radish, color crimson and flesh is of a mild and pleasant flavor. It is a splendid variety for home use, as it grows rapidly and is very uniform in size and shape. "Crimson Ball" has been a favorite with many of our customers ever since its introduction, and may be used for forcing under glass as well as for growing outside in the garden, and will make fine Radishes even during the hot summer months. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

EXTRA EARLY JERSEY WHITE BUSH SQUASH
(See Colored Plate opposite)
An improved strain of the old White Bush Squash, the result of selections made for a number of years by a prominent gardener. It grows in the bush form, and is enormously productive. The Squashes mature fully ten days earlier than the old sort, and are of good size. They show less ridge or scallop, being better filled out, and contain a larger amount of flesh than the parent variety. The Squashes cook well and the flavor is delicious. This is the same type of Squash as is called "Cymling" in the south, but so much improved that it should not be compared with the old-time sort. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

PIMIENTO PEPPER
The sweetest Pepper grown, as it does not contain the slightest trace of bitterness. The plants are productive and Peppers medium size and of a shape which is desirable for filling, and when prepared in this manner they are delicious. It may also be used in preparing salads and for flavoring, in which case it will add a fresh and delightful flavor. The flesh is quite thick and the Pepper may be scalded for peeling the skin off. When fully ripe the Peppers are a brilliant red color and very attractive. It is largely grown in some sections for canning, and, either canned or fresh from the vine, it will be found very useful in making salads. Pkt., 10 cts.; ½ oz., 40 cts.; oz., 75 cts.; ½ lb., $2.25. For Plants, see page 211.

LONG CREAM VEGETABLE MARROW
The fruits are oblong in shape, skin smooth and creamy white. It is a vine sort and very productive. The Marrow Squashes are largely grown in England, and should be more generally used in this country, as the quality is exceedingly delicious, far superior to the ordinary summer Squash. They grow well anywhere if a liberal supply of manure is dug into the hills and plenty of moisture supplied. When the fruits are nearly half-grown the flesh is very tender and marrowy, and may be prepared for the table either cooked in same manner as ordinary squash or fried, in which manner it is far superior to the Egg Plant. Pkt., 15 cts.; oz., 35 cts.; ½ lb., $1.00.
BONNY BEST TOMATO
An attractive early variety, which is valuable for the home garden and for forcing under glass. The fruits, which are produced in clusters, are round, somewhat flattened and ripen evenly to the stem; the color is bright scarlet, flesh firm, solid and of excellent flavor for so early and productive a variety. This Tomato is now being extensively used by leading canning concerns, who value it highly for their purpose. Pkt., 10 cts.; ¼ oz., 30 cts.; oz., 50 cts.; ¼ lb., $1.50. For Plants, see page 211.

DREER'S SUPERB SALAD TOMATO
This splendid and unique variety was originally introduced by us, and is distinctly a salad Tomato, as it does not grow large or coarse, but is just the right size for serving whole with lettuce. The plants are of healthy, robust growth, and produce a great abundance of fruit, which is even in size, solid and contain but few seeds. The color is very attractive, being a rich scarlet, and the flavor is very good. This Tomato can also be grown under glass. Pkt., 10 cts.; oz., 45 cts.; ¼ lb., $1.25.

EARLY DETROIT TOMATO
After growing this early variety of Tomato for several years we are convinced that it is one of the best early sorts for home use, and also valuable for the market gardener, who derives his largest profits from those vegetables which he is enabled to market early. The vines make a strong and vigorous growth, and fruit set and ripen early, continuing to do so throughout the entire season. The size is medium to large, shape nearly round, perfectly smooth, and skin purple-pink. The fruits are very solid and seldom crack, and vines are remarkably free from attacks of blight, thus making it a very desirable early Tomato, and the best of the early purplish-pink sorts. Pkt., 10 cts.; oz., 45 cts.; ¼ lb., $1.25.

NEW RUBY RADISH
This variety does not attain a large size, but is very attractive and quickly forms the root to a condition suitable for eating. The shape is nearly round, and color of skin deep red; flesh white and very crisp. The tops are not large, and it is a good variety for forcing. Added to its beauty of form and color, together with good quality, is its extended season for use, as it remains in good condition for a long time. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 70 cts.; lb., $2.25.

EARLIEST RED MAY RADISH
An exceedingly attractive Radish which makes a remarkably quick growth and is ready for the table in a very short time. The Radishes are of a desirable size and uniform in shape, with small tops and of excellent flavor. This is a splendid variety for growing the earliest Radishes in the kitchen garden and also suitable for forcing under glass. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 70 cts.; lb., $2.25.

EARLIEST WHITE MAY RADISH
This splendid white Radish will make a fine companion for the red variety described above, and produces the Radishes equally as early. It is mild and tender, and the beautiful white skin, together with uniform shape and size, make it all that could be desired. This variety will be greatly appreciated by those who prefer Radishes with a white skin. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 70 cts.; lb., $2.25.

DELICIOUS SQUASH
An excellent variety for use during the fall and winter months; very fine grained, dry and sweet, in fact, it would be difficult to find a variety more suited for home use; as it is a combination of all desirable qualities and is finer grained and more delicious than the well-known Hubbard. The color of skin is green, with an occasional blue specimen; size about same as Hubbard, weighing from 5 to 10 pounds. The shell is not very thick, but is hard and strong; the flesh is thick and of a bright yellow color, fine-grained and of splendid quality. For table use, either as a fall or winter Squash, it cannot be excelled. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 75 cts.; lb., $2.50.
DREER’S SEEDS have been for Eighty-two Years a Standard Among the Best Gardeners of this Country for Undoubted Purity and Excellence

The Cultural Directions given in this book are for growing Vegetables in the latitude of Philadelphia. Persons living in a more Southern latitude should start earlier, while those living farther north should begin to plant later.

Hotbeds and Cold Frames should be more generally used, even by those having small gardens. The hotbed is especially valuable in the Spring for starting the plants of early vegetables and many flowers, thus having them ready to set out as soon as the ground is in condition. We have prepared a leaflet on "Making and Care for Hotbeds and Cold Frames," and will gladly mail a copy free to any who write for it or request it on their order.

ARTICHOKE

Artichaut, Fr.
Aloachofa, Sr.

ARTICHOKE SEED

Large Green Globe, Pkt., 20 cts.; oz., $1.00; ½ lb., $3.50.

Artichoke Plants and Roots

Plants of Dreer’s Selected Large Green Artichoke. We have arranged to furnish plants of this variety, which is the best kind sold in the Paris market. They should be set out early in April, when soil is in condition, in rows 3 feet apart, 2 to 3 feet apart in row, care being taken to press closely, but not plant too deep. Per doz., $1.50; per 100, $10.00 by express. Ready April and May.

Jerusalem Artichoke Roots. Distinct from the globe, and propagated by and for its tubers. Largely used for pickling and for feeding stock. Price of tubers: Qt., 30 cts.; peck, $1.50; bushel, $5.00.

ASPARAGUS SEED

Asperge, Fr.
Esparrago, Sp.

One ounce will produce about 200 plants; 4 to 5 pounds to the acre.

Leaflet on Asparagus Culture, giving directions for preparing the bed, planting and cultivating, also winter treatment of the plants will be mailed free to all applicants.

DREER’S Eclipse Asparagus. (See cut.) This variety is the result of a most careful selection, and "breeding up" to the large type, yet retaining that delicate light green color and tender quality desired. Pkt., 10 cts.; oz., 15 cts.; ½ lb., 35 cts.

Argenteuil. Very popular in France, and extensively grown for the Paris market. The stalks grow to a mammoth size, sometimes weighing as much as 4 ounces each. We supply French grown seed. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.

ASPARAGUS ROOTS (See page 210).
BEANS—Dwarf or Bush

One pound will plant fifty feet of drill

Culture.—Beans are somewhat tender, but it often pays to take some risks. Settled warm weather in spring, and at intervals for succession until August. Plant in warm, loamy soil at the beginning of rows may be made 2 feet apart, and the Beans planted a few inches apart in the drills, or 3 or 4 Beans in hills 6 to 8 inches apart. Cultivate and hoe frequently, always, however, when the vines are perfectly dry. In hoeing draw the soil up towards the rows or plants. For string Beans gather the pods clean as soon as fit for use.

Beans by Parcel Post

The prices given in this catalogue for Beans of all kinds are for same to be sent by express or freight at purchaser's expense. If wanted sent by Parcel Post, remit extra as follows:

East of Mississippi River add 7 cts. per pound.
West of Mississippi River add 12 cts. per pound.

Black Valentine. (See cut.) Being hardy this sort may be planted earlier than other varieties of Beans, as it withstands considerable cold damp weather. The plants make a strong growth and produce a heavy crop of pods, which are dark green in color, long, straight and nearly round. By express or freight at purchaser's expense; lb.; 35 cts.; 2 lbs.; 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

Long Yellow Six Weeks (Flat Pod). A well-known variety which is mostly grown for market. By express or freight, at purchaser's expense, lb.; 30 cts.; 2 lbs., 55 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.25.

Bountiful. Pods grow to large size, are broad and fleshy, cook tender and fine quality. By express or freight, at purchaser's expense, lb., 3 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

GREEN-PODDED VARIETIES

Packets of all varieties of Beans, 10 cts. each.

Keeney's Stringless Refugee. See Specialties, page 4

Improved Early Red Valentine. A standard variety, extra early, and bears pods which are round, long, slightly curved and of excellent quality. It is one of the most profitable sorts for private use or market. By express or freight, at purchaser's expense, lb. 30 cts., 2 lbs., 55 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.25.

Early Mohawk. Extremely hardy, may be planted very early. By express or freight at purchaser's expense, lb. 30 cts.; 2 lbs., 55 cts., (if by Parcel Post add as stated at top of page); 10 lbs., $2.25.

Stringless Green Pod (Burpee's). Very popular because of its hardiness and productiveness. It is stringless, ripens earlier than Valentine and remains tender and crisp a long time after maturity. Pods are pale green, long and straight, round, masty and of excellent flavor. By express or freight, at purchaser's expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

Mammoth Stringless Green Pod. This excellent variety matures its crop among the earliest of the green-podded sorts, and produces large, handsome pods, some of which measure fully 6 inches in length, and are of the finest quality. The plants are very productive, bearing pods which are perfectly round, very fleshy and entirely stringless. This variety is particularly adapted to the home garden on account of its productiveness and good quality. By express or freight, at purchaser's expense, lb., 35 cts., 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

Extra Early Refugee. Pods are of medium size, light green and of good quality. By express or freight, at purchaser's expense, lb., 30 cts.; 2 lbs., 55 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.25.
BEANS—Wax, or Yellow-Podded Varieties

Packets of all varieties of Beans, 10 cts. each

Sure-crop Stringless Wax. (See cut.) A valuable variety of Dwarf Wax Bean, which, while not related to the well-known Currie’s Rust-proof Wax, bears a great resemblance to it in plant, pod and bean. It is very productive, bearing large, handsome golden-yellow pods in great abundance, and being hardy, the seed may be planted early. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if wanted by Parcel Post, add as noted at top of page 12); 10 lbs., $3.00.

Wardwell’s Kidney Wax. (See cut, page 12.) A very popular variety of Wax Bean, bearing long, flat pods of a delicate waxy yellow; stringless and brittle. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

Currie’s Rust-proof Wax. Pods long, flat, very tender and of finest quality. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

Improved Prolific Black Wax (Cylinder Pot.) An improvement on the Black Wax. Plants medium size, pods waxy-yellow and very tender. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

Stringless Refugee Wax. Pods are round, very large and stringless. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

Improved Rust-proof Golden Wax. (See cut.) Matures early, pods long, nearly straight, broad, flat and clear yellow. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

Saddle-Back Wax. This variety is of beautiful shape and rich golden-yellow color. The pods are long, round, very solid and absolutely stringless. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post add as noted at top of page 12); 10 lbs., $3.00.

Hodson Wax Pod. A late-maturing variety which produces large quantities of creamy-white pods that are of good quality. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as noted at top of page 12); 10 lbs., $2.50.

DWARF VARIETIES OF SHELL BEANS

Prices given below for Shell Beans are for same by express or freight, at purchaser’s expense. If wanted by Parcel Post add as noted at top of page 12.

DWARF, or BUSH LIMA BEANS

CULTURE.—Select land that is especially warm, rich and well supplied with vegetable fibre or humus. Plant eye downward and two inches deep as soon as the soil becomes warm in the spring. Make the rows 2 feet apart and give to each plant 6 inches space in the row. A top dressing of poultry manure, ashes or some good fertilizer or compost around the plants will be of much benefit in hastening maturity and increasing the yield. One pound will plant 50 feet of row.

Packets of all varieties of Beans, 10 cts. each

Dreer's Wonder Bush Lima. (See Specialties, page 3.)
Fordhook Bush Lima. (See cut.) This valuable variety is a perfected form of Dreer's Bush Lima, which variety it resembles in form of pod and shape of bean, but both are larger and the plant is of strong upright growth, protecting the pods from contact with the soil, thus preventing rust or rot. It produces the pods in clusters and the Beans are very large, thick through and of a delicious flavor. It is now largely grown by market gardeners not only on account of its productiveness, but also because their customers call for it. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 85 cts. (if by Parcel Post add as stated at top of page 15); 10 lbs., $4.00.

Dreer's Bush Lima. A dwarf variety of Dreer's Improved Lima. The Beans grow close together in the pods, producing three and four Beans each, sometimes five, and are thick, sweet and succulent, fully equal in quality to Dreer's Improved Pole Lima. An excellent variety which is particularly valuable for the home garden on account of its productiveness. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 85 cts. (if by Parcel Post add as stated at top of page 15); 10 lbs., $4.00.

Burpee—Improved Bush Lima. Produces pods of enormous size. The plant grows in dwarf form, producing large numbers of pods, which are well filled with Beans. It is an improved type of the original Burpee's Bush Lima Bean, but is much larger, more productive, and the pods will average more Beans to a given number. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 85 cts.; (if by Parcel Post add as stated at top of page 15); 10 lbs., $4.00.

Burpee's Bush Lima. This variety was one of the first of the Bush Lima Beans to be introduced. It is a bush form of the well known Large White Lima, very productive and of good quality. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 75 cts.; (if by Parcel Post add as stated at top of page 15); 10 lbs., $3.50.

Henderson's Bush Lima. This is a small white Lima Bean which grows in the bush form and produces a large crop. The plants are very hardy, make rapid growth and are not so apt to throw runners as some of the other varieties of Bush Lima. It begins to set pods at an early season. By express or freight, at purchaser's expense, lb., 35 cts.; 2 lbs., 65 cts.; (if by Parcel Post add as stated at top of page 15); 10 lbs., $3.00.

Kentucky Wonder, or Old Homestead Pole Bean. This variety of Pole Bean is largely grown for snap-shorts and is one of the best green-podded sorts. The vines grow rapidly, and set pods in clusters at an early season. The pods are light-green in color and measure from eight to nine inches in length, are almost round and as they mature take on a curved shape. To obtain the best quality the pods should be used while young. On account of its productiveness and excellent quality, this variety is well adapted for the home garden. By express or freight, at purchaser's expense, lb., 35 cts.; 2 lbs., 65 cts.; (if by Parcel Post add as stated at top of page 15); 10 lbs., $3.00.
POLE LIMA BEANS

CULTURE.—Pole Limas do best in a sandy loam, and if season is suitable, may be planted about May 1st. Set the poles about 4 feet apart each way and plant 4 to 6 beans, eye downward around each pole, and when plants are up, thin out to 3 plants to a pole. Pinch off the ends when plants over-run the top of the poles. It is well to use a shovelful of rich, light, well-rotted compost to each hill. One pound of seed will plant 75 to 100 hills. Material for inoculating Lima Beans will be found offered on page 224.

BEANS BY PARCEL POST
The prices given in this catalogue for Beans of all kinds are for same to be sent by express or freight, at the purchaser's expense. If wanted by Parcel Post add as follows:
To points East of Mississippi River, 7 cents per pound.
To points West of Mississippi River, 12 cents per pound.

Packets of all varieties of Beans, 10 cents each.

Carpinteria Lima. (See Specialties, page 4.)

Dreer's Improved Lima. (See cut.) A leading standard early variety which is very productive. The quality is exceedingly fine, the Beans cooking rich and mealy. In some sections this variety is called Challenger, or Potato Lima. It is the best for private gardens and sheds out more beans from a given number of pods than any other Pole Lima. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

Early Leviathan Lima. The pods are long and contain from 4 to 5 long beans, which are flat in shape, of good size and excellent quality. The bean is white and may be shelled from the pods with ease. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

Early Jersey Lima. Matures a few days earlier than the King of the Garden and is very productive. The pods contain from three to four large beans, and the quality is good. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

King of the Garden Lima. A standard variety, which is a vigorous grower, bearing large dark green pods containing four or five large white beans which are of good quality. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

Small Lima, or Sieva. The beans are small but of good flavor, and the vines are very productive. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

POLE, or RUNNING BEANS

GREEN POD VARIETIES
Kentucky Wonder, or Old Homestead. (See description and illustration on page 14.)

White Creaseback, or Best of All. Early, productive and fine quality; pods about 5 inches long and are produced in clusters. By express or freight, at purchaser's expense, lb., 35 cents; 2 lbs., 65 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.00.

Horticultural, or Speckled Cranberry. The best variety of this type. Pods 6 inches long, pale green, but become streaked with red when mature. The beans may be used either green or dry. By express or freight, at purchaser's expense, lb., 35 cents; 2 lbs., 65 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.00.

Scarlet Runner. Mostly used as an ornamental climber, but edible and may be cooked in same manner as other snap-beans, or used as a shelled bean. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.

WAX POD VARIETIES
Kentucky Wonder Wax. (See Specialties, page 3)
Dreer's Golden Cluster Wax. This variety of Pole Bean is noted for its great productiveness, and furnishes the delicious pods from about the middle of July until the vines are destroyed by frost. It produces the pods in clusters of from three to six large pods, and the vines are literally covered from bottom to top during the entire season. The pods measure about seven inches in length, are very thick, fleshy and of a rich golden-yellow color, crisp, tender and of fine flavor. By express or freight, at purchaser's expense, lb., 40 cents; 2 lbs., 75 cents. (If by Parcel Post add as stated at top of page); 10 lbs., $3.50.
Betterave, Fr.

BEETS

Remolacha, Sv.

One ounce will sow 50 feet of drill; 5 to 6 pounds for an acre

CULTURE.—Fibrous loam, well drained and well enriched, will raise good Beet crops. For early table Beets, have drills 16 to 20 inches apart, and sow the seed about 1 inch deep, as early as the ground can be put in good shape. Or seed may be sown under glass four weeks sooner, and the young seedlings transplanted to open ground, to give an extra early crop. Give thorough and clean cultivation, and thin the plants to stand 3 and 4 inches apart in the rows. For succession sow at intervals until middle of July. For the earliest sowings a light dressing of nitrate of soda, say 100 pounds per acre, will sometimes work wonders.

Early Eclipse. Perfectly smooth and round, and has a small top; skin and flesh intense red. This variety is one of the first to be ready for the table. It does not grow to large size, but is desirable for its earliness and sweet, tender quality. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Extra Early Egyptian. An early variety, suitable for forcing and growing in the open garden. Tops are small and Beets are rounded on top, but flat at bottom end. The color of flesh is dark and light red, and the Beets are tender and of good flavor. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Early Blood Turnip. A fine selection, early and also good for summer and autumn use. It is very sweet and tender. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Crimson Globe. (See cut.) This Beet is remarkable for its smooth skin and good shape. It is a second early variety, does not grow large and coarse, the matured Beets being medium in size and rather oblong in shape. The flesh and skin are both very dark and quality fine, being sweet and tender. The tops are small and dark in color. We are confident that this Beet will please all who plant it. Pkt., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; lb., $2.00.

Dark-leaved Globe. A splendid type of blood-turnip Beet. The dark foliage of this variety is a striking feature, while the corresponding rich, dark color of flesh and beautiful globe shape combine to make it an exceedingly attractive Beet. Pkt., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; lb., $2.00.

Dreer’s Special Crosby’s Egyptian. (See colored plate and page 8.) Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

Crosby’s Egyptian. Extremely early and may be grown out of doors or under glass, and in either case the young Beets are fit for use at an early stage of growth. It is thicker through than the old Egyptian, which adds greatly to its appearance, and this, together with the rich vermillion color, makes it very attractive. The quality is excellent, being sweet and tender. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

Detroit Dark Red. (See cut.) A choice variety of early turnip Beet. The tops make an upright growth, thus allowing of planting in close rows, a valuable feature where space is limited. The Beet is somewhat globe shape, skin blood red and flesh rich red, zoned with a darker shade. The Beets are sweet when cooked, and it is a splendid variety for canning. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

Dreer’s Excelsior Blood. The attractive form and rich dark color of this Beet commend it to all who grow it. Matures fully as early as any variety of turnip-shape Beet known, and grows to a uniform size and shape. The flesh is blood-red, remarkably sweet and tender, retaining all of its good qualities until it has attained an advanced age. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

Edmand’s Blood Turnip. A good variety to follow the extra early sorts, and one of the best for winter use. It grows with a short top, and the skin is dark red, while the flesh is purple, slightly zoned and of good quality, being sweet and tender, and it is a most excellent keeper. Those who desire to keep a winter supply of Beets will find this variety very satisfactory. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $1.75.
**BEETS—Continued.**

Dewing’s Improved Blood Turnip. An improved medium early Blood Turnip Beet. The skin is dark red and flesh carmine, striped with a lighter shade. It is a good keeper and grows to a good size; flesh is tender and sweet. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.

Bastian’s Early Blood Turnip. A good early turnip-shaped Beet. Top grows to a medium size and flesh is bright red and white and the quality is very good. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.

Early Bassano. An old-time and excellent second early variety having large leaf-top, which may be used as greens. The roots grow to good size and are very sweet while in the young state of growth. Flesh is white and rose-colored. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.

Bastian’s Half-Long Blood. An excellent variety for either spring, fall or winter use. The roots are smooth, flesh bright red and the quality is very good. It is a good keeper and for winter use the seed should be sown early in July. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

**SWISS CHARD, OR SPINACH BEET**

One ounce will sow 100 feet of row

Swiss Chard, Giant Lucullus. (See cut.) The Swiss Chard, or Spinach Beet, is prepared for the table in the same manner as Spinach; sometimes, however, the mid-rib is prepared like Asparagus. Seed planted early in the spring will quickly produce plants from which cuttings may be made all summer, as you can cut right down to the ground, and new shoots will soon spring up and make a fast growth, while those plants which are allowed to grow on without any cutting will make large early leaves, with thick, light-colored mid-ribs, which are delicious when cooked and served like asparagus. You should not fail to plant at least one long row in your garden. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $2.00.

---

**MANGEL WURZEL**

Used for feeding stock; sow 6 lbs. to acre, in May or June, in rows 3 feet apart, and thin to 9 inches. Cultivate with horse.

**CHOU-BROCOLI, Fr. BROCCOLI Brocoli, Sr.**

This vegetable is used in the same manner as Cauliflower and the method of culture is the same. It thrives best in rich soil and during cool weather, and is greatly aided in its growth by frequent hoeing and watering. Sow seed in hot-bed in January or February and transplant into cold frames, 2 or 3 inches each way. Set out in open ground early in spring, about 2½ feet apart. One ounce will sow 200 feet of drill.

**WHITE CAPE.** Large compact heads of a creamy white color and of good flavor. Culture same as for late Cauliflower. Pkt., 10 cts.; oz., 60 cts.; ½ lb., $2.00.

**BRUSSELS SPROUTS**

Chou de Bruxelles, Fr. Broux de Bruxelles, Sr.

Culture.—Sow seed for plants in frames or open ground. Set plants in early spring, and for succession up to July, making rows 3 feet apart and having the plants stand 14 to 2 feet apart in the row. Cultivate same as Cabbages. One ounce will sow 200 feet of drill.

CABBAGE

CULTURE. For plants of the earliest sorts sow seed in January or February under glass, and prick out in flats or frames about 2 inches apart each way. Transplant to open ground as soon as the land can be properly prepared. A rich, warm fibrous loam is best. Have the plants in the rows 20 to 24 inches apart, and rows at least 2 feet apart. Give thorough cultivation and irrigate in dry weather if practicable. Protect against the ravages of cutworm, maggot and green worm. A little nitrate of soda applied around the plant is of great benefit. Potash applications, such as wood ashes or muriate, may also do much good. For late Cabbage plants, sow seed in drills in open ground during April and May, and transplant in June and July, giving the plants more room than allowed for earliest Cabbages. Dusting with tobacco dust, insect powder, etc., or splashing with hot soapsuds, especially Whale-Oil Soap solution, are good and safe remedies for some of the insect pests attacking plants of the Cabbage.

Early Summer. A reliable second early Cabbage, which matures about ten days after the Jersey Wakefield. It makes a large, solid, flat-topped head, with short outer leaves, which admit of close planting in the field, and is a good keeper. This variety, maturing so soon after the pointed head sorts, is extremely valuable for growing as a second crop, and as it is suited to all sections it is very largely grown. Pkt., 10 cts.; oz., 40 cts.; $1.25.

For plants see page 210.

Succession. A sure heading second early round-headed sort. Comes in a few days after Early Summer, and makes a larger head. It is grown largely by both market gardeners and amateurs. Pkt., 10 cts.; oz., 40 cts.; $1.25.

Improved Flat Brunswick. Produces large heads, with short stems and of excellent quality. While this variety is an excellent one for intermediate crop, it may also be grown for winter use. Pkt., 10 cts.; oz., 40 cts.; $1.25.

SAVOY CABBAGE

Perfection Drumhead Savoy. (See cut.) The largest Solid-heading Savoy, and has the rich flavor of the cauliflower. The plants are strong and vigorous, and withstand the ravages of the cabbage worm better than other sorts. This is the best for market gardeners, as it will produce larger heads than any other kind of Savoy Cabbage.

Pkt., 10 cts.; oz., 40 cts.; $1.25. For plants see page 210.

Small Extra Early Jersey Wakefield. The earliest strain of Wakefield Cabbage, very hardy and may be set out early. Heads small, but very solid. Pkt., 10 cts.; oz., 45 cts.; $1.50.

Early Jersey Wakefield. A leading early variety, which makes quick growth and is ready very early, for which reason it is more largely grown than any other variety. It is one of the best for private or market gardener's use; conical shape and good quality. Pkt., 10 cts.; oz., 40 cts.; $1.25. For Plants see page 210.

The Charleston, or Large Wakefield. (See cut.) Large solid heads, of good quality, a few days later than Early Jersey Wakefield. Pkt., 10 cts.; oz., 45 cts.; $1.50.

All Head Early. The largest heading of the second early sorts, remarkably solid, and withstands hot, dry weather. It may also be planted for fall and winter use, as it is a good keeper. Pkt., 10 cts.; oz., 40 cts.; $1.25.

Dreer's Early Drumhead. A large, round, solid-heading variety. The best for following Charleston Wakefield, and an excellent variety for summer use. Pkt., 10 cts.; oz., 40 cts.; $1.25.

Selected All-Seasons (Vandergyen). An early Drumhead Cabbage, yielding heads of the largest size and good quality. Very desirable, either for early spring, summer or fall use. Pkt., 10 cts.; oz., 40 cts.; $1.25.
CABBAGE—Continued

LATE VARIETIES

Danish Ball Head (Hollander). (See Specialties, page 4.) Pkt., 10 cts.; oz., 60 cts.; 1 lb., $2.00.

Danish Roundhead. (See Specialties, page 4.) Pkt., 10 cts.; oz., 50 cts.; 1 lb., $2.00.

Dreer's Selected Late Flat Dutch. (See cut.) This is the finest strain of Late Flat Dutch Cabbage on the market. The heads are flat and grow remarkably large, even, and very solid. Semi-grown short, and the quality of the Cabbage is very fine. It is very hardy, and makes a slow growth, but is a sure heading sort, and nearly every plant can be depended upon to produce a fine large head. Pkt., 10 cts., oz., 40 cts.; 1 lb., $1.25. For plants, see page 210.

Large Late Drumhead. Heads are solid and have few loose leaves, thus allowing of planting closely in the field. Pkt., 10 cts.; oz., 40 cts.; 1 lb., $1.25.

Autumn King, or World Beater. Heads large size, solid, good quality and keep well.

Chinese, or Celery Cabbage. (See cut.) Also called Pe-Tsai, and Cat Cabbage, by Chinese gardeners, and beginning to attract attention in America. It does not form a cabbage-head, but when grown to its full size resembles the Cos Lettuce, and the outer leaves may be used during its growth. It is odorless while being cooked and the flavor is delicious, being very mild, and it is excellent for use as a salad, or cooked like asparagus. We are quite sure that it will please all who partake of it. Sow seed after July 1st, and give plenty of room to the plants, setting in rows 3 feet apart and 2 feet apart in the row. Pkt., 10 cts.; oz., 40 cts.; 1 lb., $1.25.

RED CABBAGE

Large Red Drumhead. An old-time variety, largely used for pickling. The heads are dark red in color and of excellent quality. It matures late in season and is very solid.

Mammoth Rock Red. This is the largest variety of Red Cabbage, and produces heads which are remarkably solid, more so than any other kind. The heads, which are round, with spreading outer leaves, mature at a late season, and on account of their solidity will keep well for a long time. It is the best and most attractive Red Cabbage grown. Pkt., 10 cts.; oz., 45 cts.; 1 lb., $1.50. For plants see page 210.

CABBAGE PLANTS

(See page 210)

CARDOON

Cardoon, Fr. — Cardo, Sp.

Culture. — Sow seed in open ground in early spring, either for plants to be transplanted, or directly where the crop is to mature. Have rows 3 to 4 feet apart, and plants standing 1 to 2 feet apart in the rows. Cardoon is sometimes grown in trenches in the same manner as celery used to be grown. To make the stalks edible, they must be bleached much like celery. The mature leaves are tied together, wrapped in straw, and banked up with earth. The stalks will blanch fit for use in 3 to 4 weeks.

LARGE SMOOTH SOLID. The best variety. Grows about 4 feet high, and the leaves are almost free of spines. Pkt., 10 cts.; oz., 40 cts.; 1 lb., $1.25.

CHERVIL

Cerfeuil, Fr. — Persilfol, Sp.

Culture. — The seed of Curled Chervil may be sown in well prepared ground at any time during the spring. The rows should be about one foot apart and plants cultivated like parsley. The leaves are aromatic and used for seasoning.

Curled Chervil. Beautifully curled and crisp. The leaves are very aromatic and it is excellent for garnishing dishes. Pkt., 10 cts.; oz., 25 cts.; 1 lb., 75 cts.
CAULIFLOWER

One ounce of seed will produce about 3000 plants

Culture.—For earliest Cauliflower, raise plants by sowing in hotbed or greenhouse during January or February, and transplant to flats or cold frames, 2 or 3 inches apart each way. Set in open ground as soon in spring as the land can be put in good order. Soil to be a warm, very rich, fibrous loam, well supplied with humus and moisture. Copious water applications during dry weather, especially when the plants are heading, and light dressings of nitrate of soda and potash are of much help. Set plants 2 to 2½ feet apart each way. When heads are formed and are hard, they should be blanched by drawing the leaves together and tying with raphia, or strips of soft cloth. For late Cauliflower, to mature during the pickling season (August 15th to October 15th) start plants in open ground like late cabbages, and handle them like that crop.

LATE CAULIFLOWER

Lenormand’s Short Stem. A large, late, short stemmed variety; head is very firm. Pkt., 10 cts.; oz., $1.00.

Algiers. An extra fine, large late variety, suitable for market and sure to head. Pkt., 10 cts.; oz., $1.00.

Veitch’s Autumn Giant. One of the finest late varieties, of robust habit; heads large, compact and thoroughly protected by the leaves. Pkt., 10 cts.; oz., 85 cts.

For CAULIFLOWER PLANTS see page 210.

CHICORY

Culture. Sow seed in early spring as for carrots, in rows 12 to 16 inches apart, and thin the plants to 2 to 3 inches. To blanch the leaves for salad in winter, dig the roots in the fall, cut the leaves off a little above the root crown, and place them horizontally in layers, alternating with layers of sand or loam, in a dark cellar, the tops all pointing outward of the sloping heap or heaps. Directions for raising Witloof Chicory, or French Endive, are given on page 5. One ounce to 100 feet of drill.

Witloof Chicory, French Endive. (See specialties, page 5).

Pkt., 10 cts.; oz., 40 cts.; ½ lb., $1.00; lb., $3.50.

Common, or Wild. The leaves are used as salad. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 85 cts.; lb., $3.00.

Large Rooted. Used to mix with or as a substitute for coffee. Pkt., 10 cts.; oz., 40 cts.; ½ lb., $1.10; lb., $3.50.
CARROT
Zanahoria, Sp.

One ounce will sow 100 feet of drill; 3 to 4 pounds for an acre

CULTURE.—Carrots do best in warm, deep, rather light and fairly fertile soil that is well supplied with humus, or on strong loam, having been in clover and broken the year before. For the earliest crop sow seed of the early short-rooted sorts in April or May in drills a foot apart and thin to 2 inches. For main crop, sow in May or June, or for succession even in July, using the longer rooted varieties. The rows for these may be 16 to 20 inches apart, and the plants thinned to 2, 3 or even 4 inches. To raise Carrots for stock, the rows may be made wide enough apart, say 2 to 2½ feet, to allow of cultivation by horsepower. In sowing Carrot or other small seed, especially during dry weather, pains should be taken to firm the soil well over the seed, either by means of the feet or with the roller of the garden drill. Varieties marked * are good for stock feeding.

Improved Rubicon. (See Colored Plate and page 9.) Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

Earliest Short Horn (French Forcing). This variety is one of the earliest to mature, and may be used when only four or five leaves have formed. The roots do not grow large, are almost globular in shape, reddish-orange color and of excellent flavor. It is an excellent variety for forcing under glass and may also be used for both early and late sowing outside. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

Early Scarlet Horn. (See cut.) May be planted very early in spring, and is an excellent summer variety. Tops small and roots grow about 2 inches long; reddish-orange and good flavor. May be grown either in frames or in the open ground. This Carrot is at its very best while young and should be used before it has attained its full growth. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

St. Valery. An intermediate variety, growing to a size between the half-long and long varieties, about 10 inches long, broad at neck, tapering to a point; orange color and of good quality. This Carrot is valuable for growing in the garden and also for field culture on account of productiveness and good shape, but in either case it will be found to do best when grown in a light soil which has been highly fertilized, well dug and carefully prepared for the crop. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

Danver’s Half-Long Orange. (See cut.) This Carrot is grown more extensively than any other. It is a rich orange-red variety, smooth and handsome. Tops are of medium size and coarsely divided. The roots taper to a blunt point; flesh sweet, crisp and tender. Although the roots of this variety grow shorter, it produces more bulk to the acre than the larger varieties. For many years this has been the prime favorite in America, both with the market gardener and amateur grower, as its size, color and shape go towards filling the requirements necessary to make it the leading variety for general crop. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.

Chanteney Half-Long. This variety of Carrot combines the best quality with attractive shape and color and is now being grown by market gardeners and amateurs in many sections. It is a half-long variety, with orange-red skin and crisp, tender flesh. The root is broad at the top, tapering slightly to bottom, and is fit for use at a early season. It resembles the well known Nantes Carrot, but has a much larger shoulder. The carrots being smooth and of handsome appearance will please all who grow them, not only on account of fine appearance, but also because of their many other good qualities. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

*NichoPs Querande, or Oxheart. A good variety on soils too hard and stiff for the longer-growing sorts. It is very thick, grows 4 to 5 inches long, flesh is orange color and sweet. While it is most valuable for feeding stock, it is also good for table use while young. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

Nichol’s Improved Long Orange. This is a very fine selection of the Long Orange Carrot, good flavor and the best variety for stock feeding. The root grows long and tapers gradually to a point, being about five or six times as long as it is broad, and it does best in a deep rich soil, particularly where of a sandy nature which enables easy digging of the roots, Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.

Large White Belgian. Used for feeding cattle. The roots grow partly above ground and are thick through, yielding a heavy crop which should be harvested before frost. It is a field Carrot and grown only for stock feeding. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 45 cts.; lb., $1.50.
Culture.—For early or summer Celery sow seed of the self-blanching sorts in flats under glass during February, and prick out singly or in sections of rows, into other flats, frames, or in nursery row in the open, selecting soil in the highest state of cultivation. In May to June, set the plants in very rich and well prepared land, 6 inches apart in the rows, and rows 3 or 4 feet apart. Give thorough and clean cultivation, and blanch by means of boards set up against the rows. For later and winter Celery, start seed of standard sorts either in flats as for early, only a little later, or directly into open ground. Make the rows for plants 1 foot apart; sow seed shallow and firm well. The rows in which the plants are to be set are 4 or 5 feet apart. Blanch by earthing up gradually to within a few inches of tip of the leaves. For winter storage, take up the plants with roots, and place upright on wet soil in a dark cellar or roothouse, packing closely. One ounce of Celery seed will produce from 5,000 to 10,000 plants.

Columbia. (See page 5.) Pkt., 10 cts.; oz., 45 cts.; ¼ lb., $1.50.

Winter King. (See page 5.) Pkt., 10 cts.; oz., 45 cts.; ¼ lb., $1.50.

Perfected White Plume. Crisp, tender and ready for use ahead of all others. As the plants mature the inner stalks and leaves turn white and require very little earthing up. Pkt., 10 cts.; oz., 50 cts.; ¼ lb., $1.50. For Plants, see page 210.

Originator’s Golden Self-blanching. (See cut.) (French-grown seed.) A splendid variety of early Celery, requiring but little labor to blanch. Plants grow to a medium size and make a stocky growth; heart is rich golden-yellow with light yellowish-green outer leaves. The quality is excellent, as the stalks are remarkably crisp and tender. Pkt., 20 cts.; ¼ oz., 85 cts.; oz., $1.50; ½ lb., $4.50.

Boston Market. Forms a cluster of heads, and should be blanched by earthing up. Pkt., 10 cts.; oz., 30 cts.; ¼ lb., $1.00.

Dreer’s Monarch. Stalks large and have a bright golden-yellow heart; very solid and of delicious flavor. Pkt., 10 cts.; oz., 45 cts.; ¼ lb., $0.25. For Plants, see page 210.

Schumacher. The stalks are perfectly solid and crisp. It has a firm and beautiful golden heart, and the flavor is first-class. Pkt., 10 cts.; oz., 30 cts.; ¼ lb., $1.00.

Giant Pascal. A superior fall and winter sort. The stalks are very large, thick, solid, crisp and of rich nutty flavor. Pkt., 10 cts.; oz., 30 cts.; ¼ lb., $1.00. For Plants, see page 210.

Winter Queen. (See cut.) An excellent winter-keeping Celery. Grows a very thick, solid and heavy stalk and has a large heart. The color is creamy-white when blanched and quality very good. Pkt., 10 cts.; oz., 40 cts.; ¼ lb., $1.25. For Plants, see page 210.

New Rose. The red sorts surpass the white in flavor, and possess in their coloring a feature which renders them valuable. This is the best variety of red Celery. Pkt., 10 cts.; oz., 40 cts.; ¼ lb., $1.25.

Soup, or Flavoring Celery. Not for planting purposes, but used for flavoring. Oz., 5 cts.; ¼ lb., 50 cts.

CEleriac (Turnip-rooted Celery). See page 23.
CUCUMBER

One ounce will plant fifty hills; two pounds will plant one acre

CULTURE.—For very early Cucumbers, sow April 1st, in a hotbed upon pieces of sod (grass side down), so that they can be readily transplanted to the open ground, in rich soil, when danger of frost is over, or protect by hand-glasses. For early use, plant, if the weather has become settled and warm, in hills 4 to 6 feet apart each way; thin out to four of the strongest plants to each hill, after all danger from insects is over. They succeed best in a warm, moist, rich, loamy soil. Continue planting at intervals for a succession. The Cucumbers should be gathered when large enough for use, whether required or not; if left to ripen, it destroys their productiveness. For pickles, plant from June until the middle of July. The yellow-striped cucumber or squash beetle is the most serious insect enemy of the crop. Bordeaux Arsenate of Lead Mixture is by far the best remedy yet discovered. Dilute it with water, 3 ounces to the gallon, and spray it on the vines when in danger of the beetle or blight.

Early Fortune. (See Colored Plate and page 8.) Pkt., 10 cts.; oz., 20 cts.; 1 lb., 60 cts.; lb., $2.00.

Arlington White Spine Forcing. (See cut.) A strain of White Spine which has been improved through careful selection with a view to use for forcing in hot-houses and frames. Pkt., 10 cts.; oz., 20 cts.; 1 lb., 60 cts.; lb., $2.00.

Klondike. (See cut.) This variety is one of the best for slicing. The color is rich dark green, and the fruits grow to a uniform size, measuring about seven inches in length and two inches thick when in condition for use. Pkt. 10 cts.; oz., 20 cts.; 1 lb., 60 cts.; lb., $2.00.

ENGLISH FORCING CUCUMBERS

The seed we supply is secured from the best growers in England and is from selected fruits.

Covent Garden Favorite, Rochford's Market, Lockies' Perfection. In packets of 10 seeds each, 25 cts.; per 100 seeds, $2.25.

Duke of Edinburgh, Sion House Improved, Telegraph (Rollinson's). In packets of 10 seeds each, 20 cts.; per 100 seeds, $1.75.

CELERIAC (Turnip-rooted Celery)

Celerie Racine, Fr. Apio Nabo, Sr.

CULTURE.—Grown mostly for its bulbous root. Seeds are started and plants set in same way as advised for Celery. Cel eriac is not usually blanched, but very fine when thus treated, and much harder than the stalk celeriac.

**CORN, Sweet or Sugar**

*Maiz, Sr.*

**Culture.** Seed of the Sweet Corn is liable to rot if planted in wet or cold ground. Yet if we have an early warm spell in spring, it may pay to take some risks, as often the plants, when once up, will escape injury by a belated frost. Plant in hills 3 feet apart each way, covering half an inch and thin out to 3 plants to a hill, or plant in rows 4 feet apart, 12 inches apart in the rows. For succession plant every two weeks up to July 15th. To protect from birds, Sweet Corn may be given a coating of Pine Tree Tar in the following manner: Place seed in vessel and add enough water to cover it; then stir in a teaspoonful of tar for each peck of seed. Drain on a sieve and add some land plaster to 200 feet of row.

**SWEET CORN BY PARCEL POST**

The prices given in this Catalogue for Sweet Corn are for same to be sent by express or freight, at purchaser’s expense. It wanted sent by Parcel Post remit extra as follows:

- Points East of Mississippi River, 7 cts. per pound.
- Point West of Mississippi River, 12 cts. per pound.

Packet of any variety of Sweet Corn, except De Lue’s Golden Giant, 10 cts. postpaid.

- De Lue’s Golden Giant. (See specialties page 6.)
- Golden Cream. (See specialties page 6.)
- Dreer’s Aristocrat. (See cut.) An extra early variety, ripening with the Cory. Stalks grow 4 to 6 feet high and ears are of large size, measuring 8 to 10 inches in length. The grains are extremely sweet, and, being decidedly broad, allow of easy scoring with a knife preparatory to butterflies when eating from the cob. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $3.00.

- Golden Bantam. Produces ears measuring about five inches long, but the smallness of ears is fully made up by the deliciously sweet flavor and tender quality of the Corn when cooked. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $3.00.

- Golden Dawn. An extra early yellow-grained variety, but when one gets the sweet, delicious taste, the color of the grain is forgotten. Stalks about 5 feet high and bear 2 and 3 ears, free from smut and filled out to the extreme tip. By express or freight at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $3.00.

- Howling Mob. A large extra early sweet variety, which may be planted very early and is productive. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

- Kendall’s Early Giant. Ears are about 7 inches in length, with pure white grains, very sweet and tender. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

- Mammoth Early. A second-early variety, which bears large ears with large-sized grains and is very sweet. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

- Metropolitan. Extra early, ripens a few days later than Cory, but produces larger ears. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

**WELL-KNOWN VARIETIES**

Prices below for Sweet Corn are for same by express or freight, at purchaser’s expense. If wanted by Parcel Post add as stated at top of page.

**Early Evergreen.** This variety resembles the Stowell’s Evergreen, but is ready for use much earlier, and remains in good condition equally as long. The ears grow to a good size, usually about 7 inches long, and contain from 15 to 18 rows of deep, sweet grains. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.

**Stowell’s Evergreen, Improved.** A late variety, very tender, sugary, and remains in good condition, suitable for cooking for a long time. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page); 10 lbs., $2.50.
CORNF, Sweet or Sugar

Continued

Packet of any variety of Sweet Corn, except De Lue's Golden Giant, 10 cts. postpaid.

Stabler's Early. (See cut.) Of much larger size than usual for the early kinds of Sweet Corn and of most delicious flavor. The grains are broad and very tender. This is a fine variety for the home garden. By express or freight, at purchaser's expense, 1 lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post add as stated at top of page 24); 10 lbs., $2.50.

Zig-Zag Evergreen. A good sweet Corn, ripening from 8 to 10 days ahead of Stowell's Evergreen, and fully its equal in quality and productiveness. The ears are large and grains same shape as Stowell's Evergreen, but are arranged on the cob in a zig-zag manner, hence its name. By express or freight, at purchaser's expense, 1 lb., 35 cts.; 2 lbs., 60 cts. (if by Parcel Post, add as stated at top of page 24); 10 lbs., $2.50.

Country Gentleman, Little Gem, or Shoe Peg. (See cut.) A very popular variety which ripens about the same time as Stowell's Evergreen. The ears grow to a medium size, with deep grains in irregular rows on cob, and deliciously sweet, tender and milky. A fine late variety. By express or freight, at purchaser's expense, 1 lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated at top of page 24); 10 lbs., $3.00.

POP-CORN. On the ear only

SWEET FODDER CORN. Write for price.

FIELD CORN. The leading varieties. See pages 47 and 48.

Chow Coba, Fr. COLLARDS Cabu, Sr.

Culture.—Sow seeds the same as for late cabbage plants. The crop of greens may be grown directly in the seed rows, or the plants may be transplanted and set a foot apart in the rows. Best after being touched by frost.

One ounce will produce about 3000 plants.

Cresson, Fr. CRESS Berro o Mastuerzo, Sp.

Culture.—Easily grown during winter on the greenhouse bench, in frames, pots or boxes, and splendid for salad, garnishing, or as an addition to winter lettuce. Sow seed very thickly in rows 3 to 6 inches apart under glass, or for summer 1 foot apart in open ground. Sow often for succession, as it soon runs to seed. Water Cress requires a stream of running water, ditch or pond, in which it will grow without care, except at first keeping weeds from interfering with it.

Extra Curled, or Pepper Grass. Leaves curled and are used for salad or garnishing. Pkt., 5 cts.; oz., 10 cts.; ¼ lb, 25 cts.; lb., 75 cts.

CORN SALAD (Fetticus)

Culture. — Sow in spring in drills 1 foot apart. For winter and early spring use, sow in drills in August and September.
Three ounces to 100 feet of drill.

Pissenlit, Fr.

DANDELION Amargon, Sr.

Culture. — Plants usually come up small and feeble. Sow seed in good clean loam, in drills one foot apart, and thin or transplant to 10 or 12 inches apart in the rows. May be blanched by covering with leaves or other loose litter.
One ounce to 100 feet of row.
Broad-leaved. Pkt., 20 cts.; oz., $1.10; ½ lb., $4.00.
Improved Thick-leaved. An improved variety.
Pkt., 20 cts.; oz., $1.10; ½ lb., $4.00.

Chicory, Fr.

ENDIVE Endibia o Escarole, Sr.

Endive is one of the best and most wholesome salads for fall and winter use. Sow in shallow drills in April for early use or for late use in June and July. When 2 or 3 inches high transplant into good ground or thin out to 1 foot apart. When nearly full grown and before they are fit for the table they must be bleached. This is done by gathering the leaves together and tying with yarn or bass to exclude the light and air from the inner leaves, which must be done when quite dry, or they will rot. Another method is to cover the plants with boards or slats.
One ounce of seed to 300 feet of row.

Dreer's Giant Fringed. (See cut.) A strong-growing variety with large white heart and broad stems. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.

White Curled (Self-blanching). Leaves pale green; grows to a large size, always crisp and very tender. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.

French Endive. See Witloof Chicory, page 5.

EGGPLANT

Berengena, Sr.

One ounce will produce 1,000 to 2,000 plants

Culture. — Sow the seeds in hotbeds, early in March. When 3 inches high, pot the young plants, using small pots, and plunge them in the same bed, so that the plants may become starchy. They can be planted out of the pots when the season becomes sufficiently warm, in May or June. Eggplant seed requires a higher temperature for germination than other garden vegetables, and this temperature should be maintained right along in order to maintain strong and healthy growth. The soil can hardly be made too rich. After settled warm weather has set in, set the plants in open ground, allowing 3 feet space between the rows, and 2 feet space between the plants in the row. Watch for the potato beetle. This pest, as well as blight, may be controlled by spraying with Bordeaux Arsenate of lead mixture.

Early Black Beauty. (See cut.) Spineless and rich purplish black skin; very attractive and of best quality. This beautiful Egg-Plant is a great improvement over the well-known and largely grown New York Improved Large Purple. The plants are remarkably healthy in their growth and produce an abundance of large fruit, earlier than the New York Improved. Pkt., 10 cts.; oz., 20 cts.; oz., 80 cts.; ½ lb., $2.25. For plants see page 210.

New York Improved Large Purple. This variety is largely grown and produces the Egg-Plants in great quantities, as the plants bear from 6 to 8 fruits each. They are large, nearly round, dark purple, free of thorns and of excellent quality. Pkt., 10 cts.; oz., 70 cts.; ½ lb., $2.00.

Early Long Purple. Earliest, hardest and very productive. The fruits are long and of good quality, measure 6 to 10 inches long and best for very early use. Pkt., 10 cts.; oz., 70 cts.; ½ lb., $2.00.

Black Pekin. Fruit-purplish black, round, large, solid, smooth and glossy; very prolific and early and of fine flavor.
Pkt., 10 cts.; oz., 70 cts.; ½ lb., $2.00.

EGG PLANT PLANTS (See page 210).

FINOCCHIO, or FLORENCE FENNEL (See Specialties page 7).

GARLIC (See page 33).

HOP VINE ROOTS (See page 210).

HORSERADISH (See page 210).
KALE, or BORECOLE
Chou Vert, Fr. Breton, Sr.

One ounce of seed will produce about 5000 plants

Culture.—The Kales are more hardy than Cabbage, make
frost. Sow from May to June, and cultivate the same as Cabbage.
Some of the varieties are so hardy that the green leaves may be
excellent greens for winter and spring use, and are improved by

dug out from under the snow in winter and used for greens.

Creer's Imperial Long Standing Kale.
(See cut.) A beautifully curled and crimped
sort, of strong, vigorous habit, perfectly
hardy, attractive appearance, a bright green
color and very productive. Pkt, 10 cts.; oz., 25 cts; \$ lb., 75 cts.; $2.50.

Dwarf Green Curled. The leaves are yellowish-green, grow very compact and are
beautifully curled; sow the seed in September for winter and spring use. Pkt., 10
cents; oz., 25 cents; \$ lb., 75 cents; \$2.50.

Dwarf Curled Scotch. Leaves bright
green, curled, very tender and fine flavored;
an excellent sort. Pkt., 10 cents; oz., 25
cents; \$ lb., \$2.50.

Sea Kale. Served like asparagus. Pkt., 10
cents; oz., 35 cents; \$ lb., \$1.00; lb., \$3.50.

KOHL=RABI
Chou Rave, Fr. Cabbage, Sp.
(Turnip-rooted Cabbage.)

One ounce of seed will sow a drill
of about 300 feet.

Culture.—The edible part is the bulb,
which grows on a stalk a few inches above
the ground. Sow seed in drills, allowing 16 or 18 inches space
between the drills, and thin to 4 or 6 inches apart in the row.
First sowing may be made as soon as ground can be worked in
spring and successive ones repeatedly later.

Earliest White Kohl-Rabi. A tender variety, with smooth
root and short top. One of the best for outdoor culture. Pkt.,
10 cents; oz., 30 cents; \$ lb., \$1.00.

Early White, or Green Kohl-Rabi. The flesh is white
and tender; a standard sort for market and table use. Good
for forcing. This variety has a very short top and forms the
ball quickly, thus making it particularly desirable on account
of earliness. Pkt., 10 cents; oz., 30 cents; \$ lb., \$1.00.

Early Purple Kohl-Rabi. A small, but very early variety,
used for forcing or early planting in the garden. The top
grows small and skin is purple, but flesh white and of good
flavor. Pkt., 10 cents; oz., 30 cents; \$ lb., \$1.00.

POLONIA, Fr. LEEK Puerro, Sp.

Culture.—Sow early in April in drills 1 foot apart and 1 inch
deep. When plants are 6 to 8 inches high, transplant in a deep,
rich soil, in rows 12 inches apart and 6 inches in the rows as
depth as possible, so that the neck may be covered and blanched;
draw the earth to them as they grow. The seed may also be sown
in August or September, plants transplanted in the spring.

Creer's Prizetaker Leek. (See cut.) A fine, large va-
riety of Leek, which is very mild and tender. The Leeks grow
very long and thick, and are pure white in color. It belongs
to the onion family, and the lower part of the leaves or stem
blanch white and may be eaten raw, being milder than the
onion. Pkt., 10 cents; oz., 45 cents; \$ lb., \$1.25.

Giant Carentan. Produces a large thick stem, and is of mild
flavor. The leaves are dark and the plant is very hardy and it
is suitable for planting either in the spring or fall. Pkt.,
10 cents; oz., 35 cents; \$ lb., \$1.00.

Musselburg. Grows to a very large size, with broad leaves,
spraying like a fan. It is hardy and well suited for the home
garden. Pkt., 10 cents; oz., 35 cents; \$ lb., \$1.00.

London, or American Flag. A well-known and popular
sort, hardy and good quality. Grows long and is rather broad.
Pkt., 5 cents; oz., 30 cents; \$ lb., 80 cents.
LETTUCE

CULTURE.—Sow the seed in hotbeds or flats during February or early March, prick the young seedlings out in flats or cold frame several inches apart each way, and, as soon as a nice, rich, warm spot can be prepared in open ground in spring, transplant the well-hardened plants in rows a foot apart, allowing 8 to 12 inches space between the plants in the row. For succession sow seed thinly in open ground, and thin the plants to 5 or more inches apart. Sow for succession every few weeks until the fall. Some varieties do well in a cool forcing house during winter.

Grand Rapids Forcing. (See cut.) Matures quickly, large size and handsome appearance; crisp and tender. Forms a loose cluster of leaves which are bright green and crimped at the edge. Pkt., 10 cts.; oz., 30 cts.; lb., 85 cts.

May King. Very hardy, and stands cold damp weather. May be planted out of doors or under glass. The outer leaves are yellowish-green, tinged with brown, while inside is rich golden yellow. Pkt., 10 cts.; oz., 30 cts.; lb., 85 cts.

Iceberg. A curly Lettuce, large, solid heads. The outer leaves are light green in color, and their habit of branching towards the centre of head is a great aid to the blanching of heart. Pkt., 10 cts.; oz., 30 cts.; lb., 85 cts.

Early White Cabbage (White Butter Lettuce). Good for fall sowing, as it is nearly hardy and requires but little protection. Pkt., 5 cts.; oz., 25 cts.; lb., 75 cts.

French Unrivalled. (See cut.) A sure-heading variety, suitable for growing at any season. Forms large, compact, buttery heads, and is slow to shoot to seed. The general character is similar to "Big Boston," except that the color is a lighter green and leaves are not tinged with brown. Pkt., 10 cts.; oz., 40 cts.; lb., $1.25.

Early Curled Simpson (Silesian). This does not head, but forms a close, compact mass of leaves; very early; excellent for forcing. Pkt., 5 cts.; oz., 25 cts.; lb., 75 cts.

Dreer's Improved Hanson. This superior Lettuce, which we introduced over forty years ago, is one of the best summer heat-resisting sorts. Heads grow to good size, are sweet, tender and crisp. Pkt., 5 cts.; oz., 25 cts.; lb., 75 cts. For Plants, see page 211.

Wonderful. The heads of this Lettuce grow to an enormous size, and resemble cabbage in their solidity, measuring from 12 to 15 inches across, and frequently weighing 2 and 3 pounds each. The quality is superb, being crisp, rich and tender. It withstands the heat well, making a fine variety for all seasons. Pkt., 10 cts.; oz., 30 cts.; ½ lb., $1.00.

Kingsholm Cos. (See cut.) Forms long, upright heads of narrow leaves, which are crisp and refreshing, withstanding the summer heat. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 85 cts.

**HERB SEEDS**

**CULTURE.**—Sow early in spring in shallow drills, 1 foot apart; when up a few inches thin out or transplant. They should be cut on a dry day just before they come into full blossom, tied in bunches or hung up or spread thinly on a floor to dry. Those marked with a * are perennial.

**Balm.** Lemon-scented and is used in making Balm tea and wine. Pkt., 10 cts.; oz., 40 cts.

**Anise.** For garnishing and flavoring; also in making cordials. Pkt., 10 cts.; oz., 30 cts.

**Basil, Sweet.** The stems and seeds are used in soups and sauces. Pkt., 10 cts.; oz., 30 cts.

**Caraway.** Used in bread, etc. Pkt., 10 cts.; oz., 30 cts.

**Castor Oil Bean.** Used for medicine and ornamental bedding plants. Pkt., 5 cts.; oz., 20 cts.

**Catnip.** For medicinal purposes, and relished by cats, who roll it in with great delight. Pkt., 10 cts.; oz., 50 cts.

**Chamomile.** Plants only, see page 210.

**Chervil.** Seeds are aromatic. Pkt., 10 cts.; oz., 25 cts.

**Dill.** Used for making Dill pickles, and the seeds are used for seasoning. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.

**Fennel, Sweet.** For salads, etc. Pkt., 10 cts.; oz., 25 cts.

**Horseradish.** Has a bitter flavor, and is used in cough medicines. Pkt., 10 cts.; oz., 50 cts.

**Lavender.** For perfuming linen. Pkt., 10 cts.; oz., 50 cts.

**Pennroyal.** Pkt., 25 cts.; oz., $1.25. For plants, see page 211.

**Peppermint.** Pkt., 25 cts. For plants, see page 221.

**Rosemary.** Pkt., 10 cts.; oz., 50 cts. Plants, see page 211.

**Saffron.** Used for flavoring. Pkt., 10 cts.; oz., 30 cts.

**Sage.** Leaves used for seasoning meats, etc. Pkt., 10 cts.; oz., 50 cts.; ½ lb., $1.50. For plants, see page 211.

**Savory, Summer.** Leaves and shoots are used for flavoring. Pkt., 10 cts.; oz., 50 cts.

**Savory, Winter.** Pkt., 10 cts.; oz., 50 cts. Plants, see p. 211.

**Spearmint.** Plants only, see page 211.

**Sweet Marjoram.** Leaves used green in summer and dried in winter for flavoring. Pkt., 10 cts.; oz., 30 cts.; ½ lb., $1.00.

**Tarragon.** Plants only, see page 211.

**Thyme, Broad-leaved English.** Pkt., 10 cts.; oz., 60 cts.; ½ lb., $2.00. For Plants, see page 211.

**Thyme, French Summer.** Used for seasoning, and attractive to bees. Pkt., 10 cts.; oz., 60 cts.; ½ lb., $2.00.

**MUSHROOM SPAWN**

**English Milltrack Spawn.** A splendid make of English Spawn which gives excellent results, producing large crops of Mushrooms. It is made with great care, and is full of live "mycelium." It is made in bricks, of about 1½ lbs., and each brick is sufficient for 8 square feet of bed. Per brick, 25 cts. (by mail, 35 cts.); by express, 12 bricks, $2.75; 25 lbs., $4.00; 50 lbs., $7.00; 100 lbs., $12.00.

**American Spore Culture Spawn.** An American make of spawn, which produces Mushrooms of excellent quality and large size. It is produced from original spores of the best varieties, gathered, germinated and propagated under a famous French process, producing the most vigorous and prolific spawn. We furnish the Cream White No. 8 variety. Per brick, 35 cts. (by mail, 45 cts.); by express, 5 bricks, $1.00; 10 bricks, $3.00; 25 bricks, $7.00; 50 bricks, $15.00; 100 bricks, $25.00.

**Drer's Mushroom Circular free on application.** Tells how to prepare the Mushroom bed and take care of crop. If interested in growing Mushrooms write for a copy.
MUSKMELONS

One ounce will plant about 50 hills; 2 to 3 lbs. in hills per acre

CULTURE.—Melons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, hills 5 to 6 feet apart each way for Muskmelons, 8 to 10 feet for Watermelons. Previous to sowing the seed mix a few shovelfuls of well-rotted manure in each hill, and plant in each 12 to 15 seeds, after all danger of bugs is over, thin out to three or four plants per hill. A few hills for early use may be had, by sowing on pieces of sod in a hotbed, and when warm enough transplant to open ground. Melon vines are subject to the same destructive insect and fungous foes as cucumber and squash vines. Early and repeated spraying with Bordeaux Arsenate of Lead Mixture is always advisable for these crops.

Rocky Ford Improved. (See cut.) This Melon is of the Netted Gem type, oval in shape and beautifully netted. Melons about five inches in length, and have a delicious flavor; flesh is smooth and light green color. Pkt., 5 cts.; oz., 15 cts.; lb., 45 cts.; lb., $1.50.

Netted Rock. A distinct variety, about the same size as Rocky Ford. Thick green flesh which is very sweet. Pkt., 10 cts.; oz., 20 cts.; lb., 50 cts.; lb., $1.75.

Extra Early Hackensack. Skin green, turning yellow when mature; flesh green, very sweet. Pkt., 10 cts.; oz., 20 cts.; lb., 50 cts.; lb., $1.75.

Honey Dew Melon. (See cut.) This new Melon is unlike the ordinary muskmelon or cantaloupe both in appearance and flavor, the outer skin being smooth, hard and nearly white. The melons are large, round to oval in shape, extremely thick meated and have a very small seed cavity; flesh is light green, very solid and of a rich honey-like flavor. Pkt., 10 cts.; oz., 30 cts.; lb., 85 cts.; lb., $3.00.

Hoodoo. Grows to a convenient size. Flesh thick and firm; deep salmon or orange color. Pkt., 10 cts.; oz., 20 cts.; lb., 60 cts.; lb., $2.00.

Tip Top. Medium sized, nearly round. Flesh is deep yellow and has a rich flavor. Pkt., 10 cts.; oz., 20 cts.; lb., 60 cts.; lb., $2.00.

Miller's Cream, or Osage. Large and round, light green, netted skin, and thick, sweet, salmon flesh, Pkt., 10 cts., oz., 20 cts.; lb., 60 cts.; lb., $2.00.

Defender. Medium size, salmon flesh and delicious flavor; oval shape, slightly ribbed; Pkt., 10 cts.; oz., 20 cts.; lb., 60 cts.; lb., $2.00.

IMPROVED MUSKMELONS FOR FORCING

Bienheim Orange. A favorite variety; scarlet flesh, good flavor and very prolific. Pkt., 25 cts.

WATERMELONS

One ounce for 30 hills; four to five pounds for an acre

CULTURE.—See directions given under Muskelmels. Watermelons, however, are slightly less subject to "bug" depredation and disease attacks than Muskelmels. At the same time they are more easily hurt by strong spray mixtures, and caution in the use of such mixtures is advisable.

Harris's Earliest. This excellent Watermelon grows rather large for an early variety, slightly oval in shape, skin mottled light and dark green. It is uniform in size and shape; the flesh is solid, bright red, very tender and sweet. Pkt., 10 cts.; oz., 20 cts.; $1 lb., 50 cts.; lb., $1.75.

Blue Gem, or Iceberg. (See cut.) An excellent variety, which is similar in shape to the well-known Kolb's Gem, but has darker skin. The Melons grow to large size. The heart is large, and flesh, a beautiful shade of pink, darker than Kolb's Gem, extends close to the outer skin and is of sweet flavor. Pkt., 10 cts.; oz., 20 cts.; $1 lb., 50 cts.; lb., $1.75.

Dixie. A cross of Kolb Gem and old-fashioned Mountain Sweet, surpassing the former in earliness, productiveness and shipping qualities, and fully equalling the latter in quality. Pkt., 5 cts.; oz., 10 cts.; $1 lb., 45 cts.; lb., $1.50.

Alabama Sweet. A large and attractive Melon which is oblong in shape, early in maturing and very sweet. Pkt., 5 cts.; oz., 10 cts.; $1 lb., 45 cts.; lb., $1.50.

Monte Cristo, or Kleckley Sweets. Very large, oval shape, skin dark green and somewhat mottled. The rind is thin, but hard, and the flesh is extremely sweet. Pkt., 10 cts.; oz., 20 cts.; $1 lb., 50 cts.; lb., $1.75.

Tom Watson. (See cut.) A large oblong Melon, the skin of which is dark green, with netting all over. It originated in Georgia, a State noted for producing fine Watermelons, and this new variety is a good example of what a first-class Watermelon should be. The rind is thin, but tough, and the flesh a bright, attractive red color, of a delicious, sweet and satisfying flavor. Its appearance and quality strongly recommend it both for home use and for market. Pkt., 10 cts.; oz., 20 cts.; $1 lb., 50 cts.; lb., $1.75.

MARTYNIA

Culture.—The seedpods are used for pickling when gathered young and tender. Sown in open ground in May in hills 3 feet apart each way, or in a hotbed, and afterwards transplanted. If once planted in the garden voluntary plants are likely to spring up the following year from scattered seeds.

Martynia Proboscidea. Large size, with long horns. Pkt., 10 cts.; oz., 40 cts.; $1 lb., $1.10; lb., $4.00.

MUSTARD

Culture.—A small, pungent salad used like cress; the seed is also used for flavoring pickles, pepper sauce, etc. For salads sow thickly in shallow drills, 6 inches apart, or in frames or boxes during the winter, where frost can be partially excluded. Successive sowings can be made every week or two. To grow seed, sow in April, in rows 1 foot apart, and thin out to 3 inches apart when 2 inches high.

DREER’S CHOICE ONION SEED

CULTURE.—For early green or bunching Onions, sow seed of Silver Skin or other hardy white varieties in early August in well prepared and well drained rich, loamy soil, giving 1 foot space between the rows, and using 20 pounds of seed per acre. In many localities they winter well without mulch or other protection. For dry (fall) bulbs, select a clean, rich, well drained and well manured piece of land, prepare a perfect seed-bed, and sow seed in early spring in drills 15 inches or so apart, using 4 to 6 pounds of fresh seeds per acre. Use wheel hoe and weeder freely and thin plants to stand at least 2 inches apart in the rows. Pull when tops begin to die down, cure and sell, or store in a cool, dry place. For sets, select a clean sandy soil of medium fertility, prepare it well in early spring, and at once sow seeds in drills a foot apart, using 40 to 60 pounds of seed per acre. Gather the sets when ripe, cure and store in a dry, airy place. They may be wintered in a slightly frozen condition, but must be protected from repeated freezing and thawing. In early spring following plant them in shallow drills, 12 inches apart, and about 2 inches apart in the drill. By sowing seed of the Spanish type, such as Prizetaker and Southport Globes, under glass in January, February or March, and transplanting in April to open ground 3 to 4 inches apart in the rows, bulbs of immense size may be produced. One ounce of Onion seed for 200 feet of drill, 4 to 5 pounds for one acre.

Ideal Yellow Globe. (See page 8.) Pkt., $1.00; OZ., 10 cts.; ½ lb., $1.10; lb., $4.00.

Philadelphia Yellow Dutch. A good keeper and well flavored; bright straw colored skin and somewhat flattened shape. Largely grown for sets on account of its excellent keeping qualities. Pkt. 10 cts.; oz., 30 cts.; ½ lb., 80 cts.; lb., $2.75.

Yellow Globe Danvers. (See cut.) Onion growers throughout the country prefer this type of Onion to all others, and it is with this in view that the bulbs from which our seed is grown are especially and carefully selected as to shape. It is the best paying Onion that is grown for a general crop, and has been the leading variety for years. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 80 cts.; lb., $2.75.

Prizetaker. (See cut.) The large size and handsome appearance of this Onion makes it equally desirable for the home garden or for market. It is strictly “fancy,” and is found on fruit stands during the fall, where it is sold as Spanish Onion. The true Prizetaker Onion is globe shape, has pale yellow skin and white flesh, which is very mild and of delicate flavor. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 85 cts.; lb., $3.00.

Southport Yellow Globe. A very large, handsome, globular-shaped yellow variety, very productive, of mild flavor. The outer skin is pale yellow, and the flesh creamy white. The bulbs are of a beautiful globe shape and grow a little larger than the Southport Red Globe. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 85 cts.; lb., $3.00.

Gigantic Gibraltar. A large Onion, somewhat on the order of “Prizetaker,” globe shape, with light straw-colored skin and white flesh, which is quite mild. Pkt., 10 cts.; oz., 40 cts.; ½ lb., $1.10; lb., $4.00.

White Queen, or Barletta. Used for pickling. Pkt., 5 cts.; oz., 35 cts.; ½ lb., $1.25; lb., $4.00.
DREER’S CHOICE ONION SEED—Continued

Southport White Globe. (See cut.) Pure white color, and of very mild flavor, also equally as good for keeping as the Yellow Globe. Excellent for use as a medium crop, but most valuable when grown for the main crop, as the flesh is remarkably firm and solid. It is an enormous yielder, and as it is very attractive, always sells at high prices. It is best to dry these onions in a shady place, and give them plenty of air. Pkt., 10 cts.; oz., 30 cts.; $1.10; lb., $4.00.

White Portuguese, or Silver Skin. One of the leading white sorts, beautiful shape and mild flavor. The bulbs are flat in shape and mature early. A good variety for raising onion sets, as it keeps well. Pkt., 10 cts.; oz., 30 cts.; $1.00; lb., $3.50.

Extra Early Red. Earlier than the Wethersfield, and somewhat smaller, close-grained and a good keeper. The onions are flat in shape, grow very uniform and are somewhat strong in flavor. Pkt., 10 cts.; oz., 30 cts.; $1.00; lb., $3.50.

Large Red Wethersfield. Grows to full size the first season from seed. The Onions are large, flat in shape, with skin of a purplish-red color and flesh of a purplish-white color, rather strong-flavored and an excellent keeper. Pkt., 10 cts.; oz., 30 cts.; $1.00; lb., $3.50.

CHOICE ONION SETS

Prices subject to market changes

If by Parcel Post add as follows: To points East of the Mississippi River, 10 cents quart; West of the Mississippi River, 20 cents quart.

Onion Sets should be planted in rows 12 inches apart, with sets 2 inches apart in the row. 1 quart will plant 100 feet.

OKRA, OR GUMBO

Gomphaid, Fr.

Quinbombo, Sr.

Culture.—This vegetable is extensively grown for its green pods, which are used in soups, stews, etc., to which they impart a rich flavor, and are considered nutritious. Sow the seed thickly in rich ground about the middle of May, or when the ground has become warm, in drills 3 feet apart, 1 inch deep, thin to 10 inches apart in drills. Culture otherwise much like corn.

Perkins’ Long-Pod Okra. An exceedingly handsome variety. The pods grow 4 or 5 inches in length and are very tender, long, slim and of a beautiful deep green color. On account of size and fine quality, this Okra is taking the place of other sorts. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts.; lb., 85 cts.

Improved Long Green. (See cut.) An old-time favorite; very productive and bears long pods, which are of good quality. Pkt., 5 cts.; oz., 10 cts.; ½ lb., 30 cts.; lb., 85 cts.

Ruby Giant. A variety of Mango Pepper, which is of a desirable size and shape for stuffing. A cross of Ruby King and Chinese Giant, grows to large size and is very mild. Pkt., 10 cts.; ½ oz., 45 cts.; oz., 80 cts.; ½ lb., $2.50.

Giant Crimson. Upright growth and produces fruits nearly as large as "Chinese Giant." Ripens early and when matured, the Pepper are deep crimson and flesh very mild. Pkt., 10 cts.; ½ oz., 45 cts.; oz., 80 cts.; ½ lb., $2.50.

Large Bell or Bull Nose. Large early variety. Pkt., 10 cts.; oz., 50 cts.; ½ lb., $1.75. For plants see page 211.

Neapolitan. A variety of Sweet Pepper which matures very early. It grows about 3 inches long and is remarkably sweet. Pkt., 10 cts.; oz., 75 cts.; ½ lb., $2.25.

Long Red Cayenne. Pods are long and slender; bright red and very pungent. This is an old-time favorite and used extensively for bunching with pot-herbs. Pkt., 10 cts.; oz., 50 cts.; ½ lb., $1.75.

Long Sweet Spanish. The Peppers, sometimes grow six or seven inches long and two inches in diameter. The fruits are bright green, turning to a rich red when matured. Flesh thick and mild flavor. Pkt., 10 cts.; oz., 50 cts.; ½ lb., $1.75.

Tabasco. Small and very hot. Used as a condiment either in vinegar or for making sauce. Pkt., 10 cts.; oz., 80 cts.

Red Cherry. Very ornamental . . . . . . . . $10 50 $1.75
Celestial. Small upright pods . . . . . . . . 10 50 1.75
Red Japan Cluster. Small and hot . . . . . . 10 50 1.75
Creole, or Bird's Eye. Very small . . . . . . . 10 80

Pepper Plants. (See page 211.)
GARDEN PEAS

Chicaros o Gifantes, Sr.

One pound will plant about fifty feet of drill.

CULTURE.—Peas of extra early smooth class are the very first thing to be planted in the garden in spring. The wrinkled sorts follow a little later, as they are not quite so hardy. Tall late varieties need brush or other support. By selecting sorts that do not grow much over two feet high, the necessity of providing for succession will give a full supply of the choicest green Peas almost during the entire season, with the exception of the hottest part of the summer. Open furrows three or four inches deep and three feet apart; scatter the seed Peas into them and cover with hoe or plow. Cultivate like corn or beans. The late tall sorts may be planted in double rows and brush stuck in between for support. All Garden Peas, however, require strong and fertile land. Heavy yields cannot be obtained on poor soil. The very dwarf sorts of the American Wonder type will succeed only on the very richest garden land and may be planted in rows a foot apart.

Material for inoculating Peas will be found offered on page 224.

PEAS BY PARCEL POST

The prices given in this catalogue for Peas of all kinds are for same to be sent by express or freight at purchaser's expense. If wanted by Parcel Post, remit as follows:

To points East of Mississippi River, 7 cts. per pound.
To points West of Mississippi River, 12 cts. per pound.

Packets of all varieties of Peas, 10 cts. each.

EARLY VARIETIES

Market Surprise. (See Specialties, page 8.)

Dreer's Electric Early. This has been our leading variety of Extra Early Peas for years and is the best of the small, round, blue-seeded extra early sorts. The vines grow very uniform and attain a height of 2 feet, bearing an abundant crop of medium size, dark green pods, which are well filled with Peas of good flavor. It is not only valuable for early use but is especially adapted for planting in August, when most plantings of other varieties result in failure. We consider Dreer's Electric Early the most reliable Pea for planting as early in the spring as the ground can be worked, and strongly recommend it for that purpose. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if wanted by Parcel Post, add as stated at top of page). 10 lbs., $3.00.

Dreer's Eureka Early. (See cut.) One of the earliest and most prolific extra early varieties, which has given good results wherever grown. Vines grow to a height of about 20 inches and are very robust, bearing an abundant crop of pods which measure about 2 inches in length, and are well filled with peas of excellent flavor. It is an extremely even cropper, and can be gathered clean in two pickings; height 20 inches. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated at top of page). 10 lbs., $3.00.

Alaska. A well known extra early round seeded pea which is extensively used for canning. It matures very early and the pods are of a dark-green color, while the peas are light green, medium in size and of good flavor for so early a variety; height 2 feet. By express or freight, at purchaser's expense, lb., 35 cts.; 2 lbs., 60 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $2.75.

Gradus, or Prosperity. This splendid variety combines the finest quality with extreme earliness and is also very productive. Grows vigorous and healthy; vines about three feet in height, bearing pods fully as large as Telephone, and which are well filled with beautiful light green Peas, which color they retain after being cooked. The quality and flavor are delicious and a valuable feature with the "Gradus" is, that the Peas remain tender and sweet for a long time after having been picked from the vines. By express or freight, at purchaser's expense, lb., 50 cts.; 2 lbs., 90 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $4.00.

Surprise Pea. This Pea, as the name implies, is the quickest sweetest of the wrinkled sorts. Vines grow about 2 feet high and are enormously productive. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $3.50.

Thomas Laxton. An early variety of large-podded Pea, which is very hardy and a strong grower, producing pods in abundance. The habit and growth of vine resembles Gradus, although the color is darker and pods more blunt in shape. The pods are well filled with large peas, which are very sweet. This variety will mature as early as many of the smooth extra early Peas and may be planted at same time; height 3 feet. By express or freight, at purchaser's expense, lb., 50 cts.; 2 lbs., 90 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $4.00.

American Wonder. A very fine extra early wrinkled variety, well suited for the private garden. It is productive, very sweet, and one of the earliest, dwarf-wrinkled Peas. Although the vines of this variety are not very large, it is surprising how productive they are, and the pods are well filled; height 1 foot. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $2.50.

Nott's Excelsior. An improvement on American Wonder, being fully as early and the pods are larger, measuring nearly three inches. The vines make a healthy growth and produce a large number of pods which are well filled with very sweet and finely flavored peas. Desirable for market and home use; height 14 inches. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $3.50.

Premium Gem, or Little Gem. A fine dwarf-wrinkled variety. Vines grow 18 inches high and pods are borne on both sides of stalks, beginning near the ground and producing large crops. While the pods of this variety are not large, they are closely packed and shell out large quantities of peas which are of excellent flavor. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (If by Parcel Post, add as stated at top of page). 10 lbs., $3.50.
GARDEN PEAS—(Continued)

PEAS BY PARCEL POST

The prices given in this catalogue for Peas of all kinds are for same to be sent by express or freight at purchaser's expense. If wanted sent by Parcel Post, remit extra as follows: To points East of Mississippi River, 7 cts. per pound. To points West of Mississippi River, 12 cts. per pound.

Packets of all varieties of Peas, 10 cts. each

SECOND EARLY AND MEDIUM VARIETIES

Senator. (See cut.) Peas fit to pick in about sixty-one days, pods about 4 inches long, curved and rich dark-green color, well filled with medium size, green, wrinkled peas, which are very sweet and tender. These are the qualities which recommend this Pea to every one who has a garden; height, 3 feet. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.50.

Abundance. Pods contain 6 to 8 wrinkled Peas, and ripen about one week after the earliest kinds; height, 1½ feet. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.00.

Advancer. Prolific, well filled, long pods, tender and delicious flavor; 2 feet. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.00.

Shropshire Hero. Produces long, handsome, well-filled pods in great abundance; 2½ feet. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.00.

Long Island Mammoth, or Telegraph. A very productive late variety; 4 feet. By express or freight, at purchaser's expense, lb., 40 cts.; 2 lbs., 70 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.00.

GENERAL LATE CROP

Dwarf Champion. (See cut.) A splendid dwarf variety which is very hardy, productive and of fine quality. Has less vine and produces larger pods than Champion of England; height, 2 feet. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.50.

Telephone. A large poded Pea for general crop. The vines are very strong in growth and average 18 to 20 pods per stalk; the pods are of large size, containing 6 to 7 peas each, which are of pale green color, closely packed in the pod, and of a most delicious flavor; height, 3½ feet. By express or freight, at purchaser's expense, lb., 45 cts.; 2 lbs., 80 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $3.50.

Carter's Daisy, or Dwarf Telephone. This is a Dwarf variety, bearing large, handsome pods like Telephone; height, 18 inches. By express or freight, at purchaser's expense, lb., 50 cts.; 2 lbs., 90 cts. (if by Parcel Post, add as stated on this page); 10 lbs., $4.00.

Prices given below for Peas are for same by express or freight at purchaser's expense. If wanted by Parcel Post, add as stated at top of page.

GARDEN PEAS—Continued

Packets of all varieties of Peas, 10 cts. each.

Potlatch. (See cut.) A large-podded variety of wrinkled Pea, which is very productive and of excellent quality. The vines grow to a height of about 20 inches; foliage is a healthy dark green color and the crop matures in about 65 days. The pods, which are borne in pairs, are long, dark green, and well filled with large Peas. Because of its great productiveness and fine quality, the “Potlatch” will surely please all who plant it. By express or freight, at purchaser’s expense, lb., 50 cts.; 2 lbs., 90 cts. (If wanted by Parcel Post add as stated on page 36.) 10 lbs., $4.00.

Improved Stratagem. Pods of immense size, filled with very large dark green Peas of the finest quality. The vines make a sturdy growth, and are well filled with the large, handsome pods; height, 18 inches. By express or freight, at purchaser’s expense, lb., 50 cts.; 2 lbs.; 90 cts. (If by Parcel Post add as stated on page 36); 10 lbs., $4.00.

Large White Marrowfat. Height, 5 feet. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (If by Parcel Post, add as stated on page 36); 10 lbs., $2.75.

Black-eyed Marrowfat. Height, 4 feet. By express or freight, at purchaser’s expense, lb., 35 cts.; 2 lbs., 60 cts. (If by Parcel Post, add as stated on page 36); 10 lbs., $2.75.

French Canner (Petit Poids, or Small French Pea). Very prolific, with long, slim pods, containing from 7 to 10 peas; 3 to 3½ feet. By express or freight, at purchaser’s expense, lb., 40 cts.; 2 lbs., 70 cts. (If by Parcel Post, add as stated on page 36); 10 lbs., $3.00.

Melting Sugar. The pods grow 5 to 6 inches long, and are cooked with the Peas. Height, 5 ft. By express or freight, at purchaser’s expense, lb., 50 cts.; 2 lbs., 90 cts. (If by Parcel Post, add as stated on page 36); 10 lbs., $4.00.

Giant Sugar. The largest podded variety. Pods are very tender and sweet. Height, 5 ft. By express or freight, at purchaser’s expense, lb., 50 cts.; 2 lbs., 90 cts. (If by Parcel Post, add as stated on page 36); 10 lbs., $4.00.

FIELD PEAS. (See page 49.)

Panais, Fr.

PARSNIP

Chirivia, Sr.

One ounce for 200 feet of drill, 5 to 6 lbs. for an acre

Culture. Sow as early in the spring as the weather will admit in drills 18 inches apart and ½ inch deep in a rich soil, thinning out to 3 or 6 inches apart in the rows. The quality of the roots is improved by leaving them in the ground over winter for spring use. Secure enough in pits or cellars in the fall for immediate needs.

Student, or Guernsey. A long smooth variety which grows uniform in shape, and is of excellent quality, being tender and sweet. Pkt., 5 cts.; oz., 15 cts.; ½ lb., 40 cts.; lb., $1.25.

Large Sugar, or Hollow Crown. (See cut.) The best variety; roots long, very smooth, white, tender, sugary, and of excellent flavor. This strain was made by careful selection of roots growing to an ideal shape and having the distinct hollow crown. We have been improving it for some years past, and now have it nearly perfect, the roots growing uniform in size and shape, making a very attractive appearance and especially desirable for market gardener’s use. Pkt., 6 cts.; oz., 15 cts.; ½ lb., 40 cts.; lb., $1.25.
POTATOES

Potatoes, Sr.

Cultivation. Any good well drained fibrous loam will produce Potatoes under right climatic conditions. For early Potatoes, which mature in 8 to 10 weeks from planting, the soil must be particularly rich. A rich clover sod, manured and broken the year before and planted to corn, beans, peas, oats, etc., is in best shape for giving a good yield of nice clean potatoes. Stable manure had better be applied to the land the year before, while some good complete fertilizer, at the rate up to 1000 pounds per acre, is applied broadcast, or 400 to 600 pounds if applied mostly in the rows, may be used directly for the Potato crop. Open furrows 3 feet apart and 3 to 4 inches deep. Apply the fertilizer, and run the furrower or small plow again in the furrow to mix the fertilizer with the soil and leave a mellow seedbed. Then plant good-sized pieces, each one containing not less than 2 or 3 eyes, 15 inches apart in the furrows for early potatoes, and 18 inches apart for late ones. In some of the large Potato sections the Potatoes are always planted in check rows 3 feet apart each way. Cover with coverer, small plow or other suitable tool. Cultivate often. Spray with Bordeaux Arsenate of Lead Mixture as a protection from flea beetle, potato beetle and blight. 8 to 10 bushels will plant an acre.

IMPORTANT. - Prices of Potatoes are subject to market changes. Potatoes are forwarded in sacks, by express or freight as directed by purchaser paying charges. We assume no risk on Potatoes, which are shipped strictly on purchaser's responsibility.

Dr. E'r's Early Standard. (See cut.) An extremely early variety, which matures fully one week ahead of the Bovee. The plants are of dwarf, compact habit in growth, strong and healthy. It usually produces a large crop of smooth potatoes, which are roundish in shape, beautiful white skin, very smooth and few eyes. Peck (15 lbs.), $0.90; bu. (60 lbs.), $3.40; sack (165 lbs.), $8.00.

Irish Cobbler. One of the first varieties of Potatoes to be ready for use. The skin is creamy white, sometimes netted, which is an indication of good quality; eyes are strong, well developed and but slightly indented. Peck (15 lbs.), 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

Bovee. Earlier than Early Rose and much more productive. The vine is dwarf, skin pink, and the quality is all that could be desired. Keeps well for an early variety. Peck (15 lbs.), 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

Early Rose. Shape long and good size. It cooks mealy and is of good flavor. Peck (15 lbs.), 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

Beauty of Hebron. Early and productive. Tubers large, keep well. Peck (15 lbs.), 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

Rural New Yorker No. 2. A valuable variety of large size, very smooth. It is a great cropper and keeps well. Peck (15 lbs.), 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

State of Maine. Medium early, splendid flavor, cooks dry, is a good keeper and very productive. Peck (15 lbs.) 85 cts.; bu. (60 lbs.), $3.00; sack (165 lbs.), $8.00.

PUMPKIN

Calabaza, Sr.

Culture. Sow in good soil in May, when the ground has become warm, in hills 10 feet apart each way, or in fields of corn about every fourth hill; plant at the same time with the corn. Pumpkin varieties if planted together will mix. There is not much danger of their mixing by hybridizing with squashes or other vines. One ounce for 25 hills, 2 pounds for an acre.

Mammoth Golden Cashaw. (See cut.) An improvement on the old Cashaw Pumpkin, the skin being golden-orange color. Pkt., 10 cts.; oz., 25 cts.; 1 lb., 70 cts.; 10 lbs., $2.25.

Sugar or New England Pie. For making pies this variety cannot be excelled. The Pumpkins are small but very sweet and fine-grained. Pkt., 5 cts.; oz., 15 cts.; 1 lb., 45 cts.; 10 lbs., $1.50.

Large Yellow Mammoth Potiron (King of the Potiron, Jumbo). Specimens have been grown weighing over 100 pounds. Pkt., 10 cts.; oz., 25 cts.; 1 lb., 70 cts.; 10 lbs., $2.25.

Quaker Pie Pumpkin. Fine-grained, oval-shaped and rich flavor; keeps well. Pkt., 5 cts.; oz., 20 cts.; 1 lb., 60 cts.; 10 lbs., $2.00.

CULTURE.—Sow early and often. In good, warm, fibrous loam, especially if quite sandy, summer Radishes will make a crop in 4 to 6 weeks from sowing. The soil should be well prepared and fertilizers may be used freely. Have the rows a foot apart, and sow just seed enough so that they will not require thinning. Any little spot that becomes available during summer may be utilized for planting Radishes. The short or turnip-rooted sorts are quickest and easiest to grow, and good for forcing 4 inches apart. Sow winter Radishes in July and August. They grow best in the cooler Autumn weather. Take them up before severe freezing and store in sand in the cellar or in a pit, where they will keep tender and crisp all winter.

Dreer's Crimson Ball. (See Colored Plate and page 9.) Pkt., 10 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

Cardinal Globe. (See cut.) Those who like the crisp little red Radishes that come so early will be pleased with this variety. The Radishes grow globular in shape, and are of a most brilliant cardinal-red color. It will stand considerable heat; therefore, it is a quick forcer, and the quality is fine, being crisp and tender. It is by far the best variety for forcing, and also does well in open ground, thus making it an extremely valuable and desirable sort for planting in the home garden and for market gardeners’ use. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

French Breakfast. A very early variety. Oblong shape, mild and tender. The skin is a lively pink in color on the upper portion, but lower part is pure white. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

New Perfection. (See cut.) This type of Radish, having red skin with white tip, has long been a favorite, and with this variety the white portion extends farther up than with ordinary Scarlet Turnip White Tip Radish. The general contour is turnip-shape, and size medium, very uniform, with flesh crisp, tender and sparkling. The rapidity of its growth recommends “New Perfection” for growing in the greenhouse, but it is equally as valuable for sowing in the garden. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

Crimson Giant. Suitable both for forcing or early planting out of doors. In shape it is round to oval, and very attractive. The flesh is mild and tender, and we recommend it to our customers as one of the best in its class, having found it to be such in our extensive trials. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

Round Red Forcing. One of the earliest of the Turnip varieties for forcing; short-leaved, small top; color of skin dark red, and the flesh is white. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

White-tipped Scarlet Gem. Leaves short and excellent for forcing; color bright scarlet with white tip. It is a very handsome variety and exceedingly rapid grower. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

Cincinnati Market. An extra early variety of the Long Scarlet type; of a clear bright red color and grows to large size. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 50 cts.; lb., $1.75.

Dreer’s Crystal Forcing. Of remarkably quick growth, beautiful shape; small top. A very desirable and shapely Radish; in fact, we consider it superior to any other round white forcing Radish. Compared to such white sorts as White Box, Round White Forcing, etc., it is far superior. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

Philadelphia White Box. A good turnip-shaped variety, which may either be grown in the garden or under glass. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.
RADISH—Continued

SUMMER RADISHES

**Icicle Radish.** (See cut.) Can be used for summer or in forcing frames, and makes radishes measuring from four to five inches long and half to three-quarter inch thick. Matures earlier than any other long white radish and is attractive, being pure white, almost transparent, and very tender. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

**Dreer's White Delicacy.** A very attractive, oblong Radish which is especially adapted for summer growing, as it stands hot weather. Pkt., 10 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

**White Strasburg.** Roots oblong; pure white; mild flavor. Can be used while quite small. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

**Beckert's Chartier.** Long crimson, shaded white. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

**Long White, or Lady Finger.** Skin and flesh are pure snow-white; crisp and of rapid growth. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

WINTER RADISHES

**White Chinese, or Celestial.** One of the best winter Radishes; stump-rooted, and even when extremely large the Radishes are solid, crisp and of a mild flavor; skin pure white and Radishes may be used at all stages of growth. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

**Scarlet China.** Bright rose color. Flesh white, crisp and pungent. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

**Long White Spanish.** Good flavor and keeps well. Pkt., 5 cts.; oz., 20 cts.; ½ lb., 60 cts.; lb., $2.00.

---

**Rhubarb, Fr.**

**RHUBARB Rubarbo, Sr.**

One ounce of seed to 125 feet of drill

Culture.—Good plants are easily grown in any good garden soil. Sow seed thinly in shallow drills a foot apart, thin to 4 or 5 inches. Keep soil loose and free from weeds. The plants are liable to vary considerably. Pick out the strongest and best. In fall or spring following, transplant to the permanent bed, 4 feet apart each way, in deep, warm and very rich soil. The more manure the better stalks. For winter forcing take up two-year roots in fall, leave out to freeze, then bed close together on cellar bottom or under greenhouse bench in the dark.

**Linnaeus.** Early, large, tender and very fine. Pkt., 5 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

**Victoria.** Very large, the finest cooking variety. Pkt., 5 cts.; oz., 25 cts.; ½ lb., 70 cts.; lb., $2.25.

(For Rhubarb Roots see page 211)

**Salsify, Fr.**

**SALSIFY Ostroon Vegetal, Sr.**

or VEGETABLE OYSTER

One ounce for 50 feet of drill

Culture.—Used the same as carrots, or, after having been boiled, made into cakes and fried like oysters, which they resemble in flavor. Cultivate the same as carrots or parsnips; it is hardly; can remain in the ground all winter for early spring use, but should be taken up before it starts growing; take up a supply for use during winter. Succeed best in light, well-enriched mellow soil. Sow early in the spring in drills 15 inches apart, 1 inch deep; thin to 6 inches in rows.

**Mammoth Sandwich Island.** (See cut.) This variety of Salsify grows to a very large size and resembles a good-sized Parsnip. It is very mild and delicately flavored, and very popular. Pkt., 5 cts.; oz., 25 cts.; ½ lb.; 75 cts.; lb., $2.50.

**Long White.** A favorite market variety and fine flavored. Pkt., 5 cts.; oz., 25 cts.; ½ lb., 75 cts.; lb., $2.50.

**Long Black, or Scorzonera.** Resembles above, but black. Pkt., 10 cts.; oz., 35 cts.; ½ lb., $1.00; lb., $3.50.
SPINACH

Culture.—For spring and summer use sow in drills 1 foot apart and 1 inch deep, as early as the ground can be worked, and every two weeks for a succession. For winter and early spring use, sow in September in well-manured ground; cover with straw on the approach of severe cold weather. The ground cannot be too rich. The stronger the ground the more delicate and succulent will be the leaves. The New Zealand Spinach, which requires more room, as it makes a large and spreading plant, may be started from seed early in the spring to give greens during the heat of summer. Light applications of nitrate of soda have often a magic effect on Spinach. One ounce for 100 feet of drill; 10 to 12 lbs. in drills for an acre.

Dreer's Round-seeded Savoy. (See cut.) This is the hardiest large Savoy-leaved; curled and crimped, with thick, fleshy leaves; excellent for family use, and best of all for fall sowing. Pkt., 5 cts.; oz., 10 cts.; 1 lb., 30 cts.; lb., $1.00.

New Zealand. This endures heat and is best for summer. Pkt., 10 cts.; oz., 25 cts.; 1 lb., 75 cts.; lb., $2.50.

Swiss Chard, or Spinach Beet. See page 17.
TOMATO

One ounce of seed will produce from 3,000 to 4,000 plants

CULTURE.—For first early Tomatoes select varieties of the earliest types, and start the plants under glass during February. When plants are 2 inches high, transplant into flats, thumb pots or plant boxes, and later on transplant again, giving more room. Never crowd the plants, but keep them short and stocky. Plants already in bloom or with fruit set, if in wooden plant boxes or in pots, may be transplanted to open ground without disturbing their roots, and will continue to bloom and fruit without check. Set these sorts 4 feet apart each way in warm, mellow soil of fair fertility as soon as danger from belated frost is past. For main crop, the plants can be started somewhat later, in hotbed or cold frame, once transplanted to keep them stocky, and then set in open ground in fairly warm soil, 5 feet apart each way. A very ornamental show can be made in the home garden by training tomato plants to stakes, poles or trellis. Applications of superphosphate, or of some good complete (vegetable) fertilizer often have a very happy effect on Tomatoes in hastening maturity and increasing the yield.

Spark's Earliana. (See ct.) This is an extremely early variety of Tomato, and produces large clusters of fair size fruits, which are very uniform in size and shape. It is hardy, and can be set out early. Color of flesh deep red, very solid and fine flavor. Our strain of this variety is equal to the best that can be obtained, and was grown for us in the section of New Jersey in which it originated, and where it is still largely grown for early market. Pkt., 10 cts.; oz., 45 cts.; ½ lb., $1.25.

Ponderosa. Fruits very large, purplish-pink, solid, and continues ripening until frost. This is a splendid main-crop variety, especially where large size is desired. Pkt., 10 cts.; oz., 75 cts.; ¼ lb., $2.00. For Plants see page 211.

Crimson Cushion. Large size, nearly round and of very good quality. The color is bright scarlet and flesh very thick and meaty. Specimens of this Tomato have weighed as heavy as one pound. Pkt., 10 cts.; oz., 75 cts.; ¼ lb., $2.00.

The Stone. The fruits are large and deep, bright scarlet, smooth, ripening evenly to the stem and exceedingly solid and firm-fleshed. It is a productive and the Tomatoes are heavy and thick-mested, making it a valuable variety for family use and for canning purposes. Pkt., 10 cts.; oz., 35 cts.; ½ lb., $1.00. For plants see page 211.

PRESERVING TOMATOES.—The following small-fuit varieties are used for making preserves, and are also quite ornamental. Pear-shaped Red, Pear-shaped Yellow, Yellow Plum, Yellow Cherry, Red Cherry, Red Current, Red Peach, Strawberry, or Ground Cherry. Each at 10 cts. per pkt.; 45 cts. per oz.

TOmato PLANTS. See page 211.

Sorrel

Sorrel, Fr.

Culture.—Used for soups and salads on account of its pleasant acid flavor. Sow seed in any good garden soil, in shallow drills a foot apart. Thin plants to a few inches apart and remove seed stalks as soon as they appear.

TURNIP

Novet, Fr.

One ounce will sow 200 feet of drill, one to two pounds for an acre

Culture. For early, sow seed of flat varieties in open ground in spring in drills one foot or more apart, using seed sparingly. Thin to 3 or 4 inches apart. For succession sow every two weeks until June. For fall and winter sow in July and August. A good crop may often be grown by scattering seed thinly in the cornfield at last cultivation. For Ruta Bagas sow seed in seeded in spring and summer broadcast on good warm soil, in rows at least 2 feet apart and 8 or 10 inches apart in the rows, or sow in open ground during June and early July. Take up the roots just before winter, top and store in cool cellar, or pit outdoors.

Purple Top White Globe. (See cut.)

This type of Turnip is more largely grown than any other, both for table use and feeding stock during the winter. It is in fine condition for table use when of medium size, but should be allowed to grow larger when used for cattle feeding. It is globular, in shape, very handsome and of superior quality. The flesh is white and skin white, with purple at portion which grows above the ground. It is in best condition for table use when roots are about three inches in diameter. Grows rapidly and produces large crops. It keeps well and is one of the best varieties grown; very largely used for market. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., $1.00.

Red or Purple Top (Stripe-Leaf). This is an old-time variety, but still largely grown in the Southern States. It is an early stripe-leaf sort which is good for early spring and fall use. Roots flat, top red or purple, flesh fine grained and mild flavor. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., $1.00.

Early White Flat Dutch (Stripe-Leaf). This is an Early White fleshed variety, of quick growth, mild flavor. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., $1.00.

Extra Early Purple-top Milan.

Handsome appearance, somewhat flat-tended, white, with purple top, flesh snow-white. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 75 cts.; lb., $2.50.

Early White Milan. Like above, but pure white. It matures very early and may be grown as close together in the row. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 75 cts.; lb., $2.50.

Snow Ball. A fine-looking pure white variety which matures in from six to seven weeks. The bulbs have a smooth white skin and are nearly round. This Turnip does not grow large, but is one of the best to sow very early in the spring. It can be used before fully grown, in which case it is very tender and sweet. Pkt., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; lb., $2.00.

Early White Egg. Mature very quickly and is adopted for either spring or fall sowing. It is egg-shaped, and very smooth with thin skin. The tops are small and roots which grow partly above the ground are of medium size, pure white skin and flesh which is fine and sweet. Pkt., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; lb., $2.00.

Long White, or Cow Horn. Grows very quickly, partly above ground; very productive; flesh white, fine grained and sweet; of excellent quality for family use and for stock feeding. The roots are very large, sometimes, fifteen inches long and two inches in diameter. This Turnip is also largely used for turnip greens as a green manure in conjunction with Crimson Clover, and is very valuable for that purpose. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Yellow Globe (Amber Globe). One of the best of the yellow Turnips for a general crop. It produces a globe-shaped root, with smooth skin and light-yellow flesh, which is firm and sweet. It grows to a large size, excellent for table use or feeding stock, and keeps well until late in the spring. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., $1.00.

Yellow Aberdeen, Purple Top. Very hardy and productive, good keeper, globe shaped and fine quality. The Turnips grow to a large size and are valuable for feeding stock. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., $1.00.

RUTA BAGA

Drer's Improved Purple Top. This special strain of Ruta Baga is remarkable for uniform shape and fine quality, and is also a splendid keeper. They grow to a large size, skin is smooth and flesh a beautiful yellow color and fine grained. The flavor is good, being very sweet and tender. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Budlong's Improved. White, very sweet; much milder flavor than any of the other sorts; globe-shaped; skin a creamy-yellow. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., $1.50.

Skirving's Purple Top. An important variety of large size and strong growth; a heavy cropper and one of the best. Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 40 cts.; lb., $1.25.

TOBACCO

Tubak, Fr.

One ounce of good seed is sufficient for an acre

Culture. Sow seed for plants early in spring in frames or seedbeds, using soil well enriched with wood-ashes, etc. Transplant to open ground when weather has become warm and settled, in rows 4 feet apart, and give cultivation as for corn.

Connecticut Seed Leaf. One of the best varieties for cigar wrappers. The leaves are of good width and length and grow closely on stalk. Pkt., 10 cts.; oz., 40 cts.

Havana. The seed we offer is the best Vuelta Abajo, obtained by us direct from Cuba, and is the finest flavored Havana tobacco grown. Pkt., 15 cts.; oz., 75 cts.
DREER'S

CELEBRATED LAWN GRASS SEEDS

Our special brands of Lawn Grass Seeds are noted for their adaptability to various situations and soil conditions, and are now used in every section of the country for making private lawns, and also on the grounds of many leading Country Clubs, Athletic Clubs, Golf Links, etc. The lawns at the Alaska-Yukon-Pacific Exposition, held during the summer of 1909, were made with "Dreer's Lawn Grass," and we were awarded a Gold Medal for same. Many other prizes have been awarded us for Grass Seeds, including a Gold Medal by the Pan-American Exposition, held at Buffalo, N. Y.

THE "DREER" LAWN GRASS

This is by far the best mixture of grasses offered for the purpose of quickly producing a permanent lawn. It is prepared from our own formula, and is a careful blending of varieties adapted to producing the thick growth and velvety appearance so much sought after. Each variety of grass in its composition is there for a special purpose; some for making strong fibrous roots, which take hold upon the soil and keep the turf in place, others of a creeping nature quickly fill up any bare spots which may be caused by the taller sorts dying down; varieties which are useful for their color value, and also kinds that are able to withstand the beating down of excessive rains.

Whether you want to seed a small grass plot in your yard, or a lawn of more pretentious size, you should use this grass mixture. For the convenience of customers, we put this seed up in various-sized packages, from the single quart, which is sufficient to cover one square foot of ground, to the bushel, which quantity is required for seeding large lawns, where from five to six bushels of seed to the acre are required. Per qt., 35 cts., postpaid. By express or freight, at purchaser's expense, per qt., 30 cts.; 4 qts., $1.00; peck, $1.50; bushel (20 lbs.), $6.00.

DREER'S SHADY PLACE GRASS

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our regular Lawn Grass mixture, it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a rich green sward. Per qt., 55 cts., postpaid. By express or freight, at purchaser's expense, per qt., 30 cts.; 4 qts., $1.00; peck, $1.50; bushel (20 lbs.), $6.00.

DREER'S TERRACE GRASS

Ordinary lawn grass will not hold the soil on terraces and embankments, which require a thick turf, composed of varieties which make strong roots to take hold of the soil and prevent washing by heavy rains. Our Terrace Grass is a carefully prepared combination of such grasses as will fill the requirements by making a quick growth of grass which will form a strong mat and present a good appearance. It will grow well anywhere, but it is best to enrich the soil, in order to provide nourishment to the young roots and give a vigorous start to their growth. Per qt., 35 cts., postpaid. By express or freight, at purchaser's expense, per qt., 30 cts.; 4 qts., $1.00; peck, $1.50; bushel (20 lbs.), $6.00.

SEASHORE LAWN GRASS

A rich, green lawn is especially desirable at the seashore, but unless the right mixture of grasses and clover are used the result will be disappointing. Our Seashore Lawn Grass is composed of strong-rooted varieties which quickly produce a good turf. In preparing the land it should first be top-dressed with about four inches of good soil, as grass will not grow well in sand, but the seeds will quickly germinate in the top-soil and make strong roots, which reach down into the sand for moisture. In order to keep the seaside lawn in good condition it should be watered liberally every evening, and also have an occasional application of pure Bone Meal in order to keep up a vigorous growth. Per qt., 35 cts., postpaid. By express or freight, at purchaser's expense, per qt., 30 cts.; 4 qts., $1.00; peck, $1.50; bushel (20 lbs.), $6.00.

DREER'S "EVERGREEN" LAWN GRASS

This special mixture produces beautiful and permanent lawns. It is made from our own formula and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire summer and fall. In making up this brand we are careful to use seed that has been thoroughly re-cleaned. Per qt., 30 cts., postpaid. By express or freight, at purchaser's expense, per qt., 25 cts.; 4 qts., 80 cts.; peck, $1.25; bushel (20 lbs.), $6.00.

DREER'S FAIRMOUNT PARK LAWN GRASS

This mixture is well suited for various soil conditions, giving good results even in small city grass plots, where the soil is generally stiff and heavy. It is also valuable for use on embankments and terraces, also for renovating old, worn-out lawns. Per qt., 25 cts., postpaid. By express or freight, at purchaser's expense, per qt., 20 cts.; 4 qts., 60 cts.; peck, $1.00; bushel (20 lbs.) $4.00.

DREER'S PUTTING GREEN MIXTURE

A careful study of the requirements for making the most substantial turf for Putting Greens developed the mixture herewith offered by us for this purpose. The varieties comprising it are all of the finest-bladed, low-growing and most hardy kinds, and maintain their rich, green color throughout the season. We also recommend it for terraces, embankments and steep slopes. Per qt., 40 cts., postpaid. By express or freight, at purchaser's expense, per qt., 35 cts.; 4 qts., $1.25; peck, $2.00; bushel (25 lbs.), $8.00.

DREER'S GOLF LINKS MIXTURE

Made from our own formula with the object of producing a turf which will stand rough usage. For Tennis Courts, Cricket Tables, Golf Links, Putting Greens, this seed will give perfect satisfaction. Per lb., 20 cts., postpaid. By express or freight, at purchaser's expense, per qt., 25 cts.; 4 qts., 80 cts.; peck, $1.25; bushel (20 lbs.), $6.00.

WHITE DUTCH CLOVER SEED

Excellent for use on lawns; forms a close herbage and remains green throughout the season. We furnish the choicest grade of seed. 1 lb., 55 cts.; lb., 95 cts., postpaid. By express or freight, at purchaser's expense, lb., 85 cts.; 5 lbs., $4.00; 10 lbs., $7.75; bushel (60 lbs.), $43.00; 100 lbs., $70.00.

DREER'S PERMANENT PASTURE GRASS

This special mixture of grass and clover seed is composed of varieties best adapted for producing an abundant and nutritious food supply for stock, and will be found entirely satisfactory for permanent pasturage. If your fields are worn out, it will pay well to plough and seed them with this mixture of grasses and clover, thus securing two crops a year, whereas with Timothy alone you cut but one crop. Sow 50 pounds to acre. In ordering, state whether for light or heavy soil. Price, per lb., 35 cts., postpaid. By express or freight, at purchaser's expense, bushel (20 lbs.), $4.00; 100 lbs., $18.00.

Quantity of Lawn Grass Seed to Sow. One quart is sufficient for 250 square feet; 5 bushels for an acre, or for renovating an old lawn use one-half these quantities.

Dreer's Leaflet on Lawn Making is mailed free of charge to any who are interested. Tells how to make and care for the lawns. Write for a copy.
KENTUCKY BLUE GRASS, Fancy Cleaned (Poa pratensis). Also known as June Grass, Green Grass, etc. Rated as one of the best permanent grasses, especially useful for lawns, meadows and rich land. It is the grass of the famous limestone soils of Kentucky, and is also a favorite in all the Northern States. Sow 3 to 5 bushels per acre for lawns; 2 bushels per acre for pasture. Lb., 50 cts., postpaid. Bu. (14 lbs.), $4.50; 100 lbs., $30.00.

CLOVER SEED

Red Clover Medium (Trifolium pratense). Sow spring or fall, 10 to 15 lbs. per acre. Write for price.

Mammoth Red Clover (Trifolium pratense perenne). For plowing under. 10 to 15 lbs. per acre. Write for price.

Alsike, or Swedish Clover (Trifolium hybridum). Sow 8 lbs. to the acre when used alone. Write for price.

White Dutch Clover (Trifolium repens). Excellent for lawns. Sow 8 lbs. to the acre alone, or 4 lbs. when used with other grasses. ½ lb., 55 cts.; 1 lb., 95 cts., postpaid. Express or freight, at purchaser's expense, 1 lb., 55 cts.; 5 lbs., $4.00; 10 lbs., $7.75; bu., (60 lbs.), $43.00; 100 lbs., $70.00.

Sweet Clover Bokhara (Melilotus alba), also Yellow Blossom (Melilotus officinalis). Grown for Bee food and as a fertilizer. We supply either variety. Lb., 50 cts., postpaid. Write for price per bushel.

Japanese Clover (Lespedeza striata). A long growing clover which does well in the South. Sow 14 lbs. to the acre. Lb., 65 cts., postpaid; 14 lbs., $7.00; 100 lbs., $45.00.

Crimson, or Scarlet Clover. Excellent for tilling under as a fertilizer. Write for price.

Alfalfa, or Lucerne (Medicago sativa). Produces 3 to 4 heavy crops of nutritious hay in a season. Lb., 60 cts., postpaid. Write for special leaflet and price per bushel.

INOCULATING CULTURES

MULFORD'S CULTURES for Inoculating Agricultural Seeds will be found offered on page 224.
YELLOW FIELD CORN

Sow 8 quarts to the acre early in May

Pedrick Perfected Golden Beauty. A strain of Golden Beauty which was obtained by careful selection. In the preparation of this Corn for seed each ear is carefully selected and the end grains discarded, and it is far superior in every way to the original Golden Beauty. The ears contain from 10 to 14 rows of extremely large, broad grains, which are of a rich golden-yellow color, and the cob is small. The ears are well filled out, even to the extreme end of the cob. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Leaming Gourd Seed. A good early variety which ripens in about 110 days. Stalks make good growth and are very productive; ears good size, cob red, grains medium in size and deep yellow. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Early Yellow Canada. A ninety-day Corn, used in this latitude for replanting. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.50; bushel (56 lbs.), $5.00.

Pusey Cloud Yellow Dent. (See cut.) At the Chester County, Pa., Corn Show, Mr. Pusey Cloud, the originator was awarded the prize for this variety; also prizes at both the National and Pennsylvania Corn Shows. It matures in 100 to 110 days, and has yielded 75 to 100 bushels of shelled Corn to an acre. The ears measure about 10 inches in length; cob is small and the grains are very deep, closely set on the cob. It is a safe variety to plant anywhere in the same latitude as Philadelphia. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Early Mastodon Dent. An early variety of yellow Dent Corn which is suitable for any sections, as it matures in about 110 days. The stalks grow rapidly and to a good size, producing excellent fodder and an abundant crop of corn. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Early 100-day Bristol. One of the earliest large Dent varieties. It is productive, and ears are a good size with light yellow grains. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.45; bushel (56 lbs.), $4.75.
WHITE FIELD CORN

Hickory King. A prolific white variety, cob remarkably small, grains large. This Corn is suitable for growing in light soil and is mostly used in the Southern States. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

ENSILAGE CORN

Sow 1 bushel in drills, or 2 bushels broadcast per acre. Special prices to buyers of large quantities.

Red Cob Ensilage. One of the very best varieties for ensilage and grows well in all sections. It is a pure white Corn on a red cob. It is sweet, tender, juicy, has short joints and produces an abundance of foliage. Every dairy farmer should grow this sort; it will produce very large crops. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Southern Fodder, Sheeptooth. Produces broad foliage and tender stalks. Will keep up the flow of milk during hot weather, when the grass is burnt up. Grains narrow and white. By express or freight, at purchaser’s expense, peck (14 lbs.), $1.25; bushel (56 lbs.), $4.50.

Sweet Fodder Corn. For siloing or ensilage. Sow broadcast 2 bushels, or in drills 3 feet apart, 1 bushel per acre. Write for price.

BARLEY

Sow ½ to 2 bushels if drilled; 2 to 2½ bushels broadcast.

Manshurey. A productive and reliable variety. The straw is stiff and strong, holding up well and bearing long heads, which are well filled with plump grains. It ripens early and is good for both feeding and malting. Write for price.

Beardless Barley. This variety is free from beards, making it easier to thresh than other kinds and safer to feed to stock. It is a strong, vigorous grower, making short, heavy straw and bearing well-filled heads. Write for price.

BUCKWHEAT

Sow about the middle of June, broadcast, at rate of 1 bushel to the acre, or ½ bushel in drills.

Japanese. Earlier, more prolific and yields nearly double the weight per acre of other sorts. The grains are nearly twice as large as those of Silver Hull and of a much better color. This variety is always in demand and is preferred by the millers who claim that it makes the best grade of flour. Write for price, stating quantity desired.

OATS

Sold at standard weight of 32 lbs. to the bushel. Special prices to buyers of large quantities. Sow 2½ bushels to the acre.

Storm King. (See cut.) The seed of this variety was originally imported, but has been grown for several years in this country, and is thoroughly acclimated. It makes a strong growth of straw, with large well-filled heads, which have a tendency to be one-sided and grains are white, large and heavy. "Storm King" has made a yield of from 60 to 70 bushels per acre, and we recommend it to every farmer who desires a thoroughly reliable variety. By express or freight, at purchaser’s expense, peck (8 lbs.), 50 cts.; bushel (32 lbs.), $3.00; 5 bushels or over, $2.90 per bushel.

White Maine. This fine variety is grown with much favor, as it yields extremely large crops. It is suitable to growing in any section, and makes a strong, stiff straw, thus enabling it to stand up well during a season of stormy weather. By express or freight, at purchaser’s expense, peck (8 lbs.), 75 cts.; bushel (32 lbs.), $2.60; 5 bushels or over, $2.50 per bushel.

Lincoln. Very early and productive. Good straw with bright grains and a very dependable variety. By express or freight, at purchaser’s expense, peck (8 lbs.), 75 cts.; bushel (32 lbs.), $3.60; 5 bushels or over, $3.50 per bushel.

Welcome. A splendid variety for all sections, and a very productive sort. The straw is heavy and stiff and the grains are plump and attractive in appearance. By express or freight, at purchaser’s expense, peck (8 lbs.), 75 cts.; bushel (32 lbs.), $2.60; 5 bushels or over, $2.50 per bushel.

SPRING WHEAT

Marquis. An excellent early variety for spring sowing. Write for price, stating quantity wanted.

SPRING RYE

Used as a catch crop to sow where winter grain has failed. Write for price, stating quantity desired.

SUNFLOWER

Mammoth Russian. May be grown to advantage on waste ground. An excellent and cheap food for fowls. All farmers should plant this, if only for feeding chickens. It is enormously productive, as the heads sometimes measure 18 inches in diameter. Plant 5 pounds to the acre. Lb., 40 cts., postpaid. By express or freight, at purchaser’s expense, 5 lbs., $1.20; 10 lbs., $2.30; 50 lbs., $10.50; 100 lbs., $20.00.
FIELD, FORAGE AND SILO SEEDS

Prices of all Farm Seeds are f. o. b. Philadelphia and subject to market changes

SUDAN GRASS
A new forage plant which is valuable in the middle west and may also be grown in the east. It is an annual related to the sorghums, and is valuable both for hay and silo. Grows from six to ten feet high, makes small leafy stems, and is greatly relished by stock. Sow seed when ground has become warm, using 4 to 6 lbs. per acre, in drills 18 to 24 inches apart, and cultivate like corn. Lb., 40 cts., postpaid. By express or freight, at purchaser's expense, 10 lbs., $2.25; 50 lbs., $10.00.

BROOM CORN
Improved Evergreen. This variety is extensively grown on account of the color and quality of its brush, which is long, fine and straight, and always green; grows 7 feet high. Sow 10 pounds to the acre in good, deep dry soil. Lb., 35 cts., postpaid. By express or freight, at purchaser's expense, 10 lbs., $1.25; 50 lbs., $5.00.

SOJA BEANS
Hollybrook Early Soja. A good variety for planting in Northern and Eastern States. Ripens early and produces an enormous crop of both Beans and forage, which are very nutritious. Write for price.

Wilson Soja. An excellent variety for Middle and Eastern States. Grows 20 to 44 inches high, branches well, holds leaves and the seeds do not shatter from pods after cutting. In Delaware it matured in 115 days, and the plants held the seed well. Write for price.

Mammoth Yellow Soja Bean. Valuable as a forage crop and for silo purposes. It matures late and is very popular for forage purposes, also productive. Most valuable for growing in the Southern States. Write for price.

VETCHES
Spring Vetches, or Tares (Vicia Sativa). Highly valuable for soilings or for green manuring. Use 2 to 3 bushels to acre, broadcast, or 1 to 2 bushels in drills. Lb., 30 cts., postpaid (bu. 60 lbs.). Write for price.

Winter Vetches or Tares (Vicia Villosa). Also called Sand Vetch, or Hairy Vetch. Recommended for fall sowing. Sow 1 bushel of the seed per acre, with 1 bushel of rye. Price per lb., 50 cts., postpaid; bu. (60 lbs.), write for price and special leaflet.

PEAS FOR FODDER AND GREEN MANURING

Canadian Field Peas. Valuable for Northern climates for cattle feeding and for green soilings, and is also used in large quantities for feeding pigeons. Sow 1½ bushels per acre with ½ bushel oats. Write for price.

New Era Cow Peas. An upright growing variety, which matures quickly and produces a large crop of Peas. The vines are small but cure nicely and make a good forage. Write for price.

Whip-poor-will Cow Peas. An early variety; grows upright, vigorous, and the crop is easy to harvest. We sell more of this variety than any other, and consider it the best for general purposes. Write for price.

Clay Cow Peas. A medium late variety, of running habit and strong growth. Write for price.

RAPE

Dwarf Essex Rape. A valuable forage plant which can be sown in this latitude as late as September. Sown broadcast at the rate of 10 lbs. to the acre, or 5 lbs. in drills. Lb., 35 cts., postpaid. By express or freight, at purchaser's expense, 5 lbs., 90 cts.; 10 lbs., $1.60; 50 lbs., $7.50.

INOCULATING CULTURES for Vetch, Field Peas, Soja Beans, etc., will be found offered on page 224
FIELD, FORAGE AND SILO SEEDS

Prices of all Farm Seeds are f. o. b. Philadelphia and subject to market changes

MILLET

Golden Millet (Southern Grown.) (See cut.) A valuable annual hay and fodder crop. Grows 4 to 5 feet, matures quickly. Sow 1 bushel to the acre. Bushel (50 lbs.), write for price.

Hungarian Millet (Panicum Germanicum.) An annual forage plant, early and productive, growing 2 to 3 feet high, and makes good hay. Sow 1 bushel to the acre. Bushel (48 lbs.), write for price.

Egyptian, or East Indian Pearl Millet. (Pennisetum Spicata.) Grows from 8 to 10 feet high, and is very productive. For fodder sow 5 pounds of the seed in drills 3 feet apart, thin out in rows to 1 foot apart. Lb. 35 cts., postpaid. By express or freight, at purchaser's expense, 5 lbs., $1.25; 10 lbs., $2.25.

Japanese Barn-yard Millet (Panicum Crus-galli). An excellent fodder plant; grows 6 to 8 feet high. Sow between middle of May and end of July. Lb., 50 cts., postpaid. By express or freight, at purchaser's expense; 10 lbs., $3.20; 50 lbs., $15.50; 100 lbs., $30.00.

MISCELLANEOUS FARM SEEDS

Teosinte (Reaena Luriana.) (See cut.) This plant somewhat resembles corn but produces larger leaves and is more succulent; excellent for feeding horses and cattle, either green during summer or as fodder during winter, and is more nutritious and better liked than corn fodder by stock of all kinds. Grows well in this latitude, supplying an immense amount of fodder, but will not mature seed. Sow in May or June, in drills about 4 feet apart, using 3 lbs. of seed per acre, and cultivate in the same manner as corn. Per oz., 10 cts.; 4 lbs., 30 cts.; lb., $1.00, postpaid. By express or freight, at purchaser's expense, 5 lbs. or over, 90 cts. per lb.

Speltz, or Emmer. A combination of Wheat, Oats and Barley, which is excellent for fattening cattle, poultry, horses, sheep, pigs, etc. Makes a heavy yield of grain and hay; excellent pasture and may be fed green. Sow 70 to 80 pounds per acre. By express or freight, at purchaser's expense, 10 lbs., 80 cts.; 50 lbs., $3.50; 100 lbs., $6.50.

MULFORD CULTURES

For Field Crops will be found offered on page 224 of this catalogue.

Golden Millet

Sorghum, or Early Amber Sugar-cane. Excellent for forage, and may be cut two or three times, standing out thicker after each cutting. Height, 10 to 12 feet. Sow 5 lbs. in drills, or 75 lbs. broadcast to acre. By express or freight, at purchaser's expense, 5 lbs., 75 cts.; 50 lbs., $6.00.

Johnson Grass, or Sorghum Halepense. A Southern fodder plant. Per lb., 55 cts., postpaid. By express or freight, at purchaser's expense, 5 lbs., $1.75; 10 lbs., $3.00; 50 lbs., $24.00.

Yellow Milo Maize. May be cut several times for green forage; used for ensilage, or cured like sorghum. Use 4 to 5 lbs. per acre. By express or freight, at purchaser's expense, 5 lbs., 75 cts.; 10 lbs., $1.25; 50 lbs., $5.00.

Kaffir Corn. (Red). Good forage. Use 4 to 5 lbs. per acre. By express or freight, at purchaser's expense, 5 lbs., 75 cts.; 10 lbs., $1.25; 50 lbs., $5.00.

BIRD SEEDS

Our bird seeds are all carefully selected and re-cleaned. Prices subject to market changes. All Bird Seeds are sent by express or freight, at purchaser's expense.

Teosinte, a Wonderful Fodder Plant
We give close attention to this department, which is probably the largest in quantity and variety in this country, nearly one thousand species and varieties being offered.

Our Flower Seeds have a world-wide reputation, and we grow and save on our own grounds at Riverton more varieties than any other American Seedsman. Our constant aim is to secure the very best strains obtainable, and spare no pains or expense with this object in view. Our strains of Asters, Carnations, Petunia, Verbena, Zinnia, etc., are grown by the leading private gardeners and commercial florists, and are acknowledged to be superior in all respects.

Success with Flower Seeds

We are convinced that many of the failures with flower seeds are due to lack of proper conditions, and while it would be impossible in the space at our disposal in this catalogue to give explicit directions for each and every variety which we offer (but which is given on each packet of flower seeds we sell), we feel sure that if the general directions given below are followed success will be the rule. These directions, we may say, are written for the latitude of Philadelphia. Customers living in other sections can readily adapt them to their localities.

For all flower seeds which should be started indoors, and this includes many of our best and brightest summer flowers, such as Heliotrope, Celosia, Lobelia, Salvia, Vinca, Verbena, etc., the best plan is to sow in earthenware seed pans, or boxes (about 2 inches deep), which should be filled to the depth of an inch with broken pots, coal ashes, or any rough material that will furnish perfect drainage. The upper inch should be nicely sifted soil, composed, if possible, of about one-third each of sand, leaf mould and light garden loam. Press firmly and evenly and water thoroughly the day before sowing. Sow the seeds thinly over the surface, cover about one-eighth of an inch and pressing firmly; cover with a pave of glass or one or two thicknesses of newspaper to prevent the too rapid evaporation of the moisture and keep in a temperature between 60° and 70°. Water carefully as needed. The importance of uniform attention to this detail is one that can only be learned by experience and observation. To omit a single watering, or too frequent, indiscriminate watering, usually leads to failure. Remove the glass, or covering, as soon as the seeds have germinated, and when the seedlings are large enough to handle they should be transplanted into similarly prepared boxes an inch apart each way, or put into small pots and kept in same until time to plant out in the open ground. At all times they should have an abundance of air; otherwise the young seedlings are liable to "damp off."

For most of the ordinary annual flowers, such as Sweet Alyssum, Calliopsis, Calendula, Marigold, Mignonette, Nasturtium, etc., the simplest method is to sow directly out of doors when danger of frost is past in the space where they are intended to flower. The ground should be dug and raked fine on the surface, sowing the seeds evenly and thinly, either in lines or beds, covering not over four times their size, and firming the soil over them. Should they come up too thickly, as most of them are likely to do, thin out so that the plants will stand from 4 to 12 inches apart according to the variety. This plan is also adapted to many varieties usually started indoors, including Asters, Verbena, Celosias, Stocks, Salvia, etc., etc.; but as a rule their germination is more certain under glass, and as they begin to flower so much earlier when started indoors, the extra trouble is well repaid for by their increased blooming period.

We will be pleased to send our customers on request a leaflet containing the following valuable cultural hints:

How to Grow Annuals, by Prof. L. H. Bailey.

How to Grow Perennials from Seed, written expressly for us by Wm. Falconer, of Pittsburgh.

The full worth of their money to all is the broad principle in which we always deal, and we refer to our reputation as evidence that we live up to the precept.
NOVELTIES AND SPECIALTIES IN

Flower Seeds for 1920

The majority of the Flower Seed Novelties and Specialties offered on this and the following ten pages have been thoroughly tested in our trial grounds. Others have been received from most reliable growers, and the descriptions are those of the introducers.

For General List of Flower Seeds see pages 63 to 116

EXTRA EARLY COLOSSAL, OR MID-SUMMER GIANT COSMOS
Illustrated on Plate Opposite

It is more than twenty years ago that we introduced the first early-flowering Cosmos, which was rather small flowering; since then, by careful selection, the size and quality of the flower has been so greatly improved that we are now able to offer this strain which produces flowers rarely less than 3½ inches and frequently 4½ inches across, and yet maintaining its early-flowering character, coming into bloom within 60 days from time of sowing. We offer as under:

A packet of each of the 3 colors, 25 cts.

NEW DOUBLE-FLOWERING COSMOS

Some years since a few individual plants of Cosmos showed evidence of producing double flowers, but it has taken a great deal of care and patience to perfect the strain now offered. The flowers vary considerably in their degree of doubleness, some being absolutely double, while others like those shown in our illustration, have a frill or collar surrounding the double disc, and while we think this is the most artistic, they are beautiful in either form. The plants have somewhat heavier, less cut foliage than the regular single-flowering type, so that the fact that they will produce double flowers can be determined when the seedlings are quite small.

2081 Double Crimson | Rich rosy-crimson | 20 cts. per pkt. |
2083 Double Pink | A very pretty rosy-pink | 20 cts. per pkt. |
2084 Double White | Pure glistening white | 20 cts. per pkt. |

A packet of each color for 50 cts.

ALYSSUM LILAC QUEEN

1100 By careful selection this has been greatly improved, and the stock we now offer has been saved from plants that were a deep lavender lilac, a really pretty color, either alone or in combination with the white sorts. It is of dwarf compact habit, and with all the free and long blooming merits of the regular Sweet Alyssum. 10 cts. per pkt.; 50 cts. per oz.

ANTIRRHNINUM (Snapdragon)

Within the last few years Snapdragons have become immensely popular. This is not to be wondered at, as, whether used for cutting or for show in the garden, they are one of the most valuable flowers which can readily be grown from seed. We offer two distinct types, the large-flowering, tall-growing, or giant, and the equally large-flowered, half-dwarf variety. In our trials, the seeds sown out of doors the first week of May come into bloom early in July, remaining in full flower until November. For earlier flowering they may be started indoors or in a frame in March, transplanting them to the open, when the weather is suitable.

Giant Varieties. Of tall growth, very large individual flowers:

NEW DOUBLE-FLOWERING COSMOS

(92)

For General List of Flower Seeds see pages 63 to 116
DREER’S
Mammoth-flowering
VERBENAS
DREER'S MAMMOTH-FLOWERING VERBENAS

Illustrated on the Colored Plate opposite

Verbena have long been one of the most popular subjects in the flower garden, producing their clusters of showy flowers in constant succession from early summer till late fall, and are used extensively in beds, borders, baskets, vases, etc., and are of special value to use as a ground cover in beds containing Lilies, Roses, Gladioli, and similar plants, and make an effective edging to a shrubbery border. For best and quickest results, seed should be sown early in the house or hothou and transplanted to flowering quarters in May. If sown outdoors as soon as danger from frost is past, they will bloom from July on.

We have been carefully selecting and improving this fine strain for years, and can recommend it as the finest procurable. We offer as follows.

**NEW MAMMOTH VERBENA**

**"LUCIFER"**

4357 A most valuable addition to the range of colors in this important bedding plant, being an even, intense deep cardinal-scarlet throughout; it is identical to our other Mammoth Verbena in size of bloom, floriferousness and other good qualities. As a brilliant bed or border we feel sure this will be most satisfactory. 25 cts. per pkt.; 5 pkts., $1.00.

**Dreer’s Long-spurred Hybrid Aquilegias, or Columbines**

1206 This is the most admired type of Columbines. They have been produced from the strains of several famous hybridizers and are much superior to the usual grade. The plants are of strong, thrifty growth, and perfectly hardy. The long-spurred flowers of large size vary in color through charming tones of cream, pink, lavender, blue, white, red, etc., hardly any two being exactly alike. 15 cts. per pkt.; 2 pkts., 25 cts.

**Argemone Platyceras Rosea**

(Rose Mexican or Prickly Poppy)

1219 We are indebted to a customer for sending us last year a small quantity of seed of this comparatively scarce annual which we grew; and proved to be similar to the variety Hybrida Grandiflora, offered on page 66, having the same ornamental spiny foliage, but with flowers of rich, deep ruby-rose. 15 cts. per pkt.; 2 pkts., 25 cts.

**Giant Hyacinth-Flowered or Improved Empress Candytuft**

1758 A wonderfully improved strain of the popular Empress Candytuft, forming much branched plants about 18 inches high, each branch terminated by an immense spike of very large individual pure white flowers. Makes a very effective white bed or border and is invaluable for cutting. 10 cts. per pkt.; 35 cts. per ½ oz.; 60 cts. per oz.

**Double-flowering Cup-and-Saucer Canterbury Bells**

1734 A new race of this much prized Hardy Biennal from a celebrated French Hybridizer. The double blossoms appear like three flowers placed one inside the other. These are produced freely and in all the colors found in the various varieties of Canterbury Bells. About one-half of the seedlings may be expected to come true to type. 25 cts. per pkt.

**DOUBLE EARLY-FLOWERING CHRYSANTHEMUMS**

1945 A new race of the Fall-flowering Chrysanthemum, which perfect their blooms in the open ground before frost. Easily grown from seed which may be expected to produce at least 75 per cent. of double flowering plants in a large range of colors; quite hardy if given slight protection and grown in a well-drained position. 25 cts. per pkt.
Dreer’s Six Famous American Aster{s}

While we offer this season on pages 67 to 70 over fifty distinct varieties and colors of American Asters, all of which have been grown under our personal supervision, and which cannot be excelled for quality, we have again selected the following six sorts to offer as a collection, which embraces several distinct types and colors, which we feel sure will, on account of their free growth, profuse flowering, large size and general excellence, give entire satisfaction to the most critical growers of this popular flower.

1281 **Crego’s Giant White.** We consider this the finest and largest of all Comet Asters, bearing immense fluffy flowers 5 inches and over in diameter, as fine as any Chrysanthemum, and when cut keep in good condition longer than any other of this type.

1282 **Crego’s Giant Pink.** Identical in every way to the white offered and described above, except in color, which is a beautiful soft shell-pink.

1305 **Dreer’s Crimson Giant.** A late-branching variety of upright flowers with extra large, densely double flowers of rich blood-crimson; makes a brilliant bed or border and is splendid for cutting.

**King Asters**

1346 **Rose King.** A very distinct and desirable sort, with large, handsome double-quilled flowers of a brilliant rose color. A great favorite for cutting with commercial florists, lasting in perfect condition for a long time.

1393 **Dreer’s Peerless Pink.** This is conceded to be the finest pink late-branching Aster ever offered. Their limbs are of robust free-branching habit, 24 to 30 inches high, bearing their magnificent blooms on strong stems, averaging 18 inches in length, and it is hard to find a flower under 4 inches across, and many measure 5 inches by 2½ in depth, forming an almost globular flower. The color is a rich shell-pink, and comes into bloom about the middle of August, being at its best during the early part of September, and continuing in good condition well into October. (See cut.)

1347 **Violet King.** Similar in habit and time of flowering to our superb late-branching sorts, and of the same strong, free-branching growth, with very double, slightly quilled flowers of a pleasing soft shade of violet.

**Price.** Any of the above, 15 cts. per pkt.; 2 pkts. for 25 cts.

1338 **Collection** of a packet each of Dreer’s Six Famous American Asters, 65 cts.
ASTERMUM ASTERS

A strain of Comet Asters, which on account of their size and Chrysanthemum-like appearance have appropriately been named Astermums. The plants grow about two feet high and come into bloom in August.

1261 Lavender. A rich shade of lavender.
1262 Pink. A very attractive lively rose-pink.
1263 White. Purest snow-white.

Price. 15 cts. per pkt.; a packet of each color for 35 cts.

KING ASTERS

The "King" Asters form a distinct class or type. They are of strong, sturdy habit, growing fully 18 inches high, and bear from August to October very large double blossoms, the petals of which are more or less quilled, forming a very attractive flower. That we think highly of this type is evidenced by the fact that we include two of them in our collection of Six Famous offered on page 54.

1343 Dreer's Crimson King. The richest and deepest crimson variety known to us.
1344 Lavender King. Soft lavender-blue.
1345 Pink King. An attractive delicate shell-pink.
1346 Rose King. A beautiful brilliant rose variety.
1347 Violet King. A pleasing soft shade of violet.
1348 White King. Pure white.

Price. Any of the above, 15 cts. per pkt.

1349 Collection of a packet each of the above, 75 cts.
1350 King Mixed. Contains all the colors. 15 cts. per pkt.; 75 cts. per 1/4 oz.

New Red Aster "Sensation."

1442 This is the reddest of all red Asters, the color being a rich garnet or oxblood-red which glistens in the sunshine like a live coal. The plants are of free-branching habit, about 18 inches high; the very double flowers averaging 3 1/2 inches across, are borne freely on stems a foot long from early in August till the close of September. The intense color shows up well when cut, and makes a very brilliant bit of color in a bed or border. 15 cts. per pkt.; 2 pkts., 25 cts.

DREER’S SUPERB LATE-BRANCHING ASTERS

This superb strain, of American origin and especially adapted to our climatic conditions, has long been one of our leading specialities, extraordinary care being given each season to the selection of the very finest specimens for stockseed, resulting in a strain that is acknowledged by the leading growers as unsurpassed.

The plants form strong, branching bushes, 2 to 2 1/2 feet high, bearing on long strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, average 5 inches across. The form of the flowers, which is nicely shown in the illustration above, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September and October, and filling in the gap between the general run of Asters and Chrysanthemums, and if only one variety of Asters is wanted, we recommend this type as the most likely to give the greatest satisfaction. We offer eight beautiful and distinct colors as under:

For Cultural Notes and Complete List of Asters, see pages 67 to 70.
THE CARDINAL CLIMBER
(Ipomoea Quamoclit Hybrida)
2158 We named and introduced this glorious and absolutely distinct annual climber in 1912, and it is now generally considered the most beautiful and brilliant annual climber ever sent out. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful fern-like foliage, and literally covered with a blaze of circular cardinal-red flowers from mid-summer till frost. The flowers, about 1½ inches in diameter, are borne in clusters of 5 to 7 each, and wherever it has been grown has attracted more attention and favorable comment than any other plant in the garden. Like other Ipomoeas, it delights in a warm, sunny situation and good soil. The seed may be started indoors in March or April in a temperature of not less than 70 degrees, and the plants set out when the weather gets warm, but it is just as well to wait until the weather gets warm and settled and then sow out of doors. In either case germination will be hastened and made more certain by filing or cutting a small notch in each seed. They are likely to germinate poorly unless this precaution is taken. If sown in cold, wet ground, the seed is liable to rot.

Packets containing about 25 seeds each, 15 cts.; 2 pkt., 25 cts.

Dreer's
Mammoth-flowering Verbenas
One of our specialties. See colored plate and page 53.

CHINESE WOOLFLOWER
(Celosia Childsi)
1885 This is a unique form of the feathered Cockcomb, growing two to three feet high, by as much through, each branch terminated with a large head of rich crimson flowers that look as if made out of some silky-wool material, and which are nicely shown in our illustration. Not only effective in beds or borders, but highly interesting and valuable for cutting, as they can be dried, and retain their bright color for weeks. 15 cts. per pkt.; 2 pkt., 25 cts.

DOUBLE BLUE CORNFLOWER
1881 This was introduced by us in 1907, and since then has steadily gained in popular favor, until now it must be considered one of the leading annuals. It is identical in color to the popular single blue Cornflower, which is so much in demand for cutting, especially for buttonieres; but, being a full, double flower, it takes fewer of them to make a nice bunch, and it is better in every way. The plants form nice symmetrical bushes about 18 inches high. 15 cts. per pkt.; 50 cts. per ½ oz.

DOUBLE ROSE-PINK CORNFLOWER
1882 After several years of careful selection we have succeeded in securing a stock of this which reproduces itself almost true. The flowers are quite double, and of an attractive clear rose-pink, a color that is always in demand both in the garden and for cutting. 15 cts. per pkt.; 50 cts. per ½ oz.

EXTRA EARLY COLOSSAL, or MIDSUMMER GIANT COSMOS
The most valuable Cosmos, blooming from midsummer till frost. (See colored plate and offer on page 52.)

Our "Incomparable" Collection of Sweet Peas offered on page 61 is sure to please the most critical
New California Poppies

(Eschscholtzia)

The varieties of Eschscholtzia which we offer on page 86 are among the most popular summer flowering annuals, and include the new kinds here offered which on account of their brilliant colorings are entitled to a place among our list of specialties.

2422 Chrome Queen. An entirely new and distinct tone, being a rich chrome yellow. 10 cts. per pkt.; 30 cts. per pt.

2427 Dainty Queen. A beautiful and delicately colored sort of pale coral-pink on a cream ground. 10 cts. per pkt.; 25 cts. per pt.

2428 Fringed Yellow. Deep pure yellow, the petals deeply cut or fringed. 10 cts. per pkt.; 30 cts. per pt.

2431 Gelsha. The prettily fluted or ruffled petals are a bright glistening scarlet on the outside, while the inside is rich golden orange, a most brilliant Oriental color combination. 15 cts. per pkt.

2435 Vesuvius. In this variety the color is the same on both sides of the petals, a rich Wallflower or coppery red which glistens in the sun like molten metal. 10 cts. per pkt.; 30 cts. per pt.

2437 New Hybrid Mixed. This mixture has been saved from a number of new sorts of wonderful colorings, including wallflower-red, old gold, fire-red, chestnut, cream and many other rich and unusual tones. 15 cts. per pkt.; 2 pkts., 25 cts.

Giant Double Decorative Dahlia

2197 Our supply of this novelty comes from a famous French hybridizer, who states that it has been saved from a superb collection containing a very varied range of colors with flowers frequently 8 inches across, retaining their graceful form notwithstanding their enormous dimensions. 25 cts. per pkt.

Dreer's Gold Medal Hybrid Delphiniums (Hardy Larkspur)

2240 This is one of our most important, specialties, and is unquestionably the finest strain of mixed Hybrid Hardy Larkspurs ever offered. The original stock came from England and consisted of the best named varieties. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long, the majority running in the lighter shades of blue. 15 cts. per pkt.; 50 cts. per pt.

Gaillardia Grandiflora Copper-Red

2505 Gaillardia Grandiflora is justly considered one of the best and showiest hardy perennials, and we feel sure this striking new color will add to the popularity of the genus, it being a brilliant coppery-red throughout, toning somewhat lighter at the tips of the petals; flowers of largest size, and having all the good qualities of the type. 20 cts. per pkt.; 3 pkts. for 50 cts.

Double-Flowering Baby's Breath

(Gypsophila paniculata, fl. pl.)

2695 One of the most important hardy perennials of recent introduction. The plant grows from 3 to 3½ feet high, bearing its pretty little double white flowers in much-branched panicles, which, when cut, can be used to great advantage with other flowers or by themselves, as they retain their beauty for months. It is also a most desirable addition to the hardy border. 20 cts. per pkt.; 3 pkts., 50 cts.
TWO MAGNIFICENT
AFRICAN MARIGOLDS

The two varieties offered below are grown for us by a specialist and
are without doubt the very finest of the large-flowering African type,
and grow almost 2 1/2 feet high; bearing in continuous succession from
early summer till hard frost, large and perfectly double flowers.

3084 Orange Prince. Flowers very large, of a deep
golden orange. 15 cts. per pkt.; 50 cts. per 1 oz.
3085 Lemon Queen. Immense double flowers, in color
a soft lemon yellow, making a fine contrast
to the rich orange of the preceding. 15 cts.
per pkt.; 50 cts. per 1 oz.
One packet each of the above for 25 cts.

Double French Marigold
Golden Ball

3093 We consider this one of the most valuable
for borders, forming symmetrical;
globular plants not over 9 inches high and
covered from early summer till late autumn
with good sized golden-yellow flowers,
which makes a very effective golden line or bed. 10 cts.
per pkt.; 40 cts. per 1 oz.

NEW GIANT-FLOWERING
MARSHMALLOWS

(Hibiscus)

2775 A wonderfully improved form of our greatly admired native
Marshmallow, or Rosemallow, in which flowers of enorm-
ous size, frequently 10 to 12 inches in diameter, have been
developed. The colorings have also been greatly intensified,
comprising rich dark red, soft mallow-pink and pure white;
the plants grow from 5 to 8 feet high, and are very florifer-
ous, blooming from early in July until late in autumn; can
be recommended for plantings of all kinds, and are perfectly
hardy. The seed we offer has been saved from our own
plants, and if sown early will produce plants that will
flower the first year. 10 cts. per pkt.; 30 cts. per 1 oz.

NEW DOUBLE HOLLYHOCK
"NEWPORT PINK"

2791 A charming variety that originated in one of the famous
gardens at Newport, R. I. It produces stately spikes of
very desirable rosette-like flowers of pure pink, a shade that
is always in demand. The seed of this variety is quite dis-
tinct, being much smaller than those of other colors. Re-
ceived an Award of Merit from the Royal Horticultural So-
ciety of England, July, 1912. (Illustrated on page 50.)
15 cts. per pkt.; 50 cts. per 1 oz.

New Hybrid Hardy Lupines

(Lupinus Polyphyllus Hybrida) 3060 These are the results of many years of careful crossing and
selecting by a celebrated English specialist, and in addition
to the usual blue, white and rose colors, contain many un-
usual lilac, pink, purple, yellow and other tints. This strain
received an Award of Merit from the Royal Horticultural
Society of England, and we consider them one of the most
important introductions in hardy perennials in recent years.
25 cts. per pkt.; 5 pkts. for $1.00.
THREE "BALCONY" PETUNIAS
A splendid free-flowering type of Single Petunias, growing about 12 inches high, with flowers averaging 3 inches across; of special value for window or porch boxes and vases, but equally as effective in beds or borders. We offer three distinct and desirable colors:

3556 Balcony Rose. A very effective brilliant rose-pink.
3557 Balcony White. A splendid pure white.

Price. Any of the above, 20 cts. per pkt. A packet of each color for 50 cts.

INVINCIBLE GIANT POLYANTHUS
3677 A magnificent strain of this perfectly hardy and easily grown spring-flowering Primrose, representing the work of twenty-five years of painstaking cross-breeding and selection by a Scotch specialist. Of strong, sturdy habit, and bearing immense trusses of large flowers on self-supporting stems 10 to 16 inches in length. Unquestionably the finest strain in cultivation, containing all colors from purest white to the richest crimson. 25 cts. per pkt.; 5 pkts., $1.00.

NEW HYBRID ICELAND POPPY
3738 This beautiful strain of these charming hardy Poppies is being improved every year, and the stock which we offer this season will be found much finer than heretofore, containing a great number of lovely new shades of color. 15 cts. per pkt.; 2 pkts., 20 cts.

Giant Flowering Chinese Fringed Primula
3791 This magnificent strain is quite distinct from the regular type, being of much more robust growth and producing immense trusses of extra large, finely fringed flowers in many new and novel colors; as a pot plant for the house or conservatory, this is unequalled. 35 cts. per pkt.; 3 pkts. for $1.00.

NEW SCARLET SAGE
AMERICA OR GLOBE OF FIRE
3936 We have in the last few years tested over a score of varieties of Scarlet Sage and believed that the sorts which we offer on page 107 covered the most desirable. In this new variety, which was grown at our own Nursery, and which was easily the most brilliant bit of color among the scores of flowers grown there, we have what is undoubtedly the earliest, freest and most continuous bloomer of all, and, what is still more important, the most uniform in habit of growth; the bushy plants do not grow over 15 inches high, with the spikes of brilliant scarlet flowers thrown well above the plant, making a total height of about 2 feet, and in the lines, several hundred feet in length, there was not a variation of an inch in the height of any plant; the importance of this uniformity will be appreciated by those who use Scarlet Sage for beds or borders. 25 cts. per pkt.; 5 pkts., $1.00.

NEW COLORS OF STOKESIA
(Cornflower Asters)
4060 The blue Stokesia Cyanus, although a native of the United States, was practically unknown as a garden plant until the year 1908, when we illustrated it in colors on the cover of our Garden Book; and, as a result of our efforts, it is now one of the popular hardy perennials. Some years later, a white-flowered variety was discovered, and now we are able to offer a mixture containing a number of rose shades, white and various shades of blue and purple as well. 15 cts. per pkt.; 2 pkts., 25 cts.

TWO BRILLIANT SWEET WILLIAMS
4282 Newport Pink. A distinct new color in this favorite hardy plant, which originated in one of the far-famed gardens at Newport, R. I. In color it is what florists call watermelon-pink or salmony-rose. For mid-season mass-bedding it has no equal. Perfectly hardy.

4281 Scarlet Beauty. A splendid companion to the above. The color is an intense rich, deep scarlet, and a most effective plant for the old-fashioned hardy border, where this shade is very uncommon.

Either of the above 15 cts. per pkt. A packet of each for 25 cts.
Twelve Superb Newer
Orchid-Flowered
Sweet Peas

We consider this the finest collection of newer sorts ever brought together; each has been a prominent prize winner at the various exhibitions during the past two seasons, and will soon take their place in up-to-date permanent lists.

4077 Blue Monarch. Splendid large wavy flowers of rich deep navy blue.
4084 Constance Hinton. The most important introduction in years of strong, vigorous growth, with enormous wavy, white flowers, frequently 2½ inches across, which are borne on sprays of fours, and often fives, on long, strong stems. This variety is black seeded, which means that it is easy to germinate.

4127 Hercules. Almost identical in color to Countess Spencer—a lively rose-pink, but larger in size. Strong grower.
4145 King Manolo. A giant wavy-flowered lustrious maroon or deep chocolate color, a handsome, rich colored variety.
4148 Lady Evelyn Eyre. A most delicately colored sort, being a pale pink lightly flushed with salmon; flowers of largest size and nicely waved.
4157 Mrs. J. Balmer. A charming variety of attractive coloring, being a rich cream ground daintily edged with bright rose pink.
4161 New Miriam Beaver. Very dainty in coloring, a soft chamois shell-pink shaded with apricot. Extra choice.

4172 Old Rose. A new and very distinct color, a lovely shade of old-rose, that is sure to become popular. Flowers of enormous size.
4205 Sincerity. Extra large flowers of faultless form; in color a rich cerise, an entirely new tone and one of the richest colored yet introduced.
4211 The Cardinal. A new, intense, brilliant poppy-scarlet, very large wavy flowers of great substance. Extra fine. 10c. per pkt.; $1.00 per oz.
4212 The President. Rich and dazzling bright orange-scarlet, a most brilliant variety. 10 cts. per pkt.; 75 cts. per oz.

Price. Any of the above, except where noted, 10 cts. per pkt.; 50 cts. per oz.; $1.50 per ½ lb.
4229 Collection of a packet each of the above 12 Newer Sorts, $1.00.
4227 Collection of one ounce each of the above 12 Newer Sorts, $5.00.

EARLY AND LONG-FLOWERING SPENCER SWEET PEAS

This new type is receiving great attention at the hands of the leading hybridizers, and already nearly all colors are represented. They are now very popular, and in great demand by commercial florists for forcing under glass for Winter and early Spring blooming; but are just as valuable for the amateur for outdoor culture, coming into flower five or six weeks earlier than the regular orchid-flowered type, and if the flowers are kept picked, continue to bloom over a period of nearly four months. We offer the following carefully selected varieties:

4265 Early Blanche Ferry, or Christmas Pink. The most popular of all; flowers pink and white. Very large and wavy.
4261 Early Blue Bird. A splendid rich deep blue.
4262 Early Cream, or Meadow Lark. A bright primrose-yellow.
4264 Early Enchantress. A very fine bright rosy-pink.
4263 Early Helen Lewis, or Morning Star. Rich, rosy-salmon.
4274 Early Improved Snowstorm. This is considered the best and purest white variety.

Price. Any of the above, 15 cts. per pkt.; $1.25 per oz.
4277 Collection containing a packet of each of the above twelve sorts for $1.25.

4276 Early Orchid-flowering Mixed. A splendid mixture containing all of the above colors as well as many others. 10 cts. per pkt.; 75 cts. per oz.; $2.50 per ½ lb.

Do not overlook the Superb Newer Orchid-flowered Sweet Peas offered on this page.
Dreer's Twelve "Incomparable"

**ORCHID-FLOWERED SWEET PEAS**

Of the hundreds of Orchid-flowered or Spencer Sweet Peas introduced in the last few years, we offer this season thirty-seven of what we consider the very choicest and most distinct varieties, and while we fully recommend all of the sorts described and offered on page 111, as well as the newer kinds on the opposite page, yet most of our customers only wish a limited number of sorts, but want these to be the very best, and it is with this in mind that we offer this collection of Twelve Incomparable sorts described below, each one of which is a leader in its respective color, and which is sure to give entire satisfaction.

**4074 Blanche Ferry Spencer.** This is an extra fine, large wavy-flowered stock of the popular pink and white Blanche Ferry. A good strong grower and very free-flowering.

**4086 Countess Spencer.** The original of the Orchid-flowered type, and still one of the best. Color is a lively rose-pink, shading deeper at the edges; very free-flowering.

**4095 Dobbie's Cream.** An extra selected strain and the finest primrose-yellow yet introduced; splendid in every way, with very large, wavy flowers.

**4108 Elfrida Pearson.** This is by far the largest and finest light pink variety. Flowers of enormous size and very wavy; a strong, vigorous grower bearing its giant flowers on long, strong stems.

**4117 Florence Nightingale.** Nothing yet introduced in lavender Sweet Peas excels this beautiful sort, and it is one of the most popular.

**4147 King White.** The largest, finest and purest, white seeded variety.

**4151 Margaret Atlee.** The leading experts are unanimous in declaring this to be the finest rich pink Sweet Pea, the color being a rich apricot-pink on a cream ground. The "Spencer Supreme," a very strong grower.

**4156 Mrs. Hugh Dickson.** A charming tone of salmon-pink on a cream ground; color effect rich apricot. A strong growing, very free-flowering variety and considered one of the best.

**4198 Royal Purple.** The rich royal purple color of this beautiful variety always attracts great attention. One of the most distinct.

**4202 Scarlet Emperor.** A most brilliant rich, deep scarlet of largest size and beautifully waved; extra fine.

**4214 Thomas Stevenson.** The brilliancy of the orange-scarlet of this variety make it the most striking color of all.

**4222 Wedgwood.** Very appropriately named, being a beautiful Wedgwood or silvery-blue; flowers of large size and fine form.

**Price.** Any of the above "Incomparable" varieties, 10 cts. per pkt.; 40 cts. per oz.; $1.25 per 1 lb.

**4218 Collection** of a packet each of the 12 "Incomparable" sorts, 85 cts.

**4219 Collection** of 1 ounce each of the 12 "Incomparable" sorts, $3.75.

---

**Dreer’s Orchid-flowered Sweet Peas in Mixture**

4230 The greatest care has been exercised in blending this superb mixture. It has been made out of the finest named sorts, insuring a well-balanced range of desirable colors, and it would be impossible to get anything of higher quality at any price. 10 cts. per packet; 25 cts. per oz.; 75 cts. per 1 lb; $2.50 per lb.

For General Collection of Orchid-flowered and Grandiflora Sweet Peas, see pages 110 and 111
DREER'S SPECIAL STRAIN
GIANT DOUBLE ZINNIAS

A special strain of this grand old favorite free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across being not unusual. Plants are of extremely robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear freely on long, strong stems numerous semi-globular, mostly very double flowers, all of the largest size, making them of great value in large beds, borders, etc., grown under favorable conditions they remain in bloom from early summer to late autumn.

We offer six of the most wanted colors, separately, as well as a splendid mixture of many colors, as under:

\begin{tabular}{|l|l|}
\hline
Per Pkt. & 4511 Golden Yellow & 15
\hline
& 4512 Scarlet & 15
\hline
& 4513 White & 15
\hline
& 4515 Sulphur Yellow & 15
\hline
& 4516 Crimson & 15
\hline
& Collection of a packet each of the above 6 colors, & 75 cts.
\hline
\end{tabular}

All colors, 15 cts. per pkt.; 40 cts. per ½ oz.; $1.25 per oz.

NEW DOUBLE DAHLIA-FLOWERED ZINNIAS

4480 We were greatly impressed with this splendid new strain, which we saw in full flower last summer. The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches in depth, similar in shape to the double Decorative Dahlias. The range of colors not only include the usual shades, but many unusual tones, such as salmon, old rose, cerise, strawberry-red, etc. We offer a splendid mixture. 20 cts. per pkt.; 3 pkts. for 50 cts.

ZINNIA MEXICANA

The two varieties of this dwarf type offered below are well worth growing.

4481 Perfection. One of the most distinct and meritorious annuals of recent introduction. The plant is of dwarf, compact growth, 9 to 10 inches high by as much through, with fine foliage, and bears a multitude of very double flowers, about 1½ inches across, in a most unusual range of colors, including rose-tipped canary-yellow, maroon-tipped cream-yellow and wallflower-red, velvety-garnet, etc., and altogether makes as pretty a border as anything we know of. 15 cts. per pkt.; 2 pkts., 25 cts.

4483 Golden Star. A pretty single-flowering variety with rich golden orange star-shaped flowers 2 to 3 inches across, it forms a compact bush about 15 inches high, and makes a very effective golden line. In bloom from midsummer till frost. 15 cts. per pkt.; 2 pkts. for 25 cts.

Zinnia Improved Large-flowering Dwarf Double, Salmon-rose

4446 This splendid, brilliant salmon-rose bedding variety has been on the market for several years, but the supply of seed has never been equal to the demand; we are fortunate in having a good crop this season of extra select stock. 10 cts. per pkt.; 40 cts. per ½ oz.
GENERAL LIST OF
DREER’S RELIABLE FLOWER SEEDS
For Novelties and Specialties see pages 52 to 62

For the convenience of our customers and to facilitate the filling of orders, it is only necessary in ordering to give the number of packets wanted and the corresponding number in the catalogue, viz.: 1 pkt. 1040, 10 cts.; 3 pkts. 1071, 30 cts., means one packet Acroclinium, double mixed, 10 cts.; 3 pkts. Ageratum, Blue Perfection, 30 cts.

All Flower Seeds are sent postpaid at prices given.

COLLECTIONS OF FLOWER SEEDS

AGERATUM (Floss Flower)

One of the best bedding plants, being literally a sheet of bloom from early summer till frost. Unlike many bedding plants, their flowers are not liable to be spoiled by rain, nor do the colors fade out. The various blue varieties are without doubt the most satisfactory bedding plants of this color for our trying climate. Easily raised from seed, which is usually started in a hothed or window and transferred to the open ground in May. Can also be grown outdoors in May. A sowing in September will give plants to bloom all winter. (See cut.)

If unable to find what you want, refer to the Index, page 2.
AGROSTEMMA (Rose of Heaven, Mullein Pink) PER PKT.
1090 Coronaria. An attractive free-flowering hardy perennial of easy culture, producing glowing crimson-flowering flowers like a single pink, and silvery-white foliage; blooms the first season; fine for cutting; 2 feet. ½ oz., 20 cts. ........................................ 5
1091 — Alba. A pure white variety ........................................ 10

ALYSSUM (Mad Wort)
Pretty little plants for beds, vases, baskets, edging or rockwork, blooming profusely all summer; useful also for winter flowering. Very sweetly scented.

1101 Little Gem, or Carpet of Snow. Of dwarf, compact habit, but 4 inches high. It begins to bloom when quite small, and the plants are a solid mass of white from spring to late in autumn, and undoubtedly the best white-flowering edging plant in the list. (See cut.) Per ¼ oz., 25 cts.; per oz., 75 cts. ............................ 10
1102 Sweet Alyssum (A. Maritimum). Of trailing habit; flowers white. Per oz., 40 cts. ........................................ 5
1103 Tom Thumb (Benthami Compactum). Of dwarf, compact, erect growth; excellent for edging; white. Per oz., 50 cts. ............................ 5
1100 Lilac Queen. See Specialties, pages 52 to 62. Per ¼ oz., 50 cts. 10
1104 Saxatile Compactum (Basket of Gold). Showy, bright yellow flowers, hardy perennial; blooms the first season if sown early indoors; excellent for rockwork; 1 foot. Per ¼ oz., 40 cts. ............... 10

AMARANTHUS
Brilliant-foliaged annuals, growing from 3 to 5 feet high, some of the varieties bearing curious racemes of flowers. All are useful in borders of tall plants or for the centre of large beds. They thrive best in a hot, sunny location, not too rich soil, and given sufficient room to develop their full beauty.

1111 Caudatus (Love Lies Bleeding). Blood red; drooping ............. 5
1116 Cruentus (Prince’s Feather). Dark red feathery flowers ........... 5
1113 Sunrise. The most brilliant of this brilliant family. The foliage is bronzy crimson, each branch terminating with a tuft of bright scarlet-carmine leaves. It has been used with fine effect in many of the public parks. 2 pkts., 25 cts. ........................................ 15
1114 Tricolor (Joseph’s Coat). Leaves red, yellow and green. ¼ oz., 20 cts. 5
1115 Tricolor Splendens. An improvement on the old sort, of more brilliant coloring. ¼ oz., 30 cts. .......................... 10

AMPELOPSIS (Boston, or Japanese Ivy) PER PKT.
1131 Veitchi. A hardy perennial, with olive-green leaves, which turn to scarlet in the autumn. The best and most popular climber for covering brick or stone walls. Per oz., 50 cts. 10

ANCHUSA (Alkanet)
1137 Capensis (Cape Forget-me-not). A fine free-growing annual variety about 18 inches high, with sprays of lovely Forget-me-not blue flowers; blooms all summer. ¼ oz., 20 cts. 10
1138 Italica Dropmore Variety. One of the best hardy perennials, and becoming more popular each season, grows 3 to 5 feet high, and bears in abundance flowers of the richest gentian-blue during May and June. ¼ oz., 50 cts. .................. 15

ANEMONE (Windflower)
A very pleasing perennial, producing large flowers; few plants compare with them in beauty; fine for bouquets. Sow outdoors in spring; keeping shaded till the plants appear.

1140 Coronaria. Mixed Colors (Poppy Anemone) ......................... 10
1146 St. Brigid. A beautiful selection of the above; our seed comes from a famous Irish grower and comprises semi-double and double flowers in a wonderful array of colors. 2 pkts., 25 cts. .......................... 15

ANTHEMIS (Hardy Marguerite)
1150 Kelwayi. A most satisfactory hardy perennial, bearing all summer daisy-like golden-yellow blossoms; excellent for cutting; 2 feet ...... 15

All Flower Seeds are delivered postpaid to any Postoffice in the United States
AQUILEGIA (Columbine)

No hardy plant grown from seed is more easily handled than the Columbine. Seed may be sown in the open ground early in spring, and will, in most cases bloom the same season; or they may be planted in August or September, and will come up early in spring and make vigorous plants, which will bloom abundantly during late spring and early summer.

Columbines should be planted wherever their presence will serve to lighten up a too stiff and formal planting, for no other plant has so airy a grace as the Columbine, is more generous of its blooms, or more effectively adapted for cut flowers.

ANTIRRHINUM (Snapdragon)

Within the last few years Snapdragons have become immensely popular. This is not to be wondered at, as, whether used for cutting or for show in the garden, they are one of the most valuable flowers which can readily be grown from seed. We offer two distinct types, the large-flowering, tall-growing, or giant, and the equally large-flowered, half-dwarf variety. In our trials the seeds sown out of doors the first week of May came into bloom early in July, remaining in full flower until November. For earlier flowering, they may be started indoors or in a frame in March, transplanting them to the open when the weather is suitable.

**Giant Varieties.** Of tall growth, very large individual flowers:

**Asters are one of our leading Specialties. See pages 64 to 67**
ARABIS (Rock Cress)

1211 Alpina. A hardy perennial and one of the earliest and prettiest spring flowers. The spreading tufts are covered with a sheet of pure white flowers as soon as the snow disappears. Unequaled for rockeries or edging; withstands the drought and is always neat; 6 inches. ½ oz., 25 cts. ................................. 10

ARCTOTIS (African Daisy)

1216 Grandis. A remarkably handsome annual from Southwest Africa. It forms much-branched bushes 2 to 3 feet high; its flowers are large and showy, being pure white on the upper surface, the reverse of petals pale lilac-blue. There are few annual flowers grown in the garden more valuable for cut flower work than the Arctotis. It is easily grown from seed, and may be started in hotbed, in the house, or in the open ground, the seed germinating in about five days, and the plants may be expected to come into bloom early in July and continue until quite hard frost. It delights in a sunny situation. As a cut flower it is especially valuable, the blooms lasting a week or ten days in water, and if undeveloped buds are cut and placed in a sunny window every one will open and produce as fine flowers as though left on the plant. ½ oz., 30 cts. ................................. 10

ARMERIA (Sea Pink or Thrift)

1221 Formosa. A very pretty edging plant, bearing rosy-pink flowers; hardy perennial. 2 pkts., 25 cts. ........................ 15

AURICULA

(Primula Auricula)

1500 A well known favorite of great beauty; seed saved from splendid choice mixed varieties; half-hardy perennial; 6 inches ................................. 25

ARGEMONE

(Mexican or Prickly Poppy)

1220 Hybrida Grandiflora. We were delighted with a trial of this in our experimental grounds. The plants grew into sturdy bushes about 3 feet high, with very ornamental pale green, spiny foliage, with clear silvery midrib and veins and poppy-like flowers of satiny texture, over 3 inches across, in various shades from rich yellow to creamy-white. It came into bloom early in July and continued without interruption till November. It is best to sow the seed where they are intended to bloom as soon as the ground is warm, and should have a sunny location, and prefers light soil. A very pretty and ornamental plant in or out of bloom. 2 pkts., 25 cts. ................................. 15

1219 Platyceras Rosea. A new introduction similar in habit of growth and foliage to the above, but with rich ruby-rose flowers. 2 pkts., 25 cts. ................................. 15

ASPARAGUS

1231 Plumosus Nanus. This graceful Asparagus is an excellent house plant. $1.00 per 100 seeds. ................................. 25

1232 Sprengeri (Emerald Feather.) One of the best plants to grow in suspended baskets, window boxes, vases, etc.; for the greenhouse in winter and outside in the summer. 50 cts. per 100 seeds 10

All Flower Seeds are delivered postpaid to any Postoffice in the United States
Dreer’s Famous American Asters

Asters are one of the most important summer and autumn flowers, and receive special care at our hands. Yearly exhaustive tests are made with a view to offering only the choicest kinds, regardless of cost. As a result of this care our list comprises only such sorts as can be planted with perfect confidence that nothing better is procurable, no matter at what price or from what source.

The varieties offered on this and the following three pages represent the finest Asters introduced to date, and are all firmly established favorites with the most critical growers of this popular flower, and should be in every garden where high quality is appreciated.

The early sorts, such as Queen of the Market, Lavender Gem and Royal, begin blooming in July, followed by, the mid-season varieties, which are usually at their best during August, and which include such splendid sorts as Pink Beauty, Mikado, Ostrich Feather, and the Improved American Victorias. Then come the late-flowering kinds, which bloom from the end of August on through September into October. This class furnishes the finest flowers of all, and is well represented in our list by our Superb Late Branching in eight beautiful colors, our Peerless Pink, the finest Pink Aster grown, Crego’s Giant, Crimson Giant, the Kings and a number of other fine sorts. It is quite easy, therefore, with a little care in the selection of the varieties, to have Asters in bloom from the first days in July until hard frost.

A Few Cultural Hints on the Growing of Asters

Asters will thrive in any good soil, prepared in the same way as you would for a crop of vegetables, but it is well to remember that any extra care taken in the preparation of the soil is repaid by finer plants, larger blooms with longer stems and more profuse flowering. They should have an open, sunny position, and prefer a good, heavy, loamy soil, enriched with a liberal quantity of bone meal or other good commercial fertilizer; and the addition of wood ashes or air-slaked lime, and we do not advise growing them on the same ground year after year; it is better to change each season.

For early flowering the seed should be started in the house, hotbed or cold-frame in April, transferring them to their flowering quarters as soon as danger from frost is past. For August and later flowering it is just as well to sow them in the open in May, preferably in a prepared seed bed, transplanting them when two or three inches high to where they are to bloom, although they may be sown where they are to flower with almost as good results.

The main essentials to insure fine Asters are a rich soil, frequent cultivation, no check to their growth from start to finish and ample room to develop. When wanted for cutting with long stems, they should be set out not closer than twelve inches apart in the rows and two feet between the rows. When wanted for mass effects in beds they may be planted nine inches to a foot apart each way.

Asters are sometimes attacked by an aphis at their roots; also by stem rot, a disease which causes the stem to decay just at the point where it emerges from the ground. Both of these troubles are rarely met with if the plants are grown on good soil and are not checked in their growth. The addition of wood ashes or air-slaked lime at the time of the preparation of the bed also helps to prevent these troubles.

The Aster or Black Beetle, which devours the flowers, can only be destroyed by hand-picking or by knocking them into a basin or receptacle in which there is some water and kerosene oil. As a rule, these beetles come in August, and by growing only the early and the late-flowering kinds can be avoided.

**ASTERMUM ASTERS**

A strain of Comet Asters which, on account of their size and Chrysanthemum-like appearance, have appropriately been named Astermums. The plants grow about 2 feet high, and come into bloom a little earlier than the Crego’s Giant. We offer three fine colors, as under:

1261 **Lavender.** A rich shade of lavender or light violet.
1262 **Pink.** A very attractive shade of lively rose-pink.
1263 **White.** Purest snow-white.

**Price.** 15 cts. per pkt.; a packet of each color for 35 cts.

**CHINA ASTERS**

I340 **General Mixture.** This mixture was saved from the many sorts and colors grown on our trial grounds the past season. 5 cts. per pkt.; ½ oz. 25 cts.

**Crego’s Giant Comet Asters**

We consider this the finest and largest of all Comet Asters, bearing immense fluffy flowers five inches and over in diameter, as fine as any Chrysanthemum, and when cut keep in good condition longer than any other of this type (illustrated on page 68). We offer five colors, viz.:

- **White.** Pure white ........................................ 15
- **Pink.** Delicate shell-pink .............................. 15
- **Purple.** Bright purple .................................. 15
- **Rose.** Rich deep rose ................................. 15
- **Lavender.** Deep lavender .............................. 15

1258 **Collection** of a packet each of the 5 colors, 60 cts.

1290 **Crego’s Mixed.** All colors. 15 cts. per pkt.; 75 cts. per ½ oz.

Asters are continued on pages 68 to 70. See also Specialties, pages 52 to 62.
**Dreer's Famous American Asters**

**EARLY WONDER ASTERS**
This is the best extra early Aster, flowering in early July from seeds sown in the open ground at the end of April, and if sown in March can be had in bloom before the close of June. The flowers are of good size, quite double, and are borne on good, long, stiff stems, which, added to their extremely early flowering, makes them of great value for cutting.

1342 White. . . . . . . . 15 | 1341 Pink. . . . . . . . 15
A packet of each for 25 cts.

**KING ASTERS**
The "Kings" Asters form a distinct class or type, and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear from August to October very large double blossoms, the petals of which are more or less quilled, forming a very attractive flower. That we think highly of this type is evidenced by the fact that we include Rose King and Violet King in our collection of Six Famous American Asters, which we offer among our specialties on page 54.

1343 Dreer's Crimson King. The richest and deepest crimson variety known to us.
1344 Lavender King. Soft lavender blue.
1345 Pink King. An attractive delicate shell pink.
1346 Rose King. A beautiful brilliant rose variety.
1347 Violet King. A pleasing soft shade of violet.
1348 White King. Pure white.

**Price:** Any of the above, 15 cts. per pkt.
1349 Collection. A packet each of the above, for 75 cts.
1350 King Mixed. Contains all the colors. 15 cts. per pkt.; 75 cts. per 1 oz.

---

**DREER'S SUPERBLATE-BRANCHING ASTERS**
This grand strain is of American origin, and is especially adapted to our climatic conditions.

The plants form strong, branching bushes 2 to 2½ feet high, bearing on long, strong stems flowers which, under ordinary cultivation, average 3 inches across. They are usually at their best during September, and, all things considered, are the most valuable of all Asters, either for cutting or for bedding, and if only one kind of Aster is grown this is the type which will likely give the best results.

**CHEROKEE'S GIANT COMET ASTER.** (Offered on page 69)

**DREER'S SIX FAMOUS AMERICAN ASTERS** are high-grade. See page 54
Dreer's Famous American Asters

LAVENDER GEMASTER
1353 One of the most beautiful Asters. It is of true Comet type, with large, artistic, loosely-arranged flowers on long, wiry stems, and of the most charming shade of lavender imaginable. Begins blooming in July, continuing through August; a lovely variety for cutting. 15 cts. per pkt.; 2 pkts., 25 cts.

MIKADO ASTERS
A Comet variety, very similar to the Crego's Giant offered on page 67, but dwarfer in growth, and comes into bloom fully two weeks earlier. The plants attain a height of about 18 inches, of branching habit and the flowers, borne on long, strong stems, are of colossal size, flowers five and six inches across being the rule. We offer two colors, viz.:
1357 Mikado Pink, or Rochester. A charming shade of pink suffused with lavender. A color which shows to great advantage under artificial light.
1358 Mikado White. Of purest glistening white; a magnificent and artistic flower.

OSTRICH FEATHER ASTERS
This magnificent Aster produces flowers of immense size, made up of long, loosely-formed petals. Blooms in August. When used for cutting, the flowers should be picked when about half expanded and allowed to develop in water in a cool room.

Dreer's "Peerless Pink" Aster
1393 This is conceded to be the finest pink late-branching Aster ever offered. The plants are of robust, free-branching habit, and it is hard to find a flower under four inches across, and many measure five inches by two and a half in depth, forming an almost globular flower. The color is a rich shell-pink and comes into bloom about the middle of August, being at its best during the early part of September. 15 cts. per pkt.; 2 pkts., 25 cts.

Dreer's "Pink Beauty" Aster
1396 This was introduced by us in 1908, and is a magnificent variety of strong, free, upright growth, 24 to 30 inches high, blooming from early in August until well on in September, with frequently as many as 50 flowers open at one time on long, strong stems, and averaging 4 inches across, of chrysanthemum shape, the inner petals incurved, outer reflexed; color a soft, delicate blush pink, a shade that is always in demand for cutting. This has been pronounced by experts to be the finest pink mid-season Aster yet introduced. 15 cts. per pkt., 2 pkts., 25 cts.

Queen of the Market Asters
A first-class early-flowering Aster, coming into flower in July, of branching habit; flowers of good size and borne on long stems, making them exceedingly valuable for cutting; 1 foot.

DREER'S COLLECTION OF SIX FAMOUS AMERICAN ASTERS
Offered and described on page 54 contains nothing but extra fine sorts.

For Cultural Hints on Asters see page 67
Dreer’s Famous American Asters

ROYAL ASTERS
A recently developed type that might
readily be described as an early flowering
form of our Superb Late Branching variety,
having all the good qualities of the latter,
but coming into bloom in July or early
August, and lasting in perfect condition for
a long time. The habit of the plants and
their free flowering make them very desir-
able for beds or borders, while their long-
stemmed flowers are ideal for cutting. The
form of the flower is well shown in the
illustration on page 69. We offer six
beautiful and distinct colors.

1412 Lavender. Soft lavender violet.
1414 Rich Rose. A bright color.
1415 Rose-Pink. Very pretty, shaded white at centre.
1416 Shell-Pink. Very delicate.
1417 White. Purest white.
1419 Collection of a packet each of the six colors.
1420 Mixed. Containing all of the colors. 1/4 oz., 75 cts., 10

NEW RED ASTER “SENSATION”
1442 This is the reddest of all Red Asters, the color being a rich
garnet or ox-blood red, which glists in the sunshine like a
live coal. The plants are of free-branching habit, about
18 inches high; the very double flowers, averaging 3½ inches across, are
borne freely on stems a foot long from early in August till the close of Sep-
tember. The intense color shows up well when cut, and makes a very brilli-
ant bit of color in a bed or border. 15 cts. per pkt.; 2 pkts., 25 cts.

Improved American Victoria Asters
This is by far the finest of all Asters for beds or borders where an even growth
and a mass of flowers are wanted for effect; the sturdy upright plants, 12 to 15
inches high, carry not less than 50 flowers each, producing a mass of color un-
equaled by any other; blooms from early August till late October. (See cut.)

1471 Daybreak. Delicate La France pink.
1472 Purity. Purest white.
1473 Pale Lavender. A delicate shade.
1474 Rose-Pink. Rose shading to blush-pink.
1475 Salmon-Pink. Rich salmon-pink, exquisite
1478 Collection of 6 each of the above 6 colors.
1480 Cholest Mixed. All colors. 1/4 oz., 75 cts., 10

SINGLE CHINA ASTER
1440 The Single China Asters are very effective in beds or
borders, and offer a pleasing change to the innumera-
ble double sorts; mixed colors. 1/2 oz., 30 cts., 10

HARDY PERENNIAL ASTER
1400 Mixed (Michaelmas Daisies). Single fall-flowering
hardy herbaceous plants, thriving in any good garden
soil. If sown early they will flower the first season;
3 ft. 1/2 oz., 50 cts., 10

We offer a number of splendid NOVELTIES AND SPECIALTIES in Flower Seeds. See pages 52 to 62
BEGONIAS

Everblooming Bedding Varieties

The following are varieties of Begonia Semperflorens; and take rank as bedding plants with Geraniums and Coleus, doing equally well in full sunlight, and surpassing both in positions partially or wholly in shade. They are of sturdy growth, growing about 1 foot high, and forming dense bushes, which, from May until frost, are completely hidden with flowers. As pot pots for winter flowering they are superb, remaining a sheet of bloom throughout the entire year. Easily raised from seed, which should be started either indoor or in a hotbed. (See cut.)

1562 Erfordia. Bright rosy-carmine ........................................ 25
1564 Prima Donna. Limped-rose, shading to carmine at the centre; everblooming ........................................ 25
1566 Gloire de Chatelaine. A beautiful large flowering everblooming variety of a lovely soft rose-pink ..........................
1565 Gracilis Rosen. Handsome flowers of a delicate rose color. ..... 1
1568 Luminosa. Brilliant fiery dark scarlet; very bright ................ 2
1577 Salmon Queen. The highest colored of all, being a brilliant salmon-rose, beautiful either as a pot plant or for bedding. .......................... 25
1571 Vernon. Bright orange-carmine flowers; deep red foliage ....... 15
1580 Semperflorens, Single Mixed. This mixture contains all the colors from pure white to deepest crimson; splendid .................. 10

Begonia Semperflorens

BOOKS

On Horticultural Subjects

We offer a line of the most helpful works on the above. See inside of back cover of this book.

Balloon Vine

(Love-in-a-Puff) PER PKT.
1525 A rapid-growing annual climber; succeeds best in light soil and warm situation; flowers white; seed vessels look like miniature balloons and of great interest to children. (See cut.) Per oz., 25 cts. .................. 5

Double Camellia-flowered Balsams

(Lady Slipper)

An old and favorite garden flower, producing its gorgeous masses of beautiful brilliant colored double flowers in the greatest profusion; of easy culture; succeeds in a good rich soil; tender annuals; 2 feet. Start the seed indoors in April, or sow out of doors in May. To grow fine specimens they should not be closer than 18 inches apart. (See cut.)

1532 Salmon Prince. Exquisite salmon-pink; very double .......... 10
1533 Light Yellow ......................................................... 10
1534 Scarlet. Brilliant fiery scarlet ..................................... 10
1535 Solferino. Stripped and spotted white, lilac and scarlet ...... 10
1536 Violet. Very rich .................................................. 10
1537 White Perfection (Alba Perfecta). Very double, immense solid round flowers of purest white ..................... 10
1538 Collection of the 6 colors offered above .......................... 40
1540 Double Camellia-flowered. Finest mixed. ¼ oz., 25 cts. .... 5

BOCCONIA

(Camellia-flowered, or Vine Celandine)

1611 Cordata. Effective, hardy perennial, for single specimens or groups on lawns. Foliage glaucous green; bears freely spikes 2 to 3 feet long of cream-colored flowers; 5 feet; easily raised from seed. ½ oz., 25 cts. 10

An Index of the Botanical and the Common or Popular Names of Flowers is given on page 2
BRACHYCOME (Swan River Daisy) Per Pkt.
1620 Free-flowering, dwarf growing annuals; covered during the greater part of the summer with a profusion of pretty blue or white flowers, suitable for edgings, small beds or pot culture; 9 inches. (See cut.) 
\[\frac{1}{2} oz., 30 cts.\] ........................................... 5

BROWALLIA (Amethyst) Per Pkt.
1640 Elata. One of our favorite profuse blooming annuals, covered with beautiful blue and white flowers during the summer and autumn months; grows freely in any rich soil; blooms finely in the winter if the plants are lifted in autumn and cut back; mixture containing both the blue and white varieties; 18 inches. 
\[\frac{1}{2} oz., 25 cts.\] ........................................... 5

CACALIA (Tassel Flower, or Flora’s Paint Brush) Per Pkt.
1650 A neat annual, of easy culture, with tassel-shaped flowers; blooms from June to September; fine for borders. Golden yellow and scarlet mixed; 1½ feet. 
\[\frac{1}{2} oz., 25 cts.\] ........................................... 5

CALCEOLARIA
1671 Dreer’s Perfection. An ornamental plant, producing a mass of beautiful pocket-like flowers in the spring, and a universal favorite for decorating the greenhouse or conservatory. This strain was grown for us by a celebrated Scotch specialist, and is considered the finest in cultivation; flowers beautifully spotted and blotched in exceedingly rich and varied colors; of perfect form and fine substance; the habit of the plants dwarf and compact and very free-flowering. ........................................... 50

BELLIS (Double Daisy)

BELLIS (English Daisy)
A favorite perennial, which will stand the winter if given the protection of a little litter. In bloom from early spring until well on in the summer. Easily raised from seed, which may be sown any time from spring till August. For best results, new plants should be raised from seed each year. The following are the finest double-flowering kinds, selected after careful test out of over twenty sorts:

PER Pkt.
1594 Longfellow. Large, double-pink flowers ........................................... 10
1596 Ranunculiflora Alba. A splendid type, with densely double pure white flowers, not very large, but very free-flowering; ........................................... 15
1597 Ranunculiflora Rosen. Identical to the preceding except in color, which is a bright rosy pink ........................................... 15
1598 Giant White. Each plant produces but a few flowers, but these are of enormous size, almost as big as a good-sized Aster. ........................................... 25
1599 Giant Rose. Same as the above except in color ........................................... 25
1600 The Bride, or Improved Snowball. A fine large double free-flowering pure white ........................................... 10
1601 Double Quilled. Double quilled flowers in mixture, containing red, pink and white ........................................... 25
1600 Double Mixed. A fine mixture, containing all the colors. 
\[\frac{1}{2} oz., 50 cts.\] ........................................... 10

BOLTONIA (False Chamomile)
One of the showiest of our native hardy perennials, growing 4 to 6 feet high, with daisy-like flowers in countless thousands from July to September.
1615 Asteroides. White ........................................... 10
1616 Latisquama. Lilac pink ........................................... 10

BRYONOPSIS
1641 Laciniosa. A beautiful annual climber of the gourd species, with ivy-like pale green foliage and showy fruit, first green striped white, turning when ripe to bright scarlet striped white; 10 to 20 feet. ........................................... 10

Our Famous American Asters are the finest in existence. See pages 67 to 70.
CALENDULA (Pot Marigold)

This is the "Marygold" of Shakespeare's time; one of the best and showiest free-flowering hardy annuals, growing in any good garden soil, producing a fine effect in beds or mixed borders, particularly bright in late fall, continuing to bloom from early summer until killed by frost; valuable also for pot culture; blooming freely in winter and early spring; 1 foot. (See cut.)

PER PKT.

1681 Meteor. Large double orange, broadly striped with creamy-white, light centre. Oz., 30 cts 5

1684 Prince of Orange. Rich orange cadmium, cream-white at base of petals, dark eye. Oz., 30 cts... 5

1682 Orange King. Very large and double bright orange-red, dark eye, an extra fine strain, with flowers averaging over 3 inches across. Oz., 30 cts... 5

1686 Lemon King. Very large and extremely double flowers of a pleasing rich lemon-yellow, dark eye. Oz., 30 cts.......................... 5

1683 Nankeen. A very distinct variety, the double flowers of a creamy-yellow, slightly flushed apricot, dark brown eye. Oz., 30 cts.......................... 5

1687 Royal or Trianon. Lemon-yellow striped orange, with dark eye. Oz., 30 cts.................. 5

1690 Mixed. All the double sorts. Oz., 25 cts.................. 5

1689 Collection. One packet each of the 6 separate sorts... 25

Dreer's

Extra Early Colossal or Midsummer Giant Cosmos

We illustrate in colors and describe and offer this greatly improved form of the early flowering Cosmos on page 52. They bloom continuously from early July till frost.

1749 A beautiful rapid growing annual climber, the charming little canary-colored blossoms bearing a fancied resemblance to a bird with its wings half expanded. (See cut.) Per oz., 25 cts.......................... 5

CANNA (Indian Shot)

Dwarf, Large-flowering French. Unquestionably the finest of bedding plants for the American climate. The seeds here offered are all of our own saving. Soak the seeds in warm water until they show evidence of swelling, then sow in sandy loam, and place in a hotbed; when up to the second leaf, pot off singly and keep under glass until the proper season for planting out.

1799 Collection of a packet each of six grand sorts.......................... 40

1790 Mixed. Saved from the finest sorts. Per oz., 25 cts.................. 5

The growing of high-grade Cannas is one of our leading specialties.

For list of same see pages 140 and 141.
CANDYTUFT (Iberis Umbellata)

The annual Candytufts are universally known and cultivated, and considered indispensable for cutting. All the varieties look best in beds or masses. Seed sown in autumn produce flowers early in spring; when sown in April, flowers in June; successive sowings should be made at intervals. Hardy and easy to grow. Single plants transplanted look well and bloom profusely; 1 foot.

1751 Carmine. Bright carmine rose. Oz., 50 cts. .......... 10
1753 Giant Hyacinth-flowered or Improved Empress. As the result of extra care and painstaking selection this is now the finest of all the white varieties, being a complete mass of pure white flowers, in a pyramid of bloom. (See cut.) Per £ oz., 35 cts.; oz., 60 cts. ............. 10
1755 White Fragrant. Flowers small, very sweetly scented. Oz., 40 cts. .......... 5
1758 Rose Cardinal. Brilliant deep rosy-red; one of the most effective for bedding. Oz., 60 cts. .......... 10
1759 Collection. Containing a packet each of the above 6 sorts, 30 cts.

1760 Mixed. A splendid mixture containing all the colors. Oz., 30 cts. .......... 5

For Perennial Candytuft see Iberis, page 92.

CALLIOPSIS

Showy and beautiful free-flowering annuals, of the easiest culture, doing well in any sunny position, blooming all summer and excellent for cutting and massing. It is best to sow them where they are to bloom, thinning out to stand 6 inches to 12 inches apart. By keeping the old flowers cut off the flowering season can be lengthened until late autumn.

1696 Bicolor Nana. Of dwarf, compact, even growth; flowers clear yellow with small garnet eye; 9 inches. £ oz., 20 cts. .......... 6
1697 Crimson King. A fine dwarf sort, 9 inches high; color rich velvety crimson-garnet. £ oz., 30 cts. .......... 10
1702 Golden Wave (Drummondii). Rich golden-yellow with small chestnut-brown center; very free; 12 inches. £ oz., 20 cts. .......... 5
1707 Golden Ray. Dwarf, compact plants, not over 9 inches high, covered with flowers of rich maroon edged with golden-yellow, and having twisted petals like a Cactus Dahlia. £ oz., 30 cts. .......... 10
1708 Marmorata. A very showy sort, growing 2 feet high and covered with bright golden-yellow flowers, marbled with Wallflower-red. £ oz., 20 cts. .......... 5
1709 Nigra Speciosa. A strong grower with good-sized flowers of rich reddish maroon; 2 feet. £ oz., 20 cts. .......... 5
1705 Tiger Star. Plants not over 9 inches high, flowers of rich reddish brown, tigered with golden-yellow, not unlike some of the Orchids. £ oz., 30 cts. .......... 10
1704 Tinctoria. Another showy variety, the large flowers being bright yellow and maroon, about evenly divided; 24 inches. £ oz., 20 cts. .......... 5
1706 Double Tinctoria. Double and semi-double very showy flowers of rich maroon, edged with gold; 18 inches. £ oz., 20 cts. .......... 5
1710 Mixed. All the choice sorts in mixture. Per oz., 30 cts. .......... 5
1709 Collection. Containing packet each of the above 10 sorts, 50 cts.

If unable to find what you want refer to the Index page 2
CAMPHANULAS or BELLFLOWERS

Well known, beautiful hardy herbaceous perennials, bearing a great profusion of attractive bell-shaped flowers; thriving best in light, rich soil; some of the varieties flower the first season if sown early.

1721 **Carpatica** (Carpathian Hare Bell). Free-flowering hardy perennial, continuing in bloom the whole season; color clear blue; grows 6 inches high; especially good for edging. ½ oz., 40 cts. 10

1729 — **Alba**. The white-flowered form of the above. ½ oz., 40 cts. 10

1724 **Persicifolia Grandiflora** (Peach Bells) Undoubtedly one of the finest of the hardy Bellflowers; grows 2 to 3 feet high, with large blue flowers. 15

1725 — **Alba**. The white-flowered Peach Bells. 15

1728 **Pyramidalis** (The Chimney Bellflower). A beautiful stately hardy plant, either for garden or pot culture; blue salver-shaped flowers; 4 to 5 feet. ½ oz., 50 cts. 10

1729 — **Alba**. Same as above, but with white flowers. ½ oz., 50 cts. 10

CANTERBURY BELLS

(Campanula Medium).

Mrs. Ely, author of "A Woman's Hardy Garden," says:

"The seeds should be sown by mid-April, in finely prepared, rich soil—the colors in separate rows—and if the weather is dry, they should be given a thorough watering late every afternoon. By the 15th of July the little plants should be transplanted, either to the places where they are to bloom the following summer, or else they may be set out temporarily in rows about a foot apart, the plants eight inches apart, and finally transplanted early in October. Some evergreen branches, or a little straw or coarse hay, thrown over them when the ground begins to freeze, makes all the winter covering these plants require.

**Calycanthera** (Cup and Saucer Canterbury Bells). This is unquestionably the finest type of this old-fashioned and much prized garden plant. They differ from the ordinary type in having an extra large calyx, which is of the same color as the flower, giving the appearance of a cup and saucer. They are effective either in the garden or grown in pots for conservatory or table decoration. We offer them in separate colors, as well as in mixture, viz.:

CELOSIA CRISTATA (Cockcomb)
Free-blooming annuals, growing best in rather light soil, not too rich; make grand border plants and are attractive for pots. Seed can be sown under cover in early spring and planted out in May, or may be sown out of doors in May.

1861 Empress. Rich crimson; combs of colossal proportions. 10
1852 Glasgow Prize. Immense, showy dark crimson combs. 10
1853 Queen of the Dwarfs. This we consider the finest of the dwarf-growing Cockscobs. The plants grow only 8 inches high, with beautiful dark rose-colored combs, measuring under good cultivation 2 feet across. 10
1860 Dwarf, Mixed. Fine dwarf varieties. 1/4 oz. 40 cts. 10
1858 Collection of 6 colors dwarf Cockscobs, 50 cts.

CELOSIA PLUMOSA (Feathered Cockcomb)
Make fine plants for large beds or groups, and the plumes or flowers can be cut and dried for winter bouquets. Should be treated exactly the same as the Cockscobs described above.
1865 Childs (Chinese Woolflower). This attractive novelty is offered with other specialties on pages 52 to 62. 15
1867 Thompson’s Superb (Triomphe de V. Exposition). Of pyramidal growth, attaining a height of 3 feet, and producing graceful, feathery plumes of the most brilliant crimson. 1/4 oz., 40 cts. 10
1868 Thompson’s Magnifica. Similar to the preceding, but ranging in color from the clearest yellow to the darkest blood-red. 1/4 oz., 50 cts. 15
1866 Golden Plume. Bright, golden-yellow plumes. 1/4 oz., 40 cts. 10
1870 Plumosa, Mixed. Feathered varieties in all colors. 1/4 oz., 25 cts. 5

MARGUERITE CARNATIONS
These are deservedly the most popular Carnations with the amateur, as they begin flowering in a few weeks from time of sowing. The strain offered is of extra fine quality, producing on long, strong stems an abundance of large, double, beautifully-fringed, highly-scented flowers; with slight protection they will survive an ordinary winter and bloom freely the following spring.

1861 Deep Crimson 15 1814 Fiery Scarlet 15
1812 Yellow 15 1815 Striped 15
1813 Bright Rose 15 1816 Pure White 15
1848 Collection of 1 pkt. each of the above 6 colors 60
1820 Mixed. All colors Marguerite Carnations. 1/4 oz., 50 cts. 10

GIANT MARGUERITE CARNATION
1830 An improved strain, producing flowers of immense size, frequently measuring 2½ to 3 inches across; strong, vigorous growers and wonderfully free-flowering; mixed colors. 1/4 oz., 50 cts. 15

Asters are one of our leading specialties. See special list on page 54, also pages 67 to 70.
**CENTAUREAS**

Under this name is included such popular annuals as the Cornflowers, Sweet Sultans, etc. They are favorites in all sections of the country, are perfectly hardy, will grow and do well almost everywhere, and are much in demand as cut flowers.

**CORNFLOWERS (Centaurea Cyanus)**

These are also known as Bachelor’s Buttons, Blue Bottle, Ragged Sailor, Bluet and sometimes as Ragged Robin, but which name belongs to one of the Lychnis and frequently results in confusion. It is always best to order by the botanical names. They are well known to every flower lover, and always included in old-fashioned gardens. They usually re-seed themselves coming up year after year. A bunch of the blue sorts, with a few yellow Calliopsis, Marigolds, Calendulas or California Poppies, make a very rich combination.

**PER PKT.**

1876 Single Blue. The favorite dark blue sort so much in demand for cutting. Per oz., 40 cts. .......... 5

1877 — Rose. Per oz., 40 cts. .................. 5

1878 — White. Per oz., 40 cts. ................. 5

1880 — Mixed. Blue, white, rose, etc. Per oz., 30 cts. 5

1881 Double Blue. This was introduced by us in 1907, and is now a standard variety and largely used by the commercial florist, who quickly recognized its value as a cut flower. It is identical in color to the popular single blue variety, which is so much in demand for cutting, especially for buttonieres, but, being a full, double flower, it takes fewer of them to make a nice bunch, and it is better in every way. ½ oz., 50 cts. 15

1882 Double Rose Pink. A splendid variety for cutting, color clear rose-pink. ¼ oz., 50 cts. .......... 15

1890 Double-flowered Mixed. All colors, including blue, rose, white, etc. Per oz., 50 cts. .......... 10

---

**CENTAUREA IMPERIALIS**

*(Royal Sweet Sultans)*

This beautiful class is undoubtedly the finest of all Sweet Sultans for cut flower purposes. The beautiful, sweet-scented, artistic-shaped flowers are borne on long, strong stems, and when cut will stand for several days in good condition. It is best, in this latitude, to sow very early in the spring, so that they may perfect their flowers before very hot weather comes. (See cut.) We offer the following distinct colors;

**PER PKT.**

1891 Brilliant Rose .... 10 | 1894 Deep Purple .... 10

1892 Dark Rose ......... 10 | 1895 Delicate Lilac .... 10

1893 Deep Lavender ...... 10 | 1896 Pure White ....... 10

1899 Collection containing a packet each of the 6 colors. 50

1900 Finest Mixed Colors. ½ oz., 25 cts. .......... 5

---

**VARIOUS CENTAUREAS**

1874 Americana *(Basket Flower).* A splendid native variety, growing 3 feet high and bearing immense thistle-like blooms of a rosy-lavender color. Very showy in the mixed border and splendid for cutting. ¼ oz., 25 cts. 5

1901 Suaveolens *(Yellow Sweet Sultan, or Grecian Cornflower).* Very showy, large, bright yellow flowers; sweetly scented and a popular sort for cutting; lasting well. ¼ oz., 20 cts. .......... 5

---

**WHITE-LEAVED CENTAUREAS**

*(Dusty Millers)*

Fine for bedding, vases, hanging baskets and pots; also extensively used for margins. As an edging to a bed of dark-leaved Cannas or Scarlet Sage these are particularly effective. Sow the seed early indoors, and transplant in May. The white-leaved Centaureas are also known as Dusty Millers. See page 79.

1871 Candidissima. Silvery white; leaves broadly cut.

Per 1000 seeds, 50 cts. .......... 15

1872 Gymnocarpa. Fine cut silvery foliage; ½ foot. Per 1000 seeds, 30 cts. .......... 10

Dreer’s Extra Early Colossal or Midsummer Giant Cosmos

Shown in colors and described and offered on page 52.

Plants of Garden Chrysanthemums will be found offered on page 172.
CLARKIA
This pretty and easily grown annual has been much improved in recent years, and the varieties offered below are now seen as cut flowers in most of the large cities of Europe; they do well either in sun or shade growing 2 to 2½ feet high, with leafy racemes of double flowers, which all open in water when cut. (See cut.)

1981 Elegans Alba Fl. Pl. Very double, pure white... 10
1984 — Brilliant. Rich crimson scarlet; very double... 10
1982 — Salmon Queen. Extra double, salmon pink... 10
1983 — Scarlet Queen. A brilliant orange-scarlet; a rare shade... 10

A pkt. each of the 4 sorts, 30 cts.

1990 Elegans Double Mixed. A fine mixture containing all the colors. ½ oz., 25 cts............ 10

CLEOME (Giant Spider Flower)
2002 Gigantea. In our trial grounds this proved to be the finest Cleome we had ever seen. The plants attain a height of 3½ feet, well branched, each branch terminated by a large head of bright rosy-crimson flowers. It makes a striking subject for large beds or for interspersing in the shrubbery border, and is used extensively in many of the public parks. Seed should be sown in the open ground as soon as the weather is warm and settled, and the plants given sufficient room to develop their full beauty.

The Orchid-flowered Sweet Peas offered with other Specialties on pages 52 to 62 are up-to-date in every way
**Convolvulus (Morning Glory)**

**MAJOR, or CLIMBING MORNING GLORIES**

Deservedly very popular, as they are one of the most free-flowering and rapid-growing plants in cultivation, thriving in almost any situation; the beauty and delicacy of their brilliant flowers are unsurpassed. Soaking the seeds in warm water for an hour or two hastens germination; annuals 15 feet. (See cut.)

</tr>
</tbody>
</table>

**MINOR, or DWARF MORNING GLORIES**

While these are called Dwarf Morning Glories, they really remain open all day in fine weather, and are rich colored, handsome dwarf plants, and not as well known as they should be; they make a fine border, or can be grown in masses in beds, producing an unusually brilliant effect.

</table>

**COBAEA** (Cups and Saucer Vine or Cathedral Bells)

A climber of rapid growth, attaining a height of 30 to 50 feet during the season; valuable for covering trellises, arbors, trunks of trees, etc.; will cling to any rough surface. In sowing, place seeds edge-wise and merely cover with light soil; to get early results start the seed indoors in March or April; can also be sown out-of-doors in May. (See cut.)

</tr>
</tbody>
</table>

**RAINBOW CORN** (Zea Japonica Variegata)

2062 As an ornamental foliage plant this is not only highly effective, but very interesting. It grows about 5 feet high, quite bushy, the wonderfully variegated leaves being striped with bright green, silvery white, rosy-purple and sulphur yellow. It makes a very pretty dividing line between the vegetable and flower garden, or it may be used in the mixed border. Per oz., 30 cts. $0.25

**COWSLIP** (Primula Veris)

2110 Mixed. A beautiful hardy spring-flowering perennial; flowers of different colors, such as yellow, brown-edged yellow, etc. Very fragrant; 6 inches. (See cut.)

<table>

How to Grow Annuals and Perennials from Seed. Leaflet covering this subject free on request.
COREOPSIS

2071 Lanceolata Grandiflora. This is one of the finest of hardy plants, with large, showy bright yellow flowers, produced in the greatest abundance from June till frost. As a cut flower they stand near the head among hardy plants, having long stems and lasting in good condition a week or more. Easily grown from seed, flowering the first year if sown early. (See cut.) 1/2 oz., 25 cts. 10

COSMOS

Beautiful autumn-blooming plants. They produce thousands of artistic flowers in pure white, pink and crimson shades, furnishing an abundance of cut blooms for autumn decorations when other flowers are scarce. Should be sown in Spring in the open ground; when danger of frost is past, or the seed may be started under cover and afterwards transplanted. Plant not less than 18 inches apart in rows or in masses in beds. When the plants are about a foot high the tops should be pinched out to induce a bushy growth. They prefer a rather light, not too rich soil, but do well almost anywhere. The sorts offered below produce the finest flowers, but bloom late, and for points north of Philadelphia it is safer to get the extra early flowering type.

Mammoth Perfection. A magnificent selection, bearing flowers of mammoth size and perfect form. We offer the following colors:

2096 Crimson. Rich and deep. 1/2 oz., 25 cts. 10
2097 Light Pink. A popular color. 1/2 oz., 25 cts. 10
2098 Pure White. 1/2 oz., 25 cts. 10
2100 Mixed Mammoth Perfection. Per 1/2 oz., 20 cts.; per oz., 50 cts. 10

EXTRA EARLY COLOSSAL OR MIDSUMMER GIANT COSMOS

Seeds sown in the open ground April 27th produced plants that were covered with bloom July 20th, two months before the late flowering kind. These are illustrated in colors and fully described on page 52.

2085 Crimson. Very rich. 30 10
2086 Pink. A pretty shade. 30 10
2087 Pure White. 30 10
A pkt. each of the 3 colors for 25 cts.
2090 Mixed. All colors. 1/2 oz., 25 cts.; oz., 75 cts. 10
CYCLAMEN

Charming house plants, with beautiful foliage and rich-colored, fragrant flowers; universal favorites for winter and spring blooming. The Giant varieties have large leaves and stout flower stalks, throwing the flowers well above the foliage. Seed may be sown any time during the spring or autumn.

2120 Persicum. A very fine strain, not so large but easier to grow than the Giants; mixed colors. Per 100 seeds, $1.00. ........... 15

2121 Giant Salmon. Very bright. .......... 50

2122 — Pure White. ......... 25

2123 White with carmine eye. .......... 25

2124 — Dark Blood-red. .......... 25

2125 Delicate rose with deep crimson eye. .......... 25

2130 — Finest Mixed. Saved from a superb collection. Per 100 seeds, $2.00. .......... 25

2123 Butterfly. In this type the edges of the flowers are beautifully fringed or waved; for house or conservatory decoration they are of surpassing beauty. Mixed colors. ....... 50

CYPRESS VINE

(Ipomoea Quamoclit)

One of the most popular vines, with very delicate fern-like foliage, and masses of beautiful, small, star-shaped flowers. Sow in May, first soaking the seeds in warm water for a few hours; 15 feet.

2156 Scarlet. Per oz., 50 cts. .......... 3

2157 White. Per oz., 50 cts. .......... 5

2160 Mixed. White and scarlet. Per oz., 40 cts. 5

2158 Quamoclit Hybrida (The Cardinal Climber.) The best annual climber introduced in many years; beautiful fern-like foliage and brilliant cardinal flowers. 2 pkts. 25 cts. .......... 15

DAHLIAS

One of the best late summer and autumn flowering plants, and now enjoying a wide popularity; the double sorts will bloom the first season if the seed is sown before the beginning of April; the single sorts will bloom from seed sown in the open ground as late as June, although an earlier start is better.

2186 Twentieth Century. In size the flowers are giants, 4½ to 7 inches across, and in color vary from almost pure white to deep crimson-lake. 2 pkts. for 25 cts. .......... 15

2181 Colossal Peony-flowered. French strain, producing mammoth semi-double Peony-like flowers in a bewildering range of colors, 2 pkts. for 25 cts... 15

2185 Collette. A novel type, having a row of petals around the disc-like a frill or collar, and which is of a different color to the regular petals; mixed colors. ....... 15

2182 Giant Perfection. This strain produces single flowers of immense size, averaging 6 inches across, in a great variety of coloring. ½ oz. 50 cts. .......... 15

2190 Single Mixed. All colors. ½ oz., 25 cts. .......... 5

2196 Double Cactus. This type is very desirable. Many colors. ½ oz., 40 cts. .......... 15

2197 Giant Double Decorative. This comes from a famous French hybridizer, who states that it has been saved from a superb collection containing a very varied range of colors, with flowers frequently 8 inches across. .......... 25

2200 Double Large-flowering. Saved from fine double show sorts. ½ oz., 40 cts. .......... 15

DATURA (Trumpet Flower)

Ornamental annuals with large and showy flowers, making handsome plants, 2 to 3 feet high.

2212 Cornucopia ("Horn of Plenty"). A grand variety, the flowers averaging 8 inches long by 5 inches across; French white inside, purple outside; delightfully fragrant; started early, will flower from early summer until fall. .......... 10

2213 Fastuosa Huberiana. Large double flowers of various colors. ½ oz., 25 cts. .......... 5

We grow choice Dahlias by the acre, and offer a very extensive collection, see Plant Department
DELPHINIUM (Hardy Perennial Larkspur.)

Mr. W. C. Egan, the well known amateur and writer on horticultural subjects, says of Delphiniums:

“Sow the seeds in early spring indoors or in hot beds in shallow boxes. When the seedlings are about three-quarters of an inch high, transplant to flats three or four inches apart each way, and a week or ten days before planting out time remove the flats to open air, protecting them cold days or nights; this hardens them off and prevents any set-back when planted out.

“Spring-sown plants bloom in July and August. They take up very little room, for they may be planted 6 or 8 inches apart the first season. The following spring the choicer ones may be planted in permanent quarters in groups of three or more, or in larger groups in the shrubbery border, or to the rear of hardy perennials, two or three feet apart. In two or three years they should be taken out, the beds heavily manured, the plants reset and more room given each plant.”

They can also be sown in the open ground in spring, but would not likely flower until the second year.

2240 Gold Medal Hybrids. This is one of our most important specialties, and is unquestionably the finest strain of mixed hybrids ever offered. The original stock came from England, and consisted of the best named varieties. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long, the majority running in the lighter shades of blue. ½ oz., 50 cts. ....................................................................... 15

2218 Belladonna. (Ever-blooming Hardy Larkspur). This is the finest and most continuous blooming Hardy Larkspur. The clear turquoise blue of its flowers is not equalled for delicacy and beauty. A really exquisite variety. 5 pkts., $1.00. .................................................................................. 25

DIGITALIS (Foxglove)

Handsome and highly ornamental hardy plants of stately growth, succeeding under almost all conditions, and with but little attention will give a wealth of flowers during June and July. They are now used extensively with good effect for naturalizing in shrubbery, the edge of woods and other half-shady places; 3 to 5 feet.

Gloxinæflora. This is a fine strain of the ordinary Foxglove D. purpurea, with handsome spotted Gloxinia-like flowers on long spikes.

2256—Purple. ½ oz., 40 cts. ....................................................................... 10
2257—Rose. ½ oz., 40 cts. ....................................................................... 10
2258—White. ½ oz., 40 cts. ....................................................................... 10
2260—Mixed. All colors, ½ oz., 30 cts. ....................................................................... 10
2266 Grandiflora. Light yellow flowers in good spikes, ½ oz., 30 cts. ....................................................................... 10
2267 Maculata Superba. An extra choice strain of beautifully spotted sorts ½ oz., 30 cts. ....................................................................... 10
2270 Monstrosa. (Mammoth Foxglove.) Long spikes surmounted by one enormous flower; very odd; all colors mixed, ½ oz., 40 cts. ....................................................................... 10
2271 Lanata. A distinct species, producing dense spikes, 2 to 3 feet high, of odd looking flowers; the corolla being gray, the lip creamy white. ....................................................................... 10

Gold Medal Hybrid Delphiniums.
DIANTHUS OR PINKS

A magnificent genus, embracing some of the most popular flowers in cultivation, producing a great variety of brilliant colors and profusion of bloom. The varieties classed as annuals are really biennials, but are treated as annuals and may be sown out of doors when the danger from frost is past, and in a few weeks' time they are a mass of bloom continuing so until after hard frost. As a rule, they survive the winter if given slight protection, flowering abundantly the following season. They grow about a foot high and can be used in beds or borders of solid or mixed colors. The double flowering sorts are almost as fine as carnations for cutting. They are not particular as to soil, but should have a sunny location.

DOUBLE ANNUAL PINKS

2250 Chinensis Fl. Pl. (China or Indian Pink) Blooms in clusters, flowers very double and a large range of bright colors. 1/4 oz., 25 cts. 5

2255 Violet Queen. Rich violet, an unusual shade, 1/4 oz., 50 cts. 10

2260 Diadematus Fl. Pl. (Double Diadem Pink). Beautiful double flowers; mixed, of various tints of lilac, crimson, purple, to very dark purple, with the outer edges fringed and nearly white. 1/4 oz., 40 cts. 5

2266 Snowball. Large double white, splendid for cutting or as a border. 1/4 oz. 40 cts. 5

2267 Mourning Cloak. (White Frill). Rich, blackish velvety crimson, margined white. 1/4 oz., 40 cts. 5

2268 Salmon King. Brilliant salmon rose, 1/4 oz., 60 cts. 10

2270 Hedewigii Fl. Pl. (Double Japan Pink). Double mixed. Colors varying from the richest velvety crimson to the most delicate rose. 1/4 oz., 30 cts. 5

2277 Fireball. Rich, blood-red flowers. Makes a striking contrast to the variety Snowball. 1/4 oz., 40 cts. 5

2280 Imperialis Fl. Pl. (Double Imperial Pink). Double mixed in a very large range of colors. 1/2 oz., 30 cts. 10

2283 Striped Beauty. Striped in great variety of colors. Very gay. 1/4 oz., 40 cts. 5

2288 Lucifer. A new double flowering form of the bright geranium-red single Pink Venusius, offered on next page. The nicely fringed double flowers are about 2 inches across, and, owing to its intense, dazzling color, a general favorite. 1/4 oz., 75 cts. 15

HARDY GARDEN PINKS (Dianthus Plumarius, etc.)

These varieties are well adapted for beds and borders; delightful, refreshing, spicy odor; should be in every garden where cut flowers are wanted, and make a fine edging to a hardy border.

2340 Plumarius (Grass Pink, Scotch Pink, or Peasant-eye Pink). A beautiful single hardy Pink, with fringed-edged flowers of various colors. 1 oz., 50 cts. 10

2337 Plumarius Fl. Pl. (Double Hardy Garden Pinks). Double and semi-double varieties in beautiful colors. 1/4 oz., 75 cts. 15

2336 Plumarius Semperflorens (Everblooming Hardy Garden Pinks). Very beautiful, sweet-scented, double, semi-double and single flowers in great diversity of color 25

2342 Latifolius Atrocoecineus Fl. Pl. (Everblooming Hybrid Sweet William). This is a cross between an annual pink and Sweet William, combining the free and continuous blooming qualities of the former with the hardiness of the latter; in color an intense velvety crimson scarlet. 15

2343 Latifolius Double Mixed. In addition to the brilliant crimson scarlet sort offered above, this mixture contains purple, violet and rose. 10

The beautiful SINGLE ANNUAL PINKS are offered on page 85.
DIANTHUS, or PINKS

SINGLE ANNUAL PINKS

All the single sorts have large flowers 2 to 3 inches in diameter; their many and brilliant colors make them very desirable for beds and borders; 1 foot.

2301 "Crimson Belle." Rich velvety crimson. Per ½ oz., 40 cts 5

2302 "Eastern Queen." Beautifully marbled rose and mauve flowers. Per ½ oz., 40 cts......................... 5

2303 Nobilis (Royal Pinks). Selected and improved varieties of the popular single-flowering Japan pink. The colors vary from white to dark red. Per ½ oz.

50 cts............................................. 10

2310 Hedewigt (Single Japan Pink). Finest selected single-flowered, mixed. Per ½ oz., 30 cts 5

2315 Punctatus (Princess Pinks). A very novel variety, with fringed flowers, mottled, flaked, spotted and striped in the greatest diversity of colors, ¼ oz., 50 cts.................. 10

2316 Marvelous. This remarkable strain produces large flowers, with the petals deeply cut into fine strips of thread-like fringes; all shades from pure white to deep purplish-red. Per ½ oz., 50 cts 10

2317 "Salmon Queen." The well formed, nicely-fringed flowers are a brilliant salmon color changing into a salmon-rose when fading. The seeds of this variety are white or yellowish-white; those of other annual Pinks are dark brown or black. Per ¼ oz., 50 cts.................................................. 10

2319 Vesuvius. Brilliant geranium-red; makes a very effective bed or border. Per ¼ oz., 60 cts........................................... 10

2320 Laciniatus (Single Fringed Pink). A beautiful fringed variety; various colors. Per ¼ oz., 40 cts.................. 5

2329 Collection Brilliant Dianthus. Containing a packet each of six of the best double and six of the best single sorts...... 60

DIMORPHOTHECA (African Golden Daisy)

2375 Aurantiaca. An extremely showy annual Daisy from South Africa, which suits our climatic conditions perfectly. The bushy plants grow 12 to 15 inches high. The flowers, which are 2½ inches and over across, are a unique, rich, glossy orange-gold, with dark disc and halo. These glitter in the sunshine and present a magnificent sight when in full bloom. Seed may be sown in the same way as Asters or Petunias, and should have a dry, sunny position. They bloom the greater part of the summer and fall. ¼ oz., 40 cts......................... 10

2374 Aurantiaca Hybrida. Beautiful new hybrids of the African Golden Daisy, and similar in habit to the parent; flowers equally as large, but varying in color from the purest white through the various shades of yellow and orange to rich salmon shades, many being zoned with several of these colors around the black disc. ¼ oz., 50 cts............................................ 15

DOLICHOS (Hyacinth Bean)

A rapid growing annual climber, flowering freely in erect racemes, followed by ornamental seed-pods; for covering arbors, trellises, etc. Sow the seed in the garden in May where they are to remain; 10 feet. (See cut on page 80.)

2377 "Daylight." This grand Hyacinth Bean comes from Japan. In our trial ground seed sown late in May had by the middle of July attained a height of over 10 feet, and was covered with spikes of snow-white pea-shaped blossoms from then until late fall. The heart-shaped foliage is bright green and not affected by insect pests. Per oz., 30 cts.......................... 10

2376 "Darkness." Identical in every way to the above except in color, which is rich purple-violet. Per oz., 30 cts.......................... 10

2380 Lablab, Mixed. Purple and white. Per oz., 20 cts 5

DOUBLE-FLOWERING ANNUAL PINKS are offered on page 84
DRACAENA (Dragon Plant)

2386 Indivisa. Beautiful ornamental-leaved plants; long, narrow, green foliage; indispensable for vases and house decorations. ½ oz., 25 cts., 10

ECHINOCYSTIS

(Wild Cucumber Vine)

2401 Lobata. One of the quickest growing annual vines we know of; splendid for covering trellises, old trees, fences, etc. Clean, bright green foliage and sprays of white flowers during July and August. (See cut.) Per oz., 30 cts. 5

ERYNGIUM (Sea Holly)

2421 Amethystinum. Handsome ornamental hardy plants, growing 2 to 3 feet high, with finely-cut, spiny foliage and beautiful thistle-like heads of amethystine-blue; fine for winter bouquets. 15

ERYSIMUM (Fairy Wallflower)

2411 Perfoliata. We sent out for trial the past two seasons a number of packets of this annual, and have received so many favorable reports that we have concluded to add it to our list. The plants grow about 18 inches high, bearing throughout the summer dense racemes of brilliant orange-yellow Wallflower-like flowers, a rather unusual color in annuals. It is of the simplest culture. Sow the seed in the open ground in spring and give it a sunny position. Oz., 25 cts. 5

ESCHSCHOLTZIA (California Poppy, Gold Cup)

Very attractive annuals for beds, edgings, or masses; profuse-flowering, fine-cut; glaucous foliage; in bloom from June to frost; the Golden sorts and the blue Larkspur or Cornflower form a beautiful combination, either in the garden or when cut, 1 foot. (See cut.)

2424 Caniculata Rosea. Soft flesh pink, petals fluted or crimped. Per oz., 60 cts. 5
2422 Chrome Queen. Chrome yellow; quite distinct from all other yellow sorts. Per ½ oz., 30 cts. 10
2425 Crimson King. Rich carmine-crimson; an extra select strain. Per ½ oz., 30 cts. 10
2427 Dainty Queen. Pale coral pink on cream ground. Very dainty. Per ½ oz., 25 cts. 10
2423 Fringed Yellow. Pure deep yellow, the petals deeply cut or fringed. Per ½ oz., 30 cts. 10

2431 Geisha. Inside of the prettily fluted petals brilliant golden yellow, outside intense orange-crimson. Very rich. 15
2432 Golden West. Bright buttery yellow with orange centre. Per oz., 40 cts. 5
2433 Mandarin. Inner side of the petals rich orange, outside brilliant scarlet. Per oz., 40 cts. 5
2435 Vesuvius. Rich wallflower or coppery-red. Per ½ oz. 30 cts. 10
2439 Collection containing a packet each of the above 10 splendid and distinct sorts, 60 cts.
2438 Double-flowering Mixed. Per oz., 40 cts. 5
2440 Single Mixed. All colors. Per oz., 30 cts. 5

The Orchid-flowered Sweet Peas offered with other Specialties on pages 52 to 62 are up-to-date in every way
GAILLARDIA (Blanket Flower)

**Annual Varieties**
Splendid showy annuals, remarkable for the profusion, size and brilliancy of their flowers, continuing in bloom from early summer till November; excellent for beds, borders, or for cutting; should be sown where they are to bloom; 1½ feet.

- **2406 Picta.** Crimson and orange. ½ oz., 25 cts........... 5
- **2500 Picta Mixed.** Single sorts; fine colors. ½ oz., 25 cts. 5
- **2498 The Bride.** This new double-flowering, creamy-white sort is particularly desirable for cutting, the flowers being of good size and borne on very long stems. 2 pkts. for 25 cts........................................... 15
- **2497 Double-flowering Mixed.** A charming, profuse, double-flowering strain; beautiful mixed colors. ½ oz., 40 cts................................. 10

**Hardy Perennial Varieties**
The following are among the showiest and most effective hardy perennial plants, and should find a place in every hardy border. They thrive in almost any position or soil, require little or no protection and take care of themselves. If sown early they begin flowering in July, continuing a mass of bloom until frost; fine for cutting; 2 feet.

- **2508 Kermesina Splendens.** Centre rich crimson, narrow-canary-yellow border. ......................................... 15
- **2502 Grandiflora Compacta.** A compact variety, forming bushy plants 1½ to 1½ inches high, and bearing its long-stemmed flowers well above the foliage. In coloring the flowers are as rich and varied as those of the tall-growing sort. ½ oz., 50 cts................................. 15
- **2506 Grandiflora Copper-red.** A striking new color in this popular perennial. 3 pkts., 50 cts................................. 20
- **2510 Grandiflora Superb Mixed.** Our own saving; splendid combinations of crimson and gold in great variety. ½ oz., 30 cts................................. 10

GERANIUM (Pelargonium)

- **2530 Zonale, Mixed.** A superb strain of the largest and finest varieties. Very interesting to grow from seed, which should be started indoors and transferred to the open in May or June.......................... 15
**GLOCINIA**

A superb genus of greenhouse plants, producing magnificent flowers of the richest colors; thrives best in an equal mixture of peat, loam and sand. Sow in March.

**2587 Hybrida Grandiflora.**

An unsurpassed strain, containing the spotted hybrids as well as the finest self-colored sorts ........ 50

---

**GOLDEN ROD**

*(Solidago Canadensis)*

2601 The well-known golden-yellow favorite; hardy perennial; 2 to 5 feet ........ 10

---

**GREVILLEA**

*(Silk Oak)*

2681 **Robusta.** A very beautiful and graceful decorative plant with fern-like foliage; excellent for table decoration; easily raised from seed, producing good-sized plants in a short time; hardy in Florida and California, where it is popular as an ornamental tree .......... 10

---

**GODETTIA**

Attractive, hardy annuals, deserving more extensive cultivation. The plants bloom profusely, and bear showy flowers of satiny texture in many rich and varied colors. They do best in a rather poor soil; 1 foot. (See cat.)

2585 **Brilliant.** Glowing carmine-rose; very bright and satiny.

½ oz., 30 cts .................................................. 10

2586 **Duchess of Albany.** Pure white, of compact growth.

½ oz., 30 cts .................................................. 10

2587 **Gloriosa.** Large, satiny, brilliant blood-red flowers; richest color of all. ½ oz., 30 cts .................................................. 10

2588 **Rosamond.** A new sort, of dwarf habit and large, glossy shell-pink flowers; makes a beautiful border. ½ oz., 30 cts .................. 10

2590 **Mixed.** All colors. ½ oz., 20 cts .................................................. 5

---

**ORNAMENTAL GOURDS**

Rapid growing, interesting annual climbers, with ornamental foliage and singularly shaped fruit; 15 to 20 feet. Our illustration shows the 12 kinds offered below:

2606 **African Pipe.** The stem ends of the fruits are much used in making pipes. No. 8. Per oz., 30 cts ........ 5

2607 **Apple-shaped.** No. 1. Per oz., 30 cts ........ 5

2611 **Bottle-shaped.** No. 10. Per oz., 30 cts ........ 5

2612 **Dipper, or Calabash.** No. 7. Per oz., 20 cts ........ 5

2613 **Egg-shaped.** Fruit white like an egg. No. 4. Per oz., 30 cts ........ 5

2614 **Hercules’ Club.** Club-shaped; 4 feet long. No. 12. Per oz., 30 cts ........ 5

2615 **Luffa (Dish-rag, Sponge or Bonnet Gourd).** No. 9. Per oz., 30 cts ........ 5

2616 **Orange-shaped (Mock Orange).** No. 3. Per oz., 30 cts ........ 5

2617 **Pear-shaped.** Striped; very showy. No. 2. Per oz., 30 cts ........ 5

2619 **Spoon.** A very odd variety. No. 5. Per oz., 30 cts ........ 5

2621 **Knob Kerrie.** A very ornamental variety, bearing fruit having a slender stem 3 to 5 feet long, with a round knob or ball on the end. No. 6. Per oz., 30 cts ........ 5

2622 **Turk’s Turban.** Red striped. No. 11. Per oz., 30 cts ........ 5

2629 **Collection of the above 12 varieties.** 50 cts ........ 5

2630 **Mixed Varieties.** All kinds. Per oz., 25 cts ........ 5

---

Do not fail to have some Verbenas in your garden this year. See page 58.
ORNAMENTAL GRASSES

The ornamental Grasses serve the double purpose of rendering the mixed flower-bed or border attractive during the summer and for the use of the spikes or pinnacles in a dried state in winter bouquets. For large beds or groups on lawns nothing gives a finer effect, and they are now largely used in prominent positions in many of the finest public parks, etc. The following are the most popular varieties:

2638 Agrostis Nebulosa (Cloud Grass). An airy and graceful annual Grass, grows 18 inches high and looks like a line of mist when in bloom. Beautiful to mix with cut flowers. .......... 10

2641 Briza Maxima (Quaking Grass). In great demand for grass bouquets. .................................................. 10

2644 Coix Lachrymae (Job’s Tears). Broad, corn-like leaves and hard, shining pearly seeds; annual. Per oz., 20 cts. ... 10

2647 Eulalia Zebrina (Zebra Grass). Light green, barred with creamy white. Variegation runs across foliage. .......... 10

2648 Variegata. Long, narrow, green leaves, striped with white; fine feathery plumes; very ornamental. ......................... 10

2651 Gynernium Argenteum (Pampas Grass). White silvery plumes; perennial; blooms the second season ................. 10

2654 Pennisetum Longistylum. Extremely graceful greenish-white plumes; excellent for beds; annual; 2 feet. ½ oz., 30 cts. 10

2655 Ruppeelianum (Purple Fountain Grass). Graceful green foliage and purplish plumes, unequalled as an edging to a bed of Cannas or other tall plants; annual; 3 feet. (See cut.) Per ½ oz., 30 cts .................. 10

2656 Japonicum. A new hardy variety, and one of the most valuable for beds or specimens. Easily grown from seed, making nice plants the first year. 10

2661 Uniola Latifolia (Spike Grass). A pretty native perennial variety, with very ornamental graceful drooping panicles; 3 to 4 feet. 10

2669 Collection of Grasses. 10 varieties, noted above. 60

GYPSOPHILA (Baby’s Breath)

Pretty free-flowing elegant plants, succeeding in any garden soil. Their misty white panicles of bloom are largely used for mixing with other cut flowers.

2691 Elegans alba grandiflora. This is an improved large-flowering pure white form of the annual Baby’s Breath, of free easy growth, and grown by the acre in the suburbs of Paris and London for use with other cut flowers. Several sowings should be made during the season to keep up a supply. (See cut.) Per oz., 25 cts. 5

2690 Elegans Delicate Pink. A pretty blush pink form of the above and equally as valuable for cutting. Per oz., 30 cts. 5

2692 Muralis. An annual sort which forms mounds of green 8 to 10 inches high, thickly studded with little pink flowers from early in the season till frost; fine for edging. Per ¼ oz., 25 cts. ................. 5

2694 Paniculata. White flowers, fine for bouquets; one of the favorite hardy perennials; blooms first year if sown early; 2 feet. ½ oz., 25 cts. 5

2695 Paniculata Fl. Pl. The new double-flowering Baby’s Breath, and one of the finest hardy plants either for cutting or the hardy border. 3 pkts. for 50 cts. 20

HELENIUM (Sneeze Wort)

Strong-growing hardy perennials, succeeding in any soil, and useful in the hardy border, giving an enormous crop of flowers in late summer.

2711 Autumnale Superbunm. Golden-yellow flowers; 5 to 6 feet. 10

2713 Riverton Gem. Flowers opening old gold, changing as they mature to wallflower red; 3 feet. 2 pkts., 25 cts. .......... 15
HELIANTHUS (Sunflower)

Remarkable for the stately growth, size and brilliancy of their flowers, making a very good effect among shrubbery and for screens.

SINGLE ANNUAL SUNFLOWERS

The single Sunflowers are indispensable for cutting. Sown on a sunny spot in April or May they come into bloom early in summer, and keep up a constant supply of flowers until cut down by frost.

2596 Cucumerifolius (Miniature Sunflower). Small, single, rich yellow flowers. An abundant bloomer; 4 feet. 1 oz., 20 cts. 5

2597 — Orloon. Artistic and effective new variety of "Stella." The petals are twisted like a Cactus Dahlia. 1/4 oz., 25 cts. 10

2598 — Perkco. A charming dwarf variety of the Miniature Sunflower. The plants form compact bushes about 12 inches high by 14 inches through. There are many positions, such as the front of borders or beds of plants of medium height, where this can be used to good advantage, flowering, as it does, from the end of June until cut down by hard frost. 1/4 oz., 25 cts. 10

2599 — Stella (Improved Miniature Sunflower). Differs from the type by its larger and better formed flowers of the purest golden yellow, with black disc. 1/4 oz., 20 cts. 5

2700 — New Miniature Mixed. A multitude of new varieties have been raised from the popular Miniature Sunflower, which we offer in mixture. They all differ from the parent, most of them being larger, and many with curiously twisted petals. The prevailing colors are pale yellow, golden yellow and creamy white, some with black centres, and all beautiful; for cutting they are indispensable. (See cut.) 1/4 oz., 25 cts. 10

Double Annual Sunflowers

2705 Cucumerifolius Fl. Pl. The double-flowering form of the popular Miniature Sunflower. The flowers, while double, are quite free and graceful; of a bright golden yellow. 10

2703 Chrysanthemum-flowered. Rich golden-yellow flowers, perfectly double, resembling a Chrysanthemum or Dahlia; 7 feet. Per oz., 30 cts. 5

2706 Nanus Fl. Pl. (Globe of Gold). Dwarf, double yellow flowers; 4 feet. Per oz., 30 cts. 5

2704 Globosus Fistulosus (Globe or Dahlia Sunflower). Flowers large, double, of a rich saffron color; 6 feet. Per oz., 30 cts. 5

HELICHRYSUM (Straw Flower)

Monstrosum Fl. Pl. One of the best of "Everlastings." Exceedingly effective double flowers in rich colors, making a fine display in beds or borders, but especially grown to dry and use in baskets and vases through the winter; when wanted for this purpose they should be cut with as long stems as possible and when the blooms are about one-third open, take off all foliage, tie in bunches and hang head downwards in some dark, dry place until cured; they succeed in any good garden soil; give them plenty of room to develop, planting not closer than 12 inches apart; hardy annuals; 24 feet. We offer the following choice colors:

2721 Crimson. Very rich. 10
2722 Fireball. Bright red. 10
2723 Goldenball. Golden yellow. 10
2724 Rose Carmine. Rich and glossy. 10
2725 Silverball. Glistening white. 10
2726 Violet. Very rich color. 10
2720 Mixed. All colors. 1 oz., 25 cts. 5
2719 Collection. A packet each of the 6 colors. 50
HIBISCUS (Marshmallow)

Showy ornamental perennial plants for mixed beds or shrubbery borders, having large-sized beautifully colored flowers.

HOLLYHOCK

One of the most majestic of hardy plants, and a clump or line in any garden gives an effect not attainable with any other plant. For planting among shrubbery or forming a background for other flowers, it is without equal. Seed sown any time before midsummer will produce fine plants for flowering next year.

DOUBLE VARIETIES

The seed offered under this head has been saved from the finest double flowers only and is sure to produce satisfactory results.

For Beds, Boxes and Baskets Verbenas are extra fine. See page 53.
IMPATIENS (Sultan's or Zanzibar Balsam)

Charming plants for the decoration of the greenhouse or dinner table, producing bright, waxy-looking flowers profusely and almost continuously. The young seedlings should be carefully handled, as they are exceedingly brittle at the outset. Per pet.

2842 Sultanii. Flowers of brilliant rose-scarlet color. ........ 25
2843 Holstii Hybrids. Forms strong bushy plants, about 2 feet high, covered with attractive flowers; when grown as pot plants, they bloom the year round. Choice mixed, all colors 25

IPOMOEA

Climbers of rapid growth, with beautiful and varied flowers; for covering walls, trellises, arbors, or stumps of trees they are invaluable; it is well to soak the seed in warm water over night to assist in rapid germination.

2858 Grandiflora (Moon Flower). At night and during dull days the plants are covered with an abundance of large, pure white, fragrant flowers, 5 to 6 inches in diameter. It grows very rapidly and will cover a large surface. Per oz., 50 cts. ........................................... 10
2158 Quamoclit Hybrida (The Cardinal Climber). See Novelties and Specialties, pages 52 to 62. 2 pkts., 25 cts. ... 15
2854 Rubra Coerulea (Heavenly Blue). Immense flowers of bright sky-blue; very beautiful. 2 pkts., 25 cts. ................ 15
2855 Setosa (Brazilian Morning Glory). Flowers of pleasing rose color, borne very freely in large clusters. As a quick-growing vine it has no equal, covering an enormous space in a short time. Per oz., 30 cts. ........................................... 10

Imperial Japanese, or Emperor Morning Glories

These are beyond question the handsomest of all Morning Glories. Of the easiest culture, can be sown in the open ground in a sunny situation when the weather has become warm and settled; they soon cover a large area, and even before flowering are decidedly interesting on account of the varied forms of the foliage and their markings. The flowers are of gigantic size and their colorings beyond description; the self or solid colors range from snow-white to black-purple, with all the possible intermediate shades; there is also an endless number having flowers spotted, marbled, striped, flecked, splashed, etc.

2880 Mixed Imperial Japanese. Saved from a grand collection, which we feel sure will produce results more than equaling our description of this wonderful plant. Oz., 30 cts. 5

HUMULUS (Japanese Hop)

2811 Japonicus. A very ornamental and fast-growing climbing plant. The foliage resembles in shape that of the common Hop, is very dense, and in color a lively greenly annual. 1 oz., 25 cts. ........................................... 5
2812 — Variegatus. A variegated variety of the above. The leaves are beautifully marbled and splashed with silvery-white, light and dark green; very effective for screens, arbors, trellises, etc. As with the green-leaved variety, it is never injured by insects nor affected by the heat, but retains its bright variegated foliage until frost. 1 oz., 30 cts. ........................................... 10

HUNNEMANNIA

2821 Fumariifolia. This is by far the best of the poppy family for cutting, remaining in good condition for several days. Seed sown early in May will, by the middle of July, produce plants covered with their large buttercup-yellow poppy-like blossoms, and never out of flower until hard frost. The plants grow about 2 feet high, are quite bushy, with beautiful feathery glaucous foliage. 1 oz., 25 cts. ........................................... 10

IBERIS (Hardy Candytuft)

2824 Gibraltarica Hybrida. White shading to lilac... 10
2825 Sempervirens. A profuse white-blooming, hardy perennial, coming in flower: early in the spring; much used for cemeteries, rockeries, etc.; 1 foot. ........................... 15

IRIS (Flowering Flag)

2890 Kempteri (Japanese Iris). The seeds we offer have been saved from our own unrivalled collection, and should produce only varieties of the highest merit. Blooms the second year from seed. 1 oz., 25 cts ... 10
KOCIA (Standing Cypress, or Belvedere)

2911 Trichophylla. An easily grown annual, which, sown thinly in spring, soon forms a cypress-like hedge of the most lively green and of perfect symmetry; by mid-summer it attains a height of about 3 feet, and late in the autumn the whole plant becomes a deep red; a splendid plant to divide the vegetable from the flower garden, or for forming a hedge for the summer for any purpose. (See cut.) ¼ oz., 25 cts. 5

LANTANA

2920 One of the most desirable half-hardy perennial greenhouse or bedding plants, constantly in bloom; Verbena-like heads of orange, white, rose and other colored flowers; 2 to 3 feet. Mixed colors. ½ oz., 25 cts. 10

LATHYRUS (Everlasting, or Hardy Sweet Pea)

Showy, free-flowering hardy perennial climbers for covering old stumps, fences, etc., continually in bloom; fine for cutting. 2934 Latifolius "White Pearl". The finest white variety. 15

2955 — Pink Beauty. Rosy pink. 10
2960 — Mixed. All colors. Per oz., 40 cts. 10

LAVATERA (Annual Mallow)

2976 Trimestris Grandiflora Rosea. A very beautiful and showy annual, growing about 2 feet high and covered during the entire summer with large cup-shaped shrimp-pink flowers; in a border or bed the effect is very bright. Sow in May where they are to bloom and thin out to 12 inches apart. ¼ oz., 25 cts. 10

A LINE OF KOCIA TRICHOPHYLLA

ANNUAL LARKSPURS

This is one of the best known of garden flowers, and in recent years a vast improvement has been effected by careful selection in size and color of the blossoms and the general habit of the plant. Seeds sown in the open ground before the close of April will produce flowering plants by the beginning of July, and give a continuous succession of flowers from then until frost, a record that is not surpassed by any other annual. They make handsome beds or lines, and their free, graceful habit and bright colors are very effective when interspersed in the old-fashioned flower or shrubbery border. They stand well when cut, and a vase of one or mixed colors is indeed charming.

Double Stock-flowered. The finest variety with splendid spikes of beautiful double flowers. 2½ to 3 feet. (See cut.)

2931 Dark Blue. 10
2932 Lilac. 10
2933 Lustrous Carmine or Newport Pink. 10
2940 Finest Mixed. All colors. ¼ oz., 20 cts.; oz., 60 cts. 10
2938 Collection. A packet each of the above 6 colors. 50
2930 Dwarf Rocket. Fine double mixed. 18 inches. Oz., 30 cts. 5

LAVENDER (Lavandula Vera)

2971 Well-known, sweet-scented, hardy perennials, should be extensively grown in the mixed border; 3 feet. ¼ oz., 25 cts. 10

LIATRIS (Blazing Star, or Gay Feather)

2982 Most showy and attractive hardy perennial native plants, with long spikes of purple and rosy purple flowers from July to September; 2 to 4 feet. Mixed varieties. 10

LINUM (Flax)

3002 Grandiflorum Rubrum (Scarlet Flax.) One of the most effective and showy bedding plants, of long duration, having fine foliage and delicate stems, with brilliant scarlet-crimson flowers; hardy annual; 1 ft. Oz., 30 cts. 6
3003 Perenne. Bright blue flowers, hardy; 18 inches. ¼ oz., 25 cts. 10

For Hardy Larkspurs see Delphiniums, page 83
LINARIA

2991 Cymbalaria (Keilworth Joy, or Mother of Thousands). Lavender and purple. A charming, neat, hardy perennial trailing plant, suitable for baskets, vases, pots and rock work.......................................................... 15

LOBELIA

The following choice varieties of this popular and beautiful flowering plant will be found most desirable for pot culture, edgings, hanging baskets, etc., blooming profusely from June to November. Cardinalis is one of the finest native hardy perennials.

3012 Crystal Palace Compacta. Rich deep blue; dark foliage; the finest dark blue for bedding. Per ½ oz., 50 cts., 10
3013 Blue Emperor. A very compact variety; sky-blue flowers. 10
3016 White Gem. Forms a perfect ball of snow-white flowers. 10
3022 Tricolor. Light blue; light green foliage; trailing. 10
3023 Speciosa. Ultramarine blue; dark leaved; trailing. 10
3024 Tenuior. Of upright habit; about 15 inches high, with very large flowers of rich cobalt blue with white eye. Splendid for pots or bedding.......................................................... 15

3020 Mixed Compacta Varieties. All colors. Per ½ oz., 40 cts. 10
3031 Cardinalis (Cardinal Flower). A native variety, with spikes of brilliant scarlet flowers; fine hardy border plant; 3 feet.......................... 15

LYCHNIS

(Rose Campion, Jerusalem Cross)

Handsome hardy perennial plants of easy culture, for massing in beds and borders; blooming the first year if sown early.

3061 Chalcedonica. Fine scarlet flowers; 2 feet. ½ oz., 25 cts. 5
3062 Haageana. Brilliant orange, scarlet, crimson, etc., in mixture; 1 foot 15

LUPINUS (Lupine)

Annual Sorts. Free flowering, easily-grown annuals, with long, graceful spikes of rich and various colored pea-shaped flowers; valuable for mixed borders, beds and for cutting; prefers a little shade; 2 feet,

3044 Rich Blue. Per oz., 40 cts. 10
3045 Sky Blue. Per oz., 40 cts. 10
3046 Rose. Per oz., 40 cts. 10
3047 White. Per oz., 40 cts. 10
A packet each of the 4 colors, 30 cts.
3050 Annual Mixed. All colors. Per oz., 25 cts. 5
Polyphyllus Sorts. Effective hardy perennials, succeeding in any good garden soil; blooms in May and June; 3 feet. We offer as under:

3052 Rose. 10
3053 White. 10
3054 Blue. 10
3055 Moerheimi. Rose and pink. 15
A packet each of the 4 colors, 35 cts.
3058 Mixed. All colors. Oz., 30 cts. 5

MARVEL OF PERU, OR FOUR O'CLOCKS

(Mirabilis Jalapa)

3110 A well-known, handsome, free-flowering garden favorite; does well everywhere; give each plant 12 to 18 inches of room. Fine mixed colors; 2 feet. Oz., 20 cts. 5

MATRICARIA

3121 Capensis Alba Plena (Double White Feverfew). Free-flowering plants, producing all season fine double white flowers. A fine bedding or pot plant; 18 inches........................................... 10

MATTHIOLA

3125 Bicornis (Evening Scented Stock). This old-fashioned annual has no beauty to recommend it, the flowers being a dull purplish-lilac, but it is well worth growing for the entrancing fragrance which it emits during the evening. ¼ oz., 25 cts. 5

Our "incomparable" collection of Sweet Peas is extra choice. See specialties, pages 52 to 62
MARIGOLDS

The African and French Marigolds are old favorite free-flowering annuals of easy culture; both are extremely effective and are well adapted for large beds or mixed borders; they succeed best in a light soil, with full exposure to the sun. A vase or bowl of any of the rich yellow sorts, in combination with a few blue Larkspurs or Cornflowers, is very striking.

(See also Calendula and Tagetes)

Dwarf Double French Marigolds

Few annuals are as effective as the French Marigolds or flower for so long a period; they all form dense hedges not over 12 inches high and are unequalled for borders or beds.

Dwarf Single French Marigold

3102 Legion of Honor (Little Brownie). A single flowering Marigold, forming compact bushes 8 inches high. Begins flowering early, commencing in June, continuing until frost. The flowers are golden yellow, marked with a large spot of velvety crimson at the base of each petal. (See cut.) 1/4 oz., 25 cts.

If unable to find what you want, refer to Index page 2
MIGNONETTE (Reseda)

A well-known fragrant favorite, and no garden is complete without a bed of Mignonette; sowings made in April and again in July will keep up a succession from early summer until frost; can also be grown in pots for winter and early spring flowering.

3152 **Defiance.** When grown under favorable conditions spikes will not only be of remarkable size—from 12 to 15 inches long—but deliciously fragrant. The individual florets are of immense size, forming a graceful as well as compact spike. Of extraordinary keeping qualities, retaining their grace and fragrance until every bud opens. 1/4 oz. ................................. 10

3153 **Golden Machet.** Distinct variety of Machet, with massive spikes of golden-yellow blossoms. 1/4 oz. ................................. 10

3154 **Goliath.** Of strong, yet compact habit, with rich green foliage; the giant trusses of flowers being borne on erect, strong, stiff stalks and surpassing all others in brilliancy of color; especially suited for house culture. (See cut.) 1/4 oz., 50 cts. ....... 15

3157 **Large-flowering Pyramidal.** Flowers large, of a reddish tint. A good variety for the open ground. 1/4 oz., 20 cts. ....... 5

3158 **Machet.** Of dwarf pyramidal growth, bearing numerous flower stalks, highly colored and very fragrant; one of the best. 1/4 oz., 25 cts. ... 10

3161 **Parson’s White.** Large spikes, pure white, very fragrant. 1/4 oz., 20 cts. ....... 5

3162 **Salmon Queen.** Strong, robust habit, with fine spikes of bright salmon-red flowers, intensely fragrant; fine for outdoor culture. 1/4 oz., 25 cts. ... 10

3163 **Sweet-scented (Reseda Odorata).** The old variety with small spikes, but very sweetly scented. Per oz., 20 cts. ... 5

3169 **Collection of above 8 varieties of Mignonette.** .................. 50

MINA

3202 **Sanguinea.** A beautiful and rapid-growing climber, producing innumerable brilliant blood-red flowers. 1/4 oz., 15 cts. ...... 5

MYOSOTIS (Forget-me-not)

Offered and described on page 98

MIMUS

2831 **Crystallinum** (Ice Plant). Dwarf-trailing annual plants. Flowers white, prized for its singular icy foliage .................. 5

MIMOSA (Sensitive or Humble Plant)

3181 **Pudica.** Curious and interesting annuals, with pinkish-white flowers; the leaves close and droop when touched or shaken; 1/4 feet .......... 5

MIMULUS

Showy, profuse flowering plants; fine for greenhouse or moist shady situations; half-hardy perennials, blooming the first year from seed if sown early; 1 foot.

3191 **Moschatus** (Musk Plant). Fine for hanging baskets, etc.; small yellow flowers, fragrant foliage. .................. 15

3192 **Tigrinus** (Monkey Flower). Fine mixed spotted varieties. .... 10

MOMORDICA

Very curious climbing vine, with ornamental foliage, fruit golden-yellow, warty, and when ripe opening, showing the seed and its brilliant carmine interior; fine for trellises, rockwork, stumps, etc.; annuals; 10 feet.

3211 **Balsamina** (Balsam Apple). Round, apple-shaped fruit with very fine glossy green foliage. This is the prettiest climber of the two .... 5

3212 **Charantia** (Balsam Pear). Pear-shaped fruit; foliage heavier than the above; the fruits of this variety are used medicinally. ...... 5

Novelties and Specialties in Flower Seeds are offered on pages 52 to 62
DREER’S SUPERB NASTURTIUMS

For ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well-drained, sunny position, and from within a few weeks from the time they are sown until hard frost comes there is an endless profusion of their gorgeous blossoms. The varieties offered below were selected, after exhaustive trials, from a very large number of sorts as being the best and most distinct.

TOM THUMB, DWARF OR BEDDING VARIETIES

3336 Chameleon. Various colors on one plant.
3338 Crystal Palace Gem. Yellow, maroon blotches.
3341 Empress of India. Fiery crimson, dark foliage.
3347 King of Tom Thumbs. Dark-scarlet, dark leaves.

Price. Any of the above Dwarf sorts, 5 cts. per pkt.; 20 cts. per oz.; 60 cts. per ½ lb.
3379 Dreer’s Collection of a liberal packet each of the 12 above dwarf varieties. 50 cts.
3389 Dreer’s Collection of 1 oz. each of the 12 above dwarf varieties. $1.50.

TALL OR CLIMBING VARIETIES

(Tropaeolum Majus)

Elegant and luxuriant climbers for verandas, trellises, etc. May be used to cover unsightly railings and to trail over rough ground, with fine effect. The seedpods can be gathered while green and tender for pickling; 6 to 10 feet.
3291 Chameleon. Different richly colored flowers on the same plant.
3287 King Theodore. Deep crimson maroon; dark foliage.
3294 Orange. Pure orange; no markings.
3296 Pearl. Creamy white.
3297 Prince Henry. Cream, spotted and tipped scarlet.
3298 Purple. Rich shade of purplish-crimson.
3301 Rose. A lovely shade of ruby rose.
3303 Scarlet. Glowing vermillion.
3304 Scheuermannii. Yellow, spotted and marbled brownish-red.
3307 Vesuvian. Salmony rose; an exquisite shade.
3306 Spotted. Rich yellow, spotted garnet.

Price. Any of the above Tall sorts, 5 cts. per pkt.; 20 cts. per oz.; 60 cts. per ½ lb.
3329 Dreer’s Collection of a packet each of 12 above climbing sorts, 50 cts.
3319 Dreer’s Collection of 1 ounce each of 12 above climbing sorts, $1.50.

Lobb’s Climbing Nasturtiums

(Tropaeolum Lobbianum)

There is little difference between these and the tall Nasturtiums. They are especially rich in the red shades, flower even freer, grow to the same height and are very desirable.
3241 Asa Gray. Pale primrose yellow, almost white.
3246 Cardinal. Intense deep scarlet, dark foliage.
3251 Giant of Battles. Sulphur-yellow, blotched red.
3212 Queen of Scots. Pure golden-orange.
3253 Princess Victoria. Creamy white, with fine conspicuous ruby-rose blotches.
3254 Regina. Brilliant salmon-red on opening, changing as they age to almost a cream color.
3255 Ro de Noirs (King of the Blacks). Deep velvety garnet; very rich, dark foliage.
3256 Rose Queen. Fine carmine rose.
3257 Spitfire. Brilliant orange-vermillion.

Price. Any of the above, 5 cts. per pkt.; 25 cts. per oz.; 75 cts. per ½ lb.
3259 Collection of a packet each of above 12 varieties, 50 cts.
3258 Collection of 1 oz. each of above 12 varieties, $2.00.
3290 Finest fixed. Lobb’s. 5 cts. per pkt.; 15 cts. per oz.; 50 cts. per ½ lb.; $1.50 per lb.

Dreer’s Superb Nasturtiums

Our mixtures of Nasturtiums are made up out of the best named sorts, insuring a large number of colors.
MYOSOTIS (Forget-Me-Not)
Few spring flowers are more admired than the lovely Forget-Me-Not, which are especially effective when grown in masses. Perennials and hardy if given slight protection through the winter. Seed may be sown any time from spring till mid-summer. The Alpestris varieties and Dissitiflora come into bloom in April, and are largely used for bedding or borders in connection with spring-flowering bulbs, Pansies, etc. The Palustris sorts do not bloom till May, but continue till fall.

PER PKT.
3231 Alpestris Royal Blue. Rich indigo-blue flowers. The finest and most effectue dark blue variety; 9 inches. 1/2 oz., 40 cts. 10
3233 — Robusta Grandiflora. Of strong, sturdy growth, about 10 inches high, with good heads of clear Forget-Me-Not blue flowers. 1/2 oz., 40 cts. 10
3235 — Victoria. A favorite sort, with fine heads of large, clear, azure-blue flowers; plants bushy and compact; makes a fine edging or bed. 1/2 oz., 50 cts. 10
3239 — Mixed. A mixture of blue, rose and white-flowered varieties. Per 1/2 oz., 30 cts. 5
3236 Dissitiflora. Of dwarf, compact habit, with sprays of large, exquisite blue flowers, especially adapted for planting among spring-flowering bulbs 15
3238 Palustris Semperflorens. An ever-blooming variety, beginning to flower in May and continuing till autumn. Large, clear, blue flowers in pretty sprays 25

NIGELLA (Love in a Mist, or Devil in the Bush)
3430 Damascena. A compact free-flowering plant, with finely cut foliage, curious looking flowers and seedpods; of easy culture, growing in any garden soil; hardy annuals; blue and white mix'd; 1 foot. Oz., 30 cts. 5
3431 Miss Jekyll. A lively variety with cornflower-blue blossoms, splendid for cutting. (See cut.) 1/2 oz., 25 cts. 10

NEMESIA
3401 Dwarf Large-flowering Hybrids. A very pretty annual, which does best in a cool position; the plants grow about a foot high, and the orchid-like flowers are very varied in color, including rose, yellow, blue, orange, etc. 2 pkts., 25 cts. 15

NICOTIANA
3411 Affinis (Tuberose-flowered Tobacco). Delightfully sweet-scented, pure white, tubular flowers, blooming continually; annuals, 2 to 3 feet. 1/2 oz., 15 cts. 5
3414 Sandera Hybrids. A splendid type in a great variety of colors, 10
3413 Sylvestris. Plants of pyramidal growth; 4 feet high, with fine deep green foliage; pure white, fragrant, drooping flowers, borne in loose heads. A most effective plant either used in conjunction with other plants in beds or as single specimen. 10

PENTSTEMON
(Barrier Tongue)
Highly useful and attractive perennials, and much used in the hardy border.
3532 Gloxinoides "Sensation." As a bedding plant this takes rank with the Petunia, Phlox, etc., etc. It grows about 2 feet high, every branch being a spike of large, Gloxinia like flowers in a very wide range of bright colors, including rose, red, carmine, cherry, pink, lilac, purple, etc. Not quite hardy and best treated like Petunias, Verbenas, Salvia, etc. (See cut.) 2 pkts., 25 cts. 15
3540 Mixed. A great variety of kinds and colors... 10

Asters are one of our leading specialties. See special list on page 54, also pages 67 to 70
Dreer's Perfect Pansies

PANSIES are too well known to require any description as they are favorites with all. For best results you must start with a good strain. The finest Pansies are, as a rule, shy seeders, which accounts for the difference in the price of the various mixtures offered.

Miss Ida D. Bennett, the well-known horticultural author and enthusiastic admirer of Pansies, writes the following notes on their culture expressly for this book:

"Pansy seed germinates and the plants grow more freely in the cool, early days of spring, and if summer-blooming should be sown by the latter part of April, or early in May, in the vicinity of Philadelphia. A soil containing a proportion of leaf mould, well enriched with well-decayed cow manure, will be the most satisfactory for the growing of this flower, and it should be well dug and made fine and level.

"Sow the seeds in drills, covering them not more than four times their diameter and firming the soil well above them. The seeds germinate in from eight to twelve days, and should not be allowed to dry out during this period. Covering the seed bed with newspapers will prevent this and hasten somewhat the period of germination.

"As soon as the plants are up and large enough to handle, they should be thinned out or transplanted to stand nine inches apart in the rows. Thorough cultivation should be given from the start, as Pansies will not thrive when obliged to share the beds with a mass of weeds.

"It is a mistake to plant Pansies in the shade of a tree or buildings. An open exposure, where the wind has a free sweep over the bed is far better, and Pansies so planted are free from the long struggling branches which produce few and inferior flowers in extreme cases twice a day for the best results.

The last of June, which will give an abundance of flowers blooming, as this allows the plants to go into winter in vigorous condition."

PANSIES IN MIXTURE

| PER PKT. | 3510 Dreer's Royal Exhibition. This strain comprises a beautiful collection of colors and markings and is our finest mixture, both as regards size, texture and colorings. Special packets of 2000 seeds, $1.50; regular packets | 3511 Cassier's Giant. A grand mixture of the finest blotted varieties; splendid in every way, being large in size and rich in coloring. ½ oz. $1.00 | 3512 Mme. Perret. A new and beautiful strain; originated with a French specialist; flowers of large size, borne very freely in great diversity of colors, especially rich in red and wine shades. The stock we offer comes direct from the introducer. ½ oz., 75 cts. | 3513 Giant Parisian. Of very large size and containing a great many fancy colors. ½ oz., 75 cts. | 3514 Dreer's Premium. This mixture comprises a large number of colorings and is intended to supply the want of a first class mixture at a moderate price. ½ oz., $1.00 | 3515 English Finest Mixed. 1 oz., $1.00 | 3516 Masterpiece (Frilled Pansy). A remarkable type each petal being conspicuously curled or waved. The range of color is very extensive; the rich, dark, velvety shades predominating. ½ oz., $1.00 | 3520 Good Mixed. All colors. ½ oz., 75 cts. | 3500 Giant Trimarceau. All colors. Per ½ oz., $1.00 |

GIAN'T TRIMARCEAU PANSIES

We have discarded the ordinary Pansies in separate colors in favor of this type which produces very large flowers, plants of strong, robust growth and well adapted to the trying conditions of our climate.

| PER PKT. | 3488 Giant Golden Queen. Pure, rich yellow | 3496 Giant Snow Queen. Pure white, small yellow eye | 3497 Giant White. Pure white, with purple eye | 3498 Giant Yellow. Rich yellow, with dark centre |

TUFTED PANSIES, OR VIOLAS

While the flowers of the Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time. Seed sown in April produces flowering plants by June, and from then on until frost they are a sheet of bloom.

PETUNIAS

For outdoor decoration, porch or window boxes few plants equal the Petunia in effectiveness. They commence flowering early and continue a sheet of bloom throughout the whole season until killed by frost; easily cultivated, only requiring a good soil and sunny position. It is best to sow them indoors and transplant to the open in May. The Single Bedding kinds can be sown out of doors in May. We have long been celebrated for our magnificent strains of both the single and double varieties, which we endeavor to improve each year by careful selection and hybridization.

Note.—It is well known that seed saved from the most carefully hybridized flowers produce but a small percentage of double flowers, the balance being single of unusually fine quality. The weaker seedlings should be carefully saved, as these invariably produce the finest double flowers. The same is true of the single sorts, the large, strong seedlings usually being weedy, while the, at first, weaker seedlings produce the very finest flowers, of best coloring.

LARGE-FLOWERING SINGLE PETUNIAS

3580 Dreer’s Superb Large-flowering Fringed. Our own saving from the finest flowers; of very large size and beautiful shape; deep-throated and of varied and brilliant colors, and beautifully fringed. (See cut.) ............................. 25

3576 Giant of California. Flowers very large, in great variety of colors and markings, with deep yellow throats 35

3577 Ruffled Giant. Flowers of extraordinary size and substance, and distinguished from the large-flowering fringed section by the deep fluting, giving it the appearance as if artificially ruffled. ............................. 35

3578 Fringed Ruffled Giant. This differs from the preceding in having, in addition to the ruffling, a very fine fringed edging, making a very handsome flower..... 50

SINGLE BEDDING PETUNIAS

3555 Balcony Blue. A splendid free-flowering type either for bedding or for window boxes, vases, hanging baskets, etc.; flowers average 3 inches across, of a rich velvety indigo blue .......... 20

3556 Balcony Rose. Similar to the above, but with flowers of a brilliant rose-pink; very effective ................. 20

3557 Balcony White. The pure white form of this splendid type........ 20

A packet each of the above 3 Balcony Petunias for 50 cts.

3561 Dwarf Inimitable. “Star Petunia,” compact growing variety; flowers cherry-red with a white centre. ½ oz., 50 cts. ......... 15

3562 Snowball. A fine compact sort, producing its pure satiny-white flowers throughout the entire season. ½ oz., 50 cts. ............. 15

3563 Pure White. Desirable for cemetery beds or where large masses of white are wanted, grows 12 to 15 inches high. Where a more compact sort is wanted we recommend “Snowball.” ½ oz., 30 cts. .......... 10

3564 Howard’s Star. A beautiful free-flowering strain, color crimson-maroon with a clearly defined five-pointed star of blush-white. For bedding, baskets, vases, etc., this is exceptionally fine. ½ oz., 50 cts. .. 15

3565 Brilliant. Beautiful and effective compact variety; flowers brilliant carmine-pink. ½ oz., 75 cts. .............. 15

3566 Rosy Morn. Soft carmine-pink with white throat; makes a very dainty and at the same time effective border. ½ oz., 75 cts. .......... 15

3567 Striped and Blotched. A good strain of the small-flowering type; beautifully striped and blotched flowers; fine for massing; ½ oz., 50 cts. 10

3570 Fine Mixed. Good bright colors. ½ oz., 40 cts. .............. 5
PHLOX DRUMMONDI

The annual Phlox is a native of Texas, and is known as "Texan Pride." It occupies a first place as a garden annual, being one of the most brilliant and at the same time one of the easiest and most satisfactory plants, which can readily be grown from seed. It will grow and thrive in any kind of soil if given a sunny position, but prefers a light, rich loam. Seed may be sown in the open ground any time after danger from frost is past, and in a few weeks they are a sheet of bloom, remaining so until frost. They may be used in a variety of ways, such as a carpet to beds of Roses, in boxes, vases, etc.; but it is when grown in masses, in beds or borders, that they show to best advantage.

Select Large-Flowering Varieties

Phlox Drummondi Grandiflora

This is the finest type, having the largest heads of blooms, as well as the largest individual flowers; of strong, sturdy growth, attaining a height of about 15 inches.

PER PKT.

3601 Snow White
3602 Shell Pink
3603 Deep Rose
3604 Bright Scarlet
3605 Rich Crimson
3606 Primrose
3607 Soft Lilac

Collection of each of the above 7 colors

PER ½ OZ. PER PKT.

3601 $0.90
3602 $0.90
3603 $0.90
3604 $0.90
3605 $0.90
3606 $0.90
3607 $0.90

3620 Choicest Mixed, Large-flowering. Contains all of the colors noted above as well as a great many others, and makes a very showy bed or border. ½ oz., 40 cts.; oz., $1.25.

Large-Flowering Dwarf Phlox

A type combining the size of the individual flower and head of the finest Grandifloras, but of dwarf, compact growth, a perfect combination; and while they do not come in the large variety of colors found in the taller-growing type, the colors offered will be found very effective for beds, borders, etc.; 8 inches.

PER PKT.

3621 Brilliant Rose
3622 Fiery Scarlet
3623 Pure White
3630 Finest Mixed Colors

STAR PHLOX (P. Cuspidata)

3640 Of dwarf habit, with very pretty star-shaped flowers. A novel variety; mixed colors. ¼ oz., 50 cts.

HARDY PERENNIAL PHLOX (P. Decussata)

3641 Hardy herbaceous perennial and quite distinct from the varieties of Phlox Drummondi offered above, which are annuals. The seed we send out has been saved from our own unrivalled collection, and is supplied in mixture only. Per ½ oz., 50 cts.

PHYSALIS (Chinese Lantern Plant)

3646 Francheti. An ornamental plant, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet lantern-like fruits; highly interesting.

PHYSOSTEGIA (False Dragon Head)

3651 Virginica. One of the prettiest hardy perennials, and gaining in popularity as it becomes better known. It forms dense bushes, 3 to 4 feet high, bearing freely during the summer months spikes of delicate pink tubular flowers not unlike a gigantic heather.

Per ½ oz., 30 cts.

3652 — Alba. A pretty white-flowered form of the above.

Our mixtures of Nasturtiums are made up out of the best named sorts, insuring a large number of colors. See page 97.
POPPIES

Annual Poppies should be sown as early in the spring as possible where they are to remain, as they do not stand transplanting. Sow very thinly, preferably in cloudy weather or after a shower, barely cover the seed, press down firmly and they will come up in a few days. If they come up too thickly they must be thinned out to stand 3 to 4 inches or more apart if you wish best results. It is well to make several sowings at intervals to keep up a succession of bloom.

If picked just before expanding the flowers will last several days. It is also advisable to pick the old flowers as soon as fallen, which will lengthen the blooming season quite a while.

SINGLE ANNUAL POPPIES

3696 Dreer's Select Shirley. This is an extra fine strain of these charming Poppies. They are single and occasionally semi-double, and range in color from the purest white through the delicate shades of pale pink, rose and carmine to the deepest crimson and blood-red, while many are daintily edged and striped. In fact, so varied are they that scarcely any two flowers are exactly alike. Oz., 50 cts.............. 10

3688 Admiral. A single peony-flowered variety of surpassing beauty, having large, smooth-edged flowers of glistening white, with a broad band of lustrous scarlet around the top. These two colors form a striking contrast, and when planted in groups produce a magnificent effect. ½ oz., 20 cts... 5

Charles Darwin. Remarkable for the unique color of its large, smooth-edged flowers, being a striking rich dark purple; with a velvety black spot at the base of each petal. A dense wreath of white anthers produces a fine contrast with the extraordinary color of the flower. ½ oz., 25 cts 10

Dainty Lady. Immense flowers 4 to 5 inches across, of a charming mode shade of rosy mauve, with a large dark metallic blotch at the base of each petal. ½ oz., 25 cts.................. 10

Danebrog, or Danish Cross. Very showy variety, producing large flowers of brilliant scarlet, with a silvery white spot on each petal, forming a white cross, which is nicely shown in the illustration on this page. Per oz., 25 cts... 5

English Scarlet. The scarlet field Poppy. ½ oz., 25 cts.......................... 10

King Edward. A new variety of gorgeous coloring, being a deep scarlet, shaded crimson-red, each petal marked with a large black blotch for half its length from the base, against which the yellow anthers stand out in bold relief. The plant grows 2½ feet high, and produces its very large flowers with great freedom. ½ oz., 25 cts .......... 10

Tulip Poppy (Papaver Glauenum.) One of the most brilliant the flowers are 3 inches across and closely resemble the brilliant Scarlet Gesneriana Tulip; 2 feet Per ½ oz., 30 cts........... 10

The Bride. A beautiful large, pure white. Per oz., 30 cts. 5

Virginia. Large, beautifully fringed flowers of pure white, edged with soft pink; exquisite when cut. Per ½ oz., 20 cts........................ 5

Collection of a packet each of above 10 single varieties........... 50

DOUBLE ANNUAL POPPIES

The same culture as given at the top of the preceding page should be followed in the case of the double-flowering annual sorts. They make a gorgeous showing during their flowering period, and are largely used for beds and borders.

3711 **American Flag.** Beautiful variety; flowers very large and double, snow white, bordered with scarlet. Per oz., 30 cts. 5

3712 **Fairy Blush.** Very double flowers of pure white, elegantly fringed and tipped with rose. Per oz., 30 cts. 5

3713 **Golden Gate.** Comprising an infinite variety of semi-double and double flowers in the greatest variety of colors. Per oz., 30 cts. 5

3714 **“Mikado” (The Striped Japanese Poppy).** This beautiful Poppy is very distinct in character and color. The flowers are brilliant scarlet and white, with elegantly curved petals, like a Japanese Chrysanthemum. Per oz., 30 cts. 5

3715 **White Swan.** Immense double flowers, beautifully fringed and of purest white, of the same dwarf habit as Cardinal and Shell-pink. Per oz., 30 cts. 5

3716 **Cardinal.** A splendid dwarf variety of the carnation-flowered type, growing about two feet high and bearing large globular, fringed flowers of an intense cardinal red. Per oz., 30 cts. 5

3717 **Shell-pink.** Similar in every way to Cardinal and White Swan, except color, which is a soft sea-shell or chamois-pink. Very dainty. Per oz., 30 cts. 5

---

**ICELAND POPPIES**

( *Papaver nudicaule*)

While these are hardy perennials, they flower the first year from seed, blooming almost as quickly as the annual sorts. They are of graceful neat habit, with bright green fernlike foliage, formed in tufts, from which issue slender stalks about 12 inches high, bearing their brilliant flowers in endless profusion; most useful for cutting, for which purpose pick when in bud, and, if the seed pods are picked off, continue in flower the entire season. They remain evergreen throughout the winter, coming into bloom early the following spring.

3733 **Bright Yellow**
3734 **Pure White**
3736 **Orange Scarlet**
3740 **Finest Mixed.** All colors. ¼ oz., 30 cts. 10

3738 **New Hybrid Iceland.** The latest development in this lovely species, varying in color from sulphur yellow through different shades of orange to chamois and salmony-rose, some of which are very striking. 15
Hardy Perennial Oriental Poppies

Oriental Poppies should be sown in early spring in the open ground as soon as it is fit to work. The plants disappear during July and August, appearing again as soon as the weather gets cool. When this fall growth starts is the time they should be transplanted to their permanent flowering quarters. It is well to mark the places they are planted with a stake to insure the roots against disturbance during their annual resting period.

3747 **Oriental (The Large Oriental Poppy).**
A charming summer-flowering hardy plant, producing numerous leafy stems about 2½ feet high, with large deep crimson flowers; having a conspicuous black blotch on each petal, exceedingly showy. ¼ oz., 30 cts. ........... 10

3743 **Perry’s White.** Very distinct, pure satiny-white, with a crimson maroon blotch at the base of each petal. ........... 25

3742 **Gerald Perry.** One of the most beautiful Oriental Poppies yet raised, large flowers of a uniform shade of apricot-pink, conspicuously blotched crimson. ........... 25

3750 **Oriental Mixed Hybrids.**
Saved from a large number of named sorts. ¼ oz., 60 cts. 15

**ICELAND POPPIES**
This charming class of hardy Poppies is offered on preceding page.

**POLYANTHUS** (Primula Elatior)
Showy, early spring, free-flowering plants, fine for either pot or outdoor culture; hardy perennials: 9 inches.

3677 **Invincible Giant.** Undoubtedly the finest strain in cultivation, containing all colors from purest white to the richest crimson. 4 oz., $1.00. ........... 25
3680 **English Mixed.** A fine grade; all colors. ¼ oz., 30 cts. ........... 10

**PUERARIA** (Japanese Kudzu Vine)
3835 **Thunbergiana.** To this must be awarded first place as the fastest growing hardy climbing plant. It will grow 8 to 10 feet the first year from seed, and after it has become established there seems to be no limit to its growth, 50 feet in a single season being not unusual. Its foliage is large and covers well; it bears small racemes of rosy-purple; pea-shaped blossoms towards the close of August. A splendid subject for covering permanently verandas, dead trees, etc. ¼ oz., 25 cts. ........... 10

For Annual Poppies see pages 102 and 103
PRIMULA (Primrose)

The charming and beautiful Chinese Fringed Primrose and Obconica varieties are indispensable for winter or spring decorations in the home or conservatory. They are one of the most important winter blooming pot plants. The seed we offer is of the highest merit, and has, as usual, been saved from the best strains. Florists and others report that they have never seen finer flowers than those produced from our seed. Sow in March, April or May.

VARIous PRIMROSES

| 3824 Kewensis. This variety is most attractive, with pleasing bright yellow flowers borne on long stems. It is delightfully fragrant and stands well as a house plant. | 25 |
| 3826 Mallacoides (Improved Baby Primrose). A fine house plant, flowers delicate lilac. | 25 |
| 3827 - Alba. A new white-flowering form | 25 |

HARDY PRIMROSES

These are among the best of the early spring-blooming plants. With a slight protection they will stand the winter, but will do better if protected by a cold frame.

1500 Auricula. A well-known favorite of great beauty; seed saved from splendid choice mixed varieties; 6 inches | 25 |
| 3825 Japonica (Japanese Primrose). Bright and showy flowers; borne in whorls on stems 6 to 9 inches long; mixed colors. | 15 |
| 3830 Vulgaris (English Primrose). Canary-yellow, fragrant | 15 |

See also Conostylis and Polyanthus

The Extra Early Colossal or Midsummer Giant Cosmos furnish splendid cut flowers all summer and fall. See page 52
PYRETHRUM

P. aureum is the well-known Golden Feather so much used for edging, carpet bedding, etc., while the others are most attractive hardy plants.

PER Pkt.
3841 Aureum (Golden Feather). Yellow foliage. Per ½ oz., 25 cts. 5
3846 Hybriformum. Hardy perennial, bearing large Daisy or Cosmos-like flowers, ranging in color from white to deep red, with bright yellow centers; blooms in May and June, and again in the fall; and is one of the most graceful and long-lasting cut flowers. These are nicely shown in the illustration on this page. Per ½ oz., 75 cts. 10
3847 Hybriformum Grandiflorum. A large flowering form of the above; mixed colors. 15
3845 Hybriformum Fl. Pl. Seed saved from the finest double flowers; only a small percentage can be expected to come double the first year; mixed colors; 1½ feet. 25

RUDBECKIA (Cone Flower)

3801 Bicolor Superba. Fine free-flowering annual variety, growing about 2 feet high; forming a dense bush and producing in great abundance on long stems its bright flowers. The disk is brown, the florets golden-yellow, with large velvety-brown spots at the base; very effective and useful for cutting. 10
3802 Newmani. One of the finest of autumn-flowering perennials, bearing large flowers. Bright orange-yellow petals, surrounding a large black cone. 15
3803 Purpurea (Giant Purple Cone-Flower). A most interesting hardy perennial, producing all summer large, showy reddish-purple flowers, about 4 inches across. 10

RHODANTHE (Swan River Everlasting)

3860 A charming annual; succeeds in a light rich soil and a warm sheltered situation; valuable for pot culture; flowers everlasting; mixed colors; 1 foot. 10

RICINUS

(Caster Oil Bean)

Ornamental plants of stately growth and picturesque foliage, with brilliant colored fruit, producing sub-tropical effect; fine for lawns, massing or centre plants for beds.

3862 Cambodiensis. The main stems and leaf stalks are shining honey, leaves large, regularly divided and richly colored. The foliage assumes different shades as the plant increases in size, so that very striking effects may be obtained; 5 feet. Per oz., 25 cts. 5
3865 Sanguineus. Blood red stalks and clusters of red fruit; 8 feet. Per oz., 25 cts. 5
3870 Zanzibariensis. A distinct class, which surpasses in size and beauty all varieties. The plants attain great dimensions, presenting a splendid aspect with their gigantic leaves. The different varieties included in our mixture have light and dark green leaves and some of coppery-bronze, changing to dark green, with reddish ribs. The seeds are beautifully marked. Per oz., 25 cts. 5
3880 Mixed. All sorts. Per oz., 20 cts. 5

Leaflet giving full directions for growing Annual and Perennial Flower Seeds free on request.
### SALVIA SPLENDENS

*(Scarlet Sage)*

The Scarlet Sage has long been a favorite bedding plant, also grown for conservatory decoration, bearing long spikes of flowers in great profusion from July to frost; seed should be sown as early as possible, either indoors or in a hotbed, and the young plants transferred to their flowering quarters when the weather has become settled and warm. May also be sown in the open ground in May.

- **Splendens (Scarlet Sage)**: Beautiful bright scarlet; 3 feet. ½ oz., 60 cts. 10
- **"Bonfire."** This is one of the finest of the Scarlet Sages, growing in a compact bush 2 feet high by 2 feet in diameter. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plant. It attracts immediate attention in the garden, and is one of the most effective and gorgeous plants in cultivation. Per ½ oz., 50 cts. 10
- **Ball of Fire.** A compact type and popular for beds and borders requiring a variety of dwarfer habit than the regular Scarlet Sage or the variety "Bonfire." Per ½ oz., 60 cts. 15
- **Zurich.** A splendid dwarf variety, growing about 2 feet high, and is especially valuable on account of being the earliest to bloom, flowering ten days in advance of any other sort, ½ oz., 75 cts. 20
- **America, or Globe of Fire.** This is the freest and most continuous blooming of all the Scarlet Sages, also the most uniform in habit of growth, which makes it particularly valuable for bedding or planting in lines, 5 pkts., $1.00 25

### SALPIGLOSSIS

*(Painted Tongue)*

The Salpiglossis is one of the greatest favorites among annuals, partly because of its easy culture, but principally for its beautiful, almost orchid-like flowers, which it produces from early summer until late fall. Seed should be sown early in spring in a hotbed or window and transplanted when weather is settled or directly out of doors after danger of frost. The seed we offer is a select large-flowering strain. (See cut.)

**Salpiglossis Improved Large-Flowering**

Every flower garden should include the mammoth flowering Verbena. See page 53
SCABIOSA
(Mourning Bride, Sweet Scabious, Pin-cushion Flower, etc.)
The Annual Scabiosas are firm favorites with many of our customers. Seed can be sown any time in the spring after danger of frost is past. They grow about 2 feet high, and come into bloom early in July, and continue without interruption until hard frost. The beautiful flowers in exquisite shades are borne on long stems, and when cut keep in perfect condition for the best part of a week. They make effective borders or beds, and no garden is complete without both the annual and perennial Scabiosas, especially where flowers are wanted for cutting. We offer 8 colors, as under:

NOVELTIES and SPECIALTIES in Flower Seeds are offered on pages 52 to 62.
SCHIZANTHUS
(Butterfly or Fringe Flower)

This is one of the airiest and daintiest flowers imaginable, especially adapted to bordering beds of taller flowers and those of a heavier growth. The seeds germinate quickly and come into bloom in a few weeks from sowing. The florescence is such as to completely obscure the foliage, making the plant a veritable pyramid of the most delicate and charming bloom. The Schizanthus make admirable pot plants for the house in late winter and early spring. For this purpose sow in the autumn.

3967 Dwarf Large-flowered. A new variety, forming compact pyramidal plants a foot high, literally covered with large, beautiful, orchid-like flowers in a bewildering range of color. ½ oz., 50 cts. 15
3968 Wisetonensis. A variety largely used as a pot plant for the house or conservatory. It is remarkably free-flowering, and presents a beautiful appearance with its myriads of blooms, the ground color of which is white, dotted with delicate rose. 25
3970 Mixed. A splendid mixture of the regular type. ½ oz., 25 cts. 5

SIDALCEA

Hardy perennials of considerable beauty for the border, growing from 3 to 5 feet high and producing their showy, satiny flowers during June and July; blooms well either in sun or partial shade, of easy culture, succeeding in any ordinary garden soil.

3974 Candida. A very pretty white flowering variety; 2 to 3 feet 10
3975 Rose Queen. A new variety and one of the finest hardy perennials, develops spikes 5 feet high covered with large brilliant rose-colored flowers. 2 pkts., 25 cts. 15
3976 Rosy Gem. Of dwarf habit, not over 3 feet high, and pretty bright rose flowers. 10

SMILAX
(Myriphillum Asparagoides)

3981 In many respects Smilax is the most useful, and it is certainly one of the most graceful climbers which adorns the greenhouse or conservatory; for bouquets and floral decorations it is indispensable. ½ oz., 30 cts. 10

SOLANUM

3991 Capsicastrum (Jerusalem Cherry). This is a very useful pot plant for winter decoration. It is of dwarf, branching habit, leaves small and oval-shaped, bearing in the greatest profusion bright scarlet globular berries. Very ornamental; 1 foot. 10
3992 — Fra Diavolo. A new variety of the above, of close, compact growth, with foliage somewhat smaller and lighter green. The small, bright scarlet fruits remain on the plant a long time and make it a beautiful decorative pot plant through the winter months. 15

STATICE (Sea Lavender)

Splendid hardy perennials, either for the border or rockery, producing all summer panicles of minute flowers, which can be dried and used for winter bouquets.

3997 Latifolia. Purplish-blue flowers. (See cut.) 10
4000 Mixed. Containing many sorts. 10

STEVIA

4001 Serrata. Free-blooming plants, bearing a multitude of fragrant pure white flowers; suitable for summer or winter blooming; largely used for cutting. 10

Our List of Sweet Peas contains nothing but the very finest varieties. See pages 110 and 111.
Dreer's Select

SWEET PEAS

There are hundreds of both Orchid-flowered and Grandiflora varieties of Sweet Peas, many of which are practically identical and still others which lack either size, purity of color, vigor or some other characteristic which all first-class sorts should have. It would be an easy matter for us to greatly extend our list, but we think it best to confine our offers to such sorts as are really first class, and every variety we offer is entitled to a place in the front rank of Sweet Peas. In addition to the splendid list of Orchid-flowered sorts offered on the page opposite we also offer the best recent introductions of both the early-flowering and the regular type, which are fully described on page 61.

HOW TO GROW SWEET PEAS

The soil for Sweet Peas should be rich and deep. A good rich loam, with plenty of well-rotted manure in it, is the ideal soil for raising good plants that will produce plenty of blooms of good substance. Considerable benefit has been noted from the use of Mulford's Inoculating Culture. We can supply a special Culture for Sweet Peas. Price, 25 cts. per bottle, enough for any ordinary garden. They should be in a position fully exposed to the sunlight and air on both sides of the row.

Much depends upon the state of the weather as to when the seed may be sown out of doors; but they should be sown as early in the season as the ground can be worked, which is usually between the middle of March and the middle of April in the latitude of Philadelphia. It is best to make a trench or furrow about 6 inches deep, in the bottom of which sow the seed. Cover with about an inch of soil, pressing it down firmly. As soon as they are above ground thin out to 2 to 4 inches apart; when planted too close they do not attain their full development. They should be staked up either with branches of brush or stout stakes on which wire netting has been fastened. These should be at least 4 feet high, and 5 feet would be better. It is just as well to do the staking at the time of sowing.

During dry weather they should be watered thoroughly and frequently. The flowers should be cut as often as possible to prevent the plants from running to seed, which would stop them from continuing in bloom.

DREER'S SELECT GRANDIFLORA SWEET PEAS

The following are the very choicest grandiflora sorts—varieties that stand at the head of their respective color and that have the endorsement of the leading American and European specialists—and it would be impossible to select a similar list out of the vast number of grandiflora sorts that would combine in the same degree all the qualities which go to make up first-class varieties.

4243 Janet Scott. A grand deep rich pink.
4244 King Edward VII. The finest crimson-scarlet.
4245 Lady Grisel Hamilton. A grand pale lavender.
4246 Lord Nelson. The richest deep navy-blue.
4251 Miss Willmott. Brilliant orange pink; very large.
4254 Prima Donna. A magnificent pure pink.

4223 Black Knight. Very deep maroon, shaded black.
4234 Blanche Ferry. The popular pink and white.
4245 Dorothy Eckford. Magnificent pure white.
4236 Flora Norton. The clearest bright blue.
4241 Helen Pierce. White, veined and marbled bright blue.
4212 Hon. Mrs. E. Kenyon. The finest primrose yellow.

Price. Any of the above, 5 cts. per pkt.; 20 cts. per oz.; 50 cts. per lb.
4268 Collection of a packet each of the above 12 Select Grandiflora Sweet Peas for 50 cts.
4269 Collection of one ounce each of the above 12 Select Grandiflora Sweet Peas for $1.50.

4290 Dreer's "Peerless" Mixture. This mixture contains nothing but the finest grandiflora varieties blended with the greatest care, so as to produce best color effect. 5 cts. per pkt.; 12 cts. per oz.; 40 cts. per lb.; $1.25 per lb.

4270 Cupid, Dwarf or Bedding Mixture. This mixture contains nothing but the finest grandiflora varieties blended with the greatest care, so as to produce best color effect. 5 cts. per pkt.; 12 cts. per oz.; 40 cts. per lb.; $1.25 per lb.
DREER'S SUPERB

Orchid-flowered Sweet Peas

The best of the old-fashioned or grandiflora varieties are now quite overshadowed by this wonderful type, which are quite distinct, having large, round open flowers of extraordinary size, usually measuring two inches across, with wavy standards and wide-spreading wings, a very large percentage bearing four of these immense blossoms to the stem, which is long and strong, making them of exceptional value for cutting. All the sorts offered below have been thoroughly tested and are just as easy to grow as the grandiflora varieties. For list of the last-st introductions, see Novelties and Specialties, pages 52 to 62.

4061 Agricola. Extra large, very wavy flowers of a light lilac or lavender pink, a color that lights up beautifully under artificial light.

4071 Barbara. Beautiful rich orange-salmon. A most brilliant color and makes a very effective bunch.

4074 Blanche Ferry Spencer. Identical in color to the popular pink and white Blanche Ferry; immense wavy flowers.

4078 Blue Picotee. Pure white, daintily edged, with a narrow border of violet-blue.

4086 Countess Spencer. A lovely clear pink, shading deeper at the edges, the original of this type.

4095 Dobbie's Cream. The finest and largest primrose-yellow yet introduced.

4108 Elfrida Pearson. The finest and largest blush pink.

4114 Fiery Cross. The sensational fiery-scarlet variety.

10 cts. per pkt.; 75 cts. per oz.

4117 Florence Nightingale. A large and fine pure lavender; a great favorite.

4136 Illuminator. Rich salmony-orange overlaid with bright cerise-pink, the effect being a glowing orange-scarlet; flowers uniformly large.

4147 King White. The finest white-seeded pure white.

4151 Margaret Atlee. The best rich pink. A giant in size and a strong grower.

4152 Margaret Madison Improved. Opens a delicate azure-blue, developing to a clear, light lavender.

4154 Mrs. Cuthbertson. Standard rose-pink, wings blush white; flowers of largest size.

4156 Mrs. Hugh Dickson. Beautiful salmon-pink on a cream ground, color effect rich apricot; extra fine.

4158 Mrs. R. Hallam. An exquisite tone of salmony rose-pink, one of the most charming varieties yet introduced.

4177 Othello Spencer. Beautifully waved flowers of a rich deep maroon, immense size.

4194 Robert Sydenham. This grand variety is considered the most distinct new color introduced to date, being a glowing orange throughout; a good strong grower with flowers of characteristic Spencer size and form. 10 cts. per pkt.; 50 cts. per oz.

4196 Rosabelle. A magnificent large and finely waved bright rose. Extra fine in every way.

4198 Royal Purple. Rich royal purple. One of the finest and most distinct varieties.

4202 Scarlet Emperor. Rich deep scarlet; extra large, and nicely waved.

4214 Thomas Stevenson. Brilliant orange-scarlet of large size.

4222 Wedgewood. Bright silvery or wedgewood blue, a beautiful and popular color.

4228 White Spencer. A pure wavy white of enormous size and splendid substance; long, strong stems.

Price. Any of the above, except where noted, 10 cts. per pkt.; 40 cts. per oz.; $1.25 per lb.

4208 Collection of a packet each of the entire 25 varieties offered above, $1.75.

DREER'S ORCHID-FLOWEED SWEET PEAS IN MIXTURE

4230 Read what we say about this type at top of this page. They represent the highest achievement in Sweet Peas to date, and this mixture has been made up of named sorts only, insuring a well balanced range of colors, and it would be impossible to get anything of higher quality at any price. 10 cts. per pkt.; 50 cts. per oz.; 75 cts. per lb.; $2.50 per lb.

See Novelties and Specialties, pages 52 to 62, for The Newer and Early Flowering Orchid-flowered Sweet Peas
CUT-AND-COME-AGAIN 10-WEEK STOCKS

Splendid perpetual-blooming class; sown in March or April they begin flowering in July, continuing till frost, and are especially valuable during September and October, when other flowers are scarce; they throw out numerous side branches, all bearing very double, fragrant flowers.

STOKESIA (Cornflower Aster)

4051 *Cyanea.* This is not new, but is a rare and beautiful hardy perennial. The plant grows about 24 inches high, each bearing from 20 to 30 handsome lavender-blue cornflower-like blossoms; in bloom from July till frost. One of the choicest subjects for the hardy border, and indispensable for cutting. (See cut.) $1/2 oz., 30 cts... 10

4052 *Cyanea alba.* A pure white-flowering form, identical to the popular blue variety in every way except color. $1/4 oz., 40 cts... 10

4060 *Cyanea Mixed.* Containing many new colors. 2 pkts., 25 cts... 15

SWEET ROCKET

(Hesperia)

4278 Old-fashioned garden plant; also known as *Dame's Rocket* and *Dame's Violet*; grows from 2 to 3 feet high, and bears spikes of showy white, lilac and purple fragrant flowers. Excellent for naturalizing among shrubbery or for planting in a permanent border; mixed colors. (See cut.) Oz., 40 cts... 5
**SWEET WILLIAM** (Dianthus Barbatus)  
(London Tufts)

A well-known, attractive, free-flowering hardy perennial, producing a splendid effect in beds and borders with their rich and varied flowers. It is much better to raise new, vigorous, young plants from seed every season than to divide the old plants.

**Newport Pink.** A distinct new color which originated in one of the far-famed gardens at Newport, R. I. In color it is what florists call watermelon-pink or salmony-rose. strikingly brilliant and beautiful; the flowers are borne in massive heads on stems 18 inches high. For mid-season mass bedding it has no equal. It is also very effective for cutting.

2 pkts., 25 cts. 15

**Scarlet Beauty.** A very effective rich, deep scarlet variety. 2 pkts., 25 cts. 15

**Holborn Glory.** This strain is a large-flowered selection of the auricula-eyed section, the most beautiful and admired of all Sweet Williams. The individual flowers and trusses are of extraordinary size, while the range of color, all showing a clear, white eye, is truly superb. ½ oz., 25 cts. 10

**Double Mixed.** All colors. ¼ oz., 30 cts. 10

**Giant Double.** A decided improvement. The plants are of robust, bushy habit, producing numerous stems, surmounted by immense umbels of full, double flowers, many of the individual flowers measuring over one inch in diameter. The colors are extremely varied. ½ oz., 50 cts. 15

**Tagetes**

**THUNBERGIA**  
(Black-eyed Susan)

4310 Beautiful, rapid growing annual climbers, preferring a warm, sunny situation; used extensively in hanging-baskets, vases, low fences, etc., very pretty flowers in buff, white, orange, etc., with dark eyes; mixed colors; 4 feet. (See cut.) ½ oz., 40 cts. 10

**TORENIA**  
(Red-hot Poker, Flame Flower, or Torch Lily)

4330 **Hybrida.** The introduction of new, continuous flowering Tritomas has given them a prominent place among hardy bedding plants. It is not generally known that they are readily grown from seed, many flowering the first year if sown early. The seed we offer has been saved from our own collection, which is undoubtedly the finest in this country. Of course, for immediate results it will be better to get plants, but raising them from seed is highly interesting. 2 pkts., 25 cts. 15

**TUNICA**  
4335 **Saxifraga.** A neat, tufted hardy perennial plant, growing but a few inches high, and bearing throughout the entire season numerous elegant pink flowers. Will thrive anywhere, but is especially adapted for the rockery or the margin of the hardy border; blooms the first season. 10

Read the General Culture Notes on Raising Flowers from Seeds on page 51
DREER’S MAMMOTH VERBENAS
(Illustrated in colors on plate facing page 63.)

We have been carefully selecting and improving this fine strain of Verbena for years, and can recommend it as the very best procurable. For best and quickest results seed should be sown early in the house or hotbed, and transplanted to flowering quarters in May. If sown outdoors in May, it blooms from the end of July on. Verbenas are better grown from seed than from cuttings, being more vigorous and not liable to disease.

PER PKT.  PER PKT.
4351 Pink. 10 4354 Striped. 10
4352 Purple. 10 4355 White. 10
4353 Scarlet. 10 4356 Blue. 10
4359 Collection of above 6 colors. 50
4360 Dreer’s Mammoth Mixed. Containing all the colors. ¼ oz., 50 cts.; oz., $1.50. 10

VARIOUS VERBENAS
4361 Hybrida, Fine Mixed. A splendid mixture, flowers not quite so large as our Mammoth Strain. ½ oz., 80 cts. 5
4357 Lucifer. A new deep cardinal-scarlet variety of Mammoth Verbena. See Specialties pages 52 to 62. 25

4366 Lemon Verbena (Aloysia Citriodora). Every garden should have a few plants of this fragrant favorite. Its pale green delightfully scented foliage goes well with any flower. 15

4365 Erinoides (Moss Verbena). This lovely variety produces a mass of moss-like foliage, spreading over the ground like a carpet, above which are borne heads of purplish-blue and white blossoms in lavish profusion; comes into flower in June and continues until frost. For beds, baskets or rockeries it is highly desirable. 10

4367 Venosa (Hardy Garden Verbena). This variety is largely used for bedding purposes. It is a strong, thrifty grower about 1 foot high, and covered from early summer until late fall with its bright purplish-heliotrope flowers. ¼ oz., 30 cts. 5

Dreer’s Mammoth Verbena

VALERIANA (Valerian) PER PKT.
4340 Rubra, Mixed. Showy, hardy border plants; producing large corymbs of red or white flowers; fine for bouquets; mixed; 2 feet. ¼ oz., 25 cts. 10

VINCA (Madagascar Periwinkle, or Old Maid)
Ornamental free-blooming plants and one of the most satisfactory flowering bedding plants we have. It is best to start the seed early indoors or in a hotbed, but they begin blooming in August from seed sown out of doors in May, or as soon as the ground is warm, continuing until frost; or they may be potted and kept in bloom through the winter; a fine cut flower, every bud opening when placed in water. 2 feet. (See cut.)
4381 Rosae. Rose, dark eye. 10
4382 Alba. White, crimson eye. 10
4383 Alba Pura. Pure white. 10
4390 Mixed. All the colors. ¼ oz., 50 cts. 10

VISCARIA
Very free-blooming annuals, closely allied to the Lychnis, they form compact plants about a foot high, and are covered from early summer till fall with their bright flowers, shaped somewhat like a single Pink, borne on long, slender stems; it is best to sow them where they are to bloom, thinning out to prevent overcrowding.
4412 Cardinals. Brilliant cardinal crimson; very bright. 10
4418 Mixed. Containing about six different colors. 5

High-Grade Sweet Peas are one of our Specialties. See pages 110 and 111
WALLFLOWER

Well-known deliciously fragrant half hardy perennials, blooming early in the spring, with spikes of beautiful flowers. They should be protected in a cold frame in the winter and planted out in April.

4415 Paris Extra Early. A beautiful single variety, which may be treated as an annual, flowering through the summer from seed sown in spring. ½ oz., 25 cts. 10
4414 Goliath. A splendid single variety; flowers of a rich, shining red, with a black velvety sheen. 10
9 Single Mixed. All colors. ½ oz., 20 cts. 5
40 Double Finest Mixed. 10
419 Collection of Single Wallflower; 6 colors. 40

WATER LILY SEEDS

We annually save a limited quantity of these at our own nurseries, and offer:

4581 Nymphaea Zanzibarensis. Purple. 15
4582 — — Azurea. Blue. 15
4583 — — Rosea. Rose. 15
4584 — Tender Varieties Mixed. 15
4586 Nelumbium Speciosum. Pink. 15
4583 — Luteum. Yellow. 10
4587 — Mixed Sorts. 15

WILD GARDEN FLOWER SEEDS

Under this heading we offer a mixture of the easiest and surest growing kinds that can be sown broadcast, and with little or no care will produce a bright effect in places that would otherwise be nothing but a collection of unsightly weeds, and furnishing an abundance of flowers for cutting.

4550 Dwarf Sorts. Growing from 12 to 18 inches high, 30 cts. per oz.; $1.00 per ¼ lb. 10
4560 Tall Sorts. Growing from 18 to 36 inches high, 30 cts. per oz.; $1.00 per ¼ lb. 10

DREER'S SUPERB ZINNIAS

The most important varieties of this indispensable long-flowering annual is offered on page 116; but the sorts offered below should not be overlooked, all being worth while growing.

4481 Mexicana Perfection. A very dwarf variety, bearing small double flowers of unusual colorings; makes a beautiful border. 2 pkts., 25 cts. 15
4485 Red Riding Hood. This little gem grows but a foot high; of compact form and covered the entire season with little button-like, intense scarlet, very double flowers not over an inch across; as a border it is highly effective. ½ oz., 20 cts. 10
4490 Single Mixed. For bedding these are very effective, and are by many considered more artistic than the double-flowering sorts. ½ oz., 25 cts. 5
4500 Tall Double. The old-fashioned tall-growing variety; 3 feet; mixed colors. Per oz., 40 cts. 5
4510 Zebra. A very pretty strain with striped flowers. As the colors vary on each plant, they present a curious as well as a beautiful appearance. ½ oz., 25 cts. 10
DREER'S CHOICE ZINNIAS (YOUTH AND OLD AGE)

The Zinnia is one of the most brilliant, showy and satisfactory of annuals, and has long been a general favorite. The seed can be sown early in the hotbed or light window and transplanted, or sown later in the open ground. They come into flower early in the summer and keep on blooming until hard frost. The varieties offered below are the most important kinds, but the sorts offered on page 115 should not be overlooked.

DREER'S IMPROVED LARGE-FLOWERING DWARF DOUBLE

This we consider the best Zinnia for general use, forming bushy, compact plants not over 2 feet high, and bearing large perfect double flowers in good clear distinct colors. The salman-rose variety is especially effective.

4460 Finest Mixed. All colors of the improved Large-flowering dwarf. Per ½ oz., 20 cts.; oz., 60 cts. 5

4440 Curled and Crested. The petals of this beautiful strain are twisted, curled and crested into the most fantastic and graceful forms. The colors comprise all the brilliant shades characteristic of the Zinnia. (Illustrated on page 115.) ½ oz., 25 cts. 10

4480 Double Dahlia-flowered. The latest development in Zinnias, bearing flowers of mammoth size and in form like a perfect decorative Dahlia. Mixed colors. 3 pkts., 50 cts. 20

DREER'S SPECIAL STRAIN OF GIANT DOUBLE ZINNIAS

A special strain of this grand old favorite free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across being not unusual. Plants are of extremely robust habit, attaining a height of about 3 feet and bearing on long strong stems numerous semi-globular, mostly very double flowers, all of the largest size, making them of great value in large beds, borders, etc.; grown under favorable conditions they remain in bloom from early summer to late autumn.

We offer six of the most wanted colors, separately, as well as a splendid mixture of many colors, as under:

PLANT DEPARTMENT

PLEASE READ THIS BEFORE ORDERING PLANTS

TIME OF SHIPMENT.—All plants, whether the stock is seasonal or not, are forwarded as soon after receipt of the order as possible. Many of our customers who have facilities for their care, purposely order plants out of season so as to have them on hand when planting conditions are favorable. As we do not know whether you have such facilities, you must specify on the order when you want shipment made, if you do not wish them at once.

RESERVATION OF PLANTS FOR PLANTING TIME.—While we try as far as possible to reserve plants on orders placed in advance, to be sent at planting time, it must be borne in mind that plants are highly perishable, and cannot be packed and stored for future shipment like most other kinds of merchandise. Weather conditions frequently interfere with making such reservations at the time the order is received, and when Spring opens there is usually such a congestion of orders for immediate shipment that it is impossible to make reservations. This is particularly the case during the present period of scarcity of not only skilled, but also common labor. Customers may rely on us doing our utmost in making reservations, but if we fail we assume no responsibility, and all advance orders are accepted on these conditions only.

SAFE ARRIVAL GUARANTEED.—We guarantee the safe arrival of all goods sent by express or mail to points within the U. S. proper. If a package sent by express or mail is injured or lost we will replace it as soon as informed of the fact. Goods sent in any other way are solely at purchaser’s risk. Claims for damages must be made on receipt of goods. We do not hold ourselves responsible for failure after delivery of the goods in good condition.

PLANTING TABLE.—The table below shows the number of plants required to fill a circular bed of the dimensions given. In planting begin outside row—where 6 inches apart, 3 inches from edge of bed; where 12 inches apart, 6 inches from edge of bed. It is customary among professionals in planting a bed to set the plants somewhat closer together in the two outer rows, giving more space between each plant toward the centre of the bed.

A square bed will take about the same number of plants. For an oval bed, add length and breadth and divide by 2. For example, an oval 7 feet long by 5 feet wide will require same number of plants as a circular bed 6 feet in diameter. (117)
Dreer's Specially Prepared
ROSES FOR THE GARDEN

PARTIAL VIEW OF ROSE TRIAL BEDS AT OUR NURSERY, RIVERTON, N. J.

While our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are field grown plants, having been cultivated in fields during the growing season of 1919. In fall they were carefully dug, planted in pots and stored in cold greenhouses or cold frames, where artificial heat is only used to exclude severe frost. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth. Our Roses are all strong two-year-old American-grown. With few exceptions our Roses are budded or grafted, and while some planters prefer stock grown on their own roots on account of the liability of budded plants to throw up suckers, this will rarely occur if the deep planting as directed below is followed, and if a wild shoot should appear it is readily distinguished by the most casual observer, and should be removed close to the root. Much can be said in favor of budded plants, being more vigorous, producing finer blooms, come into bearing sooner, and are equally as permanent and hardy as those on their own roots, and many of the choicest sorts do not succeed unless budded or grafted.

HOW TO GROW ROSES

SITUATION.—Good Roses may be grown in any open, sunny position, if possible sheltered from north winds, and clear of all roots of trees and shrubs.

PREPARATION OF THE BEDS.—Roses will grow and give good returns in any fertile, well-drained ground; but it is worth while to use some care in the preparation of the beds, as the general health of the plants, quantity and quality of bloom usually more than repays the extra care expended on this detail. The best soil for Roses is the top soil from an old pasture and well-rotted cow manure. Dig out the bed to a depth of two feet or more, and, if drainage is imperfect, it must be provided for. Fill in with a mixture of soil and manure as above. It is best to make the beds sometime in advance of planting, to allow time for settling. After the soil is settled, it should be about an inch below the level of the adjacent surface; make the beds not over 31 to 5 feet wide, which enables you to pick the blooms without stepping on the bed.

PLANTING AND SUMMER CARE.—The ideal time to plant Roses as prepared by us is in the spring, just after danger from severe frost is passed.

Tea and Hybrid-Tea varieties can be set 18 inches apart, Hybrid Perpetuals two feet apart, and both eight inches from the edge of the beds. When the plants are supplied in pots, they should be set so that the ball of earth is about two and one-half inches below the level of the ground. Firm the soil well around the plants, and give a thorough watering if the soil is dry. Throughout the summer the surface of the soil should be cultivated weekly. If this is done, watering will be rarely necessary.

PRUNING.—The Roses sent out by us in spring require no further pruning; they are ready to plant as received. For instructions how to prune during succeeding seasons, see the directions given under the headings of the different classes in the pages following.

WINTER PROTECTION.—In this latitude we have found that the most satisfactory protection is to draw up a mound of soil from 8 to 10 inches high around the base of the plant, then covering the entire beds after the ground begins to freeze with any loose material, such as strawy manure, evergreen boughs or corn stalks, and in more severe climates heavier covering is all that is required.

ENEMIES.—When grown under favorable conditions, Roses are not apt to be attacked by insect pests or other troubles as they are if half starved and otherwise neglected. Our own experience shows that a weekly application of Bordeaux Arsenate of Lead Mixture, at the rate of eight ounces to five gallons of water, applied with a whisk broom, or any sprayer that will reach the under side of the foliage, beginning at the time that the plants have developed into active growth, and continued throughout the season, will keep them free of almost all insect pests, as well as fungous diseases, but if in spite of this spraying, mildew should affect the foliage, use Sulphide of Potassium at the rate of one-half ounce to one gallon of water. This is sometimes effective where the Bordeaux Mixture fails. It may be necessary to supplement this treatment with several applications of any tobacco solution, or tobacco dust, for green fly or aphis, which may appear during the growing season.
DREER’S SELECT LIST OF HYBRID-TEA ROSES

Under this heading we offer on this and the six pages following the World’s best Hybrid-Tea varieties, all of them sorts which we have had the pleasure of thoroughly testing in our own trial grounds, and which we fully endorse and recommend to the large and small planter, which, together with the newer sorts offered on pages 128 and 129, form what is undoubtedly the finest collection of Hybrid-Tea Roses ever offered to the Rose loving American public. For best results Hybrid-Tea Roses should be severely pruned; the stronger shoots should be cut back to from 8 to 12 inches in height, while all weak, thin wood should be removed entirely.

Admiral Ward (Pernet-Ducher, 1915). A splendid crimson-red, shaded fiery red; it has large globular flowers with curved petals; its growth is vigorous; of desirable spreading habit, with healthy bronzy-green foliage; $1.25 each.

Amalie de Greiff (F. Lambert, 1914). Destined to become a very popular bedding variety, large, well-formed double flowers, long shapely buds carried on long stiff stems, in color a delicate satiny rose-tinted white. $1.25 each.

Antoine Rivoire (Pernet-Ducher, 1906). An ideal bedding Rose of large size, exquisite form and coloring, which is soft peshb flesh with deeper shadings; the base of the petals yellow.

Arthur R. Goodwin (Pernet-Ducher, 1909). A beautifully rich-colored coppery-orange; “gold of ophir,” a visitor to our trial grounds very correctly called it who saw it in one of its stages of development; as the flower matures it opens to a soft salmon pink; a good, full flower, very free and distinct. $1.25 each.

Augustus Hartmann (Cant & Son, 1914). Brilliant, geranium-red, flushed with orange. A fine Rose, large, well-formed flowers on stout erect stems; strong grower.

Betty (Dickson & Sons, 1905). Early in the season this is a disappointment in the first flowers which it opens, but after it becomes established it produces blooms of marvellous beauty, particularly so in the autumn. Its large, deliciously-scented flowers are of a glowing coppery-rose color, suffused with a golden sheen.

Chateau de Clos Vougeot (Pernet-Ducher, 1908). An ideal Rose of a dazzling color, being a rich scarlet, shaded fiery red, changing to dark velvety crimson as the flowers expand; as dark, but richer in color than the popular Hybrid-Perpetual variety Prince Camille de Rohan; it blooms continuously throughout the season. $1.25 each.

Cheerful (McGredy & Son, 1916). Pure orange flame, the flame shading overspreading the petals, giving it a pleasing effect; flowers large, full and good form; very free. $1.25 each.

Chriissie MacKellar (Dickson & Sons, 1913). Deep ochre-madder with crimson-carmine pencillings when first opening, changing to pink with orange shadings as they mature; semi-double. $1.25 each.

Circe (Wm. Paul & Son, 1917). Large full flower, flesh-white shaded carmine, base of petals yellow. $1.25 each.

Clara Watson (Prince, 1894). A free flowering good pink with salmon shadings.

Colonel Leclerc (Pernet-Ducher, 1909). The buds are well shaped and open to flowers of beautiful cherry-red, washed with carmine-lake. An extra good flower of large size and globular form; fine autumn bloomer.

Price.—Strong two-year-old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
Select Hybrid-Tea Roses

Constance (Pernet-Ducher, 1915). A free-flowering variety, producing beautiful long orange-yellow buds of perfect form; these are more or less streaked with crimson; as the flowers fully develop they open to a full globular flower of golden-yellow. $1.25 each.

Dean Hole (Dickson & Sons, 1904). Silvery-carmine with salmon shadings, large, full, of fine form and very fragrant; a variety of great excellence.

Earl of Gosford (McGredy, 1912). Deep crimson with deeper shadings, a strong vigorous grower, very fragrant.

Earl of Warwick (Paul & Son, 1904). A magnificent Rose and entirely distinct from all other varieties. The flowers are large and full, of beautiful form, and come perfect throughout the season under all weather conditions. In color it is a soft salmon-pink, shaded in the centre with vermillion.

Edgar P. Burnett (McGredy, 1915). Very large, full flowers of splendid form, with large flesh-colored petals tinted rose, an advance on the type of Rose of which the beautiful Lady Alice Stanley is a representative; one of the sweetest scented Roses in existence, even surpassing "La France" is this respect.

Edith Part (McGredy, 1914). A Rose with a novel and entirely distinct blend of color, which is a rich red with a suffusion of deep salmon and coppery-yellow with a deeper shading in the bud stage of carmine and yellow, very sweetly scented.

Edward Mawley (McGredy, 1911). A beautiful rich crimson, touched with maroon, with a delightful velvety gloss on the petals, which are large, forming a good-sized flower with high globular centre. The growth is strong and the very fragrant flowers are borne in profusion.

Ellen Willmott (Bernaix, 1908). Full cup-shaped flowers, waxy-white tinged salmon, centre flesh-pink.

Etoile de France (Pernet-Ducher, 1905). One of the best of the red varieties that succeeds equally well in all parts of the country; color vivid crimson with darker shadings; very double, of good size and deliciously scented.

Florence Pemberton (Dickson & Sons, 1903). An excellent bedding Rose of vigorous habit of growth flowering profusely throughout the season, continuing in good shape during hot summer weather. In color it is a creamy-white suffused with pink, a fine bold flower with high pointed centre and great depth of petal.

Francis Scott Key (John Cook, 1913). This strong, sturdy growing variety of American origin has proven a valuable Rose for the garden. The flowers are large, very double, well formed and of unusual substance, while in color it is a deep even red. $1.25 each.

Franz Deegen (Hinner, 1901). Medium sized flowers which are produced in great profusion; color light yellow shading to deep yellow at the centre; very fragrant.

General Superior Arnold Janssen (Leenders, 1912). In our trial grounds this variety has shown up most satisfactorily; its finely formed long buds are of an effective, deep glowing carmine, and make a splendid long-stemmed cut flower.

George C. Waud (Dickson & Sons, 1908). A beautiful variety, possessing an entirely distinct color—a glowing vermillion with orange-red suffusion. The flowers are large, full, of perfect form and highly tea-scented; very free-flowing.

George Dickson (Dickson & Sons, 1913). One of the most brilliant and perfect high colored varieties; a velvety black scarlet-crimson with glowing scarlet reflexed tips; flowers quite five inches in diameter. Unfortunately not a perpetual bloomer, but this is offset by the brilliant gorgeous display of deliciously fragrant flowers which it furnishes during June, equalled by no other sort.

Gorgeous (Hugh Dickson, 1916). Flowers large, full and exquisitely formed, of an amber yellow, veined with reddish-copper, a most striking and novel color; it is of strong, vigorous habit.

Price. Strong two-year old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
Select Hybrid-Tea Roses

**Grange Colomb** (P. Guillot, 1912). An exceptionally free-flowing, vigorous grower. Color soft ivory-white, with salmon-yellow fawn center; as the flowers mature, they gradually pass to pure white; a splendid bedder.

**Gruss an Teplitz** (Gesch windt, 1898.) This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is one of the richest scarlet, shading to a velvety-crimson; very fragrant, a free, strong grower and in bloom all the time.

**His Majesty** (McGredy, 1909). Dark crimson, shaded deep vermilion; the blossoms are full; of large size, having wonderful substance; exceptionally sweet scented.

**Hoosier Beauty** (Dorner & Sons, 1915). Beautiful, well-shaped, long buds and large, full, perfect flowers of an intense, rich, dazzling, crimson-scarlet and deliciously fragrant. The plant is of vigorous growth, and is conceded to be one of the best Roses of its color.

**H. V. Machin** (Dickson & Sons, 1915). A gorgeous flower of large size described by the introducers as the most magnificent exhibition variety they have yet introduced; in color an intensely black-grained scarlet-crimson, carried on rigid, sturdy stems with ideal foliage.

**Irish Fireflame** (Dickson & Sons, 1914). A glorious single-flowering variety, bearing its flowers in clusters of five or more; splendid for cutting in sprays in bud form. These buds are wonderfully rich in coloring, a rich deep orange, splashed with crimson, opening to a large single flower of a satiny old-gold, shaded with ochre. $1.25 each.

**Janet** (Dickson & Sons, 1916). This is virtually a dwarf "Gloire de Dijon," with large globular-cupped formation, not opening flat, as does its lovely prototype. It is also deeper in color, a pleasing silky salmon-flesh, developing to a deep fawn, a most refined delightfully fragrant flower. $1.25 each.

**Jean Note** (Pernet-Ducher, 1908). Large, full globular flowers, chrome-yellow, changing to creamy-yellow.

**Joseph Hill** (Pernet-Ducher, 1904). A perfect gem and remarkably free-flowing; in color a lovely shade of salmon-pink; the perfect flowers are large, full and double.

**Josephine** (Paul & Son, 1915). A vigorous, strong grower, with large, full splendidly-shaped flowers of most pleasing rosy-flesh, with salmon yellow shading at base of petals.

**Kaiserin Augusta Victoria** (Lambert, 1891). This splendid Rose should be in every collection. In color it is a soft pearly-white, tinted with just enough lemon in the centre to relieve the white, remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower.

**Killarney** (Dickson & Sons, 1898). This is the best known of Dickson's famous Irish Hybrid-Tea Roses, and is one of the most popular of our garden Roses. In color it is a sparkling brilliant pink; the blossoms are large, the buds long and pointed, the petals very large and of great substance.

**Konigin Carola** (Turke, 1904). Large flowers perfect in form, both in bud and when fully expanded. In color a beautiful satiny-rose, with the reverse of the petals silver-rose, very floriferous.

**Lady Ashtown** (Dickson & Sons, 1904). One of the finest-flowering varieties in the collection, and produces perfect blooms under all weather conditions. The flowers are large, double with high-pointed centre, and are produced on long stems; splendid for cutting; in color a soft rose, shading to yellow at the base of the petals.

**Lady Battersea** (Paul & Son, 1901). Medium-sized flower of a beautiful cherry-crimson; very free.

**Lady Greenall** (Dickson & Sons, 1911). Saffron, zoned on a rich creamy-white base; reverse of petals flushed pink, $1.25 each.

**Lady Mary Ward** (McGredy, 1913). Rich orange, shaded deeper apricot-orange, with a decided metallic veneering, very brilliant and attractive, and entirely distinct. A strong grower, very free and sweetly perfumed. $1.25 each.

**Lady Pirrie** (Hugh Dickson, 1910). Deep copper reddish-salmon; inside of petals apricot-yellow, flushed fawn and copper; an ideal variety admired by every one.

**Price.** Strong two-year-old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
Select Hybrid-Tea Roses

La France (Guillot, 1887). An old favorite and a model garden Rose in every way; flowers clear satiny-pink; large, very full, of perfect form and very fragrant.

La Tosca (Schwartz, 1901). Beautiful silvery-pink, with deeper centre; a very vigorous grower, with large double flowers and very free; a splendid bedder.

Laurent Carle (Pernet-Ducher, 1907). Produces its large, deliciously scented, brilliant carmine flowers throughout the season, nearly as good in hot, dry weather as under more favorable weather conditions. A vigorous grower, and as hardy as a Hybrid Perpetual.

Leonie Lambert (P. Lambert, 1914). A splendid silvery-yellow shaded salmon towards the centre, flowers of good size, produced singly on very erect stiff stems, very free flowering.

Lieutenant Chaure (Pernet-Ducher, 1907). The rich color, a brilliant velvety crimson-red and its beautiful long buds, together with its vigorous growth and prolific habit of flowering, makes this one of the most desirable of the high-colored sorts.

Louise Catherine Breslau (Pernet-Ducher, 1912). Entirely distinct from all other Roses in color; the buds are coral-red shaded with chrome-yellow, while the expanded flowers, which are very large, are of a superb shrimp-pink shaded coppery-orange and chrome yellow.

Lucien Chaure (Soupart & Notting, 1914). Flesh colored, illuminated with clear rosy-cream, very large, form perfect. Growth vigorous, free flowering, particularly good in the autumn.

Lyon (Pernet-Ducher, 1907). The long buds are tipped coral-red and chrome-yellow at the base. The flowers when expanded are large and full, with broad petals of superb color, being a coral-red or salmon-pink, shaded with chrome-yellow in the centre, toning to a shrimp-pink at the tips.

Mabel Drew (Dickson & Sons, 1911). A magnificent Rose, exquisitely shaped. The blooms are large and full. The color is deep cream, passing to canary-yellow in the centre as the bloom develops, with a delicious perfume and sturdy, vigorous growth.

Marie Adelaide Grand Duchess of Luxembourg (Soupart & Notting, 1913). Very distinct orange-yellow of good form, fine long buds on erect stems. As the petals unfold they become reflexed in such a manner as to give the flowers a starlike appearance. $1.25 each.

Marquise de Ganay (Guillot, 1910). Very large full globular flowers, on sturdy erect-growing plants; clear, bright, silvery-pink. A fine Rose that is always in bloom.

Mary, Countess of Ilchester (Dickson & Sons, 1909). A warm crimson-carmine, flowers large, very double, with large, smooth, circular petals and delightfully scented; very free flowering.

Mme. Abel Chatenay (Pernet-Ducher, 1896). Carmine-rose with salmon shadings; long pointed buds and double flowers, a strong grower and very free flowering.

Mme. Charles Lutaud (Pernet-Ducher, 1913). A large, full, globular flower somewhat in the way of Marquise de Sinety, but with deeper colored flowers and a more vigorous habit of growth; buds ochre yellow tinted with carmine; open flowers chrome-yellow.

Mme. Edmée Metz ((Soupart & Notting, 1901). A large, full double flower of elegant form of a rosy-carmine shaded salmon, a splendid bedding variety.

Mme. Edmond Rostand (Pernet-Ducher, 1913). This beautiful Rose is one of our favorites, and might be called an improvement on Prince de Bulgarie, being of more vigorous growth and warmer coloring; a pleasing, soft, delicate flesh shaded with salmon, and reddish-orange-yellow centre, from which it varies considerably under various atmospheric conditions, but it is always beautiful; the flower is large, quite double and globular.

Mme. Jules Grolez (Guillot, 1897). A beautiful satiny china-rose color, very bright and attractive flowers, very double, of fine form and remarkably free flowering; a distinct and pretty Rose, which should be planted extensively.

Mme. Leon Pain (Guillot, 1904). Entirely distinct in color, a silvery-salmon, with deeper orange-yellow, shaded centre, the reverse of the petals being a salmony-pink; flowers large, full and well formed; very free-flowering.

Price. Strong two-year-old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
Select Hybrid-Tea Roses

Mme. Marcel Delanney (Leenders, 1916). A surprisingly beautiful variety raised by the introducers of the popular Rose Jonkheer J. L. M. and honored with the award of the Gold Medal at the trials of the Bagatelle Gardens at Paris in 1915. It is distinct and peculiar in color, a pale soft pink or rose shaded with hydrangea pink; the flowers are very large, full and fragrant, perfect in form and borne on rigid stems; the growth is vigorous and very floriferous. $1.25 each.

Mme. Melanie Soupert (Pernet-Ducher. 1906). For delicacy in coloring it would be difficult to surpass this magnificent semi-double large-flowered variety which is especially fine in the bud form; in color a charming pale tint of salmon-yellow with pink and carmine suffusion. $1.25 each.

Mme. Segond Weber (Soupert & Notting, 1908). A grand Rose in every way. It is a vigorous grower, free flowering, large, perfectly formed, cup-shaped, fragrant flowers of marvellous beauty. In color it is of that soft tone of salmon-pink which appeals to everyone.

Mme. Theodore Delacourt (Pernet-Ducher. 1913). The long bud is of a rosy-scarlet color, and develops into a large, fairly double, globular flower of a reddish-salmon shaded with yellow. An excellent garden Rose. $1.25 each.

Miss Cynthia Forde (Hugh Dickson, 1909). Flowers of great substance, color a deep brilliant rose shading on the back of the petals to a light rosy-pink. The flowers are large, full, of perfect form, very free flowering and fragrant.

Mrs. Aaron Ward (Pernet-Ducher, 1907). A remarkably floriferous variety of strong, vigorous, but compact growth; the flowers, which are of splendid form, full double, are equally attractive when full blown as in the bud state; in color a distinct Indian-yellow, shading lighter towards the edges; under certain weather conditions, the entire flower will sometimes come a yellow-tinted white, but it is beautiful under all color variations.

Mrs. Ambrose Riccardo (McGredy & Son, 1914). A Rose that is destined to take a leading place among Hybrid-Teas on account of its many good qualities and distinct character. The flowers are of large size, quite double and of good form, in color a tender flesh-pink suffused with honey-yellow, sweet scented, a strong grower and free flowering.

Mrs. Arthur E. Coxhead (McGredy & Son, 1910). Claret-red, shaded vermilion towards the edge and a bright rosy sheen towards the base of the petals, giving a distinct illuminated effect to the whole flower; very sweet scented.

Mrs. Arthur Robert Waddell (Pernet-Ducher, 1908). An attractive colored variety that everyone likes, a delicate, soft, rosy-salmon, suffused with a golden sheen; flowers of medium size, especially handsome in half-expanded form; a free-flowering garden variety that should be in every collection.

Mrs. Franklin Dennison (McGredy & Son, 1915). A Rose of surpassing beauty, very large and full, well formed flowers of porcelain-white veiled primrose-yellow deepening to ochre at base of petals. A strong, vigorous grower, producing its large flowers in the greatest profusion.

Mrs. Mackeller (Dickson & Sons, 1916). In strong habit of growth and freedom of flowering this beautiful Rose compares favorably with such a strong growing variety as Caroline Testout. In color it is a distinct light lemon-yellow, shading to almost creamy-white in warm weather. It has large flowers with full high centres of splendid build, a valuable Rose in every way. $1.25 each.

Mrs. T. Hillas (Pernet-Ducher, 1913). Chrome-yellow, flowers large and full, of elongated cup-shape; a very desirable Rose of strong hardy constitution.

Mrs. Wakefield Christie-Miller (McGredy, 1909). As a pink bedding Rose there is none better, and particularly so for massing, the flowers are distinct and novel in shape, the petals having wavy or crisped edges not unlike a Peony. The flowers, which are of large size; remain perfect on the bushes for a long time and are produced very freely; they are of a bright pink color with lighter shadings, the plant is vigorous and free.

Price. Strong two-year-old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
Select Hybrid-Tea Roses

Reine Carola de Saxe (Garnou, 1903). Large, free-flowering, rosy flesh-pink; a strong vigorous grower.

Senator Mascurand (Pernet-Ducher, 1909). Long shapely buds opening to a fair sized globular flower; amber-yellow, toning to a light sulphur-yellow; very free flowering.

Souvenir de Gustave Prat (Pernet-Ducher, 1910). An ideal variety, producing its fairly large, globular flowers of a pleasing sulphur-yellow color very freely; the plant is of vigorous habit.

Souvenir du President Carnot (Pernet-Ducher, 1895). A Rose that pleases everybody; fine in form, of large size and delicate in color; a soft rose shading to white.

Sunburst (Pernet-Ducher, 1912). A superb Rose of good vigorous habit, flowers of fair size of elongated cup form and fine in the bud or half-open flower, color a rich cadmium-yellow with orange-yellow centre.

Totent Geilos (Pernet-Ducher, 1915). A strong vigorous grower of erect branching habit, with shapely long buds borne on stout stems and large full globular flowers; color flesh-tinted white, frequently shaded with chrome-yellow in the centre, particularly so in the Fall flowers. $1.25 each.

Viscountess Folkstone (Bennet, 1886). One of the first Hybrid-Teas introduced, and still one of the best of its color, which is a creamy-pink, shading deeper at the centre; large, full and very free.

Willowmere (Pernet-Ducher, 1914). This splendid Rose is of a coral-red color, suffused with carmine in the bud state, and opens to a large, full, handsome flower of a rich shrimp-pink, shaded yellow in the centre and flushed carmine-pink towards the edges of the petals.

Winnie Davis (Nanz, 1902). A profuse flowering, clean, apricot-pink, close, well-formed buds of fair size; very pretty.

Price. Strong two-year-old plants of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100.
THE "DREER DOZEN"

HARDY EVERBLOOMING HYBRID-TEA ROSES

For many years it has been customary for us to offer under this heading only the very best and most popular, well-tried varieties of Hybrid-Tea Roses, with the majority of which every lover of the Rose is familiar.

We recommend this collection for general planting to the amateur who wishes a limited number of varieties, and who is desirous of a supply of extra choice flowers to cut throughout the summer and fall months. Those who desire a more extensive collection can select with perfect confidence any variety in our collection of Hybrid-Tea Roses offered on pages 119 to 124. There is not one individual sort which we cannot endorse as possessing superior merit, all having been thoroughly tested in our own trial grounds.

Caroline Testout (Pernet-Ducher, 1890)

One of the most popular and valuable bedding varieties, large, full, globular flowers of bright satiny-white, with brighter centre; very free and fragrant.

Duchess of Wellington (Dickson & Sons, 1909)

Intense saffron-yellow stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers develop. The flowers are fairly full, with large petals of great substance, delightfully fragrant and very free-flowing.

General MacArthur (E. G. Hill, 1905)

A well-known favorite, and one of the best all-around bedding Roses in our collection, it is one of the earliest and most perpetual flowering sorts; its flowers are of good form, of a warm, rich crimson scarlet, and delightfully scented.

Jonkheer J. L. Mock (Leenders, 1910)

One of the best bedding varieties. The flowers, which are produced with the greatest freedom on long stiff stems, are of large size and of perfect form, of a deep imperial-pink; the outside of the petals silvery-rose white.

Killarney Queen (Budlong, 1912)

A decided improvement on the popular Killarney, with larger, fragrant, well-formed buds and flowers, which are absolutely perfect in all stages of development; they are of a sparkling cerise-pink color, shading lighter at the base of the petals, a strong, vigorous grower and free bloomer.

Lady Alice Stanley (McCredy, 1909)

A gem that everyone admires; it is absolutely perfect in every way; form, color, size, freedom of bloom and fragrance, are all fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes.

Lady Ursula (Dickson & Sons, 1908)

A truly magnificent Rose of vigorous, erect growth; exceedingly free blooming during the entire summer and autumn. The flowers produced on every shoot are very large, full and of great substance and perfect form, with high centre, from which the petals gracefully reflex; in color a delightful tone of flesh-pink, distinct from all others; delicately tea-scented.

Mme. Edouard Herriot

The Daily Mail Rose (Pernet-Ducher, 1914)

Winner of the Gold Cup, which was offered by the London Daily Mail for the BEST NEW ROSE, exhibited at the International Horticultural Exhibition, held in London, England, May, 1912; also awarded Gold Medal by the National Rose Society of England, 1913. In color its buds are coral-red, shaded with yellow at the base, the open flowers of medium size, semi-double, are of a superb coral red, shaded with yellow and bright rosy-scarlet passing to shrimp-red.

Mme. Jules Bouche (Croibier, 1911)

While not a pure white, it being at times slightly tinted with blush on the reverse of the petals, we consider it one of the best white bedding Roses. It is quite double, and of fine form in bud as well as in the fully expanded flower; a strong grower and very free-flowing.

Ophelia (Wm. Paul & Son, 1913)

A variety which has made such a record for itself that qualifies it to be classed with the very best, a Rose that is admired by every one, its flowers are held erect on long stiff stems, are of perfect form, large size, and of a most pleasing delicate tint of salmon-flesh, shaded with rose, very floriferous.

Radiance (Cook, 1909)

An ideal bedding Rose of American origin that continues to produce its large flowers throughout the most unfavorable hot summer weather when frequently many other varieties fall, in color a brilliant carmine-pink, with salmon-pink and yellow shadings at the base of the petals; truly a Rose for every garden.

Red Radiance (Gude, 1916)

A counterpart of Radiance except in color which is a clear cerise-red, a most valuable addition to our list of bedding Roses.

Price. Any of the above, in strong two-year-old plants, $1.00 each; $10.00 per doz., $75.00 per 100.

One each of the "Dreer Dozen," a fine collection, for $10.00.
**DREER'S SELECT TEA ROSES**

Tea Roses have always been admired for their delicious fragrance and for their delicacy of coloring, but many of the varieties have now been superseded by the Hybrid-Tea class. The Tea Roses do not require the severe pruning recommended for Hybrid-Teas; cut out all thin wood and cut back stronger shoots to a prominent eye.

**Duchesse de Brabant.** An old favorite; the most deliciously scented Rose grows bright silvery pink, always in bloom. 75 cts. each; $7.50 per doz.

**Harry Kirk.** A splendid Rose of free-branching habit, flowering continuously; the blooms are large, of great substance; the form is perfect, the buds long and elegant; color sulphur-yellow, passing to a lighter shade at the edges of the petals. 1.00 each; $10.00 per doz.

**Hugo Roller.** Ground color rich lemon-yellow, the petals edged and suffused with crimson; flowers of medium size, of good shape, and very freely produced. 75 cts. each; $7.50 per doz.

**Maman Cochet.** An extra strong grower producing its large buds and flowers in the greatest profusion; color deep rose-pink; inner side of petals silvery rose; very double and exquisite in bud, or when full-blown. 75 cts. each; $7.50 per doz.

**Marie Van Houtte.** White, tinted with yellow, often edged with rose; large, full, of fine form and an abundant bloomer. 75 cts. each; $7.50 per doz.

---

**DREER'S SELECT HYBRID-TEA ROSES**

We offer a magnificent collection of these. See pages 119 to 125; also pages 128 and 129. For those who want a small but really effective collection we recommend the

**DREER DOZEN HYBRID-TEAS**

fully described and offered on page 125.

---

**Tea Rose, Harry Kirk**

**Miss Alice de Rothschild.** Free flowering, citron-yellow; very sweet. $1.00 each; $10.00 per doz.

**Molly Sharman Crawford.** Large, full double, delightfully fragrant, free-flowering Rose of splendid form; creamy-white at first, changing to pure white. 75 cts. each; $7.50 per doz.

**Mme. Constant Soupert.** Yellow, shaded peach, large double. $1.00 each; $10.00 per doz.

**Mrs. Myles Kennedy.** Delicate silvery white shaded buff, deeper pink in centre. $1.00 each; $10.00 per doz.

**Mrs S. T. Wright.** A "sport" from Harry Kirk, with which it is identical, except in color; the guard petals are of a delicate old gold, while the centre petals are of an orange-chrome with rose suffusion. $1.00 each; $10.00 per doz.

**White Maman Cochet.** Identical except in color, with Maman Cochet; a splendid bedder. 75 cts. each; $7.50 per doz.

**William R. Smith.** A cross between Kaiserin Augusta Victoria and Maman Cochet; one of our best bedding Roses; flowers large, of elegant form; creamy-white with rose shadings. 75 cts. each. $7.50 per doz.

---

**Tea Rose, William R. Smith**
**Hardy Hybrid-Perpetual Roses**

The varieties listed below are unquestionably the best that can be selected in the Hybrid-Perpetual class, which, before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid-Tea varieties has not been established. The collection here offered embraces as complete a range of colors as it is possible to bring together in such a number of plants, with freedom of flowering, perfect form, fragrance, hardiness and general excellence.

In pruning Hybrid-Perpetuals cut away all weak growth, and quality of bloom is desired, cut back the strong canes to 8 or 9 inches of the ground, but if quantity of bloom for effect is desired, leave these canes from 2 to 3 feet high, giving to their strength.

- **in de Bonstetten.** Velvety blackish crimson; very free, double, fragrant flowers; a strong grower.
- **Roueness Rothschild.** A superb Rose, of pale, satiny-rose, very large.
- **Captain Christy.** Delicate flesh tinted white; a large, full flower of good form; very free-flowering.
- **Captain Hayward.** Scarlet-crimson, perfect form; sweetly scented.
- **Clio.** Delightful satiny-flesh with deep centre; the flowers are large, globular and borne on long stems.
- **Frau Karl Druschki.** This is the ideal hardy white Rose, pure in color, perfect in form, strong grower and remarkably free-flowering; superb in every way.
- **General Jacqueminot.** Brilliant scarlet-crimson; an old favorite and one of the best-known Roses in cultivation; does well everywhere.
- **George Arends, or Pink Frau Karl Druschki.** A beautiful pink variety; different in color from any other Rose; a free bloomer and one of the best.

---

**Gloire de Chedane Guinoisseau.** Very large, full globular flowers of brilliant vermilion-red, with velvety shadings. $1.25 each.

**Gloire Lyonnaise.** White, tinted with yellow, large, full and of good shape; very free, distinct and pleasing.

**Hugh Dickson.** Brilliant crimson, shaded scarlet, good in size and form, very fragrant.

- **J. B. Clark.** Intense scarlet, with crimson shadings; flowers of immense size, that attract great attention.
- **Ludwig Moeller.** A pleasing shade of light amber-yellow, large double, well formed flowers. $1.50 each.
- **Magna Charta.** Bright pink, suffused with carmine; a beautiful Rose, and a strong vigorous grower; one of the best.
- **Mrs. R. G. Sharman Crawford.** Deep rosy-pink; outer petals shaded with pale flesh; one of the finest bloomers and a beautiful Rose in every respect.

**Mrs. John Laing.** Soft pink of beautiful form; exceedingly fragrant and remarkably free-flowering; always does well and stands very close to the top among fine Roses.

**Paul Neyron.** Dark rose of enormous size; perhaps the largest of all.

**Prince Camille de Rohan.** Deep velvety crimson-maroon; shaded scarlet, a magnificent dark rose.

**Ulrich Brunner.** A bright cherry-red; flowers large and full; a good strong grower and always does well.

---

**Price.** Extra strong 2 year-old plants, of any of the above, except where noted, $1.00 each; $10.00 per doz.; $75.00 per 100
GRAND AMERICAN HYBRID-TEA ROSE

LOS ANGELES  
(Howard & Smith, 1917)

(Illustrated in colors on the Plate opposite)

We first sent out “Los Angeles” in the spring of 1917. Many thousands of plants have since been distributed, and we know from the many complimentary letters received that it has given more satisfaction than any other Rose we ever handled, and are convinced that within a short time it will become the most popular bedding Rose in America.

Not only is it attracting every Rose lovers attention here at home, but at the Bagatelle Gardens in Paris, France, where competitive trials of new Roses are made from all the renowned growers of the world. Los Angeles was singled out in 1918 as the greatest and most desirable variety shown and awarded the highest prize, a Gold Medal, by unanimous consent of the judges.

Los Angeles is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals. In richness of fragrance it equals in intensity the finest Marechal Niel. The buds are long and pointed, and expand into a flower of mammoth proportions, while the beauty of form and ever-increasing wealth of color is maintained from the incipient bud until the last petal drops.

The plants which we offer this season are the same class of stock as sent out the past three years, being very strong two-year-old California grown, which will give an abundance of bloom this season. Price, $1.50 each.

YELLOW IRISH HYBRID-TEA ROSE

GOLDEN EMBLEM  
(McGredy, 1918)

We showed this beautiful new yellow Rose at the exhibition of the American Rose Society in Philadelphia, March, 1917, where it attracted much attention and was awarded the Society’s Silver Medal. It has also been awarded the Gold Medal of the National Rose Society of England.

It is a great improvement on Rayon d’Or, the color being richer and deeper, with larger and more perfect blooms. It is so perpetual flowering, that as a garden and bedding Rose, it is without a rival. At its best it surpasses Marechal Niel in shape. Its habit of growth is ideal; free and branching with holly-like, glossy-green foliage; delightfully scented. $2.50 each.

GORGEUS NEW CLIMBING ROSE

PAUL’S SCARLET climber

This is without question the most important addition to our list of Climbing Roses in many years; no other Rose in any class can compare with it for brilliancy of color, which is a vivid scarlet that is maintained without burning or bleaching until the petals fall. The flowers are of medium size, semi-double, very freely produced in clusters of from three to six flowers each on much branched canes, the plants being literally covered with flowers from top to bottom. It is of strong climbing habit and perfectly hardy. This Rose has been most highly commended by the English horticultural press. It was awarded a Gold Medal by the National Rose Society and an award of Merit by the Royal Horticultural Society of England, and was also awarded during the summer of 1918 the much coveted Gold Medal at the Bagatelle Gardens, Paris. Strong two-year-old plants, $1.50 each.

NEW RAMBLER ROSE

POUGHKEEPSES

A double flowering “sport” of the brilliant and popular single flowering Rambler Rose Hiawatha from which it has inherited all good qualities, richness of color, a brilliant ruby-carmine with just a touch of white at the centre of each flower, together with strong, vigorous, healthy growth with clean foliage which is immune from mildew. Strong two-year-old plants, $1.00 each.
New-American
HYBRID-TEA ROSE
"Los Angeles"
New American
HYBRID-TEA ROSE
"Columbia"
Five New American
HYBRID-TEA ROSES

We take pleasure in offering this sterling collection of American novelties; three of them productions by the same growers who gave us the Los Angeles Rose, a variety that has proven itself one of the finest bedding Roses ever raised, and we have every reason to believe that the varieties now offered for the first time will prove equally satisfactory.

COLUMBIA (E. C. Hill, 1918)
This beautiful Rose (illustrated in colors on the plate opposite) has not only become one of the most popular winter cut flowers, but has also proven itself one of the best bedding or garden varieties. It is of strong, vigorous habit of growth and exceptionally free-blooming. The flowers, which are of good size, are perfect in form, both in bud as well as when fully expanded. In color it is a most pleasing shade of rose-pink and delightfully fragrant. Strong two-year-old plants, $1.50 each.

MRS. S. K. RINDGE
(Howard & Smith, 1920)
This is, undoubtedly, the finest yellow Rose we have. While in some stages of development, as well as in growth, it resembles Golden Emblem, it is a stronger grower, and its rich, chrome-yellow flowers as they mature, become suffused with salmon-pink. (Illustrated on page 128.) Strong two-year-old California-grown plants, $3.00 each.

MISS LOLITA ARMOUR (Howard & Smith, 1920)
The unique coloring of this novelty is a combination of tints difficult to describe, and is absolutely distinct from all other varieties. The flowers are of large size, full double, with petals of great substance and delightfully fragrant. As the flowers expand they develop to a deep, coral-red with a golden, coppery-red suffusion, the base of the petals a rich golden-yellow with coppery-red sheen. The plant is a strong, vigorous grower, and very free-flowering. A Rose for which we predict great popularity. Strong two-year-old California-grown plants, $5.00 each.

ROSE MARIE (Dorner, 1918)
A most pleasing shade of clear rose-pink, with ideal long shapely buds which open to very large flowers of good form. The plant is a strong, vigorous, healthy grower, and remarkably prolific. We consider it the best bedding Rose of its color yet introduced. $3.00 each.

William F. Dreer (Howard & Smith, 1920)
A beautiful Rose of the same parentage as Los Angeles, and which, for delicacy of coloring, is not comparable to any other variety, it reminding one of the delicate tints of some varieties of water lilies. The flowers, which are similar in shape to Los Angeles, and like that variety, beautiful in all stages of development, are at their best in the half-expanded flower. These, in expanding, are of a soft, silvery shell-pink, the base of the petals of a rich golden-yellow which, at certain stages of development, gives a golden suffusion to the entire flower, this golden suffusion being particularly brilliant early and late in the season. Strong two-year-old California-grown plants, $5.00 each.

We will supply one each of the five varieties for $15.00.
NEW PERNETIANA ROSES, or Hybrid Austrian Briers

A new type of Roses, the result of crossing Austrian Copper and Yellow Brier Roses with various other types; they are of strong, vigorous growth, flowering profusely in early summer and producing some bloom during the late summer and fall; a most distinct and interesting class. These should be pruned in the same way as the Hybrid Perpetuals, described on page 127.

Beaute de Lyon. Forms a large, globular flower of splendid shape, of a coral-red color shaded with yellow.

Juliet. Outside of petals old gold, interior rich rosy-red changing to deep rose as the flowers expand; of delicious fragrance.

Price. Strong two-year-old plants, 75 cts. each; $7.50 per doz.

MOSS ROSES

The beauty of the Moss Rose consists in the delicate mossy covering which surrounds the buds, and gives the opening flowers a unique appearance. Moss Roses should be pruned sparingly; cut out the old wood and merely cut back the growth of last year.

Crested Moss. Rose color, beautifully crested.

Henry Martin. Fine crimson, very vigorous.

Princess Adelaide. Bright silvery rose, large.

Extra strong 2-year-old plants, 60 cts. each; $6.00 per doz. Set of 3 sorts, $1.50.

Hardy Everblooming

Hybrid-Tea Roses

This is the best class of Roses to furnish blooms for cutting throughout the summer and fall. See pages 119 to 125, also pages 128 and 129.

Memorial, or Evergreen Roses

The type of this group of Roses, *Rosa Wichuraiana*, is of Japanese origin, and flowers during June and July. This, as well as the varieties that have originated from it, are of a trailing habit of growth, very hardy, and are recommended for covering graves; hence one of its names—Memorial Rose—climbing over walls, arbors, stumps of trees, or for trailing over rocks or rough ground; in fact anywhere where a climbing or trailing Rose can be used. The foliage is of a leathery texture, of a beautiful shining green, and not only proof against all insects, but is retained on the plants until late in the winter, making them almost evergreen. Pruning should be done in the same way as recommended for the Hardy Climbing sorts. (See page 133.)

**Evergreen Gem.** Flowers buff, changing to creamy white, very double, foliage dense, of rich bronzy-green.

**Gardenia.** Buds bright yellow opening double flowers of a cream color; incurring towards evening to the shape and color of a Cape Jessamine; hence its name.

**South Orange Perfection.** Dwarf trailing habit, double flowers, blush pink at tips, changing to white.

**Triumph.** Double white flowers, produced in clusters; sweet scented.

**Universal Favorite.** Flowers very double, of a pretty rose color.

**Wichuraiana.** Beautiful fragrant single pure white flowers, with yellow stamens followed in fall with bright red hips or berries.

Strong two-year-old plants, 50 cts. each; $5.00 per doz.; $40.00 per 100. Set of 6 sorts, $2.50.

---

**The Old Favorite Bourbon Rose “HERMOSA”**

This old favorite has still many friends on account of the freedom with which its medium sized, bright pink flowers are produced, it rarely being out of bloom from early June until hard frost in the late autumn. Strong two-year-old plants, 75 cts. each; $7.50 per doz.; $50.00 per 100.

---

**EVERBLOOMING POLYANTHA ROSES**

**Cecile Brunner** (*The Fairy or Sweetheart Rose*). A Polyantha variety with dainty double little flowers of perfect form produced in many flowered graceful sprays; color a soft rosy-pink on a rich creamy-white ground. 60 cts. each; $6.00 per doz.

**Clothilde Soupert** (*Polyantha Rose*). An old favorite, producing in clusters beautiful perfectly double flowers of a French-white, deepening to rosy-blush in the centre; very free-flowering and deservedly popular. (See cut) 60 cts. each; $6.00 per doz.

**Pink Beauty** (*Pink Fairy or Sweetheart Rose*). A sport from Cecile Brunner with the same habit of growth and free-flowering qualities of its parent, but much deeper in color, the buds in the first stages of opening being a deep crimson-pink passing to a lively rose-pink as the flowers expand. This variety we can supply only in strong young plants from 4 inch pots at 75 cts. each.

---

**BRIER ROSES**

**Persian Yellow.** Medium sized deep golden yellow flowers, very hardy; to flower freely should receive little or no pruning. 75 cts. each; $7.50 per doz.

**Sweet Brier.** This is the true English Sweet Brier or Eglantine. The single pink flowers are quite artistic, but it is valued most on account of the refreshing fragrance of its leaves. 60 cts. each; $6.00 per doz.

---

**Two New Hardy Climbing Roses**

Paul’s *Scarlet Climber* and *Poughkeepsie*. For description and prices see page 128.
**CLIMBING HYBRID-TEA ROSES**

While not as a rule as free flowering as the bush type of Hybrid-Tea Roses, these climbing forms produce a large crop of beautiful flowers in June with a liberal scattering of blooms throughout the season. In pruning this class, cut out all small, thin wood, and cut the strong shoots back to prominent eyes.

**Climbing Caroline Testout.** A climbing form of the old favorite satiny pink.

**Climbing Kaiserin Augusta Victoria.** The climbing form of this most popular white Rose; very free.

**Climbing Lady Ashtown.** The best of all the climbing Hybrid-Tea varieties. A plant in the most exposed part of our Nursery, with very little protection, has withstood the past six winters, producing not only an immense crop of its very large soft rose-colored flowers in June, but continuing to bloom almost without intermission until the end of the season. $1.50 each.

**Price.** Any of the above, except where noted, in strong, two-year-old plants, $1.00 each; $10.00 per doz. The set of 3 varieties for $3.00.

**TENDER CLIMBING or PILLAR ROSES**

These are not hardy in the latitude of Philadelphia, except in favored positions, or with protection; especially adapted to covering rafters, etc., in greenhouses, or for outdoor culture in the South.

**Gloire de Dijon.** An old favorite; flowers blush with salmon shadings; a fine climber for a sheltered wall.

**Marechal Neil.** Superb; bright golden-yellow.

**W. A. Richardson.** A peculiar shade of orange-yellow.

**White Banksia.** White, small flowers; very fragrant.

**Yellow Banksia.** Yellow, small flowers; very fragrant.

Strong two-year-old plants, $1.00 each; $10.00 per doz.

---

**TREE-SHAPED ROSES**

The following choice varieties can be supplied in tree-shaped form, on sturdy, hardy stems about 3½ feet high. For full descriptions see Hybrid Tea and Hybrid Perpetual Roses in preceding pages.

- **Betty.** Glowing coppery-rose.
- **Caroline Testout.** Satiny rose. **Columbia.** Rose-pink. $5.00 each.
- **Frau Karl Druschki.** Pure white.
- **General MacArthur.** Crimson-scarlet. **George C. Waud.** Glowing vermilion.
- **Gruss an Teplitz.** Richest crimson-scarlet.
- **Jonkheer J. L. Mock.** Deep pink. **Killarney Queen.** Cerise-pink.
- **Lady Alice Stanley.** Coral rose.
- **Lady Ashtown.** Soft rose.
- **Lady Greenall.** Saffron flushed pink.
- **Lady Pirrie.** Deep salmon.
- **Lady Ursula.** Flesh-pink.
- **Laurent Carle.** Brilliant carmine.
- **Los Angeles.** Luminous flame-pink. $5.00 each. **Miss Cynthia Forde.** Brilliant rose.
- **Mme. Edouard Herriot.** Coral-red.
- **Mme. Jules Bouche.** White tinted blush.
- **Mme. Jules Grolez.** Satiny rose.
- **Mme. Leon Pain.** Silvery salmon.
- **Mme. Segond Weber.** Salmon-pink.
- **Mrs. Aaron Ward.** Indian-yellow.
- **Mrs. Ambrose Riccardo.** Yellow suffused rose.
- **Ophelia.** Delicate salmon-flesh.
- **Pharisaer.** Rosy-white.
- **Radiance.** Carmine-pink.
- **Red Radiance.** Cerise-red.
- **White Killarney.** Pure white.

**Price.** Any of the above, except where noted, $3.00 each. **Note.**—As the stock of some of the above varieties is limited, please name second choice or state if we are permitted to substitute nearest in color and habit.
HARDY CLIMBING AND RAMBLER ROSES

We offer on this and the next page a selection of the best modern Hardy Climbing and Rambler Roses.

Climbing Roses require no pruning in the spring beyond the cutting out of very old or dead wood and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season.

AMERICAN PILLAR
A single flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and cluster of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten. (See cut.)

AVIATEUR BLERIOT (The New Yellow Rambler)
We have discarded the old yellow Rambler in favor of this new variety, in which we have a strong-growing plant with beautiful glossy, insect and disease-proof foliage, and bearing large clusters of medium-sized full double flowers of a saffron-yellow, deepening to an almost golden-yellow at the centre.

CHRISTINE WRIGHT
A most exquisite Rose, of strong climbing habit. The flowers are double, from 3½ to 4 inches in diameter, borne singly and in clusters, of perfect form, beautiful in the bud and in the fully expanded flower; color a most refreshing bright wild-rose pink.

CLIMBING AMERICAN BEAUTY
Its name is somewhat misleading, but it is one of the best climbing Roses: a strong, healthy, vigorous grower, frequently making shoots from 10 to 12 feet long, and good-sized flowers for a climbing Rose that blooms so freely; color a pleasing rose-pink, of splendid form, good substance. (See cut.)

CRIMSON RAMBLER
This was the first of the Rambler Roses, and was introduced from Japan in 1894. It is too well-known to require description. Everyone is familiar with its large clusters of crimson flowers.

DOROTHY PERKINS
Soft shell-pink, flowering profusely in large clusters; very fragrant and lasting; a grand Rose in every way. (See cut on page 154.)

DR. W. VAN FLEET
A Rose, which on account of its dainty color and exquisitely shaped buds and flowers, has become a great favorite. The long pointed buds are of a rich flesh-pink on stems 12 to 18 inches long; splendid for cutting.

EXCELSA
A distinct variety in form, color and habit; vigorous in growth, with healthy dark glossy green foliage. The flowers are very double, produced in large trusses, and almost every eye on a shoot produces clusters of flowers. The color is intense crimson maroon, the tips of the petals tinged with scarlet.

Price: Any of the above, in strong two-year old plants, 75 cts. each; $7.50 per doz.; $60.00 per 100.

Tender and Hybrid-Tea Climbing Roses are offered on page 132.
HARDY CLIMBING AND RAMBLER ROSES

Hiawatha

There is no other climbing Rose so brilliant as Hiawatha. A brilliant, ruby carmine, with a clear white eye and a mass of golden stamens—a glowing combination of colors, which can be seen at a great distance.

LADY GAY

A most desirable variety of remarkable vigorous growth, with flowers of a delicate cerise-pink, passing to soft-tinted pink. The effect of a plant in full bloom and the deep green of the foliage is, indeed, charming. (See cut.)

PAUL'S SCARLET CLIMBER

This new climbing Rose is absolutely distinct and is the most brilliant Rose in any class introduced in many years. For full description see page 128. Strong two-year-old plants, $1.50 each.

POUGHKEEPSIE

This new Rambler Rose is a double-flowering form of the popular Hiawatha. For full description see page 128. Strong two-year-old plants, $1.00 each.

SILVER MOON

Different from all other Roses, with beautiful semi-double flowers four and a half inches and over in diameter; pure white in color, petals of great substance, beautifully cupped, forming a Clematis like flower. The large bunch of yellow stamens in the centre adds to its attractiveness.

TAUSENDSCHOEN

Entirely distinct, not only in Ramblers, but in climbing Roses generally. The individual flowers are of a most elegant and graceful form, not stiff or unnatural, but as beautiful as a semi-double Azalea. In color it is a most delicate shade of soft pink when first opening, changing to carmine on the reverse of petals when fully expanded. These are produced in trusses, each truss a veritable bouquet.

WHITE DOROTHY

Among Rambler Roses none has justly gained greater popularity than the beautiful pink Dorothy Perkins. The White Dorothy is a duplicate except in color.

Price. Any of the Hardy Climbing and Rambler Roses offered on this and the preceding page, except where noted, in strong two-year-old plants, 75 cts. each; $7.50 per doz.; $60.00 per 100.

Special Offer

One each of the 15 Hardy Climbing and Rambler Roses, including the two new sorts offered on this page, for $10.00.
Garden and Greenhouse

PLANTS AND BULBS

AGAPANTHUS

Umbellatus (Blue Lily of the Nile). A splendid ornamental plant, bearing clusters of bright, blue flowers on 3-foot long flower stalks and lasting a long time in bloom. A most desirable plant for outdoor decoration, planted in large pots or tubs on the lawn or piazza.

— Albus. A white flowering variety.
— Moreanensis. A smaller form than the type with dark-blue flowers; produced very freely.

50 cts. each; $5.00 per doz.

ALOYSIA (Lemon Verbena)

Citriodora. The well-known popular pot or bedding plant, grown for its richly fragrant foliage. 25 cts. each; $2.50 per doz.

AMARYLLIS (Hippeastrum)

The Amaryllis is pre-eminently a window-garden plant for the amateur, producing under the simplest conditions gorgeous trumpet-shaped blooms. For full cultural directions see our book, "Dreer's Hints on the Growing of Bulbs." Price, 25 cts. Copies free for those who ask for it when ordering.

Dreer's American Hybrids. In offering this selection of seedlings we believe that they are the best obtainable at the present time, and we know of nothing that we can recommend that will give the amateur greater pleasure for his window garden. They embody, with vigorous growth, free-flowering habit and enormous size of the individual flowers, a really wonderful range of colors, varying from deep crimson to bright orange-scarlet, and from light rose to almost pure white, many of them beautiful combinations in stripes and variegations. Mixed varieties only in very strong bulbs. 75 cts. each; $7.50 per doz.

Formosissima (Jacobean Lily). Brilliant crimson, free and early. 20 cts. each; $2.00 per doz.

AMORPHOPHALLUS

(Devil’s Tongue, or Snake Palm)

Rivieri. Particularly handsome plant for growing either in clumps or as a solitary specimen. Should be planted in May in warm, sunny situation in extra rich soil; the flowers appear before the leaves and rise to a height of 2 feet and resemble a gigantic black Calla. This is soon followed by the massive tropical-looking leaves, supported by thick, beautifully marbled stems. Large bulbs, 50 cts. each.

ANTIRRHINUMS (Snapdragon)

Large-flowering Half-dwarf. Popular plants for bedding and for cutting. We can supply the six distinct and beautiful varieties offered and described on page 65. 15 cts. each; $1.50 per doz.; $12.00 per 100.

ASPARAGUS

Plumosus Nanus (Asparagus Fern). If there is a better plant for table decoration than this we do not know it. The foliage is more delicate than that of the finest Fern, being lace-like in its fineness. A plant with half a dozen stalks is a mass of dainty, misty green, among which the stems of a few flowers can be thrust in such a manner as to make a pretty decoration for the table. 25 cts. and 50 cts. each; $2.50 and $5.00 per doz.

Sprengeri (Emerald Feather). Excellent for hanging-baskets, for bracket use and for cutting. It is one of the best of all plants for the window-box when planted on the outside, where it can droop over the edge of the box. 25 cts. and 50 cts. each; $2.50 and $5.00 per doz.

Scandens Deflexus. A comparatively scarce variety, similar in habit of growth to Sprengeri, but with finer, lighter green foliage. May be used for the same purposes as Sprengeri, and is particularly nice when grown as an individual specimen plant. 50 cts. each.

The above prices include post and insurance. Orders to be forwarded to our Central Nursery, 651 South St., New York, N. Y.
FANCY-LEAVED CALADIUMS

Dreer’s Superb Late-branching ASTERS

This is the finest type of China Aster for the amateur, being of strong, robust habit, growing 2½ feet high and bearing their large Chrysanthemum like flowers from August to October. We can supply nice plants in May and June of the 8 distinct colors offered below. Illustrated and fully described on page 68.

Azure Blue. A deep rich lavender.

Deep Rose. Distinct and fine.

Pale Lavender. Exquisite grayish blue.

Deep Purple. A rich royal shade.

Rose-pink. A lovely shade; very popular.

Shell-pink. Soft and dainty.

Pure White. Perfect in its purity.

$1.00 per doz.; $6.00 per 100.

GOLDEN CALLA LILY

(Richardia Elliottiana)

This is the best of the yellow Callas, its flowers being as large as the popular white variety, but of a rich, lustrous golden-yellow of velvety texture; the foliage is dark green, with translucent creamy-white spots, which adds much to its beauty. Strong bulbs, 50 cts. each; $5.00 per doz.

FANCY-LEAVED CALADIUMS

No other summer foliage plant equals the Fancy Caladiums in rich and gorgeous, yet soft coloring. All of the varieties are of marvellous beauty for the furnishing of the conservatory during the summer months, for window boxes, or even for outdoor bedding in shady or semi-shady positions. Their culture is fully described in our book, “Dreer’s Hints on the Growing of Bulbs.” Price, 25 cts., or will be sent free to customers if asked for at time of ordering.

Our collection consists of more than fifty distinct and beautiful varieties. We offer special selections as under:

Choice Standard Varieties. 30 cts. each; set of 12 sorts, $3.00.

Extra Choice New and Rare Varieties. 50 cts. each; set of 12 sorts, $5.00.

CALADIUM ESCULENTUM

(Elephant’s Ear)

One of the most effective plants in cultivation for beds, borders, or for planting out upon the lawn; they are used extensively in many of the public parks, where their decorative value is greatly appreciated. To obtain the best results it should be planted where it will obtain plenty of water and an abundance of rich compost. When full size it stands six to ten feet high, and bears immense light green leaves, three to four feet long by two and a half wide.

Each. Doz. 100

Large Bulbs . . . 30c. $0.50 $2.00

First Size Bulbs 20c. 2.00 15.00

Second Size ** 15c. 1.50 10.00

CALLA LILY

(Liliopsis Henryi)

The most popular Calla Lily, the flowers with beautiful velvety foliage, 3 to 4 feet high. Strong bulbs, 50 cts. each; $5.00 per doz.
DREER'S LARGE FLOWERING CANNAS

No other bedding plant will give the same uniform good results in our varied and trying climate. They do well in all sections of the country, and stand pre-eminentantly at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded two feet deep and a generous amount of well-decayed manure of any kind thoroughly incorporated, and at all times supplying water freely. For best effect plant in large masses of one color, setting out the plants 2 feet apart. To find the number of plants required for any bed from 3 to 20 feet in diameter see planting table on page 117. All have green foliage unless otherwise specified.

Twelve New and Rare Cannas

Truly marvelous acquisitions, introducing new tones of color and showing the highest development in form and habit.

Carmine Beauty. Deep, bright carmine flowers, freely produced high above the heavy dark green foliage, which has a narrow red margin. The flowers, while not as large as those of Olympic, are of a much brighter and more pleasing tone. 4½ feet. 35 cts. each; $3.50 per doz.

Cheerfulness. No more appropriate name could be given this brilliant novelty. Its beautiful bright fire-red or deep orange flowers appear early and continue without interruption until frost. Add to the prevailing color a golden border and center, with each petal flaked carmine-crimson, and you may form some conception of this fascinating variety. 3½ feet. 25 cts. each; $2.50 per doz.

City of Portland. A wonderful bright rosy-pink, much deeper in color than Mrs. Alfred Conard or Hungary, a free-flowering vigorous grower. 3½ feet. 50 cts. each; $5.00 per doz.

Fairy Queen. The dwarf compact plants of this distinct novelty are covered with flowers from spring until fall. The plant rarely exceeds three feet in height. The flowers of a clear rose-pink are of medium size, good substance and borne upright on stout stems in great abundance. Each flower has a distinct cream-colored border. We believe this will become very popular. $1.00 each; $10.00 per doz.

Flag of Truce. A large-flowered, creamy-white with faint pink dots on each petal. The general effect is white. Not as white nor as tall as Eureka, but quite distinct and valuable. 4 feet. 50 cts. each; $5.00 per doz.

Golden Eagle. A grand clear golden-yellow, of free upright growth. The flowers are produced in large clusters well above the foliage. 4 feet. 50 cts. each; $5.00 per doz.

Harmony. Great clusters of good-sized, well-formed, Geranium-red flowers arranged on good stems in such a manner as to give the trusses an almost globular appearance. Carmine-bronze foliage. 3½ feet. 50 cts. each; $5.00 per doz.

Pocahontas (Bronze-leaved Olympic). Large oriental-red flowers borne on firm upright stems, just high enough above the foliage to show the entire head. The foliage is a dark bronze-green with emerald shadings; the ribs a darker bronze. 4 feet. 35 cts. each; $3.50 per doz.

Poppy. Intense Poppy-red. Large perfect florets in good trusses over greenish-bronzy foliage; rich and effective. 5 feet. 50 cts. each; $5.00 per doz.

Remarkable. This effective variety stands out boldly among all other sorts, not only on account of its height (6 feet), but because of the beautiful scarlet-carmine trusses of bloom surmounting the rich green-bronze foliage. 50 cts. each; $5.00 per doz.

Surprise. The brightest red Canna we have. It surpasses in brilliancy all other red varieties, and produces its great trusses with equal freedom. 4 to 5 feet. 50 cts. each; $5.00 per doz.

The President. When the Canna Firebird was introduced its immense florets and bright red color insured its immediate popularity. In offering The President we may best describe it as possessing all the good qualities of Firebird, enhanced by extraordinary vigor and perfect healthy foliage. It grows to a height of 5 feet, and produces its immense trusses of giant florets in great profusion. The most sensational introduction of recent years. 50 cts. each; $5.00 per doz.

Special Offer. One each of the above 12 sorts, a novel collection, for $5.00.
Dreer’s “Peerless Dozen” Cannas

The merits of the varieties making up this collection of Cannas is evidenced by increasing popularity and still more by the fact that with many added novelties we find ourselves unable to make more than one change from last year’s set.

We are confident that no more satisfactory set of twelve popular priced Cannas can be assembled.

**Eureka.** Our own introduction and the best white Cannas for all purposes. The large substantial flowers are very freely produced on strong, vigorous plants. 4½ feet. 50 cts. each; $5.00 per doz.

**Favorite.** This is the best yellow Canna spotted with red dots. The yellow is intense, and the dots, not too pronounced, add to the beauty of the flowers without detracting from the golden mass. This variety received the highest award at the 1917 meeting of the Society of American Florists; 4½ feet.

**General Merkel.** One of the earliest and freest-flowering varieties, holding its flowers well above the foliage; in color a brilliant scarlet, suffused with orange, the base and edge of petals marbled golden yellow; 4 feet.

**King Humbert.** The most popular Canna. Great orange-scarlet flowers surmount the vigorous dark bronze foliage throughout the season; 5 feet.

**Meteor.** Magnificent bedding variety with massive erect trusses of deep blood-red flowers, produced with a freedom that leaves nothing to be desired. The best deep red large-flowered Canna; 5 feet.

**Mrs. Alfred Conard.** One of the very best Cannas in commerce today. The large exquisitely shaded salmon-pink flowers are produced in great abundance on robust upright stalks; 4 feet.

**Orange Bedder.** Our own introduction. Superior to all preceding varieties of this color. Awarded Certificate of Merit by the Society of American Florists, 1917. Particularly attractive bright orange, with just enough scarlet suffusion to intensify the dazzling mass of color. A very free bloomer; 5 feet.

**Olympic.** Rich oriental red, shading lighter toward the centre and dappled carmine. The individual trusses and florets are very large. A majestic, impressive beauty; 5 feet.

**The Gem.** The immense trusses of flowers are borne well above the foliage on upright stems. Color a deep cream or straw-yellow, dotted with pale carmine; refined.

**A vigorous grower and free-flowering; 4½ feet.**

**Wintzer’s Colossal.** The largest flowering Cannas we have seen. Individual florets often measure over eight inches across. The color is a bright scarlet. The plant is a strong vigorous grower and very free-flowering. It is of the Italian or Orchid-flowering type and very striking; 5 feet.

**Wyoming.** A splendid bedder, with bright orange flowers, on massive purplish-bronze foliage, making a strong contrast; 6 feet.

**Yellow King Humbert (Queen Helene).** Offered by us for the first time in 1917. It has proven so satisfactory that there is a possibility that the demand for it may equal that of King Humbert in a few years. Identical with King Humbert in habit of growth and flowering, and produces yellow flowers, dotted with red, and has green foliage; 5 feet.

**Price.** Any of the above, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. One of each for $2.50.

**NEW AND RARE CANNAS**

The twelve sorts offered on page 137 are of unusual merit, and represent the highest development in Cannas to date.

**CESTRUM PARQU** (Night-blooming Jessamine)

An interesting tender shrub of easy cultivation, with small greenish white flowers of delightful fragrance, which is dispensed during the night only. 25 cts. each; $2.50 per doz.

**CLIVIA MINIATA** (mantophyllum)

A pretty lily-like plant of the easiest culture, and a most desirable house plant, it flowers during the spring and summer months, remaining in bloom for a long period. The flowers are about 2 inches long, and are borne in dense clusters of from 10 to 20 flowers each; in color it is of a fine orange-red, shading to buff. Strong plants, 75 cts. each.
Extra Early Colossal or MIDSUMMER GIANT COSMOS

Indispensable summer and autumn blooming plants, producing their artistic blossoms in lavish profusion. Plants ready May 1. We can supply White, Pink and Crimson. 10 cts. each; $1.00 per doz.; $7.00 per 100.

CROTIONS

Nothing can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful as pot plants for the conservatory, making handsome specimens for decorative and exhibition purposes.

We offer a choice assortment embracing the best standard varieties as well as the most desirable recent introductions.

3 and 4-inch pots, $1.00 each. Set of 12 sorts, $10.00. Large plants, $1.50, $2.00 and $2.50 each.

DRACÆNA INDIVISA

This variety is used very extensively as a centre plant for vases, porch and window boxes, etc. It stands full exposure to the sun, and its long narrow, graceful foliage contrasts beautifully with other plants. 25 cts., 50 cts. and $1.00 each. Specimens in 8-inch tubs, $3.00 and $5.00 each.

Decorative Dracænas

We can also supply the following choice varieties:

- Amabilis
- Fragrans
- Godseffiana
- Harmony
- Imperialis
- Juno
- Massangeana
- Mrs. Eugene Andre
- Mrs. Rufus W. Scott
- Superba
- Terminalis

Price. Any of the above in 3-inch pots, 50 cts. each; larger size, $1.00 each.
DREER’S SELECT DAHLIAS

All of the Dahlias offered in this catalogue are supplied in dormant field roots, or strong divisions of proper planting sizes—not clumps. We have discontinued the sale of green or growing plants of Dahlias.

Notes on the culture of Dahlias are included in our book, "Dreer's Hints on the Growing of Bulbs," price 25 cts., or a copy will be sent free to customers who ask for it when ordering.

DREER’S TEN GREAT DAHLIAS

We have singled out these ten varieties from among the Cactus and Decorative types as worthy of every Dahlia fancier’s special attention. While some of these are comparatively recent introductions, the majority are sorts which we have been growing for a number of years, but to which we have been unable to give the prominence which they deserved, due to the fact that they are either difficult or slow to propagate, and as a result the demand has exceeded the supply. We have now succeeded in working up a fair stock, and take this opportunity to bring them to your notice, feeling certain that everyone who plants them will, the same as we do, appreciate the great merit of each individual variety.

Attraction (Hybrid Cactus). A beautiful Dahlia that is greatly admired. The flowers, which measure fully 6 inches in diameter, are composed of gracefully arranged curled or twisted petals of a lively yet soft silvery mauve-rose, with white suffusion. $1.00 each.

Etendard de Lyon (Hybrid Cactus). Everyone stops to admire this beautiful Carmine rose giant, which we consider one of the finest varieties for garden decoration. The flowers are distinct in shape from all others; the petals are broad, curl, and wavy, and form a flower fully 6 inches in diameter and 4 inches deep, a very large flower, yet without any stiffness or formality; its color is a rich Carmine rose or Royal purple, with a brilliant suffusion difficult to describe. $1.00 each.

Hortulanus Fiet (Decorative). A colossal flower over eight inches in diameter, of the most delicate shade of shrimp pink, the tip of each petal barely touched with gold. The entire flower has a suffusion of delicate tints of red and yellow, which gives a glow yet softness of color of great charm. 75 cts. each.

Kalif (Cactus). A truly majestic flower, frequently measuring over 9 inches in diameter, of perfect Cactus form, in color a pure scarlet. The habit of the plant is all that can be desired, growing with us about 4 feet high; the gigantic flowers, which are produced very freely, are held erect on strong stiff stems, making it a most effective and useful variety for cutting as well as for garden decoration $1.00 each.

King of the Autumn (Decorative). This is a great Dahlia, both as a cut flower as well as for garden decoration. Its habit of growth is ideal, producing an abundance of flowers of good size, 6 inches or more in diameter, which can be cut with stems four feet long. It is of true decorative form excepting late in the season, when it often develops flowers of the Peony type. In color it is one of the most effective and pleasing autumnal tints, a luminous salmon-pink passing to a golden suffused buff near the edges which is particularly pleasing under artificial light. King of the Autumn, we are convinced, is a winner, and a variety that will become one of the most popular. $1.00 each.
DREER'S TEN GREAT DAHLIAS

Continued

Marguerite Bouchon (Cactus). We first offered this variety in 1913, and feel just as well pleased with it now as we did when it was first introduced, and we therefore repeat the description given of it in 1913: "We have no hesitancy in saying that this is the most beautiful Cactus Dahlia yet introduced. It is absolutely perfect in form, color a charming shade of brilliant yet soft rose, with a very large white centre and distinctly defined white tips." $1.00 each.

Oregon Beauty (Decorative). We doubt if there has been a single visitor to our Dahlia fields in the past four years who has not included this brilliant gorgeous variety in his selection. It has also been prominently displayed at all exhibitions, its rich color, an intense Oriental red with golden sheen and garnet suffusion, makes it one of the varieties that stands out prominently among all of its neighbors. Add to this large size, long stiff stems, with an unusual freedom of bloom, makes it one of the most desirable garden varieties. 50 cts. each.

Pierrot (Cactus). A unique and striking novelty in color, and of unusual grace and refinement in form, being composed of very long, tubular narrow petals, which are of a deep amber color, usually showing white tips, but, even when it comes of a self color without these tips it possesses an individual refinement different from all other sorts. A wonderful exhibition flower and a splendid garden variety. 75 cts. each.

Princess Juliana (Decorative). An ideal pure white for all purposes. A splendid cut flower and a good decorator for the garden. It is one of the earliest to flower, and continues in good shape throughout the season. It holds its flowers well above the foliage on stiff, wiry stems. 50 cts. each.

Wodan (Hybrid Cactus). Still holds its place as a great Dahlia, and is unsurpassed in its class. It is a bold, large flower, frequently 7 inches in diameter, a graceful arrangement of semi-incurved tubular petals of a pleasing delicate salmon-rose color, shading to old gold in the centre. 50 cts. each.

Special Offer. One each of the TEN GREAT DAHLIAS offered on page 140 and above for $6 00.

GIANT DECORATIVE DAHLIA

PRINCESS PAT

The Most Sensational Dahlia Novelty of the Season

A giant decorative of splendid form, producing magnificent flowers 9 to 10 inches in diameter, color a most pleasing shade of old-rose that lights up wonderfully under artificial light. The habit of the plant is exceptionally good, free flowering on good stiff stems.

Awarded first prize for the best seedling at Palace Hotel Show, San Francisco, in 1917, and again at the same show in 1919, for best vase of 25 blooms.

We offer strong divisions ready in April, $5.00 each, stock limited.
Eight Meritorious
AMERICAN DAHLIAS

BREAK O' DAY (Hybrid Cactus)
A good-sized flower with a full, high centre with more or less curved and twisted petals, intermingled with the flatter ones, forming a most attractive, graceful flower. In color, a clear sulphur-yellow, shading to sulphur-white at the tips, the entire flower illuminated by a satiny sheen; early and free flowering and always admired. $1.00 each.

BREEZE LAWN (Decorative)
This ideal red decorative Dahlia originated some eight years since, but being slow to propagate, we have been able to catalogue it only on two occasions, as usually all available stock is oversold to visitors who see it in our fields; but we have this season, we believe, a sufficient supply to meet all demands. Its flowers are large, frequently over eight inches in diameter, but are not coarse; they have a refinement along with their rich color, an intense fiery red, not found in any other variety. An early and continuous bloomer, holding its fine quality to the end of the season. $1.50 each.

FRECKLES (Decorative)
Unquestionably the best fancy decorative yet introduced, producing its good-sized flowers on long stiff stems in great profusion; in coloring it is distinct and unique, the ground color a rich buttercup-yellow, prettily streaked and striped with bright garnet; occasionally, as in all variegated varieties, individual flowers will come self colored garnet. 75 cts. each.

GENERAL PERSHING (Hybrid Cactus)
A splendid white with creamy suffused centre, petals broad, more or less twisted and curled, on long stiff stems; a profuse bloomer and a strong grower. 75 cts. each.

MRS. C. H. BRECK (Decorative)
A fine free-flowering variety of good size, of a soft yellow, deeply suffused with carmine. 75 cts. each.

OLD SOL (Peony)
A splendid garden variety and particularly valuable as a cut flower, the good-sized flowers, borne on long stiff stems, are of a bright primrose-yellow, shaded coppery-red with golden bronze suffusion, the blending of these colors producing a rich golden effect; very free and early. $1.50 each.

PAUL BONYON (Decorative)
One of those desirable autumn tints, a beautiful salmony pink with a golden sheen that intensifies the color; flowers of perfect form, large size, very free and on fine stems for cutting. $1.00 each.

QUAKER CITY (Cactus)
Good-shaped full double flowers, each petal being supplemented with from three to six narrow-pointed petals, forming a most artistic flower of a pure primrose-yellow on long stiff stems; a splendid cut flower. $1.00 each.

We will supply one each of the 8 American Dahlias for $8.00.
CHOICE CACTUS DAHLIAS

We offer on this and the following two pages a complete alphabetical list of the best Cactus sorts of recent introduction together with the older well-tried gems which have made a reputation for themselves.

Ariel. Luminous salmony-pink with golden suffusion, a most pleasing color that is particularly bright under artificial light. $1.00 each.

Attraction. Described and offered on page 140.

Aviateur Garros. Light sulphur-yellow, shading almost to white at the tips of the broad-pointed petals. Flowers of medium size and borne freely on strong stiff stems. One of the earliest flowering. 75 cts. each.

Bouquet Rose. Dwarf, compact habit; each plant when in flower presents a bouquet-like appearance, covered with gracefully arranged, medium-sized rose-colored flowers. 50 cts. each.

Break O'Day. Described and offered on page 142.

Cavalier. Flowers of medium size, with long incurved petals of an intense rich crimson. 50 cts. each.

Copper Beech. Distinct coppery old-rose, medium-sized flowers produced on plants of which both the stems and foliage are of a dark metallic hue. 75 cts. each.

Countess of Lonsdale. A peculiar but pleasing blending of salmon-pink and amber, a color difficult to describe. This is the Dahlia for the million. Blooms freely under all conditions. 50 cts. each.

Crystal. A great exhibition flower of large size and splendid form; long twisted incurved tubular petals of a tender silvery pink, which passes gradually towards the centre to a soft ivory-white. $1.00 each.

Edith Carter. A good-sized flower of unusual grace and refinement in form and color, which is a bright yellow delicately suffused with bright rosy-carmine. 75 cts. each.

Electric. A large sulphur-yellow with white tips, sometimes sports to a self color either white or yellow. 50 cts. each.

Else. Quite an old variety, but still one of the most charming, of a delicate combination of colors. The base of the petal is of a buttercup-yellow, gradually passing to amber, finished with a tip of Tyrian-rose. 50 cts. each.

Etendard de Lyon. Described and offered on page 140.

Fernand Olivet. Remarkably free-flowering on stiff, wiry stems; brilliant maroon with scarlet shadings, the centre almost black. 35 cts. each.

Florrie Wells. Of very perfect shape, composed of straight, stiff petals of a peculiarly pleasing shade of rosy-crimson. 50 cts. each.

Frances White. A large, deep flower composed of curled and twisted petals of pure snowy white. 50 cts. each.
Choice Cactus Dahlias

Genoveva. One of the freest flowering primrose-yellows; fine for cutting. 50 cts. each.

General J. B. Seth. A rich brilliant scarlet, with orange-scarlet shadings, of perfect form. 50 cts. each.

General Pershing. Described and offered on page 142.

Golden Eagle. Splendidly incurved large flower of a pleasing golden-buff. 50 cts. each.

Golden Gate. A very large hybrid Cactus of a rich deep golden-yellow suffused and shaded fawn, lights up well under artificial light. Long stiff stems; very free. 50 cts. each.

Goliath. Ground color yellow, suffused and tinted with reddish-salmon. 50 cts. each.

Hoffnung. One of those beautiful peach and cream combinations that are always admired. The good sized flowers of perfect Cactus form are salmon old rose illuminated by a golden suffusion in the centre of the flower and each petal slightly tipped with the same color. $1.50 each.

Kalif. Described and offered on page 140.

Lawline. White, with just a suggestion of blush as the flower matures; a fine, full, large flower. 35 cts. each.

Libellule. Of splendid form, sulphur-yellow shaded with capucine-red; exceptionally free-flowering. 35 cts. each.

Liegnitz. A broad-petalled hybrid Cactus of large size and of a distinct deep shade of cerise. 75 cts. each.

Marguerite Bouchon. Described and offered on page 141.

Masterpiece. A fine, graceful flower, composed of long, narrow petals of a light salmon-pink, gradually passing to sulphur-yellow at the centre. 75 cts. each.

Melody. A large incurved graceful flower composed of long tubular petals of a soft sulphur-yellow. 50 cts. each.

Mlle. Marie Doucet. One of the freest-flowering; a lovely mauve-pink, passing to a white centre; of good size with fine stems. 75 cts. each.

Mme. Eschenauer. A most delicately colored and one of the earliest and freest flowering Cactus varieties. It is creamy-white with a delicate suffusion of soft mauve-pink, a splendid cut-flower. $1.00 each.

Mrs. Clinton. Very free-flowering, deep amber gradually passing to a rosy-scarlet. 35 cts. each.

Mrs. J. Emberson. A distinct fancy with large incurved flowers of a pale lemon, splashed with rosy-pink. 50 cts. each.

Mrs. Warnaar. A splendid exhibition variety of a creamy-white, with just a faint apple-blossom suffusion; flowers of gigantic size, over 8 inches in diameter, and on strong, stiff stems, petals long and peculiarly twisted and curled. A variety which we unhesitatingly recommend as a novelty of unusual merit. $2.50 each.

Nancy Mae. An intense scarlet with maroon shadings; flowers absolutely perfect, very free; an ideal cut flower. 50 cts. each.

Nibelungenhort. This is always greatly admired, with flowers from 7 to 8 inches across, composed of rather broad, more or less, curled and twisted petals of a beautiful shade of old rose with golden-apricot suffusion. Very free flowering on long stems. $1.00 each.

Pierrot. Described and offered on page 141.

Prima Donna. Flowers large, with long, twisted petals, centre ones creamy white, outer delicate mauve-pink. 50 cts. each.
Choice Cactus Dahlias

**Prince of Yellows.** Of large size with broad petals fringed at the tips; color bright canary yellow; a strong upright grower and very free flowering. 35 cts. each.

**Quaker City.** Described and offered on page 142.

**Rene Cayeux.** Brilliant geranium-red; early and free; a great favorite and a splendid companion in red to the popular free-flowering Countess of Lonsdale. 50 cts. each.

**Rev. T. W. Jamison.** An exhibition flower of large size, made up of long, narrow, thread-like, incurved petals of a bright mauve-pink illuminated with salmon at the base. 50 cts. each.

**Rheingraf.** A pretty, medium-sized flower of a tender mauve-pink that develops its flowers in sprays, a number of them expanding on the same branch at one time. 50 cts. each.

**Rheinkoenig.** An ideal white variety, with flowers over five inches in diameter, of splendid form, and borne on long stiff stems held well above the foliage, of great substance, lasting well when cut. 35 cts. each.

**Rosennympe.** A broad petalled hybrid cactus variety reminding one in form of a Water Lily; in color a delicate flesh, shading to a rosy white. 50 cts. each.

**Sherlock.** Orange scarlet with apricot suffusions, one of the pleasing autumn tints; flowers large, on good stems for cutting. 50 cts. each.

**Sirene.** A hybrid-cactus variety with the base of the petals very broad but tapering to a long point, forming a star-like flower; color rosy pink, shading to an almost white centre. 75 cts. each.

**Success.** A beautiful incurved pure yellow, with long twisted petals. 35 cts. each.

---

**The Lion.** A large, airy, graceful flower of very regular form, composed of long needle-like petals; color bronzy old-gold suffused and blended with yellow and salmon-pink; very pretty. 75 cts. each.

**The Warrior.** A pretty medium-sized luminous sferino-red with salmon suffusions. 35 cts. each.

**Thos. Obelin.** A brilliant fiery-red, of perfect incurved form, produced in greatest profusion. 35 cts. each.

**Tricolor.** Everybody likes this on account of its distinct and beautiful medley of colors. The ground is buttercup-yellow, with a blotch of scarlet on each petal, and as the flower matures the end of each petal becomes suffused with rosy-white, forming a pretty tri-colored combination. 75 cts. each.

**Ulysses.** A variety that is admired by all on account of its color, which is an appealing combination of salmony-rose with glowing golden suffusion. Its petals are broad, curling at the tips, forming flowers of excellent quality. $1.00 each.

**Wodan.** Described and offered on page 141.

**Wolfgang von Goethe.** A very large flower, of loose but regular and graceful arrangement that makes it an ideal cut-flower; its color, a rich apricot with carmine suffusion and shadings, is bright, yet subdued, showing up particularly well under artificial light. 75 cts. each.

**Yellow King.** Very free flowering canary-yellow, of perfect form, a decided acquisition. 75 cts. each.
Select Decorative Dahlias

The Decorative Dahlias are an intermediate form between the Show and Cactus types. Many beautiful varieties have been introduced, some with flat petals, others reflexed, incurved or curiously twisted; but nearly all are without formality or stiffness, and practically all of them are leaders as cut flowers, bearing their large perfectly formed blooms on long, stiff stems, and standing in good condition longer than most kinds; furthermore, they are of easy culture, and seem to adapt themselves to and succeed under the most varied conditions, a combination which assures their continued popularity.

A. C. Ide. A very large, free-flowering, dark garnet color, with maroon shading. 50 cts. each.

Auguste Nonin. A very large flower of fiery red; valuable for cutting or garden decoration. 50 cts. each.

Belle Inconstant. Ground color primrose-yellow, with the broad petals more or less irregularly marked with carmine-red, usually finishing up with a good-sized yellow tip; occasionally this tip comes pure white. 75 cts. each.

Breeze Lawn. Described and offered on page 142.

Chantecler. Ground color cadmium-yellow, striped, splashed and spotted deep carmine red; very pretty. 50 cts. each.

Cream of the Valley. Creamy pink shading to a crimson tip; very large. 35 cts. each.

Delice. The most popular pink variety. Its beautiful soft, yet lively color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, and the fact that when cut it retains its freshness for a long time, makes this one of the most valuable for cutting or decorative sorts in the garden. 35 cts. each.

Diplomat. A great garden Dahlia of free-flowering habit; the flowers are borne on long, stiff stems, of good form and a rich garnet color, shading deeper at the centre. 35 cts. each.

Easton. Not extra large, but a variety of brilliant coloring that should be in every collection, good form and remarkable free-flowering habit; in color a brilliant Turkish red. 35 cts. each.

Eventide. A splendid flower of perfect form and large size, on long, stiff stems, and which for all purposes may be termed a white Dahlia, there being but a faint flush of delicate rose on the edge of the flower. 50 cts. each.

Faust. A splendid variety of perfect form and large size, color brilliant luminous carmine with French-purple suffusion. 75 cts. each.

Flamingo. As a cut flower this ranks with Delice, the flowers are of a rich and glowing rose-pink, while it frequently shows an open centre; this does not detract from its beauty. 50 cts. each.

F. L. Bassett. Carmine-purple, shading deeper at centre. 35 cts. each.

Freckles. Offered and described on page 142.

Gaiety. A good variegated or fancy variety; in color a bright strawberry red, each petal having a broad band of white through the centre. 35 cts. each.

Grouze. A pleasing salmon-buff, very free-flowering, comes peony-formed late in the season. $1.00 each.

Guillaume de St. Victor. A large, nicely finished flower of an ivory-white, with just a touch of delicate mauve suffusion as the flower develops; very good. 35 cts. each.

Hortulanus Flet. Offered and described on page 140.

Hortulanus Witte. A very large free-flowering, pure white; a splendid cut flower and exhibition variety. 50 cts. each.

Jack Rose. Brilliant crimson-red, similar in shade to the popular "Jack" Rose; perfect for garden decoration and cutting. 35 cts. each.
Select Decorative Dahlias

Jeanne Charmet. A splendid cut flower variety of a pleasing shade of violet-rose on a lighter ground. 70 cts. each.

Jean Wood. Probably a seedling of Mme. Vanden Daele; a delicate, silvery-rose, but a much shapelier flower than its parent, being of true decorative form. 50 cts. each.

King of the Autumn. Offered and described on page 140.

Kupferberg Gold. A beautiful Dahlia difficult to describe, a pretty shade of shrimp-pink with old rose and gold suffusion. 75 cts. each.

Le Grand Manitou. A distinct and pretty variegated Dahlia. The ground color white, prettily spotted, striped and blotched with deep reddish-violet; occasionally self colored. 50 cts. each.

Lyndhurst. Brilliant cardinal-red. A fine cut flower. 35 cts. each.

Madonna. While rather flat in form it is, nevertheless, very attractive; the petals being more or less curled or twisted give it a most graceful appearance; it stands up well on stiff, wiry stems; color white with just the faintest suffusion of mauve. $1.50 each.

Manzanola. Brilliant oriental-red with deeper shadings; a fine shaped flower with good stem, very free and ideal for cutting. 35 cts. each.

Mina Burgle. This is the popular California variety. We have been growing it for five years, and consider it one of the best in our collection, it being with us one of the freest flowering decorative varieties; thirty large, perfect, open flowers on one plant at a time being not unusual; in color it is a rich luminous dark scarlet, on long stiff stems, splendid both for cutting and garden decoration. 50 cts. each.

Miss Minnie McCullough. One of the most popular cut-flower varieties now grown, particularly valuable for use under artificial light. Color soft yellow, overlaid with bronze; a beautiful autumnal tint. 35 cts. each.

Mme. A. Lumiere. A very distinct and attractive variety; ground color white, suffused towards the ends of the petals with red, the tips pointed with bright violet red. 35 cts. each.

Mont Blanc. An early, free, continuous flowering creamy-white on good stiff stems. A most important cut-flower variety. 35 cts. each.

Mrs. Chas. H. Breck. Offered and described on page 142. Mrs. Fur bush. The best dark variety, a rich purplish-garnet with maroon shadings; flowers of good size and form on stiff, wiry stems. 35 cts. each.

Mrs. J. Gardner Cassatt. A large flowered mauve-pink of a shade that is very pleasing; a fine cut flower. 35 cts. each.

Old Sol. Offered and described on page 142. Orange King. Rich, orange-scarlet. 35 cts. each.

Oregon Beauty. Described on page 141. Paul Bonyon. Offered and described on page 142. Perle de Lyon. A most valuable white Decorative Dahlia, and one of the best whites of any class for cut-flower purposes; its flowers are of good size, and held erect on long, stiff, wiry stems. 35 cts. each.

Prince Danilo. Very refined, medium sized flowers, ground color creamy salmon, deeply suffused with carmine rose. 50 cts. each.

Princess Julian. Offered on page 141. Princess Mary. A gem in every way. Of true decorative form; flowers of good size and of the most delicate mauve-pink, shading lighter to the edges and illuminated with gold. $1.50 each.

Souvenir de Gustave Doazon. Of mammoth proportions, which, under ordinary cultivation, will produce flowers 6 inches across, and can be grown to measure full 9 inches. It is of free growth and pure red in color. 35 cts. each.

Sylvia. Soft, pleasing mauve-pink, changing to white in the centre; a fine cut flower. 35 cts. each.

Zeppelin. A soft shade of violet-mauve with silvery suffusion; flowers of medium size very free flowering. 35 cts. each.

Special Offer. One each of the 47 Decorative sorts for $25.00.
Dreer’s Choice Show and Fancy Dahlias

This is the old-fashioned densely double type which will always have many admirers; they are very free, early and continuous bloomers, and are splendid for cutting.

**Dorothy Peacock.** Large perfect shaped flowers of a bright sea-shell pink color, very early, free and continuous blooming 35 cts. each.

**Dreer’s White.** Introduced by us in 1909. In color a pure glistening white, resembling in form Grand Duke Alexis, while in freedom of flowering it is not surpassed by any. It has succeeded in all parts of the country, has been much admired at the exhibitions where shown, and has in most cases been awarded the premier prize as the finest white show variety. 50 cts. each.

**Dreer’s Yellow.** The best yellow show Dahlia yet sent out. It is a good grower, an early and profuse bloomer. In general form and make-up the flowers resemble Dreer’s White, but they are larger; frequently over seven inches in diameter. The flowers, when fully matured, are perfect balls in shape, and are held rigid and erect on long, stiff stems, making it an ideal cut flower. 50 cts. each.

**Emily.** Solferino with white markings; very large and free-flowering. 35 cts. each.

**Galvanic.** Very free-flowering solferino-red, with deeper suffusion, flowers of perfect form. 35 cts. each.

**A. D. Livoni.** A splendid clear pink, beautifully quilled, of perfect form and very free-flowering. 35 cts. each.

**American Beauty.** One of the very best large shows of a brilliant crimson-red with French-purple suffusion, a rich glowing color, the flowers are produced abundantly on long stiff wiry stems. 50 cts. each.

**Caleb Powers.** Delicate soft shell-pink of splendid form; remarkably free-flowering, long stems; fine for cutting. 60 cts. each.

**Chameleon.** Flesh-colored centre, shading to crushed-strawberry, with yellowish blending. 50 cts. each.

**Cuban Giant.** Very large ball shaped flowers of a bright maroon; free and early. 35 cts. each.

**Charles Lanier.** Large, rich yellow. 50 cts. each.

**David Warfield.** A variety that we can highly recommend; a Dahlia of exceptional good-free-flowering habit, producing its large cherry-red flowers on long wiry stems well above the foliage. 75 cts. each.

**Dee-lighted.** A very large pure white produced early and freely. 50 cts. each.

**Gold Medal.** This is without question the finest fancy Dahlia that has ever been produced. It is not a new variety, but it is only rarely that we have a sufficient supply to enable us to offer it. It is an early continuous bloomer; the flowers are perfect to the end of the season; in color a bright Dandelion yellow, beautifully tipped and suffused with Oriental red. 50 cts. each.

**Imperial.** A good shaped, free-flowering rich deep purple. 35 cts. each.

**Lucy Favcett.** Sulphur-yellow striped and spotted carmine-rose. 35 cts. each.

**Merlin.** A splendid free-flowering orange-scarlet. 35 cts. each.

**Miss Browning.** A perfectly formed flower, canary-yellow, sometimes showing a white tip. 35 cts. each.

**Mrs. Jofford.** A fine large primrose yellow of perfect form. 35 cts. each.

**Orlando.** A fine salmon-buff, of perfect form. 50 cts. each.

**Peeress.** Buttercup-yellow with heavy tip of fiery red. 35 cts. each.

**Pink Grand Duke.** A seedling from Grand Duke Alexis of an even, soft pearly-pink color. 50 cts. each.

Show and Fancy Dahlias are continued on page 149

**DREER’S TEN GREAT DAHLIAS**

This magnificent collection, as well as the sensational New Decorative Variety Princess Pat, is described and offered on pages 140 and 141.
Dreer’s Choice Show and Fancy Dahlias

Continued

**Princess Victoria.** Primrose-yellow; never produces an imperfect flower; in bloom early and late; long stiff stems; fine for cutting. 35 cts. each.

**Professor Mansfield.** Rich yellow; clear white tips and rosy-red towards the centre. Like all fancy varieties the color is very variable. 35 cts. each.

**Red Hussar.** Pure cardinal-red. 35 cts. each.

**Robert Broomfield.** A good pure white double flower; very free. 35 cts. each.

**Stradella.** Beautiful deep purple crimson; exceptionally free-flowering on long wiry stems. 35 cts. each.

**Vivian.** White, edged and tipped rose-violet; a fine large flower. 35 cts. each.

**W. W. Rawson.** An exceptionally fine shaped, massive, large double flower, produced on long stems; color pure white, delicately overlaid with mauve. 50 cts. each.

**White Swan.** Reliable pure white. 35 cts. each.

**Yellow Duke.** A splendid primrose-yellow of good form. 35 cts. each.

**Special Offer.** One each of the 31 Show and Fancy sorts offered on page 148 and above for $10.00.

---

**DOUBBLE POMPON DAHLIAS**

While the Pompon varieties are not as extensively grown as the other double types they still have many admirers, their dainty little flowers are produced very freely.

**Amber Queen.** Rich, clear amber shaded apricot.

**Arthur Kerley.** Purplish crimson very free.

**Bobby.** Plum color. One of the best.

**Catherine.** Well-formed primrose-yellow.

**Crimson Queen.** Deep crimson shaded purple.

**Darkness.** Deep velvety-maroon.

**Fascination.** Pink and lavender blotched white.

**Gretchen Heine.** A dainty flower of rose tinted white; each petal heavily tipped crimson-carmine. 35 cts. each.

**Indian Chief.** Crimson, very free.

**Kleine Domitea.** Orange buff, always in flower.

**Kupfer.** Coppery orange-buff.

**Little Hermann.** Deep carmine shaded garnet and tipped white.

**Little Naiad.** White, tipped amaranth-red.

**Phoebe.** Coppery orange.

**Prince Charming.** Cream heavily tipped purple.

**Salamander.** Golden-yellow, tipped orange red.

**Sunbeam.** A fine crimson.

**Warc’s Mars.** Beautiful deep red of fine form.

**Price.** Any of the above, except where noted, 25 cts. each; $2.50 per doz.

Collection of one each of the 18 Pompon Dahlias for $4.00.
PEONY-FLOWERED DAHLIAS

This beautiful type is now very popular. The artistic flowers are very large, and are best compared to the semi-double Peonies in general form. They all flower very freely and are borne on long, strong stems, making excellent material for cutting as well as for garden decoration. The varieties offered include the best of the standard sorts as well as the latest introductions.

**Bertha von Suttner.** Good sized flowers produced early and continuously remaining of good quality to the end of the season, in color a pleasing salmon-pink with yellow suffusion. 50 cts. each.

**Caecilia.** Very large; early in the season a lemon-yellow, but as the season advances, a creamy white with yellow sheen in the centre. 50 cts. each.

**Caesar.** A splendid free-flowering canary-yellow. 50 cts. each.

**Chatenay.** A splendid flower on long, stiff stems, of a soft carmine-rose shaded crimson. 35 cts. each.

**Chevrefeuille.** Base of petals yellow, gradually passing to apricot and rose, with citron-yellow points. 35 cts. each.

**Cleopatra.** Rich oriental-red, base of petals buttercup-yellow, with which the petals are also, in varying degrees, tipped and marked. 50 cts. each.

**Comte de la Vaule.** A large-flowered, free and showy garden variety of a rich carmine. 50 cts. each.

**Dr. Peary.** One of the darkest, a brilliant-reddish, mahogany. 50 cts. each.

**Fackel.** Rich coral-red with golden suffusion passing to saffron-yellow at the edges; an attractive, lively flower on good stems and produced in profusion. 50 cts. each.

**Fritzimann.** A brilliant geranium-red, and frequently producing flowers which are variegated white, 35 cts. each.

**Geisha.** The showiest and most attractive of this type yet introduced; the rich colored flowers are original in form, consisting of peculiarly twisted and curled petals, of an effective and rich combination of scarlet and gold. 75 cts. each.

**Hortulanus Buddle.** Very free-flowering; rich rosy-scarlet; particularly attractive under artificial light. 50 cts. each.

**Hampton Court.** One of the best; a bold flower of good form, of a bright mauve-pink. 50 cts. each.

**John Wanamaker.** Very free flowering with broad, peculiarly curled and twisted petals of a pleasing shade of violet-mauve. 50 cts. each.

**Hagnet.** Free-flowering, carmine-rose, suffused and marked with white. 50 cts. each.

**Irne. Coëssard.** To us this is the most artistic and graceful Dahlia of this type yet introduced; its flowers are large, composed of incurving shell-like petals; these are of brilliant French purple or carmine-crimson, freely marked, shaded and suffused with white. $1.00 each.

**Mrs. G. Gordon.** A good large lemon-yellow. 50 cts. each.

**Queen Wilhelmina.** Very free-flowering, pure white, of good form. 35 cts. each.

**Riesen Edelweiss.** Pure glistening white of large size. 50 cts. each.

**Roem Van Nijkerk.** A distinct and desirable deep claret-purple; very free-flowering. 50 cts. each.

**South Pole.** Very large fluffy white, a fine cut flower. 75 cts. each.

**The Mahdi.** Rich deep carmine irregularly marked and mottled with creamy white. Very distinct and attractive. $1.00 each.

**Variegated Franz Liszt.** Very free, large flowering, ground color, rich reddish purple, with white markings. 35 cts. each.

**Special Offer**

We will supply one each of the 23 Peony-flowered sorts offered above for $10.00.

**NOTE—** All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
The Colerette Dahlias have single flowers with an additional row of short petals around the disc, forming a frill or collar, which is usually of a different color from the rest of the flower.

Ami Nonin. Dark crimson-carmine, collar white suffused rose; very large.

Balmoral. Deep aniline-red shaded purple, with long narrow white collar petals.

Dainty. Soft rose, deepening to carmine centre, lemon-yellow collar.

Exposition de Lyon. Bright garnet, yellow collar.

Harmony. Primrose yellow, marked soft purple, collar yellow.

Maurice Rivoire. Ox-blood red and white fringed collar.

Mme. Gygax. Bright cochineal-red, primrose yellow collar.

Rosette. Giant size, velvety cerise suffused white, white collar.

Price. Any of the above choice varieties, 35 cts. each.

A collection of one each of the 10 sorts for $2.50.

New Century Single Dahlias

This giant flowering type of Single Dahlias are now very popular both for garden decoration and for cutting.

Bessie Clark (Duplex Century). Early in the season a pretty mauve-pink; this, as the season advances, deepens towards the edges and lightens at the centre, which becomes surrounded by a golden suffused halo. 35 cts. each.

Centauré (Duplex Century). Brilliant orange-red, shaded crimson, of very large size. 35 cts. each.
DREER'S FINE FERNS

We offer below but a few of the more important Decorative Ferns.

Adiantum Farleyense Gloriosa (The Glory Fern). An easy-growing form of that most beautiful of all Maiden Hairs, Adiantum Farleyense. Good plants in 3-inch pots, 25 cts. each; 4 inch pots 75 cts. each.

Asplenium Nidus Avis (Bird's Nest Fern). An interesting species with large dark green foliage. 3-inch pots, 23 cts. each.

Cibotium Schiedei (Mexican Tree Fern). One of the most desirable and valuable Ferns in cultivation. 4-inch pots, $1.00 each; 6-inch pots, $2.50 each; 8-inch pots, $5.00 each.

Cyrtomium Rochfordianum Compactum (Crested Holly Fern). Next to the Boston Ferns, the Holly Fern is the most satisfactory for apartment use, and this new variety has made a place for itself in the front rank as a decorative plant. Its foliage is of rich glossy dark green, the pinnae or leaflets, besides being wavy or undulated on the edges, are also deeply cut or toothed, giving the plant a graceful and light appearance. 4-inch pots, 60 cts. each.

Nephrolepis Bostoniensis (Boston Fern). The original type with long graceful fronds. 6-inch pots, $1.50 each; 8-inch pots, $3.50 each.

Nephrolepis Scottii (Dwarf Boston Fern). A dwarf-growing form; a beautiful Fern. 6-inch pots, $1.50 each.

Pteris Alexandrina. The crested fronds of this pretty variety are variegated with silvery-white. 4-inch pots, 50 cts. each.

Pteris Distinction. A splendid decorative sort with narrow cut dark green fronds. 4-inch pots, 50 cts. each.

Pteris Rivertoniana. The most distinct and desirable of the taller crested forms of Pteris. 4-inch pots, 50 cts. each.

Pteris Wilsoni. Of compact habit, forming a very symmetrical plant. The bright green foliage is beautifully crested. 4-inch pots, 50 cts. each.

FARFUGIUM Grande. (Leopard Plant). This is an extremely ornamental plant. Its large, circular leaves, thickly spotted with creamy-white and yellow make it wonderfully effective for the window garden. 50 cts. each.

FICUS (Rubber Plant)

Altissima. In general appearance similar to F. Elastica, but with smaller dark-green, glossy foliage, with white veins. $1.00 each.

Australis. A rapid growing compact, free branching variety, with small, leathery, dark-green leaves. Very attractive when grown in bush form. 4-inch pots, 75 cts. each. Larger plants, $1.00 and $2.00 each.

Elastica. The well-known Rubber plant. 4-inch pot, 10 inches high, 75 cts. each; 6-inch pot, 20 to 24 inches high, $1.50 each.

Utilis. Entirely distinct and unlike the popular Rubber Plant, yet possessing the same hardiness. The leaves are thick and leathery, from 9 to 10 inches long, one-half as wide, of a rich holly-green, with midrib and principal veins of ivory-white. Strong plants, $1.00 and $2.00 each.

Four Best Bedding Geraniums

The varieties offered are all semi-double flowering and are the best of their respective colors for out-door planting.

Alphonse Riccard. Bright vermilion-scarlet.

Beaute Poitevine. Finest salmon-pink.

Mme Recamier. Pure White.

25 cts. each; $2.50 per doz.; $18.00 per 100.

NEW ROSES

We offer some splendid new Hybrid-Tee and Hardy Climbing sorts on pages 128 and 129.
DREER’S SELECT GLADIOLUS
(SWORD LILY)

The interest developed in the Gladiolus during the past few years has been tremendous, and thousands of bulbs are now planted annually where dozens were used in the past. Their present popularity is sure to continue and increase, as they are, without doubt, the most attractive and useful of all summer-flowering bulbs, and, as a cut flower through the summer and autumn months, hold a place that cannot be taken by any other flower.

In cutting Gladiolus for the house, it is best to cut the spikes as soon as the first one or two lower flowers are open. The remainder will open in the house. Remove the faded flowers, cut a little off the stem, and change the water every day; treated in this way a spike will last a week or ten days, and as a rule the colors are more refined when developed in the house. Wonderful improvements are being made each year in the size, color and beauty of these flowers, and our list comprises only the best both in mixture and in named sorts.

Superb New and Rare Gladiolus

The ten sorts offered below are all extra high grade and will be a real surprise to those who are only familiar with the old varieties.

**Deuil de Carnot.** A superb French introduction with good sized open flowers of rich velvety crimson-maroon, shaded with black; the richest colored of all. 25 cts. each; $2.50 per doz.; $18.00 per 100.

**Etendard.** One of the choicest introductions of the famous French Hybridizer, Lemoine, with immense orchid-like flowers four inches and over across. Upper petals rich cream-tinted rose, lower petals marked with large fiery-red blotches, clearly margined with bright yellow. An exceedingly rich color combination. 25 cts. each; $2.50 per doz.; $18.00 per 100.

**Eugene Lefebvre.** Another of Lemoine’s newer giant varieties, beautifully formed flowers of bright pink, throat spotted and dotted with purplish amaranth and cream; entirely distinct. 35 cts. each; $3.50 per doz.

**Heliotrope.** Fine large flowers of velvety bishop’s violet, shaded with pansy-purple; rich and novel and very effective as a cut flower used in conjunction with one of the yellow sorts. 35 cts. each; $3.50 per doz.

**La Couronne.** A new and beautiful French variety with flowers of largest size, of a creamy-white, the throat blotched with dark maroon bordered with pale yellow; one of the most attractive of the recent introductions. 35 cts. each; $3.50 per doz.

**Mrs. Frank Pendleton.** All experts agree that this is one of the finest varieties yet introduced. The flowers are of largest size, borne on strong, straight spikes. In color a lovely salmon-pink with brilliant deep, red blotches in the throat. A color combination rivalling many of the finest Orchids in its richness, exquisite in every way. 10 cts. each; $1.00 per doz.; $7.50 per 100.

**Schwaben.** A most meritorious imported variety of wonderful vigor, with strong erect spikes and large well-expanded flowers of a clear canary-yellow with a small blotch of deep garnet in the throat. This may now be considered the best and freest growing yellow variety. 15 cts. each; $1.50 per doz.; $10.00 per 100.

Sulphur King. This splendid variety is generally conceded to be the finest clear yellow yet introduced. It produces extra long spikes well filled with its attractive flowers which are of good size. 30 cts. each; $3.00 per doz.; $20.00 per 100.

War. A magnificent dark variety with tall spikes well filled with large flowers of a rich blood-red shaded with crimson-black. 25 cts. each; $2.50 per doz.; $18.00 per 100.

White America. This important novelty is a seedling of the famous pink variety America, and has all the many good qualities of that deservedly popular sort. In color it is practically a pure white, although the buds are slightly tinged with blush. It seems certain that this will soon take its place among the leaders. 30 cts. each; $3.00 per doz.; $20.00 per 100.

Our Gold Medal Mixed Gladiolus offered on page 155 are extra fine.
Dreer’s Six Grand American Gladiolus

Within recent years American hybridizers have produced some of the very best Gladiolus, being noted for their strong, free growth, free-flowering qualities, purity of color and their ability to produce satisfactory results in our climate even under the most ordinary conditions, and whether wanted for show in the garden or for cutting, the six sorts offered under this head now hold the premier place in their respective colors, and are offered at prices so reasonable, considering their high grade, that they should be planted in quantity wherever summer flowers are wanted.

America. Conceded to be one of the finest varieties for cutting or bedding ever sent out; color a beautiful soft flesh-pink; orchid-like in its coloring and texture. 7 cts. each; 75 cts. per doz.; $5.00 per 100.

Mrs. Francis King. A striking shade of light scarlet or flame color; one of the most effective. 7 cts. each; 75 cts. per doz.; $5.00 per 100.

Niagara. A charming variety, with all the good qualities of America, but of a delicate cream-yellow, lightly marked and splashed with rosy-carmine in the throat; beautiful as a cut flower. 12 cts. each; $1.25 per doz.; $8.50 per 100.

Panama. A favorite wherever high-grade varieties are grown. It is similar to and has all the good qualities of America, but in color is a rich rose-pink. One of the finest. 12 cts. each; $1.25 per doz.; $8.50 per 100.

Peace. Immense pure white flowers with a touch of carmine in the lower petals. These are borne on tall, graceful spikes; a beautiful and exceedingly refined variety. 12 cts. each; $1.25 per doz.; $8.50 per 100.

Princeps. Immense wide-open amaryllis-like flowers of a rich, dazzling scarlet, marked with white on the lower portion, which serves to intensify the brilliancy of the scarlet. 12 cts. each; $1.25 per doz.; $8.50 per 100.

**GENERAL COLLECTION CHOICE NAMED GLADIOLUS**

In addition to the Superb New and Rare Named Sorts offered on the preceding page, and the six grand sorts offered above, we offer below a very select list of named sorts, each more distinct and first class in every way.

**Augusta.** A lovely and useful variety, pure white with blue anthers. 7 cts. each; 75 cts. per doz.; $5.00 per 100.

**Baron Hulot or Blue King.** A really fine blue Gladiolus, in color a rich, royal violet blue, very effective when cut and used in conjunction with Sulphur King or other yellow variety. 10 cts. each; $1.00 per doz.; $7.50 per 100.

**Blanche.** One of the finest whites of the Giant type, immense flowers of pure white, lightly marked with pale rose; a gem. 10 cts. each; $1.00 per doz.; $7.50 per 100.

**Brenchleyensis.** The most effective vermilion-scarlet for massing. 6 cts. each; 60 cts. per doz.; $4.00 per 100; $35.00 per 1000.

**Brilliant.** Glistening scarlet with carmine and white throat, 12 cts. each; $1.25 per doz.; $8.50 per 100.

**Canary Bird.** A splendid clear canary-yellow. 20 cts. each; $1.75 per doz.; $12.00 per 100.

**Columbia.** Light orange-scarlet, splashed with bluish-purple. 10 cts. each; 55 cts. per doz.; $6.00 per 100.

**Empress of India.** Rich velvety dark red with deeper shadings. 10 cts. each; $1.00 per doz.; $7.50 per 100.

**Klondyke.** Clear yellow, with crimson-maroon blotch in the throat. 6 cts. each; 60 cts. per doz.; $4.50 per 100.

**Kunderdi Glory.** Large creamy white flowers with crimson stripe in centre of each petal; ends of petals ruffled. 12 cts. each; $1.25 per doz.; $8.50 per 100.

**Pink Perfection.** This magnificent imported sort has attracted great attention, the color is a soft apple-blossom pink with chamois suffusion that is very attractive. 15 cts. each; $1.50 per doz.; $10.00 per 100.

**Rosella.** Delicate rose, stained purple and white; large, open orchid-like flowers; a handsome and satisfactory variety. 20 cts. each; $2.00 per doz.; $15.00 per 100.

**Scribe.** A giant-flowering soft rose blazed with carmine, very large, open flowers and enormous spike. 10 cts. each; $1.00 per doz.; $7.50 per 100.

**Shakespeare.** White, suffused with carmine-rose; large rose blotch. 12 cts. each; $1.25 per doz.; $8.50 per 100.

**COLLECTIONS OF CHOICE NAMED GLADIOLUS**

GLADIOLUS in Mixture

Our mixtures offered below are made up of fine varieties, not the common sorts, which produce themselves so freely, and are all strictly selected first size bulbs, and are sure to give satisfactory results.

GOLD MEDAL

HYBRID GLADIOLUS

We grow this magnificent strain for the express purpose of being able to supply many of our customers who want something decidedly better than the usual run of mixtures and who do not care for the named sorts. When Gladiolus are grown in mixture they are liable to deteriorate rapidly, and finally contain only a few colors. To avoid this we grow small blocks of a large number of exquisite colors, many of them high-priced sorts, from which these mixtures are made, which insures results which cannot be had in any other way, and if you wish something really extra fine, these are sure to please you.

Gold Medal Section No. 1. This contains all the scarlet, blood-red, garnet, amaranth and similar rich shades of color in great diversity. 6 cts. each; 60 cts. per doz.; $4.00 per 100.

Gold Medal Section No. 2. This is composed of the white, yellow and delicate shades of pink, rose, etc., and is especially valuable for cutting. 7 cts. each; 75 cts. per doz.; $5.00 per 100.

Gold Medal Section No. 3. In this section are included the new blue, heliotrope, lilac, mauve and similar tints. A lady customer, on seeing a bunch of these, called them "pansy colors," which aptly describes them. They are for the most part entirely new and distinct. 10 cts. each; $1.00 per doz.; $7.00 per 100.

Gold Medal Mixture. This contains some each of the three sections, and so great is the diversity in colors that customers run practically no risk of getting any two alike; by far the finest mixture of Gladiolus ever offered, 7 cts. each; 75 cts. per doz.; $5.00 per 100; $45.00 per 1000.

PRIMULUS HYBRIDS

The original of this type, introduced from South Africa has been much improved by crossing with choice garden varieties, and the mixed hybrids here offered are certain to produce some beautiful flowers, mostly in tones running from light yellow to orange apricot and crimson; the flowers are of good size, borne on tall graceful spikes, and of healthy, vigorous constitution. 6 cts. each; 60 cts. per doz.; $4.00 per 100; $35.00 per 1000.

Hydrangea Hortensis

Although hardy in sheltered favorable positions in the latitude of Philadelphia, they will give more satisfaction when grown as pot or tub plants and protected against frost.

SELECT NEW FRENCH VARIETIES

Avalanche. Fine large white.
Baby Bimbencet. Large compact trusses of silvery rose flowers.
Eclaireur. Bright carmine rose.
E. G. Hill. Immense clear pink.
General de Vibraye. Large bright rose.
Lilie Mouillere. Beautiful carmine-rose.
Mme. Auguste Nonin. An unusually attractive pretty pale pink, in heads of large size.
Mme. E. Mouillere. The most popular white.
Mont-Rose. Very free, early, and almost everblooming pink.
Radiant. Deep rosy carmine.
Souvenir de Lieutenant Chaure. Immense heads, of bright rose carmine.
Souvenir de Mme. E. Chautard. The most popular, early, free pink.

NEW DOUBLE FLOWERING HYDRANGEA DOMOTOI

Of American origin, probably a seedling of the Japanese variety, Mariesii. The individual flowers, which are semi-double, are of good size, as are also the trusses; one of its exceptional characteristics is that it is perpetual flowering, producing flowers from the young growth throughout the summer. We offer good plants in 4 inch pots 75 cts. each.

SENSATIONAL NEW FRENCH HYDRANGEA, TROPHEE

Among the large number of French introductions of recent years, many of which have been wonderful acquisitions, the most remarkable one is the variety here offered, which for brilliancy in color surpasses all; it is the nearest approach to a red, being a bright carmine and of ideal habit of growth. 3-inch pots, 50 cts. each; 6-inch pots, $1.00 each.

HYDRANGEA OTAKSA

This is the variety that is used so extensively at the Atlantic seashore resorts, producing immense heads of usually pink but sometimes blue flowers throughout the entire summer. We have a grand lot of plants specially prepared for summer flowering that will make a handsome display.

HYACINTHUS CANDICANS (Cape Hyacinth)

A snow-white summer-flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from 20 to 30 pure white, bell-shaped flowers. 25 cts. each; $2.50 per doz.

ISMENE CALATHINA (Peruvian Daffodil)

A grand summer-flowering bulb, producing with great freedom large Amaryllis-like, pure white, fragrant blossoms. Keep the bulbs in a dry, warm place, and plant out in June. Bulbs can be taken up in October, and after a few weeks' rest, potted and flowered in the house in the winter, or kept over for planting out another season. 25 cts. each; $2.50 per doz.

LAGERSTREEMIA (Crape Myrtle)

This is one of the prettiest shrubs, and while hardy south of the Potomac, requires protection in this latitude. Grown in large pots or tubs, specimens 6 to 8 feet high can be produced with little difficulty, and which for two or three months in the summer will be covered with flowers.

Indica. Delicate soft pink.
— Alba. A white-flowered form.
— Kermesina. Crimson.

Price. Any of the above, $1.00 each.
PALMS

No collection of plants is complete without Palms. Their bold, majestic, yet graceful foliage lends a grandeur and magnificence that cannot be obtained by any other class of plants, and no decoration, whether in the conservatory, hall or sitting room, is complete without them.

Areca Lutescens. One of the most graceful and beautiful Palms in cultivation; the foliage is of a bright, glossy green, with yellow stems.

4-inch pots, bushy plants, 15 to 18 inches high ....... $75 each
5 " " " 18 to 24 " " .... $50 "
6 " " " 25 to 30 " " .... $25 "

Cocos Weddelliana. The most graceful and elegant of all Palms. Its slender, erect stem is freely furnished with its gracefully arching leaves, of a rich green color. The smaller sizes are admirable for fern dishes.

Young plants in 4-inch pots, 35 cts. each; 6-inch pots, 12 inches high, 50 cts. each.

Kentia Belmoreana. The Kentias are the hardiest palms in cultivation. They are of slow growth, and are less affected by the dust and dry atmosphere of the house than any others. The variety here offered is of dwarf, spreading habit, with fine rich dark-green foliage.

3 12 $5.00 6 20 $3.00
4 15 1.00 7 24 5.00
5 18 2.00 8 30 10.00

Kentia Forsteriana. This splendid variety is very similar to K. Belmoreana, but of stronger growth, with broader, heavier foliage.

3 12 $6.50 6 30 $3.00
4 15 1.00 7 36 6.00
5 24 2.00

Kentia Forsteriana (Made-up Plants). These are specimens made by planting several plants together; very useful decorative specimens.

7 30 $5.00 10 45 $15.00
7 36 7.50 10 48 20.00
7 40 10.00 12 54 25.00

Phoenix Roebeii. The most graceful of the Phoenix, and a Palm which has become one of the most popular for room decoration. The plant is of vigorous growth, and its gracefully recurving leaves, with very narrow dark green pinne, give it a lightness and airiness not surpassed, if equalled, by Cocos Weddelliana; at the same time it is as hard as a Kentia, succeeding admirably as a house plant.

5-inch pots, 1-5 inches high, nicely characterized ......... $2.00 each
Specimens in 6-inch pots, 11/2 feet high ............... 350 "
7 " " tubs, 2 " .................. 5.00 "
10 " " 2 " extra spread ....... 15.00 "

We can also supply fine large decorative specimens of Cocos Bonnetii or Australis and Phoenix Canariensis, elegant plants for lawn decoration. Sizes and prices on application.

PANDANUS (Screw Pine)

Veitchi. One of the finest decorative plants for the house; graceful foliage, broadly striped with cream-white on a green ground. 4-inch pots, $1.00 each; 6-inch pots, $2.00 each.

PASSIFLORA (Passion Flower)

Princps. This is one of the best greenhouse climbers, a rare and showy variety with bright red flowers. 75 cts. each.

PHYLLOCACTUS

Beautiful flowering plants closely allied to the Cacti, with thornless leaf like stems. The flowers, which often measure eight inches in diameter, are long, somewhat trumpet-shaped, consisting of several rows of petals, which in color range from pure waxy white to deep crimson, and are freely produced on well-rifpened stems in spring. They are of easy culture, should be confined to small pots and sparingly watered. We offer a choice selection of 12 named varieties. 50 cts. each. Set of 12 for $5.00.
PENNisetum (Fountain Grass)

Tender ornamental grasses, valuable either as individual specimens in the garden or for massing or interspersing with some of the hardy grasses, while as for border plants for beds of Cannas or Caladiums nothing equals them.

Narcophyllum Atrosanguineum (Crimson Fountain Grass). Foliage gracefully recurved, of a pleasing dark metallic, coppery-bronze, attains a height of about 4 feet, the ends of the shoots being terminated by tawny crimson plumes, 25 cts. each; $2.50 per doz.; $15.00 per 100.

Cupreum. Similar in the dark coppery-bronze color of its foliage to the variety above, but with much narrower, gracefully recurving leaves; grows about 3 to 3½ feet high. 25 cts. each; $2.50 per doz.; $15.00 per 100.

Rueppelianum (Purple Fountain Grass). Grows about 3 feet high, producing long, graceful green foliage and cylindrical purplish plumes. Young plants ready in May. 15 cts. each; $1.50 per doz.; $10.00 per 100.

New Salvia Splendens or Scarlet Sage, America or Globe of Fire

This is the finest of all the Scarlet Sages, being the earliest, freest and most continuous bloomer. It is also the most uniform in habit of growth. The bushy plants grow about 15 inches high, and the immense spikes of brilliant scarlet flowers rising clear about the rich green of the foliage, making a total height of not over two feet. One of the most effective bedding plants in cultivation. 15 cts. each; $1.50 per doz.; $12.00 per 100.

ROSES FOR THE GARDEN

We offer on pages 119 to 134 a very select and complete collection of strong two-year-old plants that will give immediate results.

SANSEVIERIA

Zeylanica Laurenti. This variety, in addition to the variegation shown in the ordinary sort, has a band of creamy yellow varying from ¼ to ½ inch or more in width on each edge of the leaves, which adds greatly to its decorative effect. A limited stock of good young plants, $1.00 each.

STIGMAPHYLLON CILIATUM

(Brazilian Golden, or Orchid Vine)

One of the prettiest tender climbers in cultivation, with large yellow, orchid-like flowers, produced very freely during the summer months. It is especially adapted for training over the pillars or on the wall of a conservatory, but will do equally well in the open air during the summer. 50 cts. each.

THUNBERGIA

Harrisi. A splendid winter-flowering green-house climber, with showy light-blue flowers with creamy-white throat. 50 cts. each.

Erecta. A green-house shrub, flowering almost the year round, bearing large, showy, deep purple flowers, with orange-yellow throat, a most satisfactory plant for the window garden. 50 cts. each.

WATER LILIES

We offer a short and select list of both Tender and Hardy sorts on page 160.
Double Pearl Tuberose

One of the most delightfully fragrant and beautiful of the summer flowering bulbs. By skillful management a succession of flowers may be obtained all the year round. For early flowers they can be started in February or March in the greenhouse or hotbed; and for a succession they can be planted at intervals as late as July. For flowering in the open border plant about the middle of May, or as soon as the ground becomes warm. Strong flowering bulbs, 10 cts. each; $1.00 per doz., $6.00 per 100.

MEXICAN EVERBLOOMING
SINGLE TUBEROSES

This charming single variety begins to flower in July and continues throughout the season, each bulb throwing from 2 to 5 flower spikes in succession. The buds never blast but all open up of the purest white, and are delightfully fragrant. (See cut.) 10 cts. each; $1.00 per doz.; $6.00 per 100.

VINCAS

Major Variegata (Variegated Periwinkle). One of the very best plants for vases, and for trailing over the edges of window boxes, etc. Leaves glossy green, broadly margined creamy white; blue flowers. Strong plants in 4-inch pots, 25 cts. each; $2.50 per doz.

ZEPHYRANTHES

(Flower or Fairy Lilies.)

Beautiful dwarf, bulbous plant, very effective for masses or border, flowering with great profusion during the summer. They are also suitable for pot culture. 6 bulbs clustered in a 5-inch pot in the autumn will give a fine display during the winter; 8 inches high.

Alba. Pure white. 8 cts. each, 75 cts. per doz.; $6.00 per 100.

Rosea. Large rose-colored. 15 cts. each; $1.50 per doz.; $10.00 per 100.

ZINNIAS (Youth and Old Age)

Dreer's Giant Double. An extra large flowering strain of this popular summer-flowering annual, growing about 3 feet high, with colossal flowers in a great variety of colors. Mixed colors, ready in May and June.

10 cts. each; $1.00 per doz.; $7.00 per 100.
WATER LILIES AND AQUATICS

We have prepared a leaflet giving complete directions for the cultivation of both hardy and tender Water Lilies, Aquarium Plants and other Aquatics. Copies free on request.

TROPICAL, or TENDER WATER LILIES

These are supplied after June 1st in strong, growing pot plants, and should not be planted out until after the weather has become settled and warm.

Place your order for these plants early, and we will reserve them until the proper planting season.

Night-blooming Tender Nymphaeas

Bissettii. Flowers 8 to 10 inches in diameter; cup-shaped; of a beautiful glowing shade of rosy-pink. $2.00 each.

Deianara. Flowers pure light pink. $1.50 each.

Dentata. White, 8 to 12 inches across. $1.00 each.

Dentata Magnifica. Large cup-shaped creamy white flowers 10 to 12 inches across. Very desirable. $2.50 each.

Dentata Superba. The largest white Water Lily grown. Flowers of clear glistening white. $3.00 each.

Devoniensis. This old favorite produces its large pure red flowers in the greatest abundance. $1.00 each.

Frank Trelease. The darkest colored of all tender Water Lilies. A glowing dark crimson. $1.50 each.

Geo. Huster. Brilliant crimson flowers. $2.00 each.

Jubilee. White, flushed pink at base of petals. $1.50 each.

Kewensis. Medium size light pink flowers. $1.50 each.

O'Marana. Flowers large and massive. Color pink, suffused with red; very desirable. $1.50 each.

Rubra Rosea. One of the best and largest rosy-reds produced with remarkable freedom. $1.50 each.

Sturtevanti. Color of flower varies from pure pink to bright red, with orange centre. $2.50 each.

VICTORIAS, or ROYAL WATER LILIES

Victoria Regia. The well-known original species, leaves 5 to 8 feet in diameter. Seeds, 3 for 75cts.; plants, $1.00 each.

Victoria Trickeri. The hardest and easiest variety to grow. Seeds, 3 for 75cts.; plants, $1.75 each.

We offer a select list of Aquarium Plants on page 159
OF all the plants that are cultivated for purely ornamental purposes there are none which have made such rapid strides in public favor as the Old-fashioned Hardy Garden Flowers, the inhabitants of the perennial garden. Their popularity is not at all surprising when we consider the many varied and pleasant changes which take place throughout the entire growing season in a well-arranged hardy border, in which every week—yes, every day—brings forth something fresh and new to interest and delight even the most critical. Beginning in April, the early-flowering varieties open their flowers often before the snow has entirely disappeared, and continue, with constant changing variety, throughout the summer until late in the fall, when only severe freezing weather will stop such persistent late-blooming kinds as Japanese Anemones, Pompon Chrysanthemums, Gaillardias, Gentians, Tritomas, etc.

Twenty-five years ago there were very few Hardy Perennial Borders outside of some large establishments where one or more professional gardeners were employed, who were familiar with the beauties of the hardy borders as found in almost every garden on the other side of the Atlantic, and who knew how to plan, and plant, and care for them. But a great change has taken place in recent years, and there is now a steady and growing interest in this class of plants, and to-day almost everyone who is fortunate enough to have even a small garden devotes at least a part of it to hardy plants.

THE MAKING AND CARE OF AN OLD-FASHIONED HARDY BORDER

Frequent are the discussions and many are the ideas concerning their cultivation and the best method of arranging them in the garden. In arranging hardy flowers one should never forget the ways of Nature, choosing the flowers she uses in the positions she thinks most suitable, while endeavoring to conceal stiffness of arrangement by a careful study of her plans and the judicious use of the beautiful hardy plants at our disposal.

Situation.—There is no class of plants which lend themselves to such varied assortment of climatic or soil conditions, but the most effective position for Hardy Perennial plants in general is a good open border, backed by a hedge, a fence or trellis covered with Rambling Roses or any other hardy climbing vines, while some of the taller-growing sorts, such as Hollyhocks, Sunflowers, Rudbeckias, Boltonias, Bocconias, etc., are also very attractive when planted throughout a shrubbery border, their showy flowers forming a bright contrast with the foliage of the shrubs throughout the summer and fall, when few of the latter are in bloom.

Soil and Planting.—Cultivation is of the simplest, beginning with any good garden soil as a foundation, which may be enriched with such fertilizers as well-decomposed manure, bone-meal, or sheep manure deeply dug and well pulverized. The best time to plant hardy plants is just when they are emerging into life after their season’s rest, when the weather is favorable and the soil in condition, or they may be set out in the autumn. Above all things avoid wet planting. Do not make the common mistake of overcrowding; give each plant sufficient room to allow it to develop to its full size. The nearest approach to a rule which may be followed in planting being to set out plants which grow to a height of 2 feet or less 12 inches apart, and all others space equal to one-half their height when developed. For example, Aquilegias and Gypsophila, which grow 2 feet high, may be planted 12 inches apart, while Delphinium formosum and Japanese Iris, which grow 3 feet high, should be 18 inches apart. Care should also be taken to blend the colors throughout the garden, so as to prevent too many of one shade of color coming together, causing jarring contrasts. The season of flowering of the different types should also be taken into account, and the different plants as evenly dispersed as possible in order to maintain an equality of flowering plants, leaving no portion of the garden bare or flowerless, nor crowding together too many that bloom at the same time.
The Making and Care of an Old-Fashioned Hardy Border.—Continued

Care in Summer.—During the growing season careful attention should be given if best results are to be obtained. There is nothing so beneficial as frequent stirring up around the plants, and taking the ground into order again; it allows the air to move more freely through the surface of the soil, thereby encouraging growth and keeping the weeds in check. During hot, dry weather, or when it is not convenient to water, a mulch of any loose, light material will be found very beneficial in retaining moisture and in keeping the soil from baking; short grass, the raking of the lawn after cutting, is excellent material for this purpose. Early in summer many varieties will have made considerable growth, and the supporting of these should be taken up in time. It is hardly possible to stake and tie up a plant so that it will have the same graceful appearance as if grown naturally without their aid; still, supports should be inserted at all tall-growing sorts early in the season while the plants are small. In this way they will lend themselves more naturally to their support than if this work is accomplished after the plants have made considerable growth. Once the plants get broken down or allowed to get set it is impossible to tie them up into natural shape again. This phase of summer work in the garden is often considered a matter of small importance, yet the difference between doing same in a slipshod and a workman-like manner is most apparent; and, while fully sympathizing with those who may not be able to spare the time or who may not have the materials at hand necessary to perform this work in the best possible manner, it cannot be too strongly emphasized that these are two of the most important factors in the successful cultivation of all out-door plants. The removal of old flower stems will also materially help the appearance of the plants at all times, many species responding to this treatment with an extra crop of flowers later in the season. All decays foliage should also be removed, so as to keep the garden neat and tidy at all seasons.

Winter Care.—About the middle of November or later, when all the soft growth has been killed by the frost and the plants are thoroughly ripened, the old hard-wooded stems should be removed and burnt up. It will then be found beneficial to cover the plants with a top dressing of loose stable litter, or, if this is not to be had, a covering of leaves—Nature’s protection. This covering is best applied when the ground is in a dry condition, and should not be over three or four inches thick over loosely being all that is required. A deeper covering would invite the plants into premature growth in the early spring, with a liability of damage by late frosts; don’t be in a hurry to cover the plants, a little frost will do them good. As the extreme cold weather begins to disappear this covering should be removed by degrees, allowing any young growths which the plants may have made to gradually harden off. This process usually occupies only a few days, after which the plants may be fully exposed to the sunshine, and the litter or covering which has protected them during the winter may be raked up and removed.

Replanting.—It is all nonsense to suppose that hardy Perennials once planted require no attention for several years. The truth is, if we wish them to give entire satisfaction, we must each spring see that each variety is treated in the best manner to insure its fullest development during the next flowering season. Many ideas are advanced on the question of how often they ought to be divided and transplanted, but no positive rule can be applied. Some sorts will take two or three years or even longer to get established and develop their fullest beauty after being transplanted, and usually the longer they are allowed to grow without disturbance the better results will be accomplished, while others should be transplanted or reset each season.

Most hardy plants which flower during the spring or early summer months, such as Anthericum, Peonies, Doronicum, Dielytras, etc., produce their new growth from the crown of close, compact roots, and are better if left undivided and undisturbed for several years, the only care necessary for these being a liberal covering with fresh soil or compost early in spring. The late summer and autumn blooming species are usually of a more vigorous growth. Such sorts as Helianthus, Rudbeckias, Asters, Boltonias, Physostegias, etc., on which the original crowns die out each season and many new side growths are made, are far better if replanted each season, selecting from three to five of the strongest growths, which, after the ground has been redug and enriched, may be reset in the same position or replanted to another section of the garden. Treated in this manner, they will not only produce flowers of larger size and finer colors, but will keep the stronger and more rampant growing varieties from crowding out their equally interesting but less vigorous neighbors.

Many not thoroughly familiar with this class of plants have an idea that nothing but a large field-grown clump will give satisfactory returns the first season. This, as experience has taught us, is in most instances a mistake. A vigorous plant of proper size will, in nearly every case, give quicker and better returns than the best so-called “field clumps.” The majority of the stock offered in this catalogue is pot grown. This does not mean that the plants have been altogether pot-grown, but that they have been field-grown and dug and potted up during the fall months, and such stock can be planted, even late in the spring, with practically no loss, which, in the case of clumps, is often quite serious. The following letter from the well-known and successful amateur, W. C. Egan, endorses our views on this matter.

EGANDALE, ILL.

GENTLEMEN—Your shipment of perennials arrived safely to-day in most excellent order. It certainly is a pleasure as well as a profit, to receive plants from you. Your system of growing these in pots allows shipment without disturbing the roots, thus insuring uninterrupted growth and no loss in planting.

Respectfully yours,

W. C. EGAN.

DREER’S COLLECTIONS OF HARDY PERENNIAL PLANTS

The list of Hardy Perennial plants which we offer in our Garden Book is admitted to be the most complete and up-to-date collection in the country, and we are continually adding all the new rare and desirable sorts.

While we are not in the landscape business and cannot undertake the preparation of plans for planting or laying out of grounds, we have had prepared by a competent landscape architect a series of Plans of Hardy Borders with a list of suitable plants for positions either in sun or shade. We will be pleased to send a leaflet containing same free on application. We also offer customers who are not acquainted with the different sorts the following collections. All in good, strong roots, which when once planted will, with little care, keep the garden gay with flowers from the time frost leaves the ground until late in autumn. These collections are made up of species and varieties strictly of our selection, and we are unable to submit list of contents, as the assortment varies at different periods during the planting season.

| 12 distinct species, our selection | $2.00 |
| 25 " " " " | 4.00 |
| 50 distinct species and varieties, our selection | $7.00 |
| 100 " " " " | 12.00 |

NOTE.—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent, to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.

(16)
DREER’S SELECT

Hardy Perennial Plants

ACANTHUS (Bear’s Breech)

Mollis Latifolius. A handsome decorative plant of stately effect, with deeply-toothed, heart-shaped leaves, 2 feet long by 1 foot wide, either for planting as single specimens on the lawn or in the border, or for grouping with other plants for sub-tropical effect, producing 3 feet high spikes of curious rose-colored flowers during August and September. The ornamentation of the Corinthian columns is said to have been suggested by the leaf of this plant.

35 cts. each; $3.50 per doz.

ACHILLEA (Milfoil or Yarrow)

Eupatorium (Perenn-leaved Yarrow). Neat, finely cut foliage and brilliant yellow heads of flowers, lasting in full beauty all summer; 4 to 5 feet.

Filipendulina (Noble Yarrow). A vigorous, showy species, with golden-yellow flowers in dense flat corymbs in July; height, 2 feet.

Millefolium Roseum (Rosy Milfoil). Finely cut deep green foliage, flowers pink in dense heads; 18 inches high, and flowers all summer.

Ptarmica Fl. Pl. “The Pearl.” Pure white flowers borne in the greatest profusion the entire summer on strong, erect stems, 2 feet high; as a summer cut flower it is of great value. (See cut.)

— Boule de Neige (Ball of Snow). An improvement on The Pearl; the flowers, while not quite so large, are of more perfect form, with fuller centres, which makes it appear purer in color.

Tomentosa (Woolly Yarrow). Handsome cut foliage and bright yellow flowers in a multitude of flat heads during June; height about 12 inches.

Price. 25 cts. each; $2.50 per doz.; $15.00 per 100.

AEGOPODIUM (Bishop’s Weed)

Podagraria Variegata. A rapid-growing plant, with neat green and yellow variegated foliage, thriving in any soil; makes a fine border for a bed of shrubs or for covering waste ground; 1 foot. 25 cts. each; $2.50 per doz.; $15.00 per 100.

ACONITUM (Monkshood or Helmet Flower)

Aconites form bushy clumps, and grow about 4 feet high; invaluable for planting under trees or in shady or semi-shady positions.

Fischeri. A dwarf variety growing 18 inches high, with very large, pale blue flowers in September and October.

Sparks’ Variety. The darkest blue of all; flowers in June.

35 cts. each; $3.50 per doz. $18.00 per 100.

ADONIS (Bird’s Eye)

One of the choicest of early spring-flowering plants; about 12 inches high, with finely-cut, ornamental foliage; effective on rock work or in the border. The two varieties offered are from Japan, of strong growth, and come into bloom fully two weeks earlier than any other hardy plant in our collection.

Amurensis. Large, single yellow flowers.

Amurensis Fl. Pl. Large, double yellow flowers.

50 cts. each; $5.00 per doz.

AGROSTEMMA (Rose Campion)

Stout, erect-growing plants with silvery foliage, which contrasts well with the showy flowers; which are produced during June and July.

Coronaria (Mullein Pink). Bright rosy-crimson; 2½ to 3 feet.

— Alba. A pure white variety.

Flos Jovis (Flower of June). Deep pink flowers on 12-inch high stems.

25 cts. each; $2.50 per doz.; $15.00 per 100.

AJUGA (Bugle)

Reptans rubra. A useful plant for the rockery and for carpeting the ground, particularly in shady positions, as under trees where grass will not grow; large spikes of purplish-blue flowers in May.

25 cts. each; $2.50 per doz.; $15.00 per 100.

If unable to find what you want refer to the Index. page 2

(163)
**ALYSSUM** (Mad Wort)

**Rostratum.** Bright golden-yellow flowers in June and July; 1 foot.

**Saxatile Compactum** *(Basket of Gold, Gold Tuft, Rockmadwort.)*

An indispensable plant for the rockery or border, growing 1 foot high, and producing in May masses of broad, flat heads of bright yellow flowers.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**AMSONIA**

**Salicifolius.** A stout shrub-like plant, growing about 2 feet high, with terminal spikes of light steel-blue flowers, desirable to intersperse in clumps in the front row of the shrubbery border.

**Tabernamontana.** Similar to above in habit of growth, but with light blue flowers.

25 cts. each; $2.50 per doz.

**ANTHEMIS**

*(Marguerite)*

**Tinctoria.** This hardy Marguerite is one of the most satisfactory summer-flowering perennials, succeeding in the poorest soil; of bushy habit, growing about 15 inches high, and producing its large, golden-yellow, daisy-like flowers continuously during the entire summer.

- **Alba.** Creamy-white flowers with yellow centre.
- **Palida.** Light canary-yellow.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**ANCHUSA ITALICA**

*(The Improved Italian Alkanet or Bugloss)*

The improved Alkanets justly take a front rank among early summer flowering perennials. The rich blue tones of their flowers fill a vacancy in this color, of which there is never a superabundance, particularly during their flowering period, which covers the months of May and June. They form much branched specimens 3 to 5 feet high, each branch terminated by a large, pyramidal, graceful spike of blue flowers, and while the habit of the plants are strong and vigorous they are not at all coarse. Of easy culture in any good garden soil and a sunny position. Very effective either in solid beds or in the hard border.

**Dropmore Variety.** Rich gentian blue.

**Opal.** A splendid lustrous light blue.

35 cts. each; $3.50 per doz.; $18.00 per 100.

**ANEMONES** *(Windflowers)*

**Pennsylvanica** *(Pennsylvania Windflower)*. The prettiest of our native Windflowers, growing 12 to 15 inches high, and producing its large white flowers in the greatest profusion from June to August; an excellent plant either for the border or the rockery, and succeeds equally well in sun or shade.

25 cts. each; $2.50 per doz.

**Sylvestris** *(Snowdrop Windflower)*. Large, cup-shaped, pure white flowers, on clean stems, held well above the neat, handsomely cut foliage; one of the most satisfactory plants for the border, and equally at home in partial shade.

25 cts. each; $2.50 per doz.

**ANTHERICUM**

**Liliago** *(St. Bernard's Lily)*. A pretty species, bearing spikes of white flowers 18 inches high during May and June.

25 cts. each; $2.50 per doz.
ANEMONE JAPONICA
(Japanese Windflower)

These beautiful Windflowers are one of the most important hardy plants. While they begin blooming in August they are more especially valuable on account of their continuing in full beauty till cut down by hard frost. All are excellent for cutting, lasting in good condition for many days. The plants grow 2 to 3 feet high, are perfectly hardy if given the protection of 2 or 3 inches of leaves or litter during the winter, and, while they respond freely to liberal feeding, they will succeed in any ordinary garden soil, increasing in beauty from year to year. They can be used in solid beds or borders or clumps planted through the hardy border, which they brighten during the late fall months.

Japonica Alba. Large, snowy-white; very chaste.
Japonica Rubra. Beautiful rosy-red; stamens bright yellow.
Queen Charlotte. Very large semi-double flowers of La France pink, a color that is rare among hardy plants.
Rosca Superba. Flowers of medium size, of a delicate silvery-rose.
Whirlwind. Large, semi-double pure white flowers, very free.

Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of the 5 sorts for $1.00.

New Anemone "Hupehensis"

An introduction from Central China, closely allied to Anemone Japonica which, in a miniature way, it closely resembles. The plants grow from 10 to 12 inches high and from early in August until late in Autumn, produce an abundance of flowers, about 1½ inches in diameter, of a pleasing pale mauve-rose. 25 cts. each; $2.50 per doz.

We are the largest growers of Hardy Perennial Plants in this country.

AQUILEGIA, OR COLUMBINES

The Columbines are one of the most elegant and beautiful of hardy plants, producing their graceful spurred flowers on stems rising 2 feet or more above the beautifully divided foliage, and should be planted wherever their presence will serve to lighten up a too stiff and formal planting, for no other plant has so airy a grace as the Columbine, is more generous of its blooms, or more effectively adapted for cut flowers.

They are not at all particular as to soil or location, although they prefer a sandy loam and a moist but well drained, sunny position, and usually make themselves at home in any hardy border or rockery. Their period of flowering covers the late spring and early summer months. Taken as a whole, they are a most important part of the hardy garden, and should be grown in quantity by every lover of old-fashioned garden flowers.

Drerer's Long-spurred Hybrids. This is the most admired type of Columbines. The plants are of strong, thrifty growth. The flowers of largest size vary in color through charming tones of cream, pink, lavender, blue, white, red, etc., hardly any two being exactly alike. We offer them in mixed colors only.

Canadensis (Common American Columbine). The native bright red and yellow variety, and one of the brightest.
Chrysantha (Golden Columbine). Bright yellow long-spurred flowers.
Chrysantha Alba. A pure white form.
Carruca (Rocky Mountain Columbine). Bright blue and white long-spurred flowers.
Flabellata Nana Alba. A dwarf growing, pure white.
Helene. Large blue flowers and wide expanded white corolla.
Skinneri (Mexican Columbine). Yellow with long orange-red spurs.

Price. Any of the above; 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 9 sorts for $2.00.
ARABIS (Rock Cress)
Arpina. One of the most desirable of the very early spring-flowering plants that is especially adapted for edging and for the rock garden, but does equally well in the border, forming a dense carpet, completely covered with pure white flowers. It is nice for cutting, and lasts for a long time in bloom. 25 cts. each; $2.50 per doz.; $15.00 per 100.

ARTEMISIA LACTIFLORA
(Hawthorn-scented Mugwort)
Unlike the other varieties offered, which are grown for their foliage, this comparatively new introduction from China is a most effective flowering plant, with erect stems 3½ to 4½ feet high, clothed with elegantly cut dark green foliage and terminated by panicles of Hawthorn-scented creamy white Spiraea-like light and graceful flowers. It is at its best from the latter part of August to the end of September, and is particularly valuable on this account, being unlike any other plant in bloom at that time. (See cut.) 25 cts. each; $3.50 per doz.; $18.00 per 100.

ARTEMISIA
A most useful class of plants, either for the border or for filling in within the shrubbery. With the exception of the new variety Lactiflora they are not remarkable for their flowers; the foliage of the sorts offered is very ornamental. All the varieties offered stand cutting down to 5 or 6 inches when used in carpet or ribbon bedding.
Abrotanum (Old Man, or Southern-wood.) Dark green, finely cut foliage, with pleasant aromatic odor; 2 feet.
Pedemontana. A handsome variety with finely cut silvery foliage.
Stelleriana (Old Woman)
Deeply-cut silvery foliage; much used in carpet bedding; 18 inches.
25 cts. each; $2.50 per doz.; $15.00 per 100.

ASCLEPIAS
(Butterfly Weed)
Tuberosa. Very showy native plants, about 2½ feet high, producing their flowers of brilliant orange-scarlet during July and August. 25 cts. each; $2.50 per doz.; $15.00 per 100.

ARMERIA (Sea Pink or Thrift)
Attractive dwarf plants that will succeed in any soil, forming evergreen tufts of bright green foliage, from which innumerable flowers appear in dense heads, on stiff wiry stems, from 9 to 12 inches high. They flower more or less continuously from early spring until late in the fall. Very useful in the rockery as well as in the border. (See cut.)

Cephalotes Rubra. A strong growing variety with evergreen foliage and large heads of crimson-red flowers.
Lauchiana Rosea. Bright rose.
   - Alba. White.
   25 cts. each; $2.50 per doz.; $15.00 per 100.

DWARF ALPINE ASTERS
Alpinus. Indispensable for the rockery or edge of hardy borders; grows 6 to 10 inches high and bears large showy bluish-purple flowers in May and June.
   - Albus. Identical to the above, but with pure white flowers.
Sub-coeruleus. Forms a dense tuft of leaves, from which issue many leafless stems 12 inches high, bearing in June and July massive bluish-violet flowers 3 inches in diameter.
   Price. 25 cts. each; $2.50 per doz. Set of 3 sorts, 65 cts.

NOTE.—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
SUMMER-FLOWERING HARDY ASTERS

The following grow from 12 to 15 inches high and produce their showy flowers during July and August. Their free-flowing habit and compact growth make them most desirable subjects for the front of the mixed border.

**Amellus Beauty of Ronsdorf.** Of a tender lilac rose, perfect in form and entirely distinct.

**Perry's Favorite.** A most distinct bright, clear rose.

**Preziosa.** A fine deep violet-blue.

**Brachytrichus.** Very free and in bloom until late in September; graceful, bright silver-mauve flowers.

**Pteranoides.** White flowers, not large, but produced in great masses; fine for cutting.

**Price.** Any of the above, 35 cts. each; $3.50 per doz.

One each of the 5 sorts for $1.50.

New or Scarce Hardy Asters

**Feitham Blue.** One of the most decorative free-flowing blue varieties, a pretty shade of aniline blue, produced on freely branched plants during August and September; 2½ feet high.

**Glory of Colwall.** A splendid improvement on the variety Beauty of Colwall, with good-sized, nearly double, ageratum-blue flowers, remarkably free flowering; 2½ feet. September and October.

**Novi Belgii Climax.** Plants of strong, vigorous habit, over 5 feet high, fully one-half of which consists of much-branched pyramidical-shaped flower stems filled with light lavender-blue flowers, each 1½ inches or more in diameter. It blooms from the latter part of August until the middle of October.

**— White Climax.** A counterpart of Climax with pure white flowers; 5 feet.

**— St. Egwin.** A pleasing soft rosy-pink. Very free and of erect habit. 3 to 4 feet. September and October.

**Price.** Any of the above, 50 cts. each; $5.00 per doz. Set of 5 sorts for $2.25.

FALL-FLOWERING HARDY ASTERS

*(Michaelmas Daisies, or Statworts)*

These are among the showiest of our late-flowering hardy plants, giving a wealth of bloom during September and October, a season when most other hardy flowers are past, and for the best effect should be planted in masses of one color. They grow freely in any soil. The collection offered below is made up of the choicest varieties only, the weedy sorts being eliminated.

**Chapman.** Graceful sprays of light blue; 4 to 5 feet.

**Formosissimus.** Bright violet; 3 feet.

**Lavis floribunda.** Light heliotrope; 4 feet.

**Nova anglie.** Bright violet purple; 4 feet.

**— Lil Fardell.** Bright mauve; 4 feet.

**— Roseus.** Bright purplish mauve; 4 feet.

**Novi Belgii Cleopatra.** Light heliotrope; 5 feet.

**— Cloudy Blue.** Pale lavender blue; 3½ feet.

**— Edith Goodwin.** Very large deep blue; 4 feet.

**— The Queen.** A splendid large bluish-white; 4 to 5 feet.

**Punicus Pulcherrimus.** Blue-tinted white; 4 feet.

**Robert Parker.** Pale heliotrope; 4 feet.

**Snowflake.** Very free, pure white; 18 inches.

**Tataricus.** Distinct large bluish-violet; very late; 6 feet.

**Top Sawyer.** Clear parma-violet color; 4 feet.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 15 varieties for $3.25.

New Japanese Hardy Asters

Do not overlook these novel sorts described and offered on page 168.
NEW JAPANESE HARDY ASTERS

The two varieties offered below came to us from Japan and are entirely different from anything heretofore offered.

Mauve Cushion. An entirely distinct species which has attracted much attention in our grounds the past three seasons by its unique habit of growth, its great floriferousness, and its lateness in flowering. It forms a circular cushion-like plant 2½ feet across the centre of the plant, rarely exceeding 3⅔ inches in height, gradually tapering to 5 or 4 inches at the outside; the flowers of delicate, soft mauve, with silvery white reflexion, measure over 1½ inches in diameter, and are produced in such lavish profusion as to completely cover the plant; the blooms begin to expand early in October, but are not at their best until November, and continue in good condition until the middle of that month; while its distinct habit and freedom of bloom would make it a welcome subject at any season of the year, it is particularly valuable on account of the very late flowering, it giving a mass of bloom at a season when there are but few attractive flowering subjects in the garden. 50 cents each; $1.50 per doz.

Double White. Plants are of symmetrical habit, and grow about 2 feet high, and bear from July to September double white flowers not unlike the double white Feverfew. 50 cents each; $5.00 per doz.

ASTILBE ARENSDI

This new type is the result of crossing A. Davidi with A. Japonica compacta, astilboideae and Thunbergii. The plants are of very vigorous growth, 2½ to 3½ feet high, producing many-branched feathered heads of flowers in June and July. They prefer a half-shady, moist position in any ordinary garden soil. (See cut.)

Ceres. Delicate light rose-colored flowers with peculiar silvery sheen.

Juno. Strong plumes of deep rose-violet.

Rose Pearl. Pearly shell-pink.

Salmon Queen. Graceful panicles of a beautiful salmon pink.

Vesta. Very graceful plumes of light lilac-rose.

Price. Any of the above, 50 cents each. One of each of the 5 sorts for $2.00.

ASTILBES

Davidi. An important hardy plant. Its 5 to 6 feet high stems, which rise from a tuft of pretty dark green foliage, are crowned with feathery plumes of deep rose-violet flowers during June and July. 35 cents each.

Hybrida Gruno. A splendid salmon-pink sort growing 4 feet high and producing light, graceful, spreading spikes of flowers, the finest pink Astilbe yet introduced. 75 cents each.

Hybrida Toerheinii. A cross between A. Davidi and an unknown variety, with the strong, robust growth of the former, attaining a height of 3½ to 6 feet. The well branched, erect spikes of flowers have a length of over two feet and are of a beautiful creamy-white. The originator and introducer, a prominent Holland grower, was awarded a first-class certificate for this novelty by the Royal Horticultural Society of Holland and considers this plant the most important hardy perennial introduced in many years. Strong plants, 75 cents each.

Hybrida Salland. This is also a cross, with A. Davidi as one of its parents, which it resembles in habit of growth, only much more vigorous, growing over 6 feet high and with flowers of a distinct red color, different from all others. 75 cents each.

BAPTISIA (False Indigo)

Australis. A strong-growing plant, about 2 feet high; suitable either for the border or wild garden, with dark green, deeply-cut foliage and spikes of dark-blue flowers in June.

Tinctoria. Spikes of bright yellow flowers in June; 2 to 2½ feet. 25 cents each; $2.50 per doz.

BELLIS PERENNIS (English Daisy)

Improved double-flowering, white and pink. 15 cents each; $1.50 per doz.; $10.00 per 100.

BOCCONIA (Plume Poppy, or Tree Celandine)

Cordata. A noble, hardy perennial, beautiful in foliage and flower, admirably adapted for planting in the shrubbery borders, centre of beds and in bold groups in almost any position. It will grow in any soil or situation, attaining from 6 to 8 feet in height; flowers in terminal panicles, of a creamy-white color during July and August. (See cut.) 25 cents each; $2.50 per doz.; $15.00 per 100.
**Campanulas, or Bellflowers**

Indispensable, hardy garden flowers, of much variety of form, some being of tall and imposing habit; while others are dwarf, compact little plants, suitable for edging, rockwork, etc. They like a good, rich soil, and last much longer in bloom if planted in a half-shady place. All of the taller growing kinds should be staked to prevent injury from high winds.

**Carpatica** (Carpathian Harebell). A pretty species growing in compact tufts, not exceeding 8 inches high; flowers clear blue; held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for a hardy border or for the rockery it is unsurpassed.

—Alba. The white flowered form of above.

**Glomerata Superba.** Grows from 1 1/2 to 2 feet high, and produces its large showy, violet-blue flowers from June to August.

**Grandis.** *(Great Bellflower).* Very showy, large, saucer-shaped rich violet-blue flowers; May and June; 18 inches.

**Grosseki.** Produces its dark blue flowers all summer; 2 feet.

**Lactiflora Caerulea.** Pale blue flowers during July and August; 2 1/2 feet.

**Latifolia Macrantha.** Large purplish-blue flowers; May and June; 3 feet.

**Nodiflorum.** *(Canterbury Bells).* We offer this popular variety on page 170.

**Persicifolia** (Peach Bells). Blue flowers during June and July; 2 feet.

—Alba. A pure white form of the above.

**Punctata.** Large nodding bell-shaped flowers, white spotted purplish-rose.

**Pyramidalis** *(Chimney Bellflower).* The most conspicuous of all Campanulas, forming a perfect pyramid 4 to 6 feet high, crowded with large salver-like porcelain-blue flowers in August.

**Rotundifolia.** *(Blue Bells of Scotland).* This is the true Hare-bell with beautiful clear blue flowers from June to August; 1 foot.

**Trachelium.** *(Coventry Bells).* Purple flowers; June and July; 3 feet.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Bletia** *(Hyacinthine)*. A terrestrial Orchid from China, with grass-like foliage and terminal racemes of showy rosy-pink flowers; grows about a foot high and succeeds best in a damp, shady position; requires the protection of a cold frame in winter. 50 cts. each; $5.00 per doz.

**Boltonia** *(False Chamomile)*

Among the showiest of our native hardy perennial plants with large, single Aster-like flowers. The plant is in bloom during the summer and autumn months, and with its thousands of flowers open at one time produces a very showy effect. (See cut.)

**Asteroides.** Pure white; very effective; 5 to 7 feet.

**Latisquama.** Pink, slightly tinged with lavender; 4 to 6 feet.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**Caltha** *(Marsh Marigold)*

**Palaestris.** Effective hardy perennials, of much value in marshy places and by the side of streams and ponds; grow about a foot high, with bright yellow single flowers in early spring. 25 cts. each; $2.50 per doz.

**Hardy Border Carnations**

Choice mixed seedlings produced from seed supplied by a specialist in this popular flower. We supply strong plants that will furnish an abundance of flowers this season. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Caryopteris** *(Blue Spiraea).* A handsome Hardy Perennial; grows about 3 feet high and produces rich lavender-blue flowers in great profusion the whole length of the branches. A valuable plant either for bedding or pot-culture, blooming continuously from early in September until cut by frost. (See cut.) 25 cts. each; $2.50 per doz.; $15.00 per 100.
CASSIA (American Senna)

Cassia Mariandica. A plant growing from three to four feet high, bushy, with large panicles of bright yellow, curiously-shaped flowers in abundant axillary clusters from July to August. The beautiful pinnate light-green foliage is very pleasing. 25 cts. each; $2.50 per doz.; $15.00 per 100.

CENTAUREA (Hardheads or Knapweed)

Of easy culture, delighting in an open, sunny position, producing a wealth of bloom, which not only makes a fine display in the border, but is excellent for cutting.

Hirta nigra variegata (Variegated Button Weed.) Variegated green and gold foliage, and during July and August purple flowers; 2 feet.

Dealbata. Distinct bright rose-colored flowers; July to September; 18 inches.

Macrocephala. Large thistle-like golden-yellow flowers; useful for cutting and showy in the border; July and August; 3½ feet.

Montana (Perennial Corn Flower). Grows 2 feet high, bearing large violet-blue flowers from July to September.

— Alba. Large white variety of the above. 25 cts. each; $2.50 per doz. Set of 5 sorts, $1.00.

CEPHALARIA (Roundheads)

Alpina. When fully established attains a height of 6 feet, bearing in June and July delicate sulphur yellow flowers, not unlike the flowers of Scabiosa. 31 cts. each; $3.50 per doz.

CERASTIUM (Snow in Summer)

Tomentosum. A desirable low-growing plant with silvery foliage and white flowers in June, suitable for the rockery, or for carpeting dry, sunny spots, or for covering graves; can also be used with good effect in carpet bedding. 25 cts. each; $2.50 per doz.; $15.00 per 100.

DREER'S CANTERBURY BELLS

Illustrated on plate opposite.

Among the many subjects flowering in late May and June the old fashioned Canterbury Bells are among the showiest and most effective.

Planted either in clumps of a few plants or in great masses their bright scarlet high spikes of showy flowers in dainty tones of rose-pink, blues and whites of unsurpassed purity, make them one of the most prominent features of the garden.

They usually last in bloom from four to five weeks, which can be prolonged by pinching out the flowers as soon as they fade. As cut flowers for house decoration they are invaluable, having surprising lasting qualities.

We offer strong plants that will bloom this season.

**Single Canterbury Bells.** (Campanula Medium). We offer this fine old favorite, which we illustrate on the plate opposite, in rose-pink, blue and white.

**Cup and Saucer Canterbury Bells.** (Campanula Medium Calycantha.) We can supply this type in rose-pink, blue and white.

**Price.** 25 cts. each; $2.50 per doz.; $15.00 per 100.

CHELONE (Shell Flower)

Stately and handsome perennials, growing about 2 feet high, and bearing numerous spikes of large flower heads during the summer and fall.

**Glabra alba.** Terminal spikes of creamy white flowers.

**Lyoni.** Heads of showy purplish-red flowers. 25 cts. each; $2.50 per doz.; $15.00 per 100.

DREER'S GARDEN

CHRYSANTHEMUMS

These are now universally popular for outdoor bedding, and, considering their many good qualities, there is no cause for surprise to see them cultivated so extensively. They produce a lavish profusion of blooms, giving color, life and beauty to the garden just at a time when other plants have been destroyed by frost and are looking their worst. Frost does not materially affect the flowering, and it still frequently happens that an armful of flowers can be cut late in November. They are quite hardy if planted in a well-drained position, and, with a good covering of leaves or litter during the winter, will take care of themselves.

The constantly increasing demand has induced us to try out an extensive collection, from which we have selected and offer the twenty-five most dependable varieties.

Baby. Clear, bright yellow, very small button.

Baldwin's Scarlet. Bright orange-scarlet, free and early, large button.

Beth. Early aster-flowered, claret-red.

Doris. Large button of a deep bronze-red.

Etoile d'Or. Aster-flowered, yellow.

Fairy Queen. A beautiful pink of medium size.

Globe d'Or. Lemon-yellow, with darker shadings, aster-flowered.

Golden Climax. Golden-yellow, button.

Iva. Very small, deep bronze button.

Lilian Doty. Large tall growing incurved pink.

Little Dot. Very early, small mahogany-crimson.

Lucifer. Large bright ox-blood red.

Minta. An exquisite, delicate pink, medium sized, button form.

Mme. D. L'Argentage. Blush white, aster form.

Model of Perfection. Perfect button form, white.

Mrs. F. H. Bergen. Creamy-white, with rosy-pink centre.

Mrs. Roberts. A splendid pink.

Rosaline. Large button-formed, blush-rose.

Skibo. One of the earliest buttons, opens bronze and passes to yellow.

Soleil d'Or. A fine golden-yellow.

Viola. Large button, violet-red.

White Countess. Early white, aster-flowered.

White Doty. The counterpart of Lilian Doty, but pure white.

Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

OLD-FASHIONED LARGE-FLOWERING HARDY CHRYSANTHEMUMS

We offer below 5 good large-flowering varieties, which have proved absolutely hardy in this latitude, having withstood a number of severe winters without injury, and which will be found useful for garden decoration.

Autumn Glow. Rose-crimson.

Indian. Indian-red.

Golden Queen. Yellow.

Old Homestead. Pink.

Victory. White.

20 cts. each; $2.00 per doz.; $12.00 per 100; The set of 5 for 75 cts.

HARDY CHRYSANTHEMUMS (Shasta Daisy, Etc.)

Arcticum (The Arctic Daisy). Among fall-flowering perennials, this is a perfect gem. It forms an attractive rosette-like clump of pretty dark-green foliage, and in September multitudes of flower stems appear, terminated by pure white flowers from 2 to 2½ inches in diameter. These begin to develop during the last week in September, and continue in good condition throughout October, and frequently into November.

Nipponicum. A Japanese species, grows 2 feet high with thick foliage, and large, pure white flowers in September and October.

Shasta Daisy "Alaska." A decided improvement on the original; with blooms 4½ to 6 inches across, of pure glistening white. Very free-flowering and in bloom all summer and fall. (See cut.)

Price, any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.
CIMICIFUGA (Snake Root)
Acerina or Japonica. A pretty Japanese variety with white flowers; August and September; excellent for cutting; 2½ feet.
Dahurica. Large cylindrical spikes of creamy-white flowers in September; 3½ feet.
Racemosa. A handsome native species bearing in July and August spikes of pure white flowers; well suited for planting at the back of the border, or for naturalizing at the edge of the woods; 4 to 6 feet.
Price. 35 cts. each; $2.50 per doz. Set of 3 sorts for $1.00.

SHRUBBY CLEMATIS
This type of Clematis forms erect bushes 2 to 3 feet high, and during their long period of bloom are very attractive.

Heracleaefolia. Tubular bell-shaped fragrant flowers of lavender blue; Aug. and Sept. 25 cts. each; $2.50 per doz.
Recta. Handsome pure white flowers in very large, showy clusters during June and July. 25 cts. each; $2.50 per doz.

CONVALLARIA (Lily of the Valley)
Majalis. This is often starved and neglected, and relegated to a poor, out-of-the-way corner; but this popular and fragrant subject, like most other plants, repays for being well treated, and if the bed is given a liberal top-dressing of well-decayed manure in fall or early spring it will show the effect by increased size, number and vigor of the flowers. The stock we offer is strong clumps, especially suited for out door planting, which should be done before the end of April. 50 cts. each; $5.00 per doz.

CORONILLA (Crown Vetch)
Varia. A rampant creeper, with handsome globular heads of showy bright, pink and white Sweet pea-shaped flowers; a useful plant for covering rough banks or for the rockery. 25 cts. each; $2.50 per doz.; $15.00 per 100.

COREOPSIS
Lanceolata grandiflora. One of the most popular hardy plants. The flowers are a rich, golden-yellow, of graceful form and invaluable for cutting; the main crop comes during the latter part of June, but it continues in bloom the entire summer and autumn. It succeeds everywhere; 2 to 3 feet.
Rosea. Finely-divided, dark-green foliage, bearing in August and September numerous small pink flowers; useful in border or rockery; 1 foot.
Verticillata. Masses of small golden-yellow flowers in July and August, on neat plants with finely divided foliage.
Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

DIANTHUS (Pinks)
Deltoides (Maiden Pink). A charming creeping variety, with medium-sized pink flowers in June and July; especially suited for the rock garden.
— Alba. A pretty white-flowered form.
Latifolius atrooccineus Fl. Pl. (Ever-blooming Hybrid Sweet William). A beautiful summer bedding variety, producing masses of brilliant fiery crimson double flowers throughout the entire season.
25 cts. each; $2.50 per doz.; $15.00 per 100.
See also Hardy Garden Pinks, page 191, and Sweet William, page 198.

DICTAMNUS (Gas Plant)
A very showy border perennial, forming a bush about 2½ feet in height, having fragrant foliage and spikes of curious flowers during June and July, giving off on warm, sultry evenings a fragrant volatile oil, which ignites when a match is applied to the stem directly under the head of the flowers. They require a heavy, strong soil, and an open sunny position. It is not advisable to transplant often, as they improve with age, it being one of the most permanent features of the hardy herbaceous border. Instances are known where this plant has outlived father, son and grandson in the same spot. (See cut.)
Fraxinella. Showy rosy-pink flowers, with deeper veins.
— Alba. Pure white.
Price, either of the above, 35 cts. each; $3.50 per doz.; $18.00 per 100.
DELPHINIUMS or

HARDY LARKSPURS

Mrs. Ely, author of "A Woman's Hardy Garden," says:

"Perennial Larkspur may be planted as soon as the spring has opened. The ground should be well drained and carefully prepared, but manure must not be allowed to come in contact with the roots, or grubs are apt to destroy the plants. A little finely ground bone meal dug around each plant early in May will be of benefit, and in late autumn coal-ashes should be sifted over the crowns of the plants to protect them from the white grubs, which is their only enemy. The stalks being very tender, the plants should be staked when they are about three feet high, to protect them from heavy wind. Larkspur begins to bloom about June 20th, and by cutting off the plants close to the ground, as soon as each crop of flowers has faded, a second and third crop of flowers will succeed. Each time the plants are cut a little bone meal should be dug about them."

**Belladonna.** The freest and most continuous blooming of all, never being out of flower from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equalled for delicacy and beauty by any other flower.

**Chinense.** A very pretty dwarf species, with fine feathery foliage and intense gentian-blue flowers in open panicles.

— **Album.** A pure white form of the above.

**Formosum.** The old favorite dark blue with white centre; 3 to 4 feet high. Very vigorous, and one of the best.

**Dreer’s Gold Medal Hybrids.** Unquestionably the finest strain of mixed hybrids offered. The original stock came from England, and consisted of the best-named varieties. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long, the majority running in the lighter shades of blue. We can supply them in mixture only.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

**DIELYTRA, OR DICENTRA**

**Formosa (Plumy Bleeding Heart).** A species, with finely cut ornamental foliage, growing about 15 inches high, and producing its showy pink flowers from April to August. 25 cts. each; $2.50 per doz.

**DIGITALIS (Foxglove)**

The Foxgloves, old-fashioned, dignified and stately, are wholesome company in any garden. The strong flower stalks—frequently 4 to 6 feet high—rising from rich and luxuriant masses of leaves, always give an appearance of strength to the hardy border, and during their period of flowering dominate the whole garden.

**Gloxiniae-flowered.** A beautiful strain of finely-spotted varieties.

**Ambigua, or Grandiflora.** Showy flowers of pale yellow, veined brown; 2 to 3 feet.

**Lanata.** A distinct species, producing dense spikes, 2 to 3 feet high, of odd-looking flowers, the corollas being gray, the lip creamy-white.

25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 5 colors, $1.00.
EUPATORIUM

Ageratoideae (Thoroughwort). A useful border plant of strong, free growth, 3 to 3½ feet high, with minute white flowers in dense heads; splendid for cutting; August and September.

Celestium. A pretty hardy plant, with light blue flowers similar to the Ageratum; in flower from August until frost. 18 to 24 inches.

Fraseri. Very large corymbs of pure white flowers late in September and October. 3 feet.

Purpureum Flaculatum (Joe Pye Weed). A deeply colored form of the purple Joe Pye Weed, a common native plant; useful in low ground. 25 cts. each; $2.50 per doz.; $15.00 per 100.

EUPHORBIA (Milk Wort)

Corollata (Flowering Spurge). A most showy and useful native plant, growing about 18 inches high and bearing from June to August umbels of pure white flowers, with a small green eye; desirable for cutting.

Cyparissias. Grows from 10 to 12 inches high, and forms neat clumps with Cypress-like foliage, and during the month of May showy trusses of bright yellow flower-like bracts; very effective even when out of bloom. 25 cts. each; $2.50 per doz.; $15.00 per 100.

FERULA (Giant Fennel)

Communis. A noble, hardy herbaceous plant, growing 8 to 10 feet high, with fine feathery foliage. Valuable for its tropical effect when planted as an individual specimen. 50 cts. each; $5.00 per doz.

LITTLE GEM FEVERFEW

(Matricaria) A most useful border plant and valuable summer cut flower, with large double-white flowers; June until October; 18 to 24 inches high. 25 cts. each; $2.50 per doz.; $15.00 per 100.

ERYNGIUM (Sea Holly)

Handsome ornamental plants, growing from 2 to 3 feet high. Effective in flower and shrubbery border, woodlands, wild gardens, etc.; the flower heads, which are produced from July to September, are useful to cut for vases or to dry for winter bouquets.

Amethystinum. The finely-cupped, pinnate foliage and the beautiful thistle-like heads are of glistening amethystine-blue. A most ornamental plant. (See cut.) 35 cts. each; $3.50 per doz.

DREER'S CANTERBURY BELLS

We offer strong plants of these that will bloom this season. See pages 170 and 171.
CHOICE HARDY FERNS

Suitable positions for Hardy Ferns are to be found in almost every garden. With few exceptions they do best in a shady or semi-shady position in rich well-drained soil, where they can be liberally supplied with water during dry weather. Where the soil is stiff or clayey, incorporate a liberal quantity of leaf-mould, peat or other loose material to make it friable.

Varieties marked * require a shady position. Those marked † succeed in the sun or half-shade. We give after each variety the average height of growth in inches.

*Adiantum Pedatum (Hardy Maidenhair). 8 to 12 in.
*Aspidium Acrostichoides (Wood Fern). 12 in.
* — Marginale (Evergreen Wood Fern). 12 to 24 in.
* — Goldianum (Shield Fern). 24 to 36 in.
* — Spinoiilum. 12 to 15 in.
*Asplenium Filix-femina. 10 to 12 in.
* — — — — Victoria. 12 to 15 in.
† — Multidium. 12 to 15 in.
* — — — — Plumosa. 12 to 15 in.
* — — — — Pulcherrimum. 12 to 15 in.
* — — — — Setigerum. 15 to 18 in.
* — — — Craci Laciniatum. 15 to 18 in.
* — — — Goringianum Pictum. 10 to 15 in.
* — Thelypteris. 15 to 18 in.
† Dicksonia Punctilobula (Gossamer Fern). 24 to 36 in.

Price, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 25 sorts, $5.00.

FUNKIA (Plantain Lily)
The Plantain Lilies are among the easiest plants to manage; their broad massive foliage makes them attractive subjects for the border even when not in flower. They succeed equally well in sun or shade.

Coerulea. Blue, broad green leaves; June; 4 feet.

Minor Alba. This is a perfect little gem, growing from 12 to 15 inches high with nice clean cut, green foliage and comparatively large pure white flowers, suggesting a giant form of the St. Bruno's Lily; these are produced very freely during July.

Lanceolata. Valuable by reason of its late flowering, lilac flowers in September; 2 feet.

Robusta elegans variegata. The most robust of all the variegated-leaved varieties; foliage large, green, with pretty white variegations; July; 2½ feet.

Subcordata Grandiflora. Very large, pure white, lily-shaped, fragrant flowers in August and September; 2½ to 3 feet. 35 cts. each; $3.50 per doz.; $20.00 per 100.

Undulated media picta. Green and white variegated foliage; purple flowers. Makes a fine edging; July; 2 feet.

Price, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 6 varieties for $1.50.
**GAILLARDIA** (Blanket Flower)

**Grandiflora.** One of the showiest hardy plants, growing about 2 feet high and succeeding in any soil in a sunny position; beginning to flower in June; they continue the entire season. The large flowers are of gorgeous coloring. The center is dark-red brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower; excellent for cutting. (See cut.) $2.50 per doz.; $15.00 per 100.

**GENTIANA**

**Andrewsii (Blue Gentian).** A pretty native species, growing about 2 feet high; flowers fine blue; in August. 25 cts. each; $2.50 per doz.

**GERANIUM** (Crane’s Bill)

**Nepalense.** Bright rose flowers in June; 1 foot.

**Platypetalum.** Large rosy-purple flowers in June; 3 feet.

**Coccineum.** A desirable plant; with pretty cut foliage and bright crimson flowers; blooms the entire season; 18 inches.

— **Album.** Pure white variety of above.

**Price.** 25 cts. each; $2.50 per doz. Set of 4 sorts, 85 cts.

**GEUM** (Avens)

Pretty border plants, growing about 15 inches high; and producing showy, bright-colored flowers from May to July.

**Coccineum.** Brilliant scarlet flowers.

**Heldreichi.** Rich orange colored flowers, very free.

**Miniatum, Perry’s Variety.** A splendid improvement on this brilliant rich orange-colored variety, and one of the earliest perennials to flower in spring. 50 cts. each.

**Mrs. Bradshaw.** Large double brilliant scarlet; in flower throughout the entire summer.

**Price, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100.**

**GILLENIA** (Bowman’s Root)

**Trifoliata.** A strong-growing perennial; admirable for the border or for use in connection with shrubs, with handsome trifoliate foliage and numerous white flowers, tinged with pink; July; 3 feet. 25 cts. each; $2.50 per doz.

**GLECHOMA, OR NEPETA**

**Variegata** (Variegated Groundsel, or Ground Ivy.) A most useful variegated creeper for growing over banks and stones in the rockery. 20 cts. each; $2.00 per doz.; $12.00 per 100.

**GYPSOPHILA** (Baby’s Breath)

The Gypsophillas will thrive in any soil in a sunny position, and on account of their gracefully arranged large panicles of minute flowers should be in every garden.

**Paniculata.** A beautiful old-fashioned plant, possessing a grace not found in any other perennial. When in bloom during July and August it forms a symmetrical mass 2 to 3 feet in height, and as much through, of minute pure white flowers, forming a beautiful gauze-like appearance. When cut it is exquisite in combination with other flowers. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Repens.** An elegant trailing plant for the rockery, with clouds of small white flowers in July and August. 25 cts. each; $2.50 per doz.

**PLANS OF HARDY BORDERS**

We have a leaflet showing several plans of Hardy Borders and list of plants to fill same. Copy free on request.
**Hardy Ornamental Grasses**

The ornamental grasses can be used with telling effect in borders, large beds, or by the margin of ponds and lakes. They are often used with small shrubs and medium-sized trees in wide borders. The Eulalias, planted singly on lawns where the soil is deep and rich, take care of themselves, and grow rapidly into large specimens. In large, round beds, with ornamental Grasses as the principal feature, the effect is heightened by the addition of such plants as Cannas or dwarfer flowering plants near the margin.

**Arrhenatherum bulbosum variegatum.** A pretty dwarf tufted Grass; leaves green and white; 6 to 8 inches. 25 cts. each; $2.50 per doz.

**Elymus Glauces (Blue Lyme Grass).** A handsome Grass, with narrow glaucous silvery foliage; well adapted for the border or the edge of beds containing taller sorts; 2 feet. 35 cts. each; $3.50 per doz.

**Erianthus Ravennae (Plume Grass or Hardy Pampas).** Grows from 10 to 12 feet high, frequently throwing up from 30 to 50 flower spikes. It closely resembles the Pampas Grass. 25 cts. each; $2.50 per doz; clumps, 50 cts. each.

**Eulalia Gracillima Univittata (Japau Rush).** Of graceful habit, with very narrow foliage; of a bright green color, with a silvery midrib; 6 to 7 feet. 25 cts. each; $2.50 per doz.; clumps, 50 cts. each.

**Eulalia Japonica.** Has long narrow, graceful green foliage, and when in flower the attractive plumes are 6 to 7 feet high. 25 cts. each; $2.50 per doz.; clumps, 50 cts. each.

**Eulalia Japonica Variegata.** Very ornamental; long, narrow leaves, striped green, white and often pink or yellow. 25 cts. each; $2.50 per doz.; clumps, 50 cts. each.

**Eulalia Japonica Zebrina (Zebra Grass).** The long blades of this variety are marked with broad yellow bands across the leaf. It makes a very attractive specimen plant for the lawn; 6 to 7 feet. 25 cts. each; $2.50 per doz.; clumps, 50 cts. each.

**Eulalia Japonica Zebrina Stricta.** A more erect-growing form of the Zebra Grass, with the transverse variegation of green and yellow appearing more pronounced; a desirable addition; 6 to 7 feet. 25 cts. each; $3.50 per doz.; clumps, 50 cts. each.

---

**Omninental Grass, Eulalia Japonica Zebrina**

**Festuca Glauca (Blue Fescue).** A pretty dwarf tufted Grass, with glaucous foliage; 8 to 10 inches. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Gynerium Argenteum (Pampas Grass).** One of the most effective. Its silvery plumes are produced on stems 8 to 10 feet high. Well established plants can remain in the open ground if protected. Strong, heavy pot-grown specimens $1.00 each.

**Pennisetum Japonicum (Hardy Fountain Grass).** This variety grows about 4 feet high, foliage narrow, of a bright green, while the cylindrical flower heads, carried well above the foliage, are tinged with bronze purple, one of the most valuable hardy grasses. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Phalaris Arundinacea Variegata (Variegated Ribbon Grass or Gardener’s Garters).** Large variegated foliage; an excellent grass for bordering large beds; 12 to 15 inches. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Uniola Latifolia (Spike Grass).** One of the finest of our native Grasses; 3 to 4 feet high, with very ornamental flat heads in graceful drooping panicles. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**HELENUM (Sneeze Wort)**

All of these are desirable border plants, succeeding in any soil in a sunny location, with broad-spreading heads of flowers, useful for cutting, each species covering a long-blooming season.

**Autumnale Superbum.** Golden-yellow flowers during the late summer and fall months; 5 to 6 feet.

—Rubrum. New bright terra-cotta red variety; August and September; 4 feet.

**Hoopeii.** Pure orange-yellow flowers, 2½ inches across, and the earliest to flower, coming in early in June and continuing throughout the summer; 2 feet.

**Riverton Beauty.** Rich lemon-yellow, with large purplish-black cone; August and September; 4 feet.

**Riverton Gem.** Old gold, changing to wallflower red.

**Price.** 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 5 sorts, $1.00.
HELIANTHUS
(Hardy Sunflowers)

The perennial Sunflowers are among the most effective hardy plants for large borders for planting among shrubbery, or as clumps on the lawn. They are remarkably free flowering, will succeed in any soil, and are invaluable for decorative purposes, or as cut flowers during the summer and autumn.

Angustifolius. Bright yellow medium-sized flowers; August and September; 3 to 4 feet.

Giganteus. A native variety, with medium sized bright canary-yellow flowers in September and October; 6 feet.

Maximiliani. The latest of all, perfecting its fine golden-yellow flowers in long, graceful sprays during October, when all others have finished flowering; invaluable for cutting; 5 to 7 feet.

Mollis. Large, single lemon-yellow flowers with dowdy white foliage; blooms in August and September; 4 feet.

Multiflorus Fl. Pl. (Double Hardy Sunflower). Large, double Dahlia-like golden-yellow flowers in great profusion during July and August; 4 feet. (See cut.)

Orgyalis. A tall variety, 6 feet high, with medium-sized single golden-yellow flowers during September.

Rigidus Japonicus. One of the most desirable varieties, beginning to bloom early in July and continuing until fall; flowers golden-yellow, with dark centres; 5 feet.

Woolley Dod. The best of the September-flowering varieties, with deep yellow flowers; entirely distinct; 6 feet.

Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 8 sorts for $1.75.

HEPATICA (Liver Leaf)

Trioba. A pretty native spring-flowering plant, with pretty blue flowers. 25 cts. each; $2.50 per doz.

HELIANTHEMUM (Rock, or Sun Rose)

Exceedingly pretty low-growing evergreen plants, forming broad clumps, and which during their flowering season, July to September, are quite hidden by a mass of bloom; well adapted for the front of the border, the rockery, or a dry, sunny bank. Choice mixed varieties, 25 cts. each; $2.50 per doz.

HELIOPSIS (Orange Sunflower)

Similar in general habit to Helianthus, but commencing to flower earlier in the season; July and August; of dwarfer habit, rarely exceeding 3 feet in height; very valuable for cutting.

Pitcheriana. A desirable variety. The flowers are of a beautiful deep golden-yellow, about two inches in diameter, of very thick texture and a useful cut flower.

Pitcheriana Semi-plena. A semi-double form of the above.

Scabra Excelsa. A new variety with very rich chrome-yellow flowers, turning to a bright yellow as they mature. These are almost double, having from 4 to 5 rows of petals, and are produced very profusely. The plant is of robust growth, about 3 feet high, and from mid-July to the end of August makes an effective display.

Scabra Zinnieflora. A double-flowering form of the Orange Sunflower, growing about 24 inches high, and producing golden-yellow flowers closely resembling a Zinnia in form; desirable for cutting. (See cut.)

Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 4 varieties for 85 cts.

DREER'S CANTERBURY BELLS

We have a splendid lot of these this season. See pages 170 and 171.
HEUCHERA (Alum Root, or Coral Bells)

Most desirable dwarf, compact, bushy plants of robust constitution and easy culture, growing 1½ to 2 feet high, and bearing during July and August loose, graceful spikes of flowers in the greatest profusion; excellent subjects either for the border or rockery, and of great value for cutting.

Gracillima. A very free-flowering rosy-pink.

Lady Greenall. The most brilliant rich crimson-scarlet variety yet introduced. 50 cts. each; $5.00 per doz.

Sanguinea. Bright coral-red.

— Alba. Creamy-white.

Virginal. Creamy-white.

Price, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 5 sorts for $1.25.

HIBISCUS (Mallow)

A desirable border plant, succeeding in any sunny position, but doing best in a damp place; grows 3 to 5 feet high, with large foliage and large, showy flowers of delicate coloring, produced during the entire summer.

Mallow Marvels. A robust type of upright habit, producing an abundance of flowers of enormous size in all the richest shades of crimson, pink and white; mixed colors.

Moscheutos (Swamp Rose Mallow). Flowers 6 inches in diameter; of a light rosy-red color, with darker eye.

— "Crimson Eye." Flowers of immense size, of the purest white, with a large spot of deep velvety crimson in the centre. 25 cts. each; $2.50 per doz.; $15.00 per 100.

New Giant-flowering Marshmallows or Hibiscus

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow, in which not only the colors have been greatly intensified, but in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. These plants can be highly recommended for all kinds of plantings. They appear to be equally at home in all positions, having the same vigor in dry and wet ground and are perfectly hardy. They grow from 5 to 8 feet high, and are very floriferous, blooming from early in July until late in September. We offer three distinct colors—Red, Pink and White—in strong two-year-old roots, 25 cts. each; $3.50 per doz.; $25.00 per 100. One each of the three colors for $1.00.

HEMEROCALLIS (Yellow Day Lily)

Popular hardy plants belonging to the Lily family. They succeed everywhere, and should always be included in the border of old-fashioned hardy plants.

Aurantiaca. Large, trumpet-shaped, pleasing neutral orange color, tube, stamens and reverse of petals bright Indian-yellow, sweet scented, 3 to 4 feet high; June and July. 35 cts. each; $3.50 per doz.

Dumortieri. Very dwarf; 18 inches; flowering in June; rich cadmium-yellow; buds and reverse of petals bronze-yellow.

Flava (Yellow Day Lily). The best known variety; very fragrant; deep lemon-yellow flowers in June and July; height, 2½ to 3 feet.

Florham. A strong grower, 3 to 2½ feet high, large trumpet-shaped flowers; rich, golden-yellow, with Indian-yellow markings; June and July. 35 cts. each; $3.50 per doz.

Fulva (Tawny Day Lily). Grows from 4 to 5 feet high, with trumpet-shaped flowers of a neutral orange color with darker shadings; June and July.

Gold Dust. Of a bright Indian-yellow color; buds and reverse of petals bronze-gold; 2½ feet high; May and June.

Kwanso Fl. Pl. Large double orange flowers with darker shadings; July and August; 4 to 5 feet.

Luteola. Bright golden-yellow with Indian-yellow shadings; June and July. 35 cts. each; $3.50 per doz.

Thunbergii. The latest to flower; rich butter-cup yellow, funnel-shaped flowers throughout July.; 4 feet.

Price. Any of the above, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 9 varieties, $2.25.

DREER'S CANTERBURY BELLS

We have a splendid stock of these this season in very strong plants that will bloom freely this year. For description and price see page 170.
DREER'S SUPERB HOLLYHOCKS

Stately, majestic, hardy plants, from 6 to 8 feet high, which are a necessary part of every old-fashioned garden, and should also find a place interspersed with shrubbery, as clumps on the lawn or in the mixed border, where their colossal spikes of bloom produce bold and showy effects, which cannot be secured with any other flowering plant.

The Hollyhock requires a deeply dug, well-drained soil, enriched with thoroughly decayed manure, and should be liberally supplied with water during dry weather. A slight protection throughout the winter will be beneficial. An occasional spraying with Bordeaux mixture, which should be applied early in the growing season, usually prevents the disease, which is prevalent in some localities. We offer the best Double, Fringed and Single sorts as under:

**Double White Double Yellow Double Maroon Double Rose Double Red Double Mixed**

**Newport Pink.** A charming variety, for which we were awarded a certificate of merit by the Royal Horticultural Society of England. It is of strong, vigorous habit, producing colossal spikes of very double pure pink flowers, a shade that is eagerly sought for in all classes of plants.

**Allegheny.** Mammoth flowers, wonderfully formed of loosely arranged fringed petals. The colors vary from the palest shrimp-pink to deep red. Mixed colors.

**Single.** Many prefer the single-flowering Hollyhocks. They are usually of freer growth than the doubles, and present a very handsome appearance when covered with their artistic blossoms. We can supply in mixed colors only.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

**HOUSTONIA (Bluets, Quaker Lady or Innocence)**

**Serpyllifolia.** A low creeper, best adapted to grow on a rockery in moist situation; where it forms broad carpets of foliage, which in very early spring is hidden beneath a cloud of small but showy light-blue flowers. One of the earliest spring flowers. 25 cts. each; $2.50 per doz.

**IBERIS (Hardy Candytuft)**

**Sempervirens.** Most desirable dwarf plants (8 to 10 inches), with evergreen foliage, which is completely hidden with dense heads of pure white flowers early in the spring. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**HYPERICUM (St. John's-wort)**

**Adpressum.** A native variety, growing in dense masses, which makes it useful as a ground cover, particularly in damp places; 6 to 8 inches.

**Moserianum.** A most desirable border plant, of free and graceful habit, producing long, slender, much-branched stems, leafy to the base and all drooping towards the ends, apparently from the weight of the flowers and buds, although the flowers face, so none of their beauty is lost. It is marvelously free-flowering, of large size, measuring from 2 to 2½ inches in diameter; in color a rich golden yellow, which is rendered still more effective by the numerous yellow stamens and crimson anthers, and blooms continuously the entire season; 2 feet.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**INULA (Flea Bane)**

Effective free-flowering plants, blooming from June to August.

**Ensifolia.** Very free-flowering, light yellow; 18 inches.

**Montana.** Very free flowering; deep yellow flowers, 1½ feet.

**Oculus Christi.** Large golden flowers, with dark centres; 2 feet.

25 cts. each; $2.50 per doz.
Superb New Iris Germanica

A splendid collection of the latest introductions, embracing not only new colors, but improved forms.

King of Iris. A striking novelty, with flowers of perfect form, the standards clear lemon color, falls deep satiny-brown, with a broad border of golden-yellow.

Lohengrin. Foliage and flowers of gigantic size, with petals 2 inches wide, of a deep violet-mauve.

Loreley. Perfect-shaped flowers, falls of a deep ultramarine-blue, more or less veined with creamy-white and bordered sulphur-yellow, making a beautiful contrast.

Mithras. Flowers of good size, standards pale yellow, falls violet, shaded with claret and yellow border.

Nibelungen. Standards fawn-yellow, falls violet-blue, with fawn margin; distinct and pretty.

Princess Victoria Louise. Standards pure sulphur-yellow, falls rich plum color, with cream-colored edges.

Price. Any of the above 50 cts. each; $5.00 per doz. Set of the 6 sorts, a fine collection, $2.50.

Special attention is directed to the offer of the Two Great Golden-Yellow and Royal Purple Iris Germanica on opposite page.

GENERAL COLLECTION OF DREER’S RAINBOW IRIS GERMANICA

The Iris Germanica are among the most desirable and easiest grown of our spring-flowering hardy-plants, producing in May their showy flowers of exquisite coloring, combining the richest and most delicate tints. For best results plant in a well-drained, sunny position, barely covering the roots. Avoid fresh manure in preparing your border.

Othello. Standards violet-blue; falls deeper with white markings.

Palida Dalmatica. One of the finest of the Germanica type, of strong vigorous habit, growing in good soil 4 feet high, with exceptionally large, fragrant flowers; standards lavender, falls lavender shaded blue; exquisite in every way and fine for massing. 30 cts. each; $3.00 per doz.

Palida Mandraliscæ. Rich lavender-purple, large and handsome; very early. 30 cts. each; $3.00 per doz.

Palida Speciosa. Standards dark-lavender with lighter shadings; falls shaded light purple. 30 cts. each; $3.00 per doz.

Plicata. Standards and falls bright violet-purple.

Plumeri. Standards rose-mauve, with metallic sheen; falls vinous-mauve.

Rembrandt. Standards light lavender, falls deeper.

Shakespeare. Standards straw-yellow; veined with burnt amber; falls deep carmine-violet.

Trautlieb. A most pleasing shade of rosy-lilac.

Velveteen. Standards canary yellow; falls creamy white, heavily veined with purplish-maroon.

IRIS GERMANICA MIXED VARIETIES

15 cts. each; $1.50 per doz.; $10.00 per 100.

NOTE.—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent, to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
Two Great Iris Germanica

In Golden Yellow and Royal Purple

Golden Yellow (Sherwin-Wright). In this grand novelty we have what has long been wanted, a good vigorous growing, free-flowering, golden yellow Iris Germanicas, the few yellow sorts now in commerce being deficient in these important characteristics. The plants grow about two feet high; the flowers, which are produced in lavish profusion, are of splendid texture and stand well above the foliage, and are of a rich golden yellow without markings or shadings. (See cut).

Royal Purple (Atropurpurea). A splendid, large, very free-flowering, pure, rich royal-purple, without the slightest shadings, a splendid companion to plant with Sherwin-Wright, the rich purple of Atropurpurea with the golden yellow of Sherwin-Wright forming a beautiful color combination.

Price. Either of the above, 50 cts. each; $5.00 per doz.; $35.00 per 100.

IRIS INTERREGNA

An interesting new type, for which there promises to be a great future. They bloom earlier than the German Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are about 18 inches high, holding the flowers well above the foliage.

Gerda. Standards creamy yellow, falls darker veined yellow.

Heige. Light citron with pearl colored centre.

Ingeborg. Pure white, flowers 5 inches deep, with petals 2 inches wide. A grand flower.

Walhalla. Standards light lavender-blue, falls satiny violet-blue.

25 cts. each; $2.50 per doz. Set of 5 varieties for $1.00.

GOLDEN YELLOW GERMAN IRIS SHERWIN-WRIGHT

VARIOUS IRIS

We offer below some of the very finest species and varieties.

Cristata. A dainty native species 3 inches high, rich amethyst-blue; May. 25 cts. each; $2.50 per doz.; $15.00 per 100.

Gracilipes. A variety from Japan, growing about 8 inches high, which when established produces in May masses of delicate lilac-shaded flowers which are much admired. 25 cts. each; $2.50 per doz.

Kempferi (Japanese Iris.) See page 184.

Pumila Coerulea. Rich blue-blue, the earliest to bloom, forms dense, compact clumps covered with bloom. 20 cts. each; $2.00 per doz.; $12.00 per 100.

— Excelsa. A splendid pale lemon-yellow.

— The Bride. A large, showy, pure white.

25 cts. each; $2.50 per doz. One each of 3 sorts for 65 cts.

Pseudacorus. The common yellow Water Flag, suitable for marshes and water courses. May and June, 4 feet. 25 cts. each; $2.50 per doz.; $15.00 per 100.

Sibirica. Purplish-blue flowers on slender scapes 3 feet high; useful for cutting. 25 cts. each; $2.50 per doz.; $15.00 per 100.

— Orientals. Rich, violet-blue; very free and one of the best. June, 3½ feet. 25 cts. each; $2.50 per doz.; $15.00 per 100.

— Snow Queen. A variety of great merit; forms an attractive plant, flowers snowy white. 25 cts. each; $2.50 per doz.; $15.00 per 100.

NOTE—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
The improved forms of this beautiful flower have placed them in the same rank popularly as the Hardy Phloxes and Peonies. Coming into flower about the middle of June, and continuing for five or six weeks, they fill in a period when flowers of this attractive type are particularly welcome.

They succeed in almost any soil and position, but like rich soil and plenty of water when they are forming their buds and developing their flowers.

Valuable as cut flowers, for which purpose they should be cut in the bud state, permitting the blooms to expand after being placed in water.

Order by name or number

No. 2 Tora-odor. Pure white, faintly traced with violet.
4 Yomo-no-umi. A fine free-flowering early creamy-white, 6 petals.
10 Shiga-no-ura-nami. Violet-purple, veined with white, 6 petals.
11 Hano-no-nashi. Bright violet, white veining.
18 Meiran. Light ground, marbled and veined with light violet.
22 Sano-wataschi. Large mid-season, pure white, 6 petals.
31 Rinho. Rich, lively purple, with white veining, 6 petals.
39 Fuki-yose. Light ground color, marbled with aniline-blue, 6 petals.

43 Shi-un-ryo. Greyish-white, deeply and densely veined and suffused with violet.
55 Shuchiukwa. Crimson-purple, with large white veins and centre.
60 Kagaribi. Silvery-white, traced and marbled ultramarine-blue, 6 petals.
62 Misutmoshi. Violet-purple, marbled with white.
69 Waku-hotel. Pure white, veined throughout with purple, 6 petals.
72 Uji-no-hotaru. Bright violet-purple, shaded with blue, 6 petals.
83 Washi-no-wo. Mottled violet-purple, shading to bright violet in centre.
86 Sei-o-bo. Pure white, occasionally marked with bright violet-purple.
98 Hizakura. Light violet, with blue shadings, very double, 6 to 9 petals.
97 Shiro-fugen. Light ground, suffused throughout with bluish-violet, with darker veining.
99 Komanyo. Bright violet, shaded blue, with white veins and markings.
100 Vomo-zakuru. Light ground color, densely veined and suffused reddish-purple.
105 Nagano. Rich violet-purple, shaded with blue, 6 petals.
107 Tokyo. The finest pure white, 6 petals.
112 Kamata. Light ground color, densely marbled and veined with deep violet-purple.

Price. Any of the above, 35 cts. each; $3.50 per doz.; $25.00 per 100. Set of 24 sorts for $8.00.

JAPANESE IRIS IN MIXTURE

20 cts. each; $2.00 per doz.; $15.00 per 100.

LAVANDULA (Lavender)

Vera. This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August. 25 cts. each; $2.50 per doz.; $15.00 per 100.

LIATRIS (Blazing Star, or Gay Feather)

Pycoastachya. Showy and attractive native plants, succeeding anywhere, producing large spikes of light rosy-purple flowers in July and August; 5 feet.
Scarlosa. Deep crimson-purple in spikes 3 to 4 feet high.
25 cts. each; $2.50 per doz.; $15.00 per 100.

LINUM (Flax)

Perenne. A desirable plant for the border or rockery, growing 2 feet high, with light, graceful foliage and large blue flowers all summer. 25 cts. each; $2.50 per doz.; $15.00 per 100.

NOTE.—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
LYCHNIS (Campion)

All of the Lychniss are of the easiest culture, thriving in any soil, and this, in addition to their brightness, has brought them into high favor with lovers of hardy plants. Perhaps no class of plants has more common or popular names, of which the following is but a partial list: Campion, Jerusalem Cross, Lamp Flower, Maltese Cross, Ragged Robin, etc.

**Chalcedonica.** A most desirable plant, heads of brilliant orange-scarlet in June and July; grows 2 to 3 feet high. (See cut.)

**Chalcedonica alba.** A white-flowered form of above.

**Haageana.** Brilliant orange-scarlet flowers in May and June; 12 inches.

**Viscaria, Double Red.** Forms a dense tuft of evergreen foliage, and in June sends up spikes of handsome, double, deep red, fragrant flowers; 1 foot.

_**Price.** 25 cts. each; $2.50 per doz.; $15.00 per 100._

Set of 4 varieties for 85 cts.

**LYTHRUM**

**Roseum Superbum (Rose Loose-strife).** A strong-growing plant, 2 to 4 feet high, thriving in almost any position, producing large spikes of rose-colored flowers from July to September. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Roseum, Perry’s Variety.** A splendid improvement with much larger flowers and longer spikes than the type, and of a glistening cherry-red color. 25 cts. each; $3.50 per doz.

**Virgatum.** Compact habit of growth and soft rosy-purple flowers. 2 feet. 25 cts. each; $2.50 per doz.; $15.00 per 100.

LOBELIAS

Handsome border plants, thriving in any ordinary garden soil, but preferring a moist, deep loam, where they will not suffer from drought. Few plants are more effective at their season of bloom, which extends from early in August till late in September.

**Cardinalis (Cardinal Flower).** Rich, fiery, cardinal flowers; strong plants, often producing 10 to 18 spikes, 24 to 30 inches long.

**Syphilitica Hybrida (Great Lobelia).** A choice selection of our native Lobelia, producing large spikes of flowers varying from blue to pure white; July to September; 2 to 3 feet.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**LUPINUS POLYPHYLLUS** (Lupine)

Effective plants, producing large spikes of flowers; blooming in May and June. They require only well-prepared garden soil and to be kept watered in dry weather. 3 feet.

**Polyphyllus.** Clear blue. 35 cts. each; $3.50 per doz.,

— **Albus.** A white variety of above. 35 cts. each; $3.50 per doz.

— **Moerheimi.** A combination of light and dark shades of pink without a trace of magenta. 50 cts. each; $5.00 per doz.

LYSIMACHIA

**Ciliata (Fringed Loose-strife).** Yellow flowers in July. 2 feet.

**Clethroides (Loose-strife).** A fine hardy variety about 2 feet high, with long, dense, recurved spikes of pure white flowers from July to September.

**Fortunii.** A neat variety, growing about 18 inches high, with dense, upright spikes of white flowers in August.

**Nummularia (Creeping Jenny, or Moneywort).** Valuable for planting under trees or shrubs where grass will not grow, where it quickly forms a dense carpet.

**Punctata.** Yellow flowers during July and August. 2 to 3 feet.

_Price.** 25 cts. each; $2.50 per doz.; $15.00 per 100.

---

NOTE.—All Bulbs, Roots and Plants are forwarded by express, purchaser paying charges. If wanted by Parcel Post add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
MONTBRETIAS

One of the brightest of our summer-flowering bulbs, and should be set out during April or May. They should be protected during the winter with a heavy covering of leaves or litter.

- **Fire King.** Rich glowing crimson-scarlet.
- **George Davison.** A strong growing variety, with large orange-yellow flowers.
- **Golden West.** Beautiful, large well-expanded flowers of pure golden-yellow.
- **Hereward.** Pure yellow, reverse of petals orange; large flowers.
- **Lady Hamilton.** Very free flowering, yellow, centre suffused rosy-apricot.

Rheingold. A robust growing variety, with flowers of a rich golden-yellow, shading lighter towards the centre, which is marked with crimson-brown blotches.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100.

One each of the 6 sorts for $1.25.

**GENOTHERA**

(Evening Primrose)

The evening Primroses are elegant subjects for growing in an exposed sunny position, either in the border or on the rockery, blooming the greater part of the summer.

- **Missouriensis.** Large golden-yellow; 1 foot.
- **Pilgrim.** Large clusters of bright yellow flowers.
- **Speciosa.** Pure white flowers 3 inches across; 18 inches.

25 cts. each; $2.50 per doz.; $15.00 per 100.

---

**MONTBRETIAS**

**MARSHALLIA**

Trinervis. A useful plant for a shady, damp spot, of neat habit, about 15 inches high, bearing freely from June to August heads of white flowers, tinted flesh. 25 cts. each; $2.50 per doz.

**MERTENSIA (Blue Bells)**

Virginica. An early spring-flowering plant, growing about 1 to 1 1/2 feet high, with drooping panicles of handsome light blue flowers, fading to clear pink; one of the most interesting of our native spring flowers; May and June. 25 cts. each; $2.50 per doz.

**MONARDA (Bergamot)**

Showy plants growing from 2 to 3 feet high, succeeding in any soil or position, with aromatic foliage, and producing their bright flowers during July and August.

- **Didyma Cambridge Scarlet** *(Oseego Tea).* Brilliant crimson-scarlet.
  - Rosea. *(Bee Balm).* A pretty rose-colored form.
  - Salmon. Salmon-rose color, very distinct.
  - Viola. Bright amaranth red.
- **Fistulosa Alba** *(Wild Bergamot).* A white-flowered variety.

25 cts. each; $2.50 per doz.; $15.00 per 100. The set of 5 varieties $1.00.

**MYOSOTIS (Forget-Me-Not)**

Palustris Semperflorens. A variety that is hardly ever out of flower; useful in a shady spot in the border. 20 cts. each; $2.00 per doz.; $12.00 per 100.

**NEPETA (Catmint)**

Mussini. Forms a bushy plant about 18 inches high, flowers small, of a violet-purple, but produced in such masses as to make a pretty color effect during July and August. 25 cts. each; $2.50 per doz.

**NIEREMBERGIA (Cup-flower)**

Rivularis. A charming dwarf creeping Alpine plant, bearing large creamy-white, cup-shaped flowers from June till September; most desirable plants for the rockery, and succeed equally well in the border. 25 cts. each; $2.50 per doz.
Large Oriental Poppies
Papaver Orientale

These are the regal representatives of this popular genus, growing 3 to 3½ feet high, and far surpassing in splendor of bloom all the annual and biennial kinds, and for a gorgeous display of rich and brilliant coloring nothing equals them during their period of flowering in May and June, and whether planted singly or in masses their large flowers and freedom of bloom renders them conspicuous in any position. They are of the easiest culture; almost any kind of soil suits them, but they do best in deep, rich loam; set the plants out in fall or early spring before the first of May—give them water occasionally during dry spells in the early part of the season; mulch with stable litter in fall, and they will increase in size and floriferousness for several years. After flowering the plants die back, usually reappearing in early September, or as soon as the weather gets cool. During this resting period care should be taken in cultivating the beds that the roots are not disturbed, any disturbance at this time usually resulting in failure.

Goliath. Fiery scarlet.
Mahony. Dark crimson maroon, shaded mahogany.
Mrs. Perry. Salmon-rose.
Oriflamme. A large, gorgeous orange-scarlet.

Perry's White. Very distinct, pure satiny-white, with a crimson-maroon blotch at the base of each petal. 50 cts. each; $5.00 per doz.

Gerald Perry. One of the most beautiful Oriental Poppies yet raised, large flowers of a uniform shade of apricot-pink, conspicuously blotched crimson. 50 cts. each; $5.00 per doz.

Price. Any of the above, except where noted, 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 6 sorts for $1.75.

PAPAVER NUDICAULE (Iceland Poppies)
The plant is of neat habit, forming a tuft of bright green fern-like foliage, from which spring, throughout the entire season, a profusion of slender leafless stems 1 foot high, each graced with charming cup-shaped flowers. We offer them in three colors, viz., white, yellow and orange-scarlet, or in mixture. 25 cts. each; $2.50 per doz.; $15.00 per 100.

PACHYSANDRA
Terminalis. A trailing plant, 6 to 8 inches high, forming broad mats of bright green glossy foliage and small spikes of flowers during May and June; invaluable as a cover plant either in sun or shade. 20 cts. each; $2.00 per doz.; $15.00 per 100.

PARDANTHUS (Blackberry Lily)
Sinensis. Lily-like flowers of bright orange during July and August on 2½ feet high stems, followed in September with seeds which resemble blackberries; will grow and do well in any soil in a sunny location. 25 cts. each; $2.50 per doz.; $15.00 per 100.

JAPANESE SINGLE PEONIES
No other plant flowering at the same season can vie with the Single Peony for beauty, and a well-established bed, when in full bloom with the large silky flowers and appearing like immense Single Roses, is simply gorgeous.

Dragon. Brilliant deep rose-crimson; very large.

Lemon Queen. Lemon tinted white.

Nikado. Fine deep rose.

75 cts. each; one each of the three sorts for $2.00.

DOUBLE HERBACEOUS PEONIES
We offer on page 188 an exceptionally fine collection of these popular favorites.

PLANS OF HARDY BORDERS
We have prepared a leaflet showing several of these, together with list of suitable plants for sun or shade. Copy free on request.
Dreer's Fragrant Peonies

The wonderfully improved Peonies introduced in recent years are truly the "Queen of Spring Flowers," and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add attraction to all around. Their requirements are so simple—a good, rich, deep soil, and an open, sunny position; which, however, is not absolutely necessary, as they thrive almost equally as well in a partly shaded position, and a liberal supply of water during their growing season being sufficient to give an abundance and wealth of flowers, which rival the finest Roses in coloring and fragrance, and produce during their flowering season a gorgeous effect not equalled by any other flower. They are perfectly hardy, requiring no protection whatever, even in the most severe climate, and once planted increase in beauty each year.

An important point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with two inches of soil.

TWENTY FINEST HERBACEOUS PEONIES

Arthemise. Large violet-rose with light mauve shadings.
Belle Chatelaine. Delicate mauve rose with amber white collar and centre.
Mme. Boulanger. Soft lilac tinted white; of great substance. $1.00 each.
Mme. Crousse. Purest white, very large.
Mme. de Verneville. Broad sulphur-white guard petals and compact white centre, touched carmine.
Mme. de Vatry. Large compact milk-white with lilac-white guard petals.
Mme. Forel. Large deep pink, shading lighter towards the edges.
Hathilde de Roseneck. Soft flesh-pink with deeper shadings.
Meissonier. Guard petals brilliant purple red; centre deep crimson.
Reine des Fleurs. Bright violet-rose with lighter shadings, very large.

DOUBLE HERBACEOUS PEONIES

Mons. Mallet Tyrian-rose with salmon shadings.
Ne Plus Ultra. Light violet-rose with silvery reflex.
Paganini. Light soiferino-red with paler centre.
Pomponia. Rosy-mauve guard petals; primrose-yellow centre changing to white.
Princess Gallitzin. Pale pink guard petals; centre pure white.
Queen Victoria. Pure white with creamy white centre.
Roses Eiegans. Pale lilac-white with creamy white centre.
Triomphe du Nord. Light carnation-pink.
Victoire Fondeste. Bright rosy-lilac with chamois centre.
Victoire Tricolor. Bright lively violet-rose with salmon centre.

PRICE. Strong roots. 35 cts. each; $3.50 per doz.; $25.00 per 100. One each of the 20 varieties for $5.75.
20 cts. each; $2.00 per doz.; $15.00 per 100.

NOTE.—All Bulbs, Roots and Plants are forwarded by Express, purchaser paying charges. If wanted by Parcel Post add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.
DREER'S SUPERB HARDY PHLOXES.

Hardy Phloxes have long been one of our leading specialties, and we are now the largest growers in the world of this important hardy plant. We offer below a collection of the finest sorts, while on the following page will be found a very complete list of the miscellaneous species and varieties.

The following cultural notes were written especially for this book by Mrs. Ely, the author of "A Woman's Hardy Garden."

"Probably the most satisfactory of all perennials is the Phlox, and a good space in proportion to the size of the garden should always be given to these plants."

The ground where Phlox is to be planted should be trenched fully two feet in depth, and may be planted in the autumn from the 1st to the 15th of October, so that they may become well rooted before winter; otherwise it should be set out as soon as the frost leaves the ground in the spring, as growth begins very early.

Whether planted in spring or fall, a mulch of old manure thrown around the roots will be of benefit to the plants.

Phlox should be set out eighteen inches apart, and if kept well watered will produce both individual blossoms and heads of bloom far larger than otherwise, and amply repay the extra trouble.

In October, after three seasons of flowering, the Phlox should be lifted, the ground again trenched and enriched, the plants separated into bunches of three or four stalks each, and then reset.

Occasionally, in warm moist summers, the Phlox is attacked by mildew. But if upon the first sign of its appearance, the leaves of the plants are well sprinkled and afterwards plentifully dusted with powdered sulphur the disease will be arrested.

**Albion.** A strong, vigorous grower, producing very large panicles of pure white flowers with a faint red eye.

**Baron van Dedem.** Brilliant cochineal-red, with salmon shadings.

**Bridesmaid.** Pure white, with large crimson-carmine eye.

**Champs Elysee.** A bright rosy magenta; very effective.

**Crepuscule.** White with delicate mauve suffusion and rose-purple eye.

**Éclair.** Brilliant rosy-magenta, with large lighter halo.

**Elizabeth Campbell.** Very bright salmon-pink, with lighter shadings and dark red eye; one of the handsomest and most popular varieties.

**Europa.** A white variety, with a decided crimson-carmine eye. The individual flowers and trusses are very large; entirely distinct; of remarkable sturdy, erect habit.

**Frau Anton Buchner.** Pure white, with very large trusses and individual flowers.

**Griseur.** Soft mauve-rose suffused and overlaid with a lively shade of cerise. Flower and truss very large, of erect, sturdy, compact habit.

**Henry Flurger.** White with crimson-carmine centre.

**Jeanne d'Arc.** A good late-flowering pure white.

**L'Evenement.** Orange scarlet overlaid with salmon-pink.

**La Vague.** Pure mauve, with aniline red eye.

**Louise Abbema.** A very large dwarf, pure white.

**Mme. Paul Dutrie.** Delicate lilac-rose in shade like a soft pink orchid; flowers very large, borne in immense panicles.

**Price.** Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the 25 varieties, a grand collection, $5.00.

**Hardy Phlox**

**Mrs. Jenkins;** The best all round pure white. Very effective for massing; early and free bloomer.

**Pantheon.** Uniform bright carmine rose throughout; very effective and popular sort.

**Rosenberg.** Bright reddish violet; blood-red eye.

**Riverton Jewel.** One of our own introductions and a variety of great merit. It is a lovely shade of mauve-rose, illuminated by a brilliant carmine-red eye.

**Rynstrom.** A great improvement on the popular variety Pantheon; of the same carmine rose color as the Paul Neyron Rose.

**Thor.** A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow. A light, almost white halo surrounds the aniline red eye. A very effective color and becoming more popular each season.

**Viking.** One of the latest to flower, producing much branched pyramidal heads of bloom of a pleasing soft salmon-rose.

**Von Lassburg.** Pure white, individual flowers very large.

**W. C. Egan.** One of the finest Phloxes yet introduced, and while the individual flowers, according to color chart, are of a delicate lilac, illuminated by a large bright sosoferino eye, the color effect as a whole is a pleasing shade of soft pink. In habit of growth it is strong and vigorous, producing immense panicles of flowers nine inches high by seven across, and the individual flowers frequently measure 1½ inches in diameter.
PHLOX ARENSI

A new race of Hardy Phlox which originated through the successful crossing of the early flowering popular Phlox Divaricata Canadensis with the showy hardy varieties of Phlox Decussata. The plants are of vigorous, branching habit, growing according to the variety, from 12 to 24 inches high. Coming into flower during the latter part of May, they continue in good condition for nearly two months, producing a mass of flowers unknown in other types of Phlox.

Amanda. The dwarfest of the collection, growing but 12 inches high, very bushy, flowers delicate lilac with deeper centre.

Elizabeth. White, reverse of petals lilac; plants of strong branching habit; 18 inches.

Kathe. Stems loosely branched, about 20 inches high; flowers purplish-rose with a dark eye surrounded by a lighter halo.

Louise. A strong-growing variety about 2 feet high; light lilac flowers with a carmine eye.

Price. 35 cts. each; $3.50 per doz. One each of the 4 varieties for $1.25.

PHYSALIS

(Chinese Lantern Plant)

Francheti. An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet lantern-like fruits; highly interesting. 25 cts. each; $2.50 per doz.

Plans of Hardy Borders

We have prepared a leaflet showing several plans of Hardy Borders with list of plants to fill same in positions either in sun or shade. Copies free on request.
PENTSTEMON (Beard Tongue)
Most useful showy perennials, either for the border or rockery. With the exception of "Sensation," which requires protection, they are perfectly hardy.

Gloxinioides "Sensation." A beautiful strain, bearing spikes of large Gloxinia-like flowers in a great variety of bright colors, including rose, cherry, crimson, purple, lilac, etc. The plants grow 2 feet high and bloom from early summer till fall. (See cut.)

Barbatus Torreyi. Spikes of brilliant scarlet flowers; height, 3 to 4 feet; June to August.

Digitalis. Large spikes of long, purple-white flowers with purple throats, during June and July; 2 to 3 feet.

Pubescens. Bright rosy purple; July and August; 1½ feet.

Smallii. Rosy-carmine flowers in early summer; 1 foot.
25 cts. each; $2.50 per doz.; $15.00 per 100.

One each of the 5 sorts for $1.00.

PHYSOSTEGIA
(False Dragon-Head)
One of the most beautiful of our midsummer flowering perennials, forming dense bushes 4 to 6 feet high, bearing spikes of delicate tubular flowers not unlike a gigantic heather. (See cut.)

Virginica. Bright but soft pink.
— alba. Pure white; very fine.
— Speciosa. Very delicate pink,
25 cts. each; $2.50 per doz.; $15.00 per 100.

Seeds of Hardy Perennials
We offer a very extensive list of above. See Flower Seeds, pages 51 to 106.

New Perpetual-flow-ering Hardy Pinks
(Dianthus Allwoodi)
This is a most important addition to our list of perennial plants. They are perfectly hardy and flower continuously from early spring until late in the autumn; the flowers are much more substantial and larger than the old type of Hardy Pinks, and are borne on long stems suitable for cutting; deliciously clove-scented.

Harry. Pale rose-pink with light maroon centre.
Phyllis. Delicate pale pink with light maroon centre; very strongly scented.
Robert. A delicate shade of old-rose with light maroon centre; very free.

We offer strong plants of the above 50 cts. each; $5.00 per doz.; One each of the 3 sorts for $1.25.

HARDY GARDEN PINKS
Old favorites, bearing their sweet, clove-scented flowers in the greatest profusion during May and June. They are indispensable for the edge of the hardy border and for cutting. 1 foot.

Delicata. Soft delicate rose.
Elsie. Bright rose with maroon centre.
Excelsior. Light rose-pink with deeper shadings.
Her Majesty. Large pure white.
Homer. Rosy-red with dark centre.
Juliette. White-laced crimson.
White Reserve. An everblooming pure white.
Price, 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 7 sorts, $1.50.

Mixed Hardy Garden Pinks. We offer a fine lot of seedlings grown from a very select strain, which should produce a good percentage of double flowers. Those that come single are very pretty, and are preferred by some to the full, double sorts. 20 cts. each; $2.00 per doz.; $12.00 per 100.
PLATYCODON  
(Balloon Flower or Japanese Bell Flower)

The Platycodons are closely allied to the Campanulas, and form neat, branched bushes of upright habit.

Mrs. Ely says of them: "Do best if planted in early spring. They grow from 2 to 2½ feet high, and after the third season each plant will have from ten to twelve stalks covered with the lovely blue or white blossoms for nearly a month, beginning about July 10th. They are also free from attacks of insects, and if planted in good soil and well covered in late autumn with a litter of leaves or stable manure, will be found to be quite hardy."

20 cts. each; $2.00 per doz.; $12.00 per 100.

PLUMBAGO (Lead-wort)

Larpentæ. One of the most desirable border and rock plants; it is of dwarf, spreading habit, growing 6 to 8 inches high; covered with deep blue flowers during the summer and fall months. 25 cts. each; $2.50 per doz.; $15.00 per 100.

POLEMONIUM (Jacob’s Ladder)

Cœruleum. Bell-shaped bluish-purple flowers nearly 1 inch across; 2 feet; May to July.
Reptans. Useful border plants, about 12 inches high, succeeding best in a partially shaded position; deep green, finely-cut foliage, and spikes of showy blue flowers in May and June.
25 cts. each; $2.50 per doz.; $15.00 per 100.

POLYGONATUM (Solomon’s Seal)

Giganteum. Exceedingly ornamental, both in foliage and flower; grows 3 feet high and bears pendant, creamy white flowers in May and June. Should be grown in a shady or half-shady place for best results.
25 cts. each; $2.50 per doz.; $15.00 per 100.

POLYGONUM

Compactum. Grows about 15 inches high, and during August and September the entire plant appears as a foamy mass of white flowers.
Cuspidatum (Giant Knot-weed). Attains a height of 5 to 7 feet, and in fall produces long, drooping clusters of white flowers at the axil of each leaf; a striking plant for the shrubbery or as an isolated specimen, particularly so in damp ground.
Brunonis. A fine plant for the rockery or border, with spikes of bright rose-colored flowers; July to September; 1 foot.
Price. Any of the above, 25 cts. each; $2.50 per doz.

POTENTILLA (Cinquefoil)

Charming plants for the border, with brilliant single or double flowers that are produced in profusion from June to August; succeeds in any soil; 18 inches.
Formosa. Single rosy-red.
Miss Willmott. Bright cerise, single.
Vulcan. Double, rich crimson.
William Rollison. Bright vermilion; double.
25 cts. each; $2.50 per doz. Set of 5 sorts for $1.00.

POTERIUM (Burnet)

Obtusatum. A good border plant of easy culture, with neat, dark green pinnatifid foliage, flower stems 18 to 24 inches high, terminated with 3 to 4 inch long spikes of small violet-rose colored flowers, in bloom from July to October. 35 cts. each; $3.50 per doz.
PYRETHRUM HYBRIDUM

This grand old-fashioned Hardy Perennial is easy to grow in any good garden soil where there is good drainage and full exposure to the sun. They prefer to be left undisturbed for two or three years, and if given an annual top dressing of well-rotted manure flower generously. Their main season of blooming is in June, but if the first crop of flower stems is removed as soon as finished they will give a fair sprinkling of flowers during the summer and autumn months. The fine fern-like foliage of the plants is attractive at all times.

**Single-flowering.** The plants which we offer embrace all the colors from deep red through the various shades of rose to pure white. These can be supplied in mixed colors only. 25 cts. each; $2.50 per doz.; $15.00 per 100.

**Double-flowering.** Choice named varieties in crimson, pink and white. (See cut.) 50 cts. each; $5.00 per doz. One each of the three colors for $1.25.

PYRETHRUM ULIGINOSUM

(Giant Daisy)

Grows 3 to 4 feet high and is covered with large white Daisy-like flowers, 3 inches in diameter, from July to September. 25 cts. each; $2.50 per doz.; $15.00 per 100.

RHEXIA (Meadow Beauty) Virginica. A handsome dwarf plant, 9 inches, flowering the greater part of the summer, with numerous bright rosy-purple blossoms, and long, protruding golden anthers; grand for massing in a moist, sunny spot. 25 cts. each; $2.50 per doz.

DREER'S CANTERBURY BELLS

We have a fine lot of strong plants of these this season.

Described, illustrated and offered on pages 170 and 171.

**PYRETHRUM HYBRIDUM**

PRIMULAS (Primrose)

The Hardy Primroses are among the most beautiful and interesting of our early spring flowers. Plant them in rich, well-drained soil in the border or in a sheltered nook in the rockery; if possible, in a half shady place.

Veris (English Cowslip). Plants grown from a select strain of seed, and embrace a fine range of colors. 25 cts. each; $2.50 per doz.; $15.00 per 100.

Vulgaris (English Primrose). An old favorite and should be found in every garden; one of the earliest spring flowers; of bright canary-yellow; very fragrant. 25 cts. each; $2.50 per doz.; $15.00 per 100.

PULMONARIA (Lungwort, Bethlehem Sage)

Angustifolia Azurca (Blue Cowslip or Lungwort). The prettiest of the blue Cowslips; grows about a foot high, and one of the first to bloom in early spring, bearing attractive funnel-shaped, deep gentian-blue flowers; very desirable.

Saccharata Maculata. A beautiful plant, rivaling in the markings of its foliage many of the choicest hot-house plants; of easy culture; foliage deep green, handsomely mottled with silvery-gray, and terminal 1 foot high spikes of pink flowers during May and June.

35 cts. each; $3.50 per doz.

RANUNCULUS (Crow-Foot, Buttercup)

Acris Ft. Fl. A double-flowered form of our common Buttercup; 2 feet; May and June.

Grumineus. A dainty variety for the rockery or border with grass-like foliage, producing masses of yellow flowers on branched 6 to 8 inch high stems, during April and May.

Repenis Ft. Fl. (Bachelor's Buttons). A pretty double-flowering bright golden-yellow Buttercup. Bears masses of flowers during May and June.

25 cts. each; $2.50 per doz.

**RHEXIA**

**PULMONARIA**

**RANUNCULUS**
RODGERSIA
Podophylla. A stately plant, both in foliage and flower; planted in rich, deep soil, in a sunny situation, and liberally supplied with water, produces five-lobbed leaves 2½ to 3 feet in diameter, at first bright green, changing to a metallic-brown hue; flowers white, not unlike a Spirea, and borne in large fluffy, feathery sprays in midsummer. 50 cts. each.

ROMNEYA (California Tree or Matilija Poppy)
Coulteri. This beautiful Poppy, while hardy as far north as Philadelphia, should be planted in a well-drained, sunny, sheltered position. It grows 5 to 6 feet high, and frequently has from 12 to 15 expanded flowers on a single shoot at one time. The flowers are white, 6 inches and over across, delicate and transparent, yet enduring in a good state for several days; delightfully fragrant. Strong plants, $1.50 each.

ROSMARINUS (Rosemary)
Officinalis. An old favorite aromatic herb of neat habit of growth; requires protection: 25 cts. each; $2.50 per doz.

SAPONARIA (Soap-Wort)
Caucasica (Double-flowering Bouncing Bet). White tinted rose, double flowers, produced all summer and fall; 15 inches.
Ocymoides. Very showy rock plant, producing during summer months masses of small, bright rose flowers; 9 inches. 25 cts. each; $2.50 per doz.

PLANS OF HARDY BORDERS
We have a leaflet showing several plans, together with list of suitable plants for positions in sun or shade. Copies free on request.

RUDBECKIA (Cone-flower)
Indispensable plants for the hardy border; grow and thrive anywhere, giving a wealth of bloom, which are well suited for cutting.
"Golden Glow." A well-known popular plant, a strong robust grower, attaining a height of 5 to 6 feet, and produces masses of double golden-yellow Cactus Dahlia-like flowers from July to September.
Maxima. A rare and attractive variety, growing 5 feet high, with large glaucous green leaves and bright yellow flowers 5 to 6 inches across, with a cone 2 inches high; flowers continuously from June to September.
Newmani. Dark orange-yellow flowers, with deep purple cone, borne on stiff, wiry stems 3 feet high; flowers from July to September.
Nitida "Autumn Sun." An attractive single-flowering variety, growing 5 to 6 feet high, with long, broad petals of bright primrose-yellow; August to October.
Purpurea (Giant Purple Cone-flower). Flowers about 4 inches across, of a peculiar reddish-purple with a remarkably large cone-shaped centre of brown; forms bushy plants 3 feet high, and blooms from July to October.

Subtomentosa. A pyramidal densely branched plant, 2½ feet high, which is completely enveloped in a mass of brilliant lemon-yellow flowers with dark purple centres in summer.
Price. 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 6 sorts for $1.25.

Seeds of Hardy Perennials
We can supply seeds of many of the sorts. See Flower Seeds, pages 51 to 116.
SALVIA (Meadow Sage)

Azerea. A Rocky Mountain species; grows 3 to 4 feet high, producing during August and September pretty sky-blue flowers in the greatest profusion.

Pitcheri. Similar to the above, but of more branching habit and larger flowers of a rich gentian-blue color, and one of the most admired plants by the many visitors to our nurseries during the early autumn; 3 to 4 feet.

Greggi. A native of the mountains of Southwestern Texas, makes a shapely, bushy plant about two feet high, and from July to late October bears masses of brilliant carmine flowers which appear particularly rich and luminous during the fall months; requires protection in winter.

Greggi Alba. A new, pretty white-flowered form, which makes a good companion to the red-flowered type.

Uliginosa. In general habit similar to Azerea, but of stronger growth, forming a bushy specimen from 5 to 6 feet high, and wonderfully free-flowering, blooming continuously from June until stopped by severe frost in October. The flowers are a pretty Cornflower-blue, with a white throat, and are produced in branched spikes, frequently 6 inches long.

Virgata Nemorosa. An interesting plant for the hardy border, forming a rosette of large foliage, from which the flower spikes arise, bearing many-flowered whorls of dark blue blossoms; the unexpanded buds are light violet-blue, forming a harmonious and pleasing color combination. It continues in flower for about six weeks during the early summer months; 18 inches.

Price. Any of the above, 25 cts. each; $2.50 per doz.; $15.00 per 100. One each of the six sorts, $1.25.

SANTOLINA (Lavender Cotton)

Chamacyparissus Incana. A dwarf evergreen perennial with attractive silvery-white foliage; useful as a rock or border plant, and largely used for carpet bedding; prefers a light soil and rather dry position. 20 cts. each; $2.00 per doz.; $12.00 per 100.

SATUREIA (Winter Savory)

Montana. A neat dwarf evergreen, aromatic plant, with slender, woody, very branching stems, 12 inches high, covered with showy white heather-like flowers in August and September. 35 cts. each; $3.50 per doz.

SAXIFRAGA (Megasea)

These will thrive in any kind of soil and in any position; grow about 1 foot high, and are admirable for the front of the border or shrubbery, forming masses of handsome, broad, deep green foliage, which alone renders them useful, while the pretty flowers, which appear very early in the spring, some almost as soon as the frost is out of the ground, make them doubly effective.

Price, 30 cts. each; $3.00 per doz.; $30.00 per 100. One each of the 6 sorts, $1.50.
SCABIOSA

Handsome border plants, succeeding in any ordinary soil if well drained and in a sunny location, and should be grown in every garden where cut flowers are wanted; they last a long time when picked and placed in water.

Caucasica (Blue Bonnet). A soft and charming shade of lavender, and commences to bloom in June, throwing stems 18 to 24 inches high until September. (See cut.)

— Alba. A pure white variety.

Japonica. Lavender-blue flowers, in bloom from July to September; 2 feet.

25 cts. each; $2.50 per doz.; $15.00 per 100.

SEDUM (Stone-crop)

DWARF VARIETIES

Suitable for the rockery, carpet bedding, covering of graves, etc.

Acre (Golden Moss). Much used for covering graves; foliage green; flowers bright yellow.

Album. Green foliage, white flowers.

Ewersi. Pink flowers; August and September.

Kamtschaticum. Deep green foliage; yellow flowers in June; 8 inches.

Middendorfianum. Narrow green foliage, sulphur-yellow flowers in summer.

Sexangulare. Dark green foliage; yellow flowers.

Sieboldi. Round, succulent, glaucous foliage; bright pink flowers in August and September.

Stahli. Compact species, with crimson-tinted foliage in autumn.

Stolonifera. One of the most desirable; flat succulent leaves; flowers purplish-pink; July and August; 6 inches.

Spurium. Attractive pink flowers; 6 inches.

— Coccinium. A beautiful crimson-flowered form.

25 cts. each; $2.50 per doz.; $15.00 per 100.

SEDUM (Stone-crop)

ERECT OR TALL-GROWING VARIETIES

Useful and pretty plants for the border, producing their interesting flowers during late summer and fall.

Japonicum Macrophyllum. Forms compact bushes 15 inches high, with pleasing waxy-white flowers, with light pink centres.

Spectabile. One of the prettiest erect-growing species, attaining a height of 18 inches, with broad light green foliage and immense heads of handsome showy rose-colored flowers; indispensable as a late fall-blooming plant.

— "Brilliant." A rich colored form of the preceding, being a bright amaranth-red.

Price, 25 cts. each; $2.50 per doz.; $15.00 per 100.

SEMPERVIVUM (House Leek)

Peculiarly interesting plant for the rockery or for any exposed, well-drained position. We can furnish six distinct varieties at 20 cts. each; $2.00 per doz.; $10.00 per 100. Set of 6 for $1.00.

SENECIO (Groundsel)

Pulcher. Forms a neat tuft of foliage, from which springs up from July to October a succession of 2-feet high stems, with clusters of brilliant rosy purple flowers, of good size. 25 cts. each; $2.50 per doz.

SILPHIUM (Cup Plant)

Perfoliatum. A stately perennial, also known as the Compass Plant, on account of the leaves being arranged at right angles to the stem; grows 5 to 7 feet high, with large single yellow sunflower-like blooms from July to September. 25 cts. each; $2.50 per doz.
SILENE (Catchfly)

Alpestris. A good rock-work plant, grows about 4 inches high, with glistening white flowers in July and August.

Schafft (Autumn Catchfly). A charming border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October.

25 cts. each; $2.50 per doz.; $15.00 per 100.

SISYRINCHIUM (Satin Lily or Blue-eyed Grass)

Bermedianum. A pretty early spring and fall flowering plant with blue flowers and grass-like foliage. 25 cts. each; $2.50 per doz.

SPIRÆA (Goat’s Beard, Meadow Sweet)

Elegant border plants with feathery plumes of flowers and neat, attractive foliage; succeed best in a half-shaded location in rich moist soil.

Aruncus. A noble variety, 3 to 5 feet high, producing in June and July long, feathery panicles of white flowers.

Filipendula Fl. Pl. (Double-flowered Dropwort). Numerous corymbs of double white flowers on stems 15 inches high, during June and July, and pretty fern-like foliage.

Palmata (Crimson Meadow Sweet). One of the most beautiful hardy plants, the deep purple red of the stems and branches passing into the crimson purple of the broad corymbs of flowers, which are produced very freely during June and July; 3 feet.

Elegans. A free-flowering pure white with protruding pink anthers.

Ulmaria Fl. Pl. (Meadow Sweet). Grows about 3 feet high, and produces its double white flowers during June and July.

Venusta. A showy, red-flowering species; very fragrant; 4 to 5 feet; June.

Price. 35 cts. each; $3.50 per doz.; $18.00 per 100. One each of the above 6 varieties, $1.75.

SOLIDAGO (Golden Rod)

Sidalcea

SIDALCEA

Erect-growing, more or less branching plants, producing their showy flowers during June and July; they will succeed in any garden soil in a sunny position. (See cut.)

Candida. Grows 2 to 3 feet high with white flowers about an inch in diameter.

Rose Queen. A new variety of strong robust habit growing from 5 to 6 feet high, producing showy large flowers of a pleasing shade of clear rose, in the greatest profusion.

Rosy Gem. Pretty, bright rose-colored flowers, 2 to 3 feet. 35 cts. each; $3.50 per doz.

SOLIDAGO (Golden Rod)

Altissima. The giant of the family, attaining a height of 10 to 12 feet; the large heads of golden-yellow flowers reach perfection late in October.

Canadensis. Grows 4 to 5 feet high, with spikes of golden-yellow flowers from the end of July until September.

Golden Wings. The finest of all; 5 feet high with immense panicles of bright golden-yellow flowers from July to September.

Rigidus. A bold plant with heavy foliage and immense heads of flowers in July and August.

Shorti. Golden-yellow flowers in July and August; 3 feet.

Virgaurea Compacta. Grows but 15 inches high; deep yellow flowers in August and September.

Price. 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 6 sorts for $1.25.
STOKESIA (Cornflower Aster)

A beautiful native plant growing 18 inches high, bearing freely from early in June until September its handsome lavender-blue and white Cornflower-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size.

Cyanea. Bright lavender-blue.
—alba. A pretty pure white variety of above.

25 cts. each; $2.50 per doz.; $15.00 per 100.

SWEET WILLIAM (Dianthus Barbatus)

(London Tufts)

A well-known attractive, free-flowering hardy perennial, producing in early summer a splendid effect in beds and borders, with their rich and varied flowers. We can supply the following all grown from our own select strain of seed.

Newport Pink. The prettiest color among Sweet Williams, a lovely salmon or watermelon-pink.
Pure White. Very large.
Scarlet Beauty. Rich deep scarlet, very effective.
Mixed. Containing all colors.

20 cts. each; $2.00 per doz.; $12.00 per 100.

PLANS OF HARDY BORDERS

We have prepared a leaflet showing several plans of Hardy Borders with list of plants to fill same in positions either in sun or shade. Copies free on request.
**THALICTRUM** (Meadow Rue)
Very graceful, pretty flowered plants, with finely cut foliage; great favorites for planting in the hardy border; the dwarfer varieties also being effective and useful in the rockery. (See cut.)

Adiantifolium. A beautiful variety, with foliage like the Maiden Hair Fern and miniature white flowers in June and July; 1½ to 2 feet.

Aquiligifolium atropurpureum. Elegant, graceful foliage and masses of rosy-purple flowers; May to July; 2 to 3 feet.

— Album. Pure white flowers.

Glaucescens. Fine cut foliage; bronzy-yellow flowers in June; 2 feet.

Intermedium. Large panicles of creamy-white flowers in June and July, finely cut foliage; 3 feet.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**RARE THALICTRUM DIPTEROCARPUM**
A pretty and distinct species, with flowers of a charming shade of lilac mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. The plant is of strong growth, about 4 feet high; the dainty flowers are produced in graceful sprays during August and September. Splendid for cutting. (See cut.) 50 cts. each; $5.00 per doz.

**THERMOPSIS**
Caroliniana. A showy, tall-growing plant, attaining a height of 3 to 4 feet, producing long spikes of yellow flowers in June and July. 25 cts. each; $2.50 per doz.

Dreer's Canterbury Bells
One of our specialties. See pages 170 and 171.

**THYMUS**
(Thyme)

Citriodorus. Lemon-scented foliage, of bushy habit.

Lanuginosus (Woolly-leaved Thyme). A trailing variety, with greyish foliage.

**SERPULUM** (White)
Mountain Thyme). A pretty subject for the rockery, forming dense mats of dark green foliage and clouds of white flowers.

— Coccinea (Scarlet Thyme.) Dark green foliage and clouds of bright red flowers.

— Splendens. Bright purplish-red flowers.

25 cts. each; $2.50 per doz.; $15.00 per 100.

**TIARELLA** (Foam Flower)
Purpurea Major. An attractive variety, forming a neat, compact clump; the foliage unusually bright, as it expands in the spring; bears long spikes of salmon-red flowers. 25 cts. each; $2.50 per doz.

**TRADESCANTIA** (Spider Wort)
Virginica. Produces a succession of blue flowers all summer; 1½ to 2½ feet.

— Alba. A white-flowered form.

25 cts. each; $2.50 per doz.

**TRILLIUM** (Wood Lily, or Wake Robin)
Excellent plants for shady positions in the hardy border, or in a sub-aquatic position, flowering in early spring: 12 to 18 inches.

Erectum. This is the Purple Wood Lily; the earliest to flower.

Grandiflorum. The largest white; probably the handsomest.

15 cts. each; $1.50 per doz.; $8.00 per 100.
TRITOMA (Red-hot Poker, Flame Flower, or Torch Lily)

Pfitzerii (The Everblooming Flame Flower). The early, free and continuous blooming qualities of this variety have made it one of the great bedding plants, and when we consider that there are few flowering plants which are suitable for massing under our severe climatic conditions, it is little wonder that such an elegant subject should become so popular. Succeeds in any ordinary garden soil, but responds quickly to liberal treatment; hardy if given protection, but the most satisfactory method of wintering is to bury the roots in sand in a cool cellar. In bloom from August to October, with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet, producing a grand effect either planted singly in the border or in masses. (See cut.) 35 cts. each; $3.50 per doz.; $18.00 per 100.

TROLLIUS (Globe Flower)

Desirable tree-flowering plants, producing their giant Buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeed admirably in the border in a half-shady position in well drained preferably light soil.

Asiaticus Flore Croceo. Dark orange, of beautiful form.

Europeus. Large, bright yellow, globular flowers.

25 cts. each. $2.50 per doz.; $15.00 per 100.

TUNICA

Saxifraga. A pretty tufted plant with light pink flowers; produced all summer, useful either for the rockery or the border. 25 cts. each; $2.50 per doz.

VALERIANA (Valerian)

Coccinea. Showy heads of reddish flowers; June to October; 2 feet.

— alba. A white-flowered form.

Officinalis (Hardy Garden Heliotrope). Produces showy heads of rose-tinted white flowers during June and July, with delicious, strong heliotrope odor; 3 to 4 feet. (See cut.)

25 cts. each; $2.50 per doz.; $15.00 per 100.

VINCA (Periwinkle, or Trailing Myrtle)

Minor. An excellent dwarf evergreen trailing plant that is used extensively for carpeting the ground under shrubs and trees, or on graves where it is too shady for other plants to thrive. 15 cts. each; $1.50 per doz.; $10.00 per 100; $80.00 per 1000.

VINCETOXICUM (Mosquito Plant)

Japonicum. An interesting plant from Japan, with small white flowers in summer, which attracts and kills insects. The foliage is dark green and almost evergreen. 25 cts. each; $2.50 per doz.

PLANS OF HARDY BORDERS

We have prepared a leaflet showing several plans, together with list of plants suitable to fill same in sun or shade. Copy free on request.

Tritoma Pfitzerii
VERONICA (Speedwell)

Amethystina. Amethyst-blue flowers in June and July; 2 feet.

Incana. Bright silver foliage, with spikes of amethyst-blue flowers; July and August; 1 foot.

Longifolia Subsessilis (Japanese Speedwell). The showiest of the Speedwells; forms a bushy plant 2 to 3 feet high, with long dense spikes of deep blue flowers from the middle of July to early in September.

Maritima. Long spikes of blue flowers from July to September; 2 feet.

Repens. A useful rock or carpeting plant, with light-blue flowers.

Rupestris. A fine rock plant growing 3 or 4 inches high; thickly matted deep green foliage, hidden in spring under a cloud of bright blue flowers.

— Alba. A white-flowered form of the above.

Spicata. An elegant border plant, growing about 1 foot high, producing long spikes of bright blue flowers in June and July.

— Alba. A white-flowered form of the above.

— Rosca. A pretty pink-flowered form.

— Roosa Erica (The Heather-like Speedwell). Spikes of pretty delicate pink flowers, not unlike a splendidly flowered plant of Heather. It is of vigorous, compact habit, forming bushy plants 10 to 12 inches high, which are very attractive during its flowering season in June and July.

Virginica. Long spikes of white flowers in July and August; 3 to 4 feet.

Price. 25 cts. each; $2.50 per doz.; $15.00 per 100. Set of 12 sorts, $2.50.

We offer seed of many Hardy Perennials.
See Flower Seeds, pages 51 to 116.

Viola Cornuta Purpurea, or G. Wermig

A variety of the tufted Pansy, forming clumps that are a sheet of bloom the entire season, and a most attractive subject for the border; the flowers which in general appearance closely resemble the Princess of Wales Violet, make it a splendid substitute for the latter during the summer months, when these are not to be had. (See cut.) 20 cts. each; $2.00 per doz.; $10.00 per 100.

VIOLAS, or TUFTED PANSIES (Viola Cornuta)

The improved forms of Viola Cornuta are one of the important bedding plants of Europe, and are rapidly growing in favor here. They flower continuously for nearly eight months in the year; and while their flowers are not so large as those of the Pansy, their bright colors and floriferousness make them welcome additions to any garden.

Blue Perfection. Deep purplish-blue.

Papilio. Violet, with dark eye; the most effective for massing.

White Perfection. A fine white.

15 cts. each; $1.50 per doz.; $10.00 per 100.
DREER’S COLLECTIONS OF THE BEST AND EASIEST GROWN

Hardy Perennial Plants

While we are not in the landscape business and cannot undertake the preparation of plans for planting or laying out of grounds, we have had prepared by a competent landscape architect, a series of Plans of Hardy Borders with a list of suitable plants for positions either in sun or shade. We will be pleased to send a leaflet containing same free on application.

We also offer customers who are not acquainted with the different sorts the following collections, all in good, strong roots, which when once planted will, with little care, keep the garden gay with flowers from the time frost leaves the ground until late in autumn.

These collections are made up of species and varieties strictly of our selection, and we are unable to submit list of contents as the assortment varies at different periods during the planting season.

One plant each of 12 distinct species, $2.00.
One plant each of 25 distinct species, $4.00.
One plant each of 50 distinct species and varieties, $7.00.
One plant each of 100 distinct species and varieties, $12.00.

YUCCA (Adam’s Needle)

Angustifolia. A variety with narrow glaucous green foliage, very free-flowering, producing dense spikes of creamy-white flowers during June and July. 25 cts. each; $2.50 per doz.

Filamentosa. Among hardy ornamental foliage and flowering plants, this can be classed at the head of the list. Its broad sword-like foliage and 5 to 6 feet tall, branched spires of large, fragrant, drooping, creamy-white flowers during June and July make it an effective plant for all positions. 25 cts. each; $2.50 per doz.; $15.00 per 100.

Filamentosa Variegata. Identical with the above excepting that the foliage is beautifully and distinctly margined with creamy-white; a rare and most effective plant. (See cut.) $1.00 each.

WALLFLOWERS

The old favorite fragrant Wallflower; mixed colors, including yellow, brown, etc. 25 cts. each; $2.50 per doz.; $15.00 per 100.

SEEDS OF HARDY PERENNIALS

We can supply seeds of many of the sorts. See Flower Seeds, pages 51 to 116.
Dreer's Select Hardy Climbing Plants

AKEBIA QUINATA (Akebia Vine)

One of the most graceful of our hardy climbers, with deep green, small foliage, and producing in early spring numberless bunches of violet brown flowers, which have a pleasant cinnamon odor; most desirable for positions where a dense shade is not required. Strong plants, 35 cts. each; $3.50 per doz.; $25.00 per 100.

AMPELOPSIS ENGELMANNI

A greatly improved variety of the Virginia Creeper, with dense foliage of a glossy light green in summer, changing to a brilliant crimson in the autumn. On a rough stone surface it will cling without support in the same way as the Japanese Ivy. 35 cts. each; $3.50 per doz.; $25.00 per 100.

Ampelopsis Quinquefolia

(Virginia Creeper, or American Ivy)

This well known climber is one of the best and quickest growing varieties for covering trees, trellises, arbors, etc.; its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the fall. Strong plants, 35 cts. each; $3.50 per doz.; $25.00 per 100.

AMPELOPSIS VEITCHI

(Boston Ivy, or Japan Ivy)

The most popular climbing plant for covering brick, stone or wooden walls, trees, etc.; when it becomes established it is of very rapid growth, and clings to the smoothest surface with the tenacity of ivy; the foliage is of a rich olive green during the summer, changing to various shades of bright crimson and scarlet in the fall. In planting Ampelopsis of all kinds, the plants, if in a dormant condition, should be cut down to within 6 inches of the ground, so that the new growth may cling to the wall or tree from the bottom up. (See cut.) Two-year-old plants 50 cts. each; $5.00 per doz.; $35.00 per 100.

ARISTOLOCHIA SIPHO

(Dutchman's Pipe Vine)

A vigorous and rapid-growing climber, bearing singular brownish-colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its light-green leaves, which are of very large size, and retain their color from early spring to late fall; perfectly hardy. Strong plants, $1.00 each.
LARGE-FLOWERING CLEMATIS

No other climbing plant equals in attractiveness the beautiful large-flowering Clematis. Their requirements are somewhat different from most other plants, and proper conditions must be given to secure satisfactory results. They need rich, deep soil, perfect drainage, abundance of water, and, most important of all, they should be planted with the crowns three inches beneath the surface of the soil. They seem to do best in a position where they will not be exposed to the full sun during the hottest part of the day.

We are careful to send out only perfectly healthy stock, and cannot entertain any complaints on account of non-success with this class of plants.

Anderson Henryi. Creamy white, large.
Jackmani. The popular rich purple variety.
Price. Either of the above, 75 cts. each; $7.50 per doz.

CLEMATIS PANICULATA

(Japanese Virgin's Bower)

This handsome hardy climber is one of the choicest and most satisfactory climbing flowering plants. Of strong rapid growth, with small, dense, cheerful green foliage, and pure white, deliciously fragrant flowers, which appear in the greatest profusion in August and September, followed by silvery feathery seed pods, which make an attractive appearance until mid-winter. The plants succeed in almost any position. Not only is it adapted to run up all kinds of supports, but is just as useful for planting among rock-work, shrubbery, or in fact, any position where a graceful vine or trailer is desired. (See illustration on page 205.) Strong plants, 25 cts. each; $2.50 per doz.; $15.00 per 100.

**BIGNONIA, or Trumpet Vine**

**BIGNONIA (Trumpet Vine)**

For covering unsightly places, stumps, rockwork, or wherever a showy-flowering vine is desired, the Bignonias will be found very useful. The flowers are large, attractive, and borne profusely when the plants attain a fair size.

*Grandiflora.* Large flowers of orange-red. 75 cts. each; $7.50 per doz.

*Radicans.* Dark red, orange throat, free blooming and very hardy. 50 cts. each; $5.00 per doz.

*Boussingaultia Baselloides*  
(Madeira, or Mignonette Vine)

An old-fashioned, popular vine, covering a large space in a short time. Fleshy heart-shaped leaves of a light green, and numerous racemes of feathery white flowers of delicious fragrance. Protect with litter in this latitude. Strong tubers, 25 cts. each; $2.50 per doz.

**CELASTRUS SCANDENS**  
(Bitter Sweet, or Wax Work)

One of our native climbing plants, of rapid growth, succeeding in almost any situation, sun or shade, with attractive light green foliage and yellow flowers during June, which are followed in the autumn with bright orange fruit, which usually remain on the plant throughout the winter. 50 cts. each; $5.00 per doz.
EVONYMUS

The trailing Evonymus are particularly desirable for their dense evergreen foliage and extreme hardiness, some varieties on account of this taking the place of the English Ivy for wall covering, others that of the box-wood as an edging plant.

Radicans. Deep green foliage, useful for covering low foundation walls, or may be clipped the same as box-wood for an edging plant. 25 cents each; $2.50 per doz.; $15.00 per 100.

Radicans Variegata. A beautiful small-leaved green and white variegated form of the same habit as the type. 25 cents each; $2.50 per doz.; $15.00 per 100.

Radicans Vegeta (Evergreen Bittersweet.) A strong-growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen absolutely hardy wall cover this plant is unequalled. An enthusiastic horticultural writer predicts that it will become as popular for this purpose here as the Ivy is in England. 35 cents each; $3.50 per doz.; $25.00 per 100.

Kewensis. A new variety with very small dark green foliage. Everyone who has seen this appreciates its value as a rock plant or ground cover. It grows close to the ground, and is one of the most valuable plants for under trees where grass will not grow. 25 cents each; $2.50 per doz.; $15.00 per 100.

Honeysuckle

HOP VINES

(See page 210)

Honeysuckles

Chinese Evergreen (Woodbine). Very fragrant, red, yellow and white variegated flowers; dark green foliage.

Halliana (Hall's Monthly) Flowers pure white, turning to yellow; fragrant, hardy and almost evergreen; flowers freely.

Variegated (Aurea Reticulata). Foliage beautifully mottled yellow and green.

Yellow Trumpet. Clusters of yellow trumpet-shaped flowers during summer and fall.

Price. Any of the above heavy trumpet-shaped flowers during summer and fall.

NEW CHINESE HONEYSUCKLE HENRYI

Introduced from China, where it has been found at an altitude of 6000 feet. It is hardy, and its foliage is almost evergreen. The flowers, which are produced in graceful panicles in early summer, are entirely distinct; a peculiar, bronzy-red color. Good young plants, $1.00 each.

HARDY ENGLISH IVY

Invaluable evergreen variety, used for covering walls, etc., and has become very popular for covering graves, especially if in the shade, where grass will not succeed. Large plants, in 4-inch pots, 35 cents each; $3.50 per doz.; $25.00 per 100. Extra large plants, in 7-inch pots, 6 feet high, $2.50 each.
POLYGONUM AUBERTI

For several years we have been obliged to omit this splendid Climber from our catalogue on account of scarcity of stock. We are pleased to be able to again offer it. The plant is of strong, vigorous growth, attaining a height of 25 feet or more, producing through the summer and fall great foamy sprays of white flowers, and a well established plant during its long flowering period is a mass of bloom. Not only does it thrive in the Eastern and Middle States, but we have seen it in equally good condition in Oregon, Colorado and California, adapting itself to the most varied climatic conditions. Strong plants, $1.50 each.

PUERARIA THUNBERGIANA
(Kudzu Vine)
The most rapid growing vine in cultivation, attaining, after once being established, a height of 50 feet or more in one season. Its foliage is, large and furnishes dense shade; it bears small racemes of rosy-purple, pea-shaped blossoms towards the close of August. 25 cts. each; $2.50 per doz.

Hardy Climbing Roses
We offer a splendid up-to-date selection of these in strong two-year-old plants. For descriptions and prices see section devoted to Roses, beginning on page 118.

HARDY JASMINES

Nudiflorum. Favorite climber for sheltered positions; hardy south of Philadelphia; fragrant yellow flowers. 35 cts. each; $3.50 per doz.

Officinale. Pure white fragrant flowers. A splendid climber for a sheltered position. Hardy south of Philadelphia. 35 cts. each; $3.50 per doz.

LATHYRUS
(Hardy Everlasting Pea)
One of the best and most desirable flowering hardy climbing plants, attractive both in flower and foliage, growing to a height of 8 to 10 feet, and producing clusters of large flowers the entire summer; fine for cutting; lasting well.

Latifolius. Deep rosy-red. 25 cts. each; $2.50 per doz.

— Albus. Pure white.

— White Pearl. A magnificent pure white variety, with individual flowers fully double the size of the ordinary sort, and produced throughout the entire summer and early fall. Strong roots, 50 cts. each; $5.00 per doz.

LYCIUM BARBARUM
(Matrimony Vine)
A very ornamental shrubby climber, which has appropriately been called "the general utility vine," of strong growth, bearing small purplish flowers in summer, followed by a prodigious crop of scarlet berries, which remain on the vine until late in winter. 50 cts. each; $5.00 per doz.
**VITIS**

**Henryana.** A recent introduction from China, with foliage similar to but not as large as the Virginia creeper, the leaves being of greater substance, and prettily variegated. The ground color is a deep velvety-green, the midrib and principal veins of silvery white. The variegation is most pronounced in the autumn, when the green ground color changes to red, 50 cts. each; $3.00 per doz.

**Humulifolia.** *(Turquoise-berry Vine).* One of the most desirable very hardy climbers, with glossy-dark green leaves, which are insect and disease proof, always presenting a clean, fresh appearance. In late summer and fall the plant is loaded with berries, which are very attractive in the various stages of ripening, passing through many shades of blue, finally turning blue-black. 35 cts. each; $3.50 per doz.

**WISTARIAS**

One of the best hardy climbers, producing their great trusses of flowers in abundance during the month of May with some scattering bloom in August and September. While they succeed in any kind of soil they should be liberally fed when first planted to give them a vigorous start. *(See cut.)*

**Sinensis.** The favorite variety, producing thousands of pendulous clusters of delicate violet-blue blossoms, richly perfumed.

- **Alba.** Of similar habit to Sinensis, with pure white flowers.

**Price,** any of the above, strong plants, 60 cts. each.

---

**HEDGE PLANTS**

**BOXWOOD EDGING**

Bushy plants, 4 to 5 inches high, 1.25 per doz.; $8.00 per 100; $75.00 per 1000.

**Berberis Thunbergi** *(Japan Barberry)*

Where a dwarf deciduous hedge is wanted, nothing equals this beautiful Barberry. Requires but little pruning to keep in shape. The leaves are small, light green, and towards fall assume rich, brilliant colors, the fruit or berries becoming scarlet. Absolutely hardy in all parts of the country. Plant 12 to 15 inches apart.

Extra strong 3-year-old plants, 18 to 20 inches high, $2.50 per doz.; $18.00 per 100; $150.00 per 1000.

---

**California Privet** *(Ligustrum Ovalifolium)*

Of all hedge plants this is the most popular, and more of it is planted than all others combined. It is of free growth, and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Plant 1-year-old plants 8 inches apart, the 2-year-old plants 10 to 12 inches apart.

The plants offered below are strong, heavy, bushy plants of the heights specified, but as these plants, for best results, should be cut back severely when planted we will cut them down to 18 inches in height in order to conserve space in packing and cost of transportation.

- Strong 1-year-old plants, 24 inches high, $5.00 per 100; $40.00 per 1000.
- Strong 2-year-old plants, 30 inches high, $7.50 per 100; $50.00 per 1000.
All Plants are forwarded on receipt of order unless instructed to the contrary and are sent by Express, purchaser paying charges. We can forward most plants by Parcel Post, and if wanted sent in this way, add 10 per cent. to value of order to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.

While the list of Small Fruits offered is short, yet it is very select, only the very finest sorts being offered. This is preferable to a long list which would necessarily contain varieties of less merit.

We do not handle fruit trees such as Apples, Pears, Cherries, etc.

BLACKBERRIES

Blackberries respond generously to good treatment. They prefer a deep soil, inclining to sand, but will grow and fruit almost anywhere.

**Rathbun.** A splendid berry of exceptional fine flavor.

**Snyder.** One of the oldest and still one of the most popular.

**Price.** $1.00 per doz.; $6.00 per 100; $40.00 per 1000.

CURRANTS AND GOOSEBERRIES

Fearing the introduction of the White Pine Blister Rust into their forests, a number of states prohibit the purchase of either Currants or Gooseberries from out-of-State nurseries, as there is a possibility of these two plants becoming affected and spreading the disease. We have, therefore, discontinued to handle them for the present.

HARDY BLACK GRAPE CONCORD

The best and most reliable all-around grape for the amateur. It has been our custom to offer from 6 to 12 different varieties of hardy grapes, but our own grower as well as other specialists in this plant, due to labor shortage and unfavorable weather conditions during the past few years, have been unable to produce the quantity of these odd varieties which our trade usually demands, and as a result we are this season offering only that most popular black variety Concord of which we can supply strong two-year-old plants at 35 cents each; $3.50 per doz.; $25.00 per 100.

RASPBERIES

Raspberries will succeed in any soil that will grow good corn, but respond quickly to liberal treatment; for best results the old wood should be cut out just as soon as the crop has been gathered. This will give more vigor to the young canes for next year's bearing.

**Cumberland.** A large black cap of exceedingly fine quality.

**Cuthbert.** Large, deep, rich crimson.

**Price.** $1.00 per doz.; $6.00 per 100; $40.00 per 1000.

NEW EVERBEARING RASPBERRY, RED RANIERE

This is not only the earliest raspberry, but it is a perpetual fruiting variety. Its main crop is greater than that of any other red variety, and continues to bear fruit on the old canes until late in August, at about which time the berries begin to ripen on the young canes of the current year's growth, which continue to bear fruits in increasing number until late in fall. The berries are bright crimson, of good size, excellent quality, of a rich sugary full raspberry flavor. $1.00 per doz.; $6.00 per 100; $40.00 per 1000.
DREER’S COLLECTION OF
Six Luscious Strawberries

A selection of perfect flowering varieties, they are all
well-tried standard sorts which combine in the highest
degree all the qualities looked for in high-grade berries,
and no amateur will go wrong in limiting his plant-
ings to the sorts here offered.

For best results strawberries should be planted before
April 1st. Do not plant after the middle of April.

**Big Joe.** This midseason variety came to us highly
recommended by reliable growers, and our own ex-
perience with it justifies us in endorsing all that has
been said in its favor. The plant is unusually vigor-
ous, with a mass of large, heavy foliage; the fruit is
large, of great substance, exquisite flavor and produced
freely on strong stems held well above the ground.

**Brandywine.** This is considered one of the finest
mid-season to late-fruiting sorts. We do not know
that it has a single defect. The fruit is extra large,
heart-shaped, color bright, rich red, and the flavor
leaves nothing to be desired.

**Campbell’s Early.** An extra early variety of great
promise—a very vigorous grower, producing great
crops of large, rich, red berries. Practically all the
fruit grows to full sized perfection, ripening perfectly.

**Dr. Burrill.** This new early variety is highly praised
by the experts because of its wonderful vigor. Having
a very strong root system, it is not easily affected by
drought, its foliage is extra heavy and substantial, making
it almost immune from leaf diseases.

The fruit is a deep glossy red, while the flesh is solid and
rich. We have great faith in this variety and recommend it
for extensive trial.

**Gandy’s Prize.** The standard late variety, which has held
its own for many years. It’s a strong healthy grower. The
berries are borne on long, strong stalks, well above the ground.

**Price.** Any of the above varieties in strong layer plants,
30 cts. per doz.; $2.00 per 100; $15.00 per 1000
Or we will supply collections as follows:

William Belt. For vigorous growth, great productiveness,
size, beauty and fine quality, one of the very best late varieties.
It is grown by the acre for fancy fruit. The first berry to ripen
on each fruit stalk, under high culture, is apt to be cocks-
combed; all others are of regular form. It is of bright, glossy
red, the ideal color for a strawberry.

**Autumn-Fruiting Or Everbearing Strawberries**

After careful trials we have selected the two varieties
offered below as the most desirable. Under ordinary condi-
tions they produce their main crop of fruit at the same time as
other varieties and keep on bearing until frost. The proper
plan is to cut off all buds as they appear until late in July,
and thus conserve the strength of the plants for the fall crop.
Treated in this way an abundant crop of berries may be looked
for during September and October, or if the disbudding of
port of the plants is discontinued late in June an almost con-
tinuous crop of this luscious fruit may be secured throughout
the growing season. Good cultivation is essential to bring
about the best results, a liberal mulching during the summer
is beneficial and the plants should not be allowed to suffer for
lack of water at any time.

**Peerless.** A real full-bearer—does not require disbud-
ding and produces fruit until killing frost in November.

The fruit and blossoms being protected by very heavy
foliage from all but severe frost.

The berry is large to very large and of a wonderfully at-
tractive glossy appearance.

**Progressive.** The most prolific fruiting, berries of fair
size and produced in great abundance; they are of an at-
tractive deep, glossy crimson color and of good flavor.

**Price.** Either of the Everbearing varieties, 35 cts. per
doz.; $2.00 per 100; $15.00 per 1000.

**Biggle’s Berry Book.** A valuable work on the sub-
ject. 50 cts., postpaid.

**Strawberry Culture (Puller).** Contains all necessary
information for their culture. 33 cts., postpaid.
Vegetable Plants, Roots and Herbs

While patriotic duty inspired many during the past few years to plant a home vegetable garden, and while these have not in every instance been a success, a great many have been entirely so, and to many an amateur this has been the first real introduction of vegetables fresh from the garden to the table. This, together with the high cost of vegetables in all parts of the country, should induce many to continue their home gardens who would not do so under normal conditions, and with this in mind we will continue to give the same care and attention to the development of this class of plants that we did during war times.

**ARTHICHOKE**

Dreer's Selected Large Green Globe. Pot Grown Plants. (Ready April and May) $1.50 per doz.; 10.00 per 100.

Jerusalem Artichoke. Grown for pickling, also extensively used for feeding stock. Tubers, 30 cts. per qt.; 1.50 per peck; 5.00 per bushel.

**ASPARAGUS**

(Cultural leaflet mailed free on application)

Dreer's Eclipse. This variety is the result of a most careful selection and "breeding up" to the large type, yet retaining the delicate light green color and tender quality desired.

Argenteuil. Very popular in France, and extensively grown for the Paris market. The stalks grow to mammoth size, sometimes weighing as much as 4 ounces each. We supply plants grown from French seed.

Conover's Colossal. Large and productive.

Palmetto. An early, prolific and very desirable variety.

Columbian Mammoth White. Large, white stalks, very tender.

Price. Any of the above varieties in strong two-year-old roots (the proper size to plant), 30 cts. per doz.; 1.25 per 100; 10.00 per 1000.

**BRUSSELS SPROUTS**

(Ready April, May and June)

Dreer's Select Matchless. An extra select strain of this desirable vegetable. 15 cts. per doz.; 75 cts. per 100; 5.00 per 1000.

**CABBAGE, EARLY VARIETIES**

(Ready April and May)

Early Jersey Wakefield. Very early; conical heads.

Early Summer. Large, solid, flattish heads.

16 cts. per doz.; 60 cts. per 100; 5.00 per 1000.

**CABBAGE, LATE VARIETIES**

(Ready June and July)

Dreer's Selected Flat Dutch. The best late Cabbage.

Perfection Drumhead Savoy. Of superior quality; fine flavor.

Mammoth Rock Red. The largest and most solid of the red sorts.

60 cts. per 100; 4.00 per 1000.

**CAULIFLOWER**

(Ready April and May)

Dreer's Earliest Snowstorm. The best extra early variety.

Early Snowball. Very early; of fine quality.

Hot-bed Grown, 25 cts. per doz.; 1.50 per 100

Pot-Grown 75 ** 4 ** 4

**CELERI**

(Ready July and August)

Easy Blanching. A new variety that blanches very easily; desirable both for early and late use.

Columbia. An exceptionally fine early variety.

Dreer's Monarch. Very large green stalks with golden heart.

Giant Pascal. A popular variety for late use.

Golden Self Blanching. A fine early sort, requiring very little labor to blanch.

Perfected White Plume. Unsurpassed for fall and early winter use.

Winter King. A strong grower and one of the best winter keepers.

Winter Queen. An excellent winter keeping variety.

75 cts. per 100; 5.00 per 1000.

**CHAMOMILE**

Pot Grown. 20 cts. each; 1.50 per doz.; 10.00 per 100.

**CHIVES**

For flavoring. 15 cts. each; 1.50 per doz.; 10.00 per 100.

**EGG PLANTS**

(Ready May and June)

Early Black Beauty. Produces in abundance fruit of the very best quality. Pot Grown Plants. 3-inch pots, 75 cts. per doz.; 5.00 per 100.

**HOP VINES**

Pot Grown. 25 cts. each; 2.50 per doz.; 18.00 per 100.

**HORSE RADISH**

Maliner Kren or New Bohemian. A variety that produces roots of enormous size, and succeeds in any soil. Sets. 30 cts. per doz.; 1.00 per 100; 7.50 per 1000.

**LAVENDER**

Pot Grown. 25 cts. each; 2.50 per doz.; 15.00 per 100.
LETTUCE  (Ready April and May)
Dreer's All Heart. The most reliable hard-heading Lettuce ever introduced; extra fine quality.
Dreer's Improved Hanson. One of the best head varieties for summer use.
15 cts. per doz.; 50 cts. per 100.

MINT
Peppermint and Spearmint.
Pot grown. 20 cts. each; $1.50 per doz.; $10.00 per 100.

PEPPERS  (Ready May and June)
Large Bell or Bullnose. Large thick fleshy fruits of mild flavor.
Pimiento. The sweetest pepper grown; very freely produced.
Ruby King. A good variety; very productive and sweet.
Long Red Cayenne. Long scarlet fruits; hot and pungent.
Pot grown. 75 cts. per doz.; $5.00 per 100.

PENNROYAL
Pot grown. 20 cts. each; $1.50 per doz.; $10.00 per 100.

PARSLEY  (Ready April, May and June)
Dreer's Dwarf Perfection. Forms globular plants of beautifully curled foliage.
Pot grown. 75 cts. per doz.; $5.00 per 100.

RHUBARB
Early Victoria. Produces very large stalks and considered the finest cooking variety. Strong roots.
Pot grown. 15 cts. each; $1.50 per doz.; $10.00 per 100.

ROSEMARY
Pot grown. 25 cts. each; $2.50 per doz.

SAGE, HOLT'S MAMMOTH
20 cts. each; $1.50 per doz.; $10.00 per 100.

SAVORY, WINTER
Pot grown. 35 cts. each; $3.50 doz.; $20.00 per 100.

SWEET POTATOES  (Ready May and June)
Yellow and Red, Nansemond. $1.00 per 100; $7.50 per 1000.

TANSY
Pot grown. 20 cts. each; $1.50 per doz.; $10.00 per 100.

TARRAGON *(Estragon)
Pot grown. 25 cts. each; $2.50 per doz.; $15.00 per 100.

THYME
Broad Leaved English. Pot grown. 20 cts. each; $1.50 per doz.; $10.00 per 100.

TOMATOES  (Ready May and June)
Bonny Best. Early and productive; fruit of uniform size and shape; color bright scarlet.
John Baer. Splendid extra early.
Stone. The leading variety for general use; fruit exceedingly solid and of finest quality
Ponderosa. A splendid variety of largest size; very solid; color purplish-pink.
Strong plants grown in 3-inch pots. 75 cts. per doz.; $5.00 per 100; $40.00 per 1000.

*Pot-grown Tomato Plant  (Showing the Strong Root Development)
CHOICE HARDY SHRUBS

We offer here but a few specialties in Hardy Shrubs for spring planting. We do not recommend the general planting of deciduous shrubs in spring. Our Autumn Catalogue, issued early in September, will contain a full and comprehensive list of desirable varieties, and delivery of these can be made during the autumn months when the plants are in a dormant condition.

**Buddleia Variabilis Amplissima.** Grows taller and more slender than Veitchiana. Probably more graceful in appearance, the loosely arranged flower spikes are of a brighter reddish-violet.

**Buddleia Variabilis Veitchiana (Butterfly Shrub or Summer Lilac).** One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet-mauve, and are borne in dense cylindrical spikes, which, under liberal cultivation, are from 12 to 15 inches in length by 3 inches in diameter; it succeeds everywhere and flowers freely the first season planted, and is always admired.

**Price.** Either of the above, 30 cts. each; $3.00 per doz.; $20.00 per 100.

**Crataegus Pyracantha Lalandi.** This is a select variety of the Evergreen or Fiery Thorn, producing masses of brilliant orange-scarlet berries. We have prepared a lot of plants which should fruit freely another season. 50 cts. each; $6.00 per doz.

**Hypericum Patulum Henry.** A new hardy St. John's Wort of shrubby habit, growing from 2½ to 4 feet high, producing masses of large clear yellow flowers during July and August, and retaining its neat foliage until late in the Autumn. A most desirable Shrub, 50 cts. each.

Note.—Prices on Shrubs and all other plants include boxes and packing and delivery to transportation company in Philadelphia.
The "Dreer" Lawn Mower has no superior, and is now extensively used on private and public grounds. The High Wheel is easiest running, has ten-inch drive wheels, and can be supplied with either four or five blades in the revolving cutter. For frequently mown lawns we advise the five blade machines, as they cut smooth, although the four blades does excellent work. The Low Wheel is built on the same plan, but with four blades only.

**The Dreer Lawn Mower is Guaranteed.** We can furnish all repairs at short notice. (Send for special circular.)

**Pennsylvania "Grand" Horse Lawn Mower**

This machine, in addition to the good qualities of the well-known Pennsylvania Horse Mower, has some features that are distinctly its own which recommend it to all who use horse power machines. The operator, without leaving his seat, can instantly change from low to high cut or an intermediate one.

Fitted with handles and draft irons only, the mower can be easily managed on a lawn broken up with trees and shrubbery, or on a small place where it is not essential for the driver to ride.

25 inch Pony Mower, 4 blades, $50.00; 6 blades, $60.00

**Pennsylvania Lawn Cleaner**

This machine will remove from the lawn not only the cut grass, but all litter, leaves and trash. This work is most effectually accomplished by the use of the Pennsylvania Lawn Cleaner and Rake. One man can do more work than four men with hand rakes. 30 inches wide, $50 00; 24 inches wide, $30 00. Extra set sweeping brushes for 24 inch size only, $5 00

**OILERS**

Copperized steel, 40 cts.; extra large, 50 cts.; zinc, 35 cts.

**Special Lawn Mower Oil**

1 qt., $0.50; ½ gal., $0.75; 1 gal., $1.00

**Horse Lawn Boots**

Golf Link Boots, all leather, per set, $18 00

Flat Sole, heavy leather, 18 00

All steel, plain, $15 00; with leather taps, 18 00

We can supply Pennsylvania, Continental and Philadelphia Hand Lawn Mowers, also Motor Power Mowers. Write for Catalogues and Prices.
This department aims to keep first-class Tool and Implement needed for the easy and rapid cultivation of the Flower and Vegetable Garden, Greenhouse and Farm. Owing to the present unsettled conditions, prices on Tools and Sundries are subject to change without notice.

No. 31 Planet Jr. Combined Drill Seeder and Single Wheel Hoe

The New Planet Jr. Catalogue

Prices on Tools and Sundries subject to change without notice
TRUCK WITH WATER BARREL, LEAF RACK AND HAND CART.

This is one of the indispensable adjuncts to a well ordered country or suburban garden. Its uses are innumerable. The trucks are equipped with steel wheels, and can be had with 1½, 2½ or 3½-inch tires, are strong and durable, no castings to break, and with ordinary care will last for many years. The truck is 3½ inches wide, outside measurement, and can be used either with the Water Barrel, Leaf Rack or Hand Cart. All being made to attach or detach in an instant, they can be taken apart in a few moments and stored in very little space.

**Truck and Water Barrel.**

With 1½ in. tires (steel wheels) $21.50
2½ in. 6.00
3½ in. 16.50
 Extra barrels with trunnions, $6.50; extra trunnions, 90 cts. a pair. Leaf Rack only, $13.50; Hand Cart Box only, $6.50.

**KEYSTONE LEAF RACK.**

This can be attached to any size wheelbarrow having removable sides. It is most convenient for gathering leaves, cut grass and rubbish. One of these should be in use on every small as well as large place. Has a capacity of 10 bushels; made of galvanized wire, bolted to a wooden base.

It can readily be taken apart, occupying but little space when not in use.

Price .................................... $7.50

(Key write for descriptive circular.)

THE ANYWEIGHT WATER BALLAST LAWN ROLLER.

Is the easiest running Roller, having roller bearings and adjustable counterpoise, which can be supplied with either the one or two sectional Roller. The special feature of the Anyweight Roller is that you can adjust the weight from 75 to 1000 lbs. with either water or sand. The drums are made of high carboned steel and guaranteed to give satisfaction.

Grain and Grass Fertilizer. This brand contains all the necessary elements for the growth of all grain and grass. Sack of 200 lbs., $5.00; ton, $45.00.

Mulford Cultures for Inoculating Legumes

The use of some form of inoculating material on seed of leguminous plants is rapidly becoming general among progressive and practical planters. The profitable and beneficial effects of this practice has been thoroughly demonstrated.

The legumes are the pod-bearing plants, of which beans, peas, alfalfa, clover, vetch, etc., are the better known. They are the only plants, as a class, that can assimilate the nitrogen of the air as a part of their food. This action is entirely due to the association of nitrogen-fixing bacteria, thereby stimulating their own growth and greatly enriching the soil with the valuable element of nitrogen, when they decay. For these reasons the legumes have recently come into great agricultural prominence.

The legumes differ from other plants, chiefly in that when grown under suitable soil conditions, have on their roots a number of nodules, or nodules, which are caused by the activities of the nitrogen-fixing bacteria in the bacteria in these nodules have the peculiar property of fixing or assimilating nitrogen from the air and of converting in into nitrates form suitable and available food for the plant.

Do not expect the use of Mulford Cultures to take the place of careful soil preparation or the proper attention to the crop. Mulford Cultures will give their best results when everything possible has been done in every other way to make the crop a success. Inoculation is not a miracle worker, but is simply an aid to Nature, furnishing the young plant at the very outset with a supply of the proper nitrogen fixing bacteria.

Mulford Cultures for legumes are very easy to use, no special knowledge being required. It is only necessary to add water to the bottle (which is intentionally only about one-fourth filled), shake well, and then dampen with this mixture the seeds or soil, which will not interfere with planting.

The half-garden size (25c. bottles) are put up in this size for Sweet Peas, Garden Beans, Garden Peas and Lima Beans only. These small size bottles can be furnished for use on any of the following legumes:

It is necessary to get the proper kind of Culture for the particular kind of seed to be treated. For example, the Culture for Sweet Peas would he useless for anything else.

Price. Half-garden size, enough for one acre, $0.25 | One Garden Size, $.50 | One Acre Size: $1.50 | Five $5.00 | Booklet giving full information mailed free on application.

HENRY DREER & CO., PHILADELPHIA, PA.
BOOKS on Horticultural and Kindred Subjects
ALL BOOKS SENT POSTPAID AT PRICES GIVEN
